INTRODUCTORY SECTION

J. TYLER McCAULEY AUDITOR-CONTROLLER

COUNTY OF LOS ANGELES DEPARTMENT OF AUDITOR-CONTROLLER

KENNETH HAHN HALL OF ADMINISTRATION 500 WEST TEMPLE STREET, ROOM 525 LOS ANGELES, CALIFORNIA 90012-2766 PHONE: (213) 974-8301 FAX: (213) 626-5427

December 9, 2005

The Honorable Board of Supervisors County of Los Angeles 383 Kenneth Hahn Hall of Administration 500 West Temple Street Los Angeles, California 90012

Dear Supervisors:

In accordance with Section 25253 of the Government Code of California, I hereby submit the Comprehensive Annual Financial Report (CAFR) of the County of Los Angeles for the year ended June 30, 2005. The report contains financial statements that have been prepared in accordance with generally accepted accounting principles prescribed for governmental entities, and provides a comprehensive overview of the County's financial operations and financial position. The accuracy, completeness and fairness of the presentation of all information in this report are the responsibility of the County.

The CAFR consists of three sections: introductory, financial and statistical. The introductory section is composed of this letter, an organization chart of the County, and a listing of the members of the Board of Supervisors and principal County officials. The financial section includes the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), the Basic Financial Statements (including notes) and the Required Supplementary Information. The MD&A is a narrative introduction, overview, and analysis of the basic financial statements. The basic financial statements include the government-wide financial statements that are designed to provide an overview of the County's entire financial operations. In addition, the fund financial statements present financial information of each of the County's major funds, as well as non-major funds, fiduciary funds, and other funds. The statistical section includes other financial information and also demographic information, generally presented on a multi-year basis.

The report includes financial data for all County funds and the following additional entities which are considered part of the County for purposes of meeting the reporting entity requirements prescribed by the Governmental Accounting Standards Board:

Fire Protection District
Flood Control District
Street Lighting Districts
Improvement Districts
Community Development
Commission (including the
Housing Authority of the
County of Los Angeles)

Children and Families First Commission Regional Park and Open Space District Garbage Disposal Districts Sewer Maintenance Districts

Waterworks Districts

Los Angeles County Employees Retirement Association Los Angeles County Capital Asset Leasing Corporation

Various Joint Powers Authorities

The above entities are regarded as component units of the County and have been included in the County's basic financial statements because the Board of Supervisors is financially accountable for them. All component units have been blended into the basic financial statements except for the Children and Families First Commission, which is discretely presented. Note 1 to the basic financial statements contains additional information regarding the relationship between the County and these entities.

Other local governmental entities provide public services to the residents of the County, including over eighty cities, one hundred school districts and numerous special districts that provide specialized services to the County's residents. The operations of these entities have not been included in the County's reporting entity since each entity is responsible for conducting its own day-to-day operations and is compelled to answer to its own separately elected governing board. Significant entities that do not meet the criteria for inclusion in this report include the City of Los Angeles, Los Angeles Unified School District and Los Angeles County Sanitation Districts. The Los Angeles County Superior Court is not included due to legislation (AB233) which transferred oversight responsibilities for Court operations to the State in 1997-98. However, AB233 requires the County to continue to fund certain Court-related expenditures, and the County continues to receive certain Court collections. Accordingly, the County's financial statements include various Court-related financial transactions.

LOS ANGELES COUNTY AND ITS SERVICES

Los Angeles County was established by an act of the State Legislature on February 18, 1850 as one of California's original 27 counties. Located in the southern portion of the State, the County covers 4,083 square miles. With a population of over ten million, as of January 2005, its population is the largest of any county in the nation.

Los Angeles County was a general law county until 1913 when it became a charter county as a result of local election. The County is governed by a five member Board of Supervisors who are elected by district to serve alternating four-year terms. The Assessor, District Attorney and Sheriff are also elected officials while all other departments are headed by appointed officials. On March 5, 2002, County voters approved two charter amendments providing for term limits for the Board of Supervisors and the other elected County officials. The affected officials are limited to three consecutive terms commencing December 2002.

There are over one million residents in the unincorporated areas of the County. These residents receive all municipal services from the County, including law enforcement, fire protection, land use and zoning, building and business permits, local road building and maintenance, animal care and control, and public libraries. In addition, the County provides a wide range of services to all County residents.

The County also provides municipal services to many incorporated cities within its boundaries under the Contract Services Plan. Established in 1954, the Plan allows cities to provide municipal services without incurring the cost of creating numerous city departments and facilities by having the County provide, at cost, any or all municipal services within a city at the same level as provided in unincorporated areas, or at any higher level the city may choose.

Although the Plan was developed to assist new cities, the great majority of the cities in the County now contract for one or more services.

The County's principal functions include seven major areas as required under the County's charter, County ordinances, or by State or federal mandate: general government, public protection, public ways and facilities, health and sanitation, public assistance, education and recreation and cultural services. The State and federal governments mandate certain minimum levels of services in the public assistance and health areas.

ECONOMIC OVERVIEW

Los Angeles County's economy is larger than that of 42 states, with a Gross Product estimated at \$373.2 billion dollars in 2003. The County serves as the central trade district for the western United States and controls nearly 75% of the Pacific Coast trade with Asia. It is a leader in the communications industry, has established itself as a leading financial center, and serves as the western headquarters for many national firms. The County's economy was in a solid growth mode at the end of 2004, and the outlook for 2005 is much improved.

Since 2003, the County has experienced a modest recovery in the job market with a second straight year of lower unemployment rates. The County's economy is projected to continue on the recovery track in 2005 with moderate job growth of approximately 1.6% (or 66,000 jobs) from 2004 employment levels. The modest recovery is being supported by continued growth in the defense and aerospace industry, and by major construction projects, including the expansion of port facilities and the ongoing replacement of the County's LAC+USC Medical Center.

In terms of its industrial base, diversity continues to be Los Angeles County's greatest strength, with continued job growth projected for most major sectors of the economy in 2005. The continuing increase in international trade has made the ports of Los Angeles and Long Beach the busiest and most productive in the nation. After showing strong gains in the total value of two-way trade from 2003-2004, Los Angeles continues to be the number one customs district in the nation for international trade. The residential housing market has continued its strong performance in 2004, with both the total number of building permits and aggregate valuations showing increases of over 25% from 2003.

FINANCIAL INFORMATION

INTERNAL AND BUDGETARY CONTROLS

The County has developed a system of internal accounting controls designed to provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use and to provide reliable records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the costs of a system of internal accounting controls should not outweigh related benefits and that the evaluation of costs and benefits requires estimates and judgments by management. All internal accounting control evaluations occur within the above framework. We believe that the County's system of internal accounting controls adequately safeguards assets and also provides reasonable assurance of proper recording of financial transactions.

In accordance with the provisions of Section 29000-29144 of the Government Code, commonly known as the County Budget Act, the County prepares and adopts a budget on or before August 30 of each fiscal year. Expenditures are controlled at the object level for all budget units within the County, except for fixed asset expenditures which are controlled at the sub-object level.

Encumbrance accounting is utilized to ensure effective budgetary control and accountability. Unencumbered appropriations lapse at year-end and encumbrances outstanding at the time are reported as reservations of fund balance for subsequent year expenditures.

The Board of Supervisors must approve all transfers of appropriations between budget units and transfers exceeding \$250,000 within budget units. The Board must also approve necessary supplemental appropriations, normally financed by unanticipated revenues earned during the year.

In addition to these procedural controls, the Auditor-Controller's Audit Division performs periodic internal control, operational and management audits of the various departments to help ensure that prescribed procedures are followed and that operations are conducted in an efficient manner. In addition, the Auditor-Controller operates a fraud hotline that provides County employees and citizens with a way to anonymously report perceived fraudulent activities by County employees, vendors, contractors, inspectors, etc. Allegations reported over the hotline are evaluated and investigated, as appropriate.

CASH MANAGEMENT

The majority of the entities included in the CAFR have their funds on deposit with the Los Angeles County Treasury Pool (LACTP). The Treasurer invests LACTP funds primarily in certificates of deposit, obligations of various agencies of the federal government and of Los Angeles County, corporate notes, repurchase agreements, and commercial paper. In accordance with Governmental Accounting Standards Board Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools," the basic financial statements reflect the fair value of investments.

The Treasurer's investment policy is to minimize credit and market risks while maintaining a competitive yield on its portfolio. Investments are placed in conformance with State law and Treasurer's investment policy approved by the Board. Any deviations from the policy are reported to the Los Angeles County Board of Supervisors monthly and the Treasury Oversight Committee quarterly.

As of June 30, 2005, LACTP investments had the following maturity ranges:

Maturity Period	<u>% of Total</u>
1 to 60 days	59.2%
61 days to 1 year	29.8%
Over 1 year	11.0%

RISK MANAGEMENT

The County purchases insurance for certain risk exposures such as aviation, employee fidelity, boiler and machinery in certain structures, art objects, catastrophic hospital general liability, volunteer, crime, special events, public official bond, public safety reserve employee death and disability, and fiduciary liability for the deferred compensation plans. The County also has insurance on most major structures.

The County retains the risk for all other loss exposures. Major areas of risk include workers' compensation and long-term disability, medical malpractice, law enforcement, theft and damage to property, errors and omissions and torts.

MAJOR INITIATIVES

The County's 2005-2006 budgetary focus was concentrated on funding two critical areas, 1) public safety and justice systems, and 2) services to unincorporated areas of the County.

PUBLIC SAFETY AND JUSTICE SYSTEM INCREASES

The public safety and justice system in the County has seen significant reductions in funding in recent years and this budget focuses on restoring many of those reductions. It includes the Board approved full cost of restoring 1,778 inmate beds at various County detention facilities. In addition, the budget proposes the shift of female inmates from Tower II at the Twin Towers Correctional Facility to the Century Regional Detention Facility (CRDF) and the movement of higher risk inmates from Men's Central Jail to Tower II, resulting in an additional 2,127 beds being opened before the end of 2005-2006 and 569 more beds in 2006-2007.

The 2005-2006 Budget also provides for the addition of 45 prosecutors in the District Attorney's office and a corresponding increase for indigent defense staff in the Public Defender and Alternate Public Defender. An increase in funding is also provided for the Probation Department to enhance programs for delinquent and at-risk youth, to deter criminal behavior.

ENHANCED UNINCORPORATED AREA SERVICES

The 2005-2006 Budget also provides for enhanced services to unincorporated area residents. The Parks and Recreation Department will be increasing recreational programs, grounds maintenance and facilities maintenance staff, trails crews, and tree trimmers. Enhanced security at County parks will be provided by the Office of Public Safety. The Public Library has funding for new libraries and library replacements, staff for enhanced service hours to the public, the establishment of additional literacy and homework centers and other specialized library staff. The District Attorney's budget has been increased to provide for the enforcement of County Code violations. The Sheriff's budget provides for the restoration of Community Oriented Policing Services (COPS) for the unincorporated area that was previously curtailed. The budget also provides funding for strategic planning initiatives and economic development projects to improve the quality of life for the residents of the County's unincorporated communities.

OTHER INFORMATION

INDEPENDENT AUDIT

The basic financial statements have been audited by KPMG LLP, with its subcontractor, Vasquez & Co. LLP. In accordance with the requirements of the Office of Management and Budget Circular A-133, as revised, the auditors are also in the process of completing an annual financial and compliance audit of federal funds received by the County. The County's single audit for 2003-2004 has been completed.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Los Angeles for its Comprehensive Annual Financial Report for the past twenty-three fiscal years.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. The report must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

I would like to express my appreciation to my Accounting Division, the various County departments who assisted in the preparation of this report and also acknowledge the efforts of our independent auditors.

Sincerely,

J. Tyler McCauley Auditor-Controller

Certificate of Achievement for Excellence in Financial Reporting

Presented to

County of Los Angeles, California

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
June 30, 2004

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Independent Auditors' Report

The Honorable Members of the Board of Supervisors County of Los Angeles, California:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Los Angeles, California (County), as of and for the year ended June 30, 2005, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Community Development Commission (CDC), Los Angeles County Employees' Retirement Association (LACERA), and the Children and Families First Commission (CFFC), which represent the following percentages, respectively, of the assets, net assets or fund balance and revenues of the following opinion units:

	Net assets					
Opinion units	Assets	or _fund balance	Revenues			
Governmental activities	2%	8%	1%			
Business-type activities	4	37	8			
Descretely presented component unit	100	100	100			
Aggregate remaining fund information	72	73	11			

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for CDC, LACERA, and CFFC, are based on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Los Angeles, California, as of June 30, 2005, and the respective changes in financial position, and where applicable, cash flows, thereof and the respective budgetary comparisons for the General Fund, the Fire Protection District, the Flood Control District, the Public Library, and the Regional Park and Open Space District for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued that report dated December 9, 2005 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3 through 20 and the schedule of funding progress on page 98 are not a required part of the basic financial statements, but are supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Los Angeles' basic financial statements. The accompanying information identified in the table of contents as the introductory section, combining and individual fund statements and schedules, and the statistical section is presented for purposes of additional analysis and is not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied by us and other auditors in the audit of the basic financial statements and, in our opinion, based on our audit and the reports of the other auditors, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory section and statistical section have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements, and accordingly, we express no opinion on them.

December 9, 2005

This section of the County's Comprehensive Annual Financial Report (CAFR) presents a narrative overview and analysis of financial activities for the fiscal year ended June 30, 2005. We recommend that this information be used in conjunction with additional information contained in the letter of transmittal.

Financial Highlights

At the end of the current year, the net assets (total assets less total liabilities) of the County were positive \$2.38 billion. However, net assets are classified into three categories and the unrestricted component is negative \$2.197 billion. See further discussion on page 7.

During the current year, the County's net assets increased by a total of \$1.134 billion. Net assets related to governmental activities increased by \$1.028 billion, while net assets related to business-type activities increased by \$106 million.

At the end of the current year, the County's General Fund reported a total fund balance of \$2.327 billion. The amount of unreserved fund balance was \$1.926 billion. Of the unreserved total, \$1.017 billion was designated.

The County's capital asset balances were \$4.508 billion at year-end and increased by \$229 million during the year. Infrastructure assets are reflected only to the extent that they were acquired since July 1, 2001. Retroactive infrastructure reporting has been deferred until next year as discussed on page 6.

During the current year, the County's total long-term debt decreased by \$338 million. Bond maturities (including advance refunding of debt) of \$1.151 billion exceeded the \$813 million of newly issued and accreted long-term debt.

Overview of the Basic Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements, which are comprised of the following three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

This report also includes other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all County assets and liabilities, with the difference representing net assets. Over time, increases and decreases in net assets may serve as an indicator of whether the financial position of the County is improving or deteriorating.

GOVERNMENT-WIDE FINANCIAL STATEMENTS-Continued

The Statement of Activities presents information that indicates how the County's net assets changed during the fiscal year. All changes in net assets are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that affect cash flows in future periods. For example, property tax revenues have been recorded that have been earned but not yet collected and workers' compensation expenses have been accrued but not yet paid.

The government-wide financial statements report the following different types of programs or activities:

- Governmental Activities The majority of County services are reported under this
 category. Taxes and intergovernmental revenues are the major revenue sources that
 fund these activities which include general government, public protection, public ways
 and facilities, health and sanitation, public assistance, recreation, and cultural services.
- Business-type Activities County services that are intended to recover costs through user charges and fees are reported under this category. The County Hospitals, the Waterworks Districts, the Aviation Fund, and housing programs operated by the Community Development Commission, a blended component unit, are regarded as business-type activities.
- Discretely Presented Component Unit Component units are separate entities for which the County is financially accountable. The Children and Families First Commission is the only component unit that is discretely presented.

FUND FINANCIAL STATEMENTS

The fund financial statements contain information regarding major individual funds. A fund is a fiscal and accounting entity with a balanced set of accounts. The County uses separate funds to ensure compliance with fiscal and legal requirements.

The County's funds are classified by the following three categories:

• Governmental Funds - These funds are used to account for essentially the same services that were previously described as governmental activities above. However, the fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. Governmental funds include the General Fund, as well as Special Revenue Funds, Debt Service Funds, Capital Project Funds, and Permanent Funds.

FUND FINANCIAL STATEMENTS-Continued

- Proprietary Funds These funds are used to account for functions that were classified as "business type activities" in the government-wide financial statements. The County's Internal Service Funds are also reported within the proprietary fund section. The County's six Hospital Funds are all considered major funds for presentation purposes. The remaining proprietary funds are combined in a single column, with individual fund details presented elsewhere in this report.
- Fiduciary Funds These funds are used to report assets held in a trustee or agency capacity for others and cannot be used to support the County's programs. The Pension Trust Fund, the Investment Trust Funds, and Agency funds are reported in this fund category, using the accrual basis of accounting.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the County's progress in funding its obligation to provide pension benefits to employees.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$2.38 billion at the close of the most recent fiscal year.

Summary of Net Assets As of June 30, 2004 and 2005 (in thousands)

	Governmental		Busir	ness-type		
	Activities		Activities		Total

As indicated above, the County's total net assets consist of the following three components:

Capital Assets, Net of Related Debt

The largest portion of the County's net assets (\$3.35 billion) represents its investment in capital assets (e.g., land, structures and improvements, infrastructure, and equipment), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The County began to capitalize newly acquired infrastructure assets during 2001-2002 in accordance with GASB 34. However, infrastructure assets acquired prior to July 1, 2001 are not yet reflected in the basic financial statements. GASB 34 provides a maximum period of four years for the County to identify and report infrastructure assets acquired before July 1, 2001, in the basic financial statements. The County is in the process of evaluating its infrastructure assets that were acquired in prior years to ensure that they are reported prior to the year ending June 30, 2006. Additional infrastructure assets, net of related debt, will increase this category of net assets.

Restricted Net Assets

The County's restricted net assets at year-end were \$1.227 billion. Asset restrictions are primarily due to external restrictions imposed by State legislation and bond covenants. Net assets that pertain to the various separate legal entities included in the basic financial statements are also generally restricted because their funding sources require that funds be used for specific purposes.

Unrestricted Net Assets (Deficit)

The County's unrestricted net assets are negative \$2.197 billion. Both governmental and business-type activities reported deficits in this category of \$1.573 billion and \$624 million, respectively. The deficits are primarily due to unfunded liabilities related to workers' compensation, accrued vacation and sick leave, and litigation and self-insurance claims. For the business-type activities, medical malpractice liabilities and third party payor liabilities are additional factors. At June 30, 2005, there were \$4.224 billion of liabilities recorded for all of the items noted above and for all activities. Of this amount, the County's budget had funded approximately \$349 million as of June 30, 2005, which consists of \$142 million related to governmental activities and \$207 million related to business-type activities. The \$142 million represents the County's policy of funding the General Fund's share of liabilities that are payable within one year from the balance sheet date and is applied to accrued vacation and sick leave as well as litigation and self-insurance claims. The budgetary funding of \$207 million that has been provided for the business-type activities pertains to estimated third party payor liabilities for the County's hospitals.

In addition to the aforementioned liabilities, the County has recorded pension bonds payable of \$1.629 billion. Although the County has also recognized a pension related asset (referred to as "Net Pension Obligation"), the liability for the bonds exceeds the asset amount by \$1.216 billion. This difference consists of accreted interest (interest expense that accrues each year but is not payable until deferred periods) of \$617 million that is reported as part of the Pension Bonds Payable. Bond proceeds of \$400 million were applied to fund the County's pension cost in 1994-95, thereby reducing the pension asset amount. The remaining difference of \$199 million is due to timing differences between the amortization of the pension asset and the principal amount of the pension bonds.

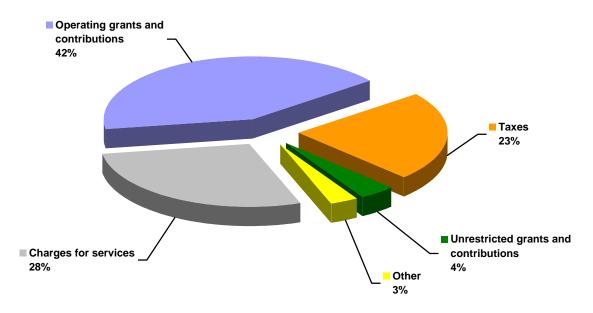

For the governmental activities, voter-approved bonds issued by the Regional Park and Open Space District have had the effect of creating additional deficits. Although the County is required to record liabilities of \$350 million for outstanding bonds, the County's related assets are only \$121 million. The difference of \$229 million represents bond proceeds that have been distributed to cities and other eligible entities pursuant to the voter-approved bond measure. The bond covenants require the County to levy property taxes in future years to specifically repay the principal and interest on the bonds. Accordingly, the deficit related to these bonds is expected to be funded by the dedicated tax levy and will not require the use of discretionary County funds.

The following table indicates the changes in net assets for governmental and business-type activities:

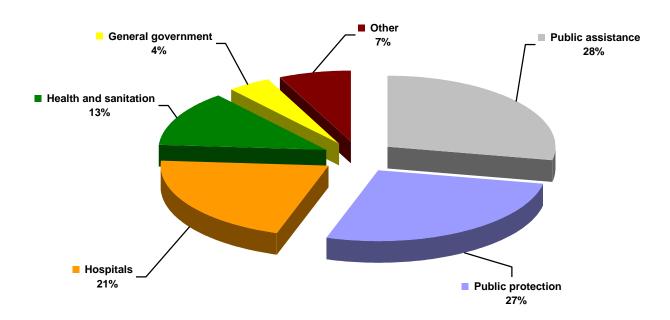

Summary of Changes in Net Assets For the Years Ended June 30, 2004 and 2005 (in thousands)

	Governmental		Business	s-type

REVENUES BY SOURCE – ALL ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2005

EXPENSES BY TYPE – ALL ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2005

The County's net assets increased by \$1.134 billion overall during the current fiscal year. The increases for governmental and business-type activities were \$1.028 billion and \$106 million, respectively. Following are specific major factors that resulted in the net asset changes.

Governmental Activities

Revenues from governmental activities grew by \$625 million (4.9%) over the prior year. The most significant changes in revenue were experienced in the following areas:

- Taxes, the County's largest general revenue source, were \$892 million higher than the previous year. State legislation, which became effective in the current year, eliminated the County's revenue source referred to as "Intergovernmental-motor vehicle in-lieu taxes, not restricted." This revenue source was replaced with an equivalent amount of property tax revenues and represented \$733 million dollars in the current year. The additional growth in tax revenues, \$159 million, was mainly due to increased property taxes as there was a continued upward trend in the County's assessed property values. The \$159 million in year-to-year growth was achieved despite a State-mandated shift of local government property taxes in the current year. The County's share of this shift was \$103 million and had the effect of reducing property taxes in the current year.
- Operating grants and contributions are the County's largest source of program revenues and grew by \$189 million. The growth in this revenue source was primarily associated with reimbursable activities in the public assistance and public protection areas, which increased by \$103 million and \$63 million, respectively.
- Current year investment earnings increased by \$80 million, or 138%. The yield from the County's Treasury Pool improved from 1.37% in the prior year to 2.16% in the current year.

Expenses related to governmental activities increased by \$195 million (1.7%) during the current year. Expenses were higher across all areas in the current year when compared with the prior year, except for interest on long-term debt, which declined by \$17 million. The pattern of cost increases was generally reflective of overall inflationary increases in salaries, benefits, services and supplies. Although there was no significant program expansion during the current year, the County's spending plan was designed to restore service levels that were previously curtailed due to uncertainties with the State's financial condition.

As discussed in Note 17 to the basic financial statements, the County recognized a Special Item totaling \$188 million in the current year. There were unique circumstances that resulted in the recognition and classification of this transaction. In 2003-2004, the State withheld approximately \$204 million of revenues that were allocable to the County. The State acted similarly with all other counties in order to mitigate a severe budget deficit. Due to significant uncertainty with regard to the State's ability and willingness to pay this amount, the County deferred recognition of these revenues in the 2003-2004 basic financial statements. The State subsequently passed legislation in August 2004, that authorized the County to sell its right to receive these revenues. The County utilized a component unit entity to facilitate the sale of nocommitment notes that were not obligations of the County or the component unit. The note proceeds were used to purchase the receivables and the County received net proceeds of \$188 million, which are legally restricted for capital purposes. In July 2005, the State remitted \$204.7 million, and this payment fully satisfies the State's obligation for this matter.

Business-type Activities

Revenues from business-type activities increased in comparison to the prior year by \$49 million (1.7%). The most significant change was in the area of capital grants and contributions, which increased by \$55 million. The increase was attributable to intergovernmental revenues (primarily from the Federal Emergency Management Agency) associated with the rebuilding of the LAC+USC Medical Center. Construction activity and reimbursable costs related to this project continued to accelerate during the current year.

Expenses related to business-type activities increased from the previous year by \$165 million (5.0%). The increased expenses were concentrated in the Hospitals, where expenses were higher by \$171 million. Hospital costs for salaries and employee benefits increased by \$57 million and were reflective of anticipated wage and benefit increases. Professional and specialized services expenses were \$102 million higher in the current year as there was increased dependency on contracted personnel, especially in the skilled nursing area.

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of governmental funds reported by the County include the General Fund, Special Revenue Funds, Debt Service Funds, Capital Project Funds, and the Permanent Funds.

As of the end of the current fiscal year, the County's governmental funds reported combined total fund balances of \$4.162 billion, an increase of \$750 million in comparison with the prior year. Of the total fund balance, \$1.119 billion is reserved to indicate the extent that funds have been committed or are otherwise unavailable for spending. An additional \$1.259 billion has been designated and set aside for intended spending purposes as indicated in the financial statements. The remaining \$1.784 billion of the balances are unreserved and undesignated.

Revenues from all governmental funds for the current year were \$13.418 billion, an increase of \$610 million (4.8%) from the previous year. Expenditures for all governmental funds in the current year were \$12.228 billion, an increase of \$324 million (2.7%) from the previous year. In addition, other financing uses exceeded other financing sources by \$628 million, as compared to \$681 million in the prior year. As discussed in Note 17 to the basic financial statements, the County recognized a Special Item in the current year, which consisted of net proceeds approximating \$188 million from the sale of accounts receivable.

The General Fund is the County's principal operating fund. During the current year, the fund balance in the General Fund increased by \$439 million (23.3%). At the end of the current fiscal year, the General Fund's total fund balance was \$2.327 billion. Of this amount, \$401 million was reserved and therefore unavailable for spending. Of the unreserved total of \$1.926 billion, \$1.017 billion has been designated (earmarked) and the remaining \$909 million is considered both unreserved and undesignated.

Governmental Funds-Continued

General Fund revenues during the current year were \$11.497 billion, an increase of \$491 million (4.5%) from the previous year. General Fund expenditures during the current year were \$10.411 billion, an increase of \$204 million (2.0%) from the previous year. Other financing sources/uses-net was negative \$647 million in the current year as compared to negative \$608 million in the prior year.

Following are significant changes in General Fund revenues and expenditures:

- Revenues from taxes increased by \$828 million, primarily from property taxes. As discussed previously, State legislation shifted a significant portion of General Fund revenues that were formerly recognized as "Intergovernmental Revenues-State" to the category of property taxes. This shift accounted for approximately \$733 million of the year-to-year increase. The remainder of the increase (\$95 million) was attributable to ongoing growth in property values and their related tax levies. The General Fund also was required to forego \$103 million of current year property tax revenues due to a State-imposed property tax shift.
- Intergovernmental revenues decreased by nearly \$400 million. As mentioned previously, the County did not recognize intergovernmental revenues in the current year for vehicle license fees. In the prior year, such revenues were \$574 million. This reduction was offset by a \$126 million increase in State realignment revenues for children and family services, in-home supportive services, and mental health services. State public safety augmentation funding also increased by \$53 million.
- Investment income more than doubled, as current year revenues were \$88 million in comparison with the prior year amount of \$40 million. As previously mentioned, the yield on investments increased significantly and the amount of funds available for investment was generally higher throughout the year.
- Current expenditures increased by \$208 million and there were increases in all functional areas except for general government. The most significant increases were in the areas of public protection and public assistance, where expenditures were higher by \$144 million and \$53 million, respectively.

The Fire Protection District reported a year-end fund balance of \$103 million, which represented an increase of \$35 million from the previous year. This increase coincided with a \$35 million increase (7.4%) in revenues from taxes.

Proprietary Funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Proprietary Funds-Continued

The County's principal proprietary funds are the six hospital enterprise funds and each one has been reported as a major fund. As discussed in Note 11 to the basic financial statements, the County merged High Desert Hospital with the Olive View/UCLA Medical Center at the end of the current fiscal year. Each hospital enterprise fund incurred a net loss prior to contributions and transfers. The County is legally required to provide local matching funds to the health care system in order to remain eligible for federal and State assistance. Such funds were provided to the hospitals as operating subsidies from the County General Fund during the year. The total subsidy amount was \$548 million and is reflected in the Statement of Revenues, Expenses and Changes in Fund Net Assets as "transfers in." Additional "transfers in" of \$145 million were recognized from the Health Services Measure B Special Revenue Fund ("Measure B Fund"), which provides funding for trauma and emergency services.

The average daily census for the County's Hospitals slightly declined from the previous year's average of 1,567 to the current year average of 1,504. There was a year-to-year average daily census decrease for the Martin Luther King/Drew Medical Center (MLK/Drew), as it declined from 202 to 172. There was significant focus on MLK/Drew throughout the year as the County discontinued trauma services, engaged the services of a management consulting firm, and focused on remedying various operational problems at this facility.

General Fund Budgetary Highlights

The accompanying basic financial statements include a Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual on Budgetary Basis for the County's General Fund. The County's budgetary basis of accounting is discussed in Notes 1 and 13 to the basic financial statements. There are approximately 100 separate budget units within the General Fund, excluding capital improvement projects, which are individually budgeted. The data presented below represents the net budgetary changes for the General Fund in a highly summarized format. Accordingly, in certain instances, budgets have been increased for programs within a category even though actual amounts have not been realized for the category in its entirety. Under the budgetary basis, there was a net increase of \$36 million in the General Fund's available (unreserved and undesignated) fund balance from the previous year.

Budgetary Summary - Revenues/Financing Sources

Following is a summary of current year budgetary changes and actual results (on the County's budgetary basis) for General Fund revenues and other financing sources (in thousands):

<u>Category</u>		ase (Decrease) om Original <u>Budget</u>	Fi —	nal Budget Amount	 Actual Amount	Variance- Positive (Negative)
Taxes Intergovernmental	\$	236,548	\$	2,910,247	\$ 2,829,342	\$ (80,905)
revenues		170,894		7,375,414	6,842,809	(532,605)
Charges for services		(54,501)		1,279,998	1,272,536	(7,462)
All other revenues		139,251		543,026	589,740	46,714
Other sources and						
transfers		<u>(147,487</u>)		<u>385,848</u>	 <u>305,457</u>	 (80,391)
Total	<u>\$</u>	344,705	\$	12,494,533	\$ 11,839,884	\$ (654,649)

Changes from Amounts Originally Budgeted

During the year, net increases in budgeted revenues and other financing sources approximated \$345 million. The most significant increases occurred in the following areas:

- The budget for tax revenues was increased by \$237 million. During the fiscal year, the County increased budgeted tax revenues by approximately \$100 million to finance additional appropriations and designations. The remaining \$137 million increase occurred in conjunction with year-end budgetary changes that are designed to demonstrate compliance with legal provisions related to the appropriation of revenues from property taxes and certain other tax related revenues.
- Estimated revenues from intergovernmental sources were increased by \$171 million. During the fiscal year, approximately \$59 million of State grant funds were used to augment the budget for various parks and recreation facilities. Approximately \$68 million of State funding was added to programs operated by the Departments of Mental Health and Health Services. Estimated revenues from Homeland Security grant funds (\$18 million) also increased during the fiscal year to fund the County's emergency preparedness and response operations. Various other changes comprised the remaining \$26 million that was increased from the amounts originally budgeted from intergovernmental revenues.
- The increase of \$139 million related to "all other revenues" was mostly attributable to tobacco settlement revenues of \$103 million. The County's policy is to budget tobacco settlement revenues after they have been received. Miscellaneous amounts totaling \$36 million were also added to this revenue category.
- The amount budgeted for "other sources and transfers" was reduced during the year by \$147 million. The original amount budgeted for "transfers in" was reduced by \$203 million due to a change in the method of budgeting for the recovery of intergovernmental transfer payments that are made on behalf of the Hospital Funds. This amount was offset by a \$50 million miscellaneous increase in the amount of budgeted "transfers in" to reflect newly available resources from a Capital Projects Fund that was established mid-year. There were also miscellaneous budgetary additions of \$6 million to the "transfers in" category.

Actual Revenues/Financing Sources Compared with Final Budget Amounts

Actual revenues and other financing sources recognized by the General Fund were approximately \$655 million, or 5.2%, lower than budget. As discussed below, most of this variance was concentrated in the area of intergovernmental revenues.

• Actual intergovernmental revenues were \$533 million lower than the amount budgeted. Social service programs accounted for approximately \$208 million of this variance, which was mostly attributable to lower than anticipated caseloads and reimbursable social service related expenditures. An additional \$198 million pertained to anticipated reimbursement of capital improvement and disaster recovery projects that were not completed prior to year-end. The remaining variance of \$127 million (mostly federal assistance) was associated with mental health services, due to lower than expected reimbursable costs.

Budgetary Summary - Expenditures/Other Financing Uses

Following is a summary of current year budgetary changes and actual results (on the County's budgetary basis) for General Fund expenditures, transfers out, contingencies, reserves, and designations (in thousands):

Inc Category	rease (Decrease) From Original Budget	Final Budget Amount	Actual Amount	Variance- Positive
General government Public protection Health and sanitation Public assistance All other expenditures Transfers out Contingencies Reserves/designations-net	\$ (86,621) 75,990 (253,892) 22,181 133,764 75,380 87,140 290,763	\$ 917,890 3,578,881 2,224,987 4,733,753 779,673 645,275 103,361 382,997	\$ 650,969 3,438,210 2,125,863 4,319,570 293,419 645,027 330,500	\$ 266,921 140,671 99,124 414,183 486,254 248 103,361 52,497
Total	<u>\$ 344,705</u>	<u>\$ 13,366,817</u>	<u>\$11,803,558</u>	\$ 1,563,259

Changes from Amounts Originally Budgeted

During the year, net increases in General Fund appropriations, reserves and designations were approximately \$345 million. As discussed below, the most significant changes occurred in the following areas:

- Provisions for net reserves and designations were increased during the year by \$291 million. Of this amount, \$153 million was related to designations established for health services. There was also a net increase of \$79 million to the designation for budgetary uncertainties. A new designation of \$40 million was established for the replacement of the interoperable Fire/Sheriff communication system. Miscellaneous additions of approximately \$19 million were made to other designations.
- Appropriations were increased for "all other expenditures" by approximately \$134 million, nearly all of which was associated with capital outlay. The most significant increase was related to \$59 million of parks and recreation capital facilities and improvements funded by State grants. The remaining \$75 million consisted of numerous capital improvements and refurbishments that were added to the budget throughout the fiscal year.
- Overall appropriations were reduced for the health and sanitation category by \$254 million. At the end of the fiscal year, the budget was realigned to reflect actual spending requirements in this area. The most significant change in this area was a \$203 million reduction of appropriations for intergovernmental transfer payments made on behalf of the Hospital Funds. The reduction coincided with a budgetary change which shifted the payment requirements from the General Fund to the Hospital Funds. Appropriations for various other General Fund health care programs were reduced by \$51 million.
- After the original budget was established, appropriations for contingencies were increased by \$87 million. The increase occurred at the end of the fiscal year and was financed by offsetting increases in budgeted revenues (primarily taxes) that were recognized to comply with statutory requirements.

Actual Expenditures/Other Financing Uses Compared with Final Budget Amount

Actual expenditures/other financing uses for the current year were \$1.563 billion lower (approximately 11.7%) than the final total budget of \$13.367 billion. Although there were budgetary savings in all categories, following are the functional areas that recognized the largest variations from the final budget:

- The category referred to as "all other expenditures" reflected actual spending of \$486 million less than the budgeted amount. Nearly all (\$475 million) of this variance was related to the capital outlay category. There were many capital improvements anticipated in the budget that remained in the planning stages and did not incur expenditures during the year. Most of the unused balance has been reestablished in the following year's budget to ensure the continuity of the projects.
- Actual public assistance expenditures were \$414 million lower than the final budget. Most of this variance (\$310 million) was concentrated in programs operated by the Department of Public Social Services. Factors that led to this variance included lower than anticipated caseload volume and average cost per caseload for the CalWORKs program. Administrative costs for social service programs were also lower than anticipated due to staffing vacancies and budgetary savings in contracted services. The remaining variance of \$104 million was concentrated in other social service programs that were primarily focused on children and family services.
- The general government function reported actual expenditures that were \$267 million less than the amount budgeted. Of this amount, \$170 million represented budgetary savings for items that are not associated with specific County departments, such as provisional appropriations and extraordinary maintenance and repairs. The remaining \$97 million was spread across virtually every department comprising general government and was mostly related to salary savings and savings in services and supplies.

Capital Assets

The County's capital assets for its governmental and business type activities as of June 30, 2005 were \$4.508 billion (net of depreciation). Capital assets include land, buildings and improvements, machinery and equipment. Infrastructure assets have also been recognized for activity that has occurred from July 1, 2001 through June 30, 2005. Specific changes related to governmental and business-type activities are presented in Note 5 to the basic financial statements. As discussed earlier, the County has deferred recognition of infrastructure assets acquired prior to July 1, 2001 until fiscal year 2005-2006.

The total increase in the County's capital assets (net of depreciation) for the current fiscal year was \$229 million or 5.3%, as shown in the table below.

Changes in Capital Assets, Net of Depreciation Primary Government - All Activities (in thousands)

	Current <u>Year</u>	Prior <u>Year</u>	Increase (Decrease)
Land	\$ 403,922	\$ 395,135	\$ 8,787
Buildings and improvements	2,978,948	2,986,380	(7,432)
Infrastructure	185,988	136,781	49,207
Equipment	249,754	258,123	(8,369)
Construction-in-progress	<u>689,092</u>	<u>502,674</u>	186,418
Total	<u>\$ 4,507,704</u>	<u>\$ 4,279,093</u>	<u>\$ 228,611</u>

Major capital asset projects that represented new additions during the year included the following:

- New infrastructure costs were capitalized for completed projects and also for those that remained in progress at the end of the year. The projects were related to the County's Road Fund and Flood Control District's operations. The values of the new construction for these activities were \$18 million and \$31 million, respectively.
- The County continued to progress with the rebuilding of the LAC+USC Medical Center. The
 overall project cost remains at an estimated \$821 million. During the year, \$185 million of
 costs were capitalized.

Debt Administration

The following table indicates the changes in the County's long-term debt during the year:

Changes in Long-Term Debt Primary Government - All activities (in thousands)

	Current <u>Year</u>	Prior <u>Year</u>	<u>Decrease</u>
Bonds and Notes Payable	\$ 1,983,844	\$ 2,136,123	\$ 152,279
Pension Bonds Payable	<u>1,628,575</u>	<u>1,813,812</u>	<u> 185,237</u>
Total	<u>\$ 3,612,419</u>	<u>\$ 3,949,935</u>	<u>\$ 337,516</u>

During the current year, the County's liabilities for long-term debt decreased by \$338 million, or 8.5%. Specific changes related to governmental and business-type activities are presented in Note 8 to the basic financial statements. During the current year, significant long-term debt transactions were as follows:

- Refunding bonds totaling \$575 million were issued to advance outstanding bond principal of \$622 million.
- New debt of \$60 million was issued to finance the ongoing construction of the LAC+USC Medical Center. At this time, short-term commercial paper continues to be the method of financing this major project.
- New debt of \$12.3 million was issued to finance the acquisition of equipment. Equipment debt totaling \$16.5 million was redeemed during the year in accordance with maturity schedules.
- Pension bonds totaling \$271 million were redeemed during the year. This amount was offset by \$86 million related to the accretion of interest on outstanding bonds.

In addition to the above borrowing, the County continued to finance General Fund cash flow shortages occurring periodically during the fiscal year by selling \$600 million in tax and revenue anticipation notes which reached maturity on June 30, 2005, and by periodic borrowing from available trust funds.

Bond Ratings

The County's debt is rated by Moody's, Standard and Poor's, and Fitch. The following is a schedule of ratings:

O	Moody's	Standard and Poor's	<u>Fitch</u>
General Obligation Bonds	Aa3	A+	
Pension Bonds	A1	Α	
Facilities	A2	Α	Α
Equipment/Non-Essential Leases	A 3	Α	Α
Short-Term	MIG1	SP-1+	F-1+
Commercial Paper	P-1	A-1+	
Flood Control District General			
Obligation Bonds	Aa1	AA	AA
Flood Control District Revenue			
Bonds	Aa1	AA-	AA
Regional Park and Open Space			
District Bonds	Aa3	AA	AA

Economic Conditions and Outlook

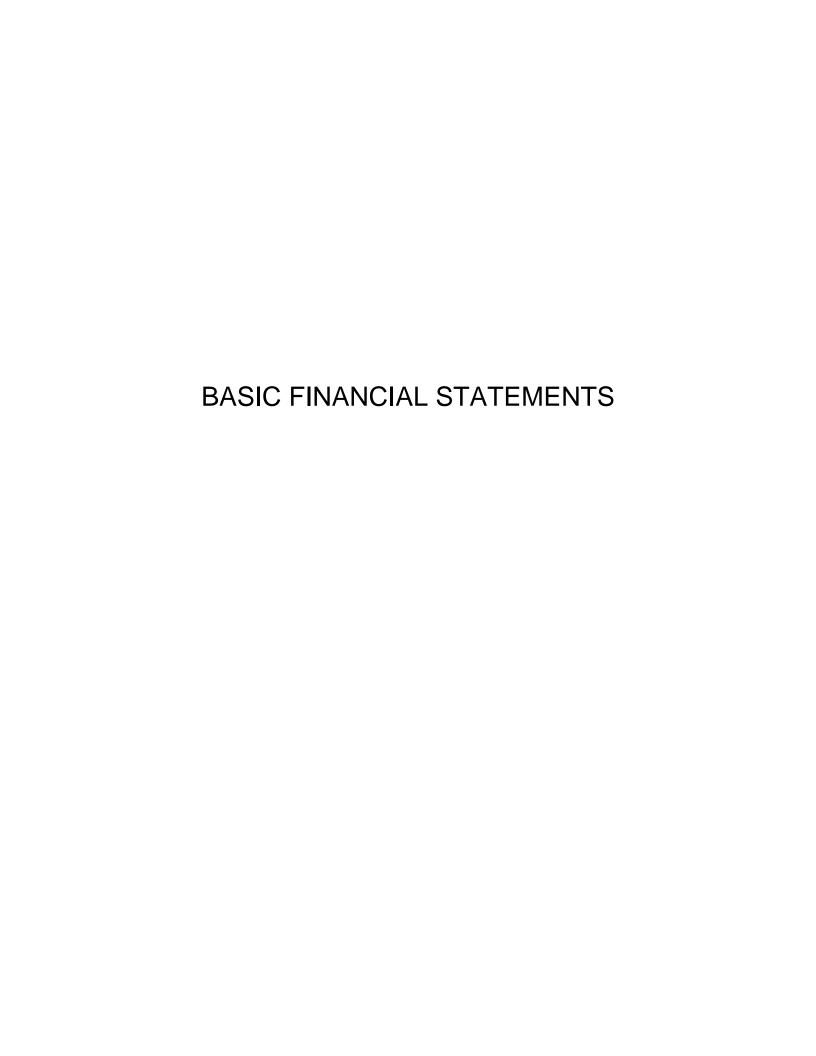

The Board of Supervisors adopted the County's 2005-2006 Budget on June 20, 2005. The Budget was adopted based on estimated fund balances that would be available at the end of 2004-2005. The Board updated the Budget on September 20, 2005 to reflect final 2004-2005 fund balances and other pertinent financial information. For the County's General Fund, the 2005-2006 Budget, as updated in September 2005, utilized \$908.6 million of available fund balance, which exceeded the previously estimated fund balance of \$747.1 million. The additional fund balance of \$161.5 million was used to appropriate \$23.4 million to carryover lapsed appropriations and \$138.1 million was appropriated for one-time needs which were predominately capital improvements.

Although the County's Budget continued to be impacted by the State budget outlook, the State's budget was adopted on July 10, 2005, the earliest budget adoption in five years. The State's action enabled the County to formulate the 2005-2006 Budget with more certainty than in recent years. The County will be required to forego \$103 million of property tax revenues as its share of a property tax revenue shift from local governments to the State. This shift represents the second year of a two-year State Budget provision known as the "Local Government Agreement" and the funding for the second year was set aside as part of the County's 2004-2005 budget process.

COUNTY OF LOS ANGELES MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued

Obtaining Additional Information

This financial report is designed to provide a general overview of the County's finances for all interested parties. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Los Angeles County Auditor-Controller, 500 West Temple Street, Room 525, Los Angeles, CA 90012-2766.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS

TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2005 (in thousands)

Net change in fund balances - total governmental funds (page 29)		\$ 749,972
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense: Expenditures for general capital assets, infrastructure and other related capital asset adjustments Less - current year depreciation expense	\$ 197,261 (122,312)	74,949
In the statement of activities, only the gain on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from		
the change in fund balance.		(12,150)
Revenue timing differences result in less revenue in government-wide statements.		(1,411)
Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of assets:		
Pension bonds General obligation bonds	\$ 187,158 11,155	
Certificates of participation Assessment bonds	132,808 26,520	
Other long term notes and loans	 15,101	372,742
Some expenses reported in the accompanying statement of activities do not require (or provide) the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:		
Change in workers' compensation	\$ 57,665	
Change in litigation/self-insurance	(15,499)	
Change in accrued vacation/sick leave	(17,955)	
Change in third party payors	(901)	
Change in accrued interest payable	4,877	(00.00=)
Accretion of pension bonds	 (59,112)	(30,925)
The change in the net pension obligation (an asset) is not recognized in governmental funds.		(121,277)
The portion of internal service funds that is reported with		
governmental activities.		 (4,217)
Change in net assets of governmental activities (page 23)		\$ 1,027,683

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The County of Los Angeles (the "County") is a legal subdivision of the State of California (the "State") charged with general governmental powers. The County's powers are exercised through an elected Board of Supervisors (the "Board") which, as the governing body of the County, is responsible for the legislative and executive control of the County. As required by the Governmental Accounting Standards Board ("GASB"), these basic financial statements include both those of the County and its component units. The component units discussed below are included primarily because the Board is financially accountable for them.

Blended Component Units

County management has determined that the following related entities should be included in the basic financial statements as blended component units:

Fire Protection District
Flood Control District
Street Lighting Districts
Improvement Districts
Community Development
Commission (including the
Housing Authority of the
County of Los Angeles) ("CDC")
Regional Park and Open Space District

Garbage Disposal Districts
Sewer Maintenance Districts
Waterworks Districts
Los Angeles County Capital Asset Leasing
Corporation (a Non Profit Corporation) ("NPC")
Various Joint Powers Authorities ("JPAs")
Los Angeles County Employees
Retirement Association ("LACERA")

Although they are separate legal entities, the various districts and the CDC are included primarily because the Board is also their governing Board. As such, the Board establishes policy, appoints management and exercises budgetary control. The NPC and JPAs have been included because their sole purpose is to finance and construct County capital assets and because they are dependent upon the County for funding. Blended component units are those that, because of the closeness of the relationship with the primary government, should be blended in the basic financial statements as though they are part of the primary government. LACERA is reported in the Pension Trust Fund of the basic financial statements and has been included because its operations are dependent upon County funding and because its operations, almost exclusively, benefit the County.

Discretely Presented Component Unit

The Children and Families First Commission ("Commission") was established by the County as a separate legal entity to administer the County's share of tobacco taxes levied by the State pursuant to Proposition 10. The County's Board established the Commission with nine voting members and four non-voting representatives. Of the nine voting members, one is a member of the Board of Supervisors, two are heads of County Departments (Health and Mental Health), one is an early childhood education expert, and five are public members appointed by the Board. The non-voting representatives are from other County commissions and planning groups.

The Commission's services are focused on the development and well-being of all children, from the prenatal stage until age five. The Commission is a component unit of the County because the County's Board appoints the voting Commissioners and the County has the ability to impose its will by removing those commissioners at will. It is discretely presented because its governing body is not substantially the same as the County's governing body and it does not provide services entirely or exclusively to the County.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Component Unit Financial Statements

Separate financial statements or additional financial information for each of the component units may be obtained from the Auditor-Controller at 500 West Temple Street, Room 525, Los Angeles, California 90012.

Government-wide Financial Statements

The statement of net assets and statement of activities display information about the primary government (the County) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the County and between the County and its discretely presented component unit. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs. Grants and contributions that are restricted to meeting the operational or capital requirements of a particular program are also recognized as program revenues. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

Net assets are classified into the following three categories, 1) invested in capital assets, net of related debt; 2) restricted; and 3) unrestricted. Net assets are reported as restricted when their use has been constrained by externally imposed conditions. Such conditions include limitations imposed by creditors (such as through debt covenants), grantors or laws or regulations of other governments. Net asset restrictions are also recognized when imposed by law through constitutional provisions or enabling legislation. Net assets "restricted for special purpose" are principally related to special revenue funds and the restrictions on their net asset use in accordance with the provisions mentioned above.

When both restricted and unrestricted net assets are available, restricted resources are used first and then unrestricted resources are used to the extent necessary.

Fund Financial Statements

The fund financial statements provide information about the County's funds, including fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Fund Financial Statements-Continued

The County reports the following major governmental funds:

General Fund

The General Fund is available for any authorized purpose and is used to account for all resources except for those accounted for in other funds.

Fire Protection District Fund

The Fire Protection District Fund was established to provide for fire prevention and suppression, rescue service, management of hazardous materials incidents, ocean lifeguard services, and acquisition and maintenance of district property and equipment. Revenues are derived principally from the Countywide tax levy.

Flood Control District Fund

The Flood Control District Fund was established to provide for the control and conservation of flood, storm and other waste waters, to conserve such waters for beneficial and useful purposes, and to protect the harbors, waterways, public highways and property located within the District from damage from such flood and storm waters. Revenues are derived primarily from the Countywide tax levy and benefit assessments.

Public Library Fund

The Public Library Fund was established to provide free library services to the unincorporated areas of the County and to cities that contract for these services. Revenues are derived principally from the Countywide tax levy.

Regional Park and Open Space District Fund

The Regional Park and Open Space District Fund was established to administer grant programs designed to preserve beaches, parks and wild lands, to acquire and renovate new and existing recreational facilities, and to restore rivers, streams, and trails in the County. Funding is derived from voter-approved assessments and long-term debt proceeds.

The County's major enterprise funds consist of six Hospital Enterprise Funds. These funds provide health services to County residents. Revenues are principally patient service fees. Subsidies are also received from the General Fund. A description of each Hospital Enterprise Fund is provided below:

Harbor/UCLA Medical Center

The Harbor/UCLA Medical Center provides acute and intensive care unit medical/surgical inpatient and outpatient care services, trauma and emergency room services, acute psychiatric services, pediatric and obstetric services, and transplants.

Olive View/UCLA Medical Center

The Olive View/UCLA Medical Center provides acute and intensive care, emergency services, medical/surgical inpatient and outpatient health care services, obstetric and gynecology services, and psychiatric services.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Fund Financial Statements-Continued

LAC+USC Medical Center

The LAC+USC Medical Center provides acute and intensive care unit medical/surgical inpatient and outpatient services, trauma and emergency room services, a burn center, psychiatric services, renal dialysis, AIDS services, pediatric and obstetric services, and communicable disease services.

M. L. King/Drew Medical Center

The M. L. King/Drew Medical Center provides acute and intensive care unit medical/surgical inpatient and outpatient services, emergency room services, psychiatric services, dental services, pediatric and obstetric services.

High Desert Hospital

The High Desert Health System provides non-hospital based outpatient services. At the end of the current fiscal year, High Desert Health Systems and Antelope Valley Rehabilitation Center transferred from the High Desert Hospital Enterprise Fund to the Olive View/UCLA Medical Center Enterprise Fund.

Rancho Los Amigos Medical Center

The Rancho Los Amigos National Rehabilitation Center specializes in the rehabilitation for victims of spinal cord injuries and strokes, pathokinesiology and polio services, services for liver diseases, pediatrics, ortho diabetes, dentistry, and neuro-science.

The following fund types have also been reported:

Internal Service Funds

The Internal Service Funds are used to account for the financing of services provided by a department or agency to other departments or agencies on a cost-reimbursement basis. The County's principal Internal Service Fund is used to account for the cost of services provided by the Department of Public Works to various other County funds and agencies.

Fiduciary Fund Types

Pension Trust Fund

The Pension Trust Fund is used to account for financial activities of LACERA.

Investment Trust Funds

The Pooled Investment Trust Fund is used to account for net assets of the County's external investment pool.

The Specific Investment Trust Fund is used to account for the net assets of individual investment accounts, in aggregate. The related investment activity occurs separately from the County's investment pool and is provided as a service to external investors.

Agency Funds

The Agency Funds are used primarily to account for assets held by the County in an agency capacity pending transfer or distribution to individuals, private organizations, other governmental entities, and other funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Basis of Accounting

The government-wide, proprietary, pension and investment trust fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants and similar items are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers revenues to be available if collectible within one year after year-end, except for property taxes, which are considered available to the extent that they are collectible within 60 days after year-end. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims (including workers' compensation) and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and capital leases are reported as other financing sources.

For the governmental funds financial statements, revenues are recorded when they are susceptible to accrual. Specifically, property and sales taxes, investment income, and charges for services and other miscellaneous revenue are all considered to be susceptible to accrual and have been recognized as revenue in the current fiscal period. Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met and are recorded at the time of receipt or earlier, if the susceptible to accrual criteria are met. All other revenues are not considered susceptible to accrual and are recognized when received.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's six Hospital Enterprise Funds (Hospitals) are from patient services. The principal operating revenues for the County's Nonmajor Enterprise Funds and Internal Service Funds are charges for services and rental revenues. Operating expenses for all Enterprise Funds and the Internal Service Funds include the cost of sales and services, administrative expenses and depreciation on capital assets. Medical malpractice expenses, which are self-insured, are classified as operating expenses of the Hospitals. All other revenues and expenses not meeting this definition are reported as nonoperating items. As discussed in Note 11, intergovernmental transfer payments are recorded in the Hospitals and this item is classified as a nonoperating expense.

The County applies all applicable Financial Accounting Standards Board ("FASB") pronouncements issued on or before November 30, 1989, in accounting and reporting for operations of the enterprise funds. FASB pronouncements issued after November 30, 1989, have not been applied unless specifically adopted in a GASB pronouncement.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Budgetary Data

In accordance with the provisions of Sections 29000-29144 of the Government Code of the State of California (the "Government Code"), commonly known as the County Budget Act, the County prepares and adopts a budget on or before August 30 for each fiscal year. Budgets are adopted for the major governmental funds and certain nonmajor governmental funds on a basis of accounting which is different from generally accepted accounting principles ("GAAP").

The County budget is organized by budget unit and by expenditure object. Budget units are established at the discretion of the Board of Supervisors. Within the General Fund (with certain exceptions), budget units are generally defined as individual departments. For other funds, each individual fund constitutes a budget unit. Expenditures are controlled on the object level for all budget units within the County, except for capital asset expenditures, which are controlled on the sub-object level. The total budget exceeds \$20 billion and is currently controlled through the use of approximately 400 separate budget units. There were no excesses of expenditures over the related appropriations within any fund at June 30, 2005. The County prepares a separate budgetary document, the County Budget, which demonstrates legal compliance with budgetary control.

Transfers of appropriations between budget units must be approved by the Board. Supplemental appropriations financed by unanticipated revenue during the year must also be approved by the Board. Transfers of appropriations between objects of expenditure within the same budget unit must be approved by the Board or the Chief Administrative Office, depending upon the amount transferred. The original and final budget amounts are reported in the accompanying basic financial statements. Any excess of budgetary expenditures and other financing uses over revenues and other financing sources is financed by beginning available fund balances as provided for in the County Budget Act.

Note 13 describes the differences between the budgetary basis of accounting and GAAP. A reconciling schedule is also presented for the major governmental funds.

Property Taxes

All jurisdictions within California derive their taxing authority from the State Constitution and various legislative provisions contained in the Government Code and Revenue and Taxation Code. Property is assessed at 100% of full cash or market value (with some exceptions) pursuant to Article XIIIA of the California State Constitution and statutory provisions by the County Assessor and State Board of Equalization. The total 2004-2005 gross assessed valuation of the County of Los Angeles was \$769,390,544,000.

The property tax levy to support general operations of the various jurisdictions is limited to one percent (1%) of full cash value and is distributed in accordance with statutory formulae. Amounts needed to finance the annual requirements of voter-approved debt are excluded from this limitation and are separately calculated and levied each fiscal year. The rates are formally adopted by either the Board or the city councils and, in some instances, the governing board of a special district.

The County is divided into 10,881 tax rate areas, which are unique combinations of various jurisdictions servicing a specific geographic area. The rates levied within each tax rate area vary only in relation to levies assessed as a result of voter-approved taxes or indebtedness.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Property Taxes-Continued

Property taxes are levied on both real and personal property. Secured property taxes are levied during September of each year. They become a lien on real property on January 1 preceding the fiscal year for which taxes are levied. These tax payments can be made in two equal installments; the first is due November 1 and delinquent with penalties after December 10; the second is due February 1 and delinquent with penalties after April 10. Secured property taxes which are delinquent and unpaid as of June 30 are declared to be tax defaulted and are subject to redemption penalties, costs, and interest when paid. If the delinquent taxes are not paid at the end of five (5) years, the property may be sold at public auction. The proceeds are used to pay the delinquent amounts due, and any excess is remitted, if claimed, to the taxpayer. Additional tax liens are created when there is a change in ownership of property or upon completion of new construction. Tax bills for these new tax liens are issued throughout the fiscal year and contain various payment and delinquent dates but are generally due within one year. If the new tax liens are lower, the taxpayer receives a tax refund rather than a tax bill. Unsecured personal property taxes are not a lien against real property. These taxes are due on January 1 and become delinquent, if unpaid, on August 31.

Deposits and Investments

In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools," the accompanying basic financial statements reflect the fair value of investments. Specific disclosures related to GASB 31 appear in Note 4.

Deposits and investments are reflected in the following asset accounts:

Pooled Cash and Investments

As provided for by the Government Code, the cash balances of substantially all funds are pooled and invested by the County Treasurer for the purpose of increasing interest earnings through investment activities. Interest earned on pooled investments is deposited to participating funds based upon each fund's average daily deposit balance during the allocation period. Each respective fund's share of the total pooled cash and investments is included among asset balances under the caption "Pooled Cash and Investments."

Pooled Cash and Investments are identified within the following categories for all County operating funds:

Operating Pooled Cash and Investments

This account represents amounts reflected in the County's day-to-day financial records. Such amounts are utilized to determine the availability of cash for purposes of disbursing and borrowing funds.

Other Pooled Cash and Investments

This account represents amounts identified in various agency funds as of June 30, 2005 that were owed to or were more appropriately classified in County operating funds. Accordingly, certain cash balances have been reclassified from the agency funds as required by GASB Statement No. 34.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Deposits and Investments-Continued

Other Investments

"Other Investments" represent Pension Trust Fund investments, investments of the Community Development Commission, various JPAs, NPC, and Public Buildings, and amounts on deposit with the County Treasurer which are invested separately as provided by the Government Code or by specific instructions from the depositing entity.

Restricted Assets

Enterprise Funds' restricted assets represent cash and investments of certain JPAs and Public Buildings projects restricted in accordance with the provisions of the certificates of participation issued. The Internal Service Funds' restricted assets represent cash and investments restricted for debt service in accordance with the provisions of the LAC-CAL bond indenture. All of the above noted assets are included in the various disclosures in Note 4.

Inventories

Inventories, which consist of materials and supplies held for consumption, are valued at cost using the average cost basis. The inventory costs of the governmental funds are accounted for as expenditures when the inventory items are consumed. Reported inventories are offset with a corresponding reservation of fund balance because these amounts are not available for appropriation and expenditure.

Of the amounts reported as inventories in the governmental activities, \$39,721,000 represents land held for resale by the Community Development Commission (CDC). The CDC records land held for resale at the lower of cost or estimated net realizable value.

Capital Assets

Capital assets, which include land, buildings and improvements, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the estimated fair market value at the date of donation.

Capital outlay is recorded as expenditures of the General, Special Revenue, and Capital Project Funds and as assets in the government-wide financial statements to the extent the County's capitalization threshold is met. Interest incurred during the construction phase of the capital assets of business-type activities is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

The County's capitalization thresholds are \$5,000 for equipment, \$100,000 for buildings and improvements and \$100,000 for infrastructure assets. Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities, or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and the related accumulated depreciation, as applicable, are removed from the respective accounts and any resulting gain or loss is included in the results of operations. Specific disclosures related to capital assets appear in Note 5.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Capital Assets-Continued

Capital assets are depreciated or amortized using the straight-line method over the following estimated useful lives:

Buildings and Improvements 10 to 50 years Equipment 2 to 35 years Infrastructure 10 to 50 years

Works of art and historical treasures held for public exhibition, education, or research in furtherance of public service, rather than financial gain, are not capitalized. These items are protected, encumbered, conserved, and preserved by the County. It is the County's policy to utilize proceeds from the sale of these items for the acquisition of other items for collection and display.

Pursuant to GASB 34, an extended period of deferral (fiscal year beginning July 1, 2005) is available before the requirement to record and depreciate infrastructure assets acquired prior to July 1, 2001 is effective. As a result, the governmental activities column in the accompanying government-wide financial statements as of June 30, 2005 does not reflect those infrastructure assets completed prior to July 1, 2001. The accompanying government-wide financial statements include infrastructure assets that have been acquired since July 1, 2001. Infrastructure assets that are functional are currently being depreciated.

Advances Payable

The County uses certain agency funds as clearing accounts for the distribution of financial resources to other County funds. Pursuant to GASB 34, for external financial reporting purposes, the portions of the clearing account balances that pertain to other County funds should be reported as cash of the appropriate funds. The corresponding liability is included in "Advances Payable."

Vacation and Sick Leave Benefits

Vacation pay benefits accrue to employees ranging from 10 to 20 days per year depending on years of service. Sick leave benefits accrue at the rate of 10 to 12 days per year for union represented employees depending on years of service. Non-represented employees accrue at a rate of 8 days per year. All benefits are payable upon termination, if unused, within limits and rates as specified in the County Salary Ordinance.

Liabilities for accrued vacation and sick leave benefits are accrued in the government-wide financial statements and in the proprietary funds. For the governmental funds, expenditures are recorded when amounts become due and payable (i.e., when employees terminate from service).

Cash Flows

For purposes of reporting cash flows, all amounts reported as "Pooled Cash and Investments," "Other Investments," and "Restricted Assets" are considered cash equivalents. Pooled cash and investment amounts represent funds held in the County Treasurer's cash management pool. Such amounts are similar in nature to demand deposits (i.e., funds may be deposited and withdrawn at any time without prior notice or penalty).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Accounting Reclassifications

Certain reclassifications have been made to amounts previously reported to conform to the current year's report format. Such reclassifications had no effect on previously reported changes in net assets.

New Accounting Pronouncements

Governmental Accounting Standards Board Statement No. 40

For the fiscal year ended June 30, 2005, the County implemented GASB Statement No. 40, "Deposit and Investment Risk Disclosures – an amendment of GASB Statement No. 3". This Statement addresses common deposit and investment risks related to credit risks, concentration of credit risk, interest rate risk, and foreign currency risk. As an element of interest rate risk, this statement requires certain disclosures of investments that have fair values that are highly sensitive to changes in interest rates. Deposit and investment policies related to the risks identified in this statement also are required to be disclosed. Implementation of GASB Statement No. 40 did not have an impact on the County's financial statements for the year ended June 30, 2005, but required additional disclosures (see Note 4) related to deposits and investment risks.

2. NET ASSET DEFICITS

The following funds had net asset deficits at June 30, 2005 (in thousands):

<u>Accun</u>	<u>nulated Deficit</u>
\$	78,163
	96,108
	162,493
	95,105

The Enterprise and Internal Service Funds' deficits result primarily from the recognition of certain liabilities including accrued vacation and sick leave, workers' compensation, self-insurance and, for the enterprise funds, medical malpractice and third party payor liabilities, as required by GAAP. Deficits are expected to continue until such liabilities are retired through user charges or otherwise funded. Enterprise funds' deficits are further explained in Note 11.

3. ELIMINATIONS

The Regional Park and Open Space District (District), a blended component unit, is authorized to issue assessment bonds to acquire and improve recreational land and facilities. These bonds are secured by voter-approved property tax assessments. The District executed a financing agreement with the Public Works Financing Authority, another blended component unit referred to in the basic financial statements as "Joint Powers Authority" (JPA). Under the terms of the agreement, the District sold \$510,185,000 of bonds in 1997 that were acquired as an investment by the JPA. The JPA financed this investment from proceeds of a simultaneous issuance of an equivalent amount of bonds as a public offering. The structure of the publicly offered JPA bonds was designed to match the District's bonds relative to principal and interest maturities and interest rates. This series of transactions was conducted to facilitate the issuance of District related bonds and to minimize the County's overall interest cost. Pursuant to the financing agreement with the JPA, the District has pledged all available tax assessments necessary to ensure the timely payment of principal and interest on the bonds issued by the JPA. The transactions between the two component units have been accounted for as follows:

3. ELIMINATIONS-Continued

Fund Financial Statements

At June 30, 2005, the Fund Financial Statements reflect an investment asset (referred to as "Other Investments") held by the JPA of \$349,690,000 that has been recorded in the Nonmajor Governmental Funds. The Fund Financial Statements do not reflect a liability for the related Bonds Payable (\$349,690,000), as this obligation is not currently due. Accordingly, the value of the asset represents additional fund balance in the Nonmajor Governmental Funds.

In order to reflect the economic substance of the transaction described above, an eliminations column has been established in the Fund Financial Statements. The purpose of the column is to remove the duplication of assets, fund balances, revenues and expenditures that resulted from the consolidation of the two component units into the County's overall financial reporting structure.

Government-wide Financial Statements

The government-wide financial statements are designed to minimize the duplicative effects of transactions between funds. Accordingly, the effects of the transaction described above have been eliminated from the amounts presented within Governmental Activities (as appropriate under the accrual basis of accounting). The specific items eliminated were Other Investments and Bonds Payable (\$349,690,000 for each) and Investment Earnings and Interest Expense (\$15,385,000 for each). Accordingly, there are no reconciling differences between the two sets of Financial Statements (after the effects of eliminations) for this matter.

The Bonds Payable of \$349,690,000 that were publicly issued are included among the liabilities presented in the Government-wide Financial Statements. Disclosures related to those outstanding bonds appear in Note 8 and are captioned "Assessment Bonds."

4. CASH AND INVESTMENTS

Investments in the County's cash and investment pool, other cash and investments, and Pension Trust Fund investments, are stated at fair value. Aggregate pooled cash and investments and other cash and investments are as follows at June 30, 2005 (in thousands):

		Restricted Assets							
	Pooled Cash		Other	Po	oled Cash		Other		
	and Investments	<u>In</u>	vestments	and I	<u>nvestments</u>	_ln	<u>vestments</u>	!	<u>Total</u>

4. CASH AND INVESTMENTS-Continued

Deposits-Custodial Credit Risk

The custodial credit risk for deposits is the risk that the County will not be able to recover deposits that are in the possession of an outside party. Deposits are exposed to custodial credit risk if they are not insured or not collateralized.

At June 30, 2005, the carrying amount of the County's deposits was \$79,720,000 and the balance per various financial institutions was \$76,451,000. The County's deposits are not exposed to custodial credit risk since all its deposits are either covered by federal depository insurance or collateralized with securities held by the County or its agent in the County's name, in accordance with California Government Code Section 53652.

At June 30, 2005, the carrying amount of Pension Trust Fund deposits was \$67,625,000. Pension Trust Fund deposits are not exposed to custodial credit since its deposits are eligible for and covered by "pass through insurance" in accordance with applicable law and FDIC rules and regulations.

Investments

State statutes authorize the County to invest pooled investments in obligations of the United States Treasury, federal agencies, municipalities, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, bankers' acceptances, negotiable certificates of deposit, floating rate notes, repurchase agreements and reverse repurchase agreements.

The investments are managed by the County Treasurer who reports on a monthly basis to the Board of Supervisors. In addition, the function of the County Treasury Oversight Committee is to review and monitor the County's investment policy. The committee membership includes the Treasurer and Tax Collector, the Auditor-Controller, Superintendent of Schools, Chief Administrative Officer, and a non-County representative.

Investments held by the County Treasurer are stated at fair value, except for certain non-negotiable securities that are reported at cost because they are not transferable and have terms that are not affected by changes in market interest rates. The fair value of pooled investments is determined annually and is based on current market prices. The fair value of each participant's position in the pool is the same as the value of the pool shares. The method used to determine the value of participants' equity withdrawn is based on the book value of the participants' percentage participation at the date of such withdrawals.

The Pension Trust Fund is managed by LACERA. Pension Trust Fund investments are authorized by State Statutes which are referred to as the "County Employees' Retirement Law of 1937." Statutes authorize a "Prudent Expert" guideline as to form and types of investments which may be purchased. Examples of the Fund's investments are obligations of the various agencies of the federal government, corporate and private placement bonds, global bonds, domestic and global stocks, domestic and global convertible debentures and real estate. Detailed deposit and investment risk disclosures are included in Note 4 of LACERA's Report on Audited Financial Statements for the year ended June 30, 2005.

4. CASH AND INVESTMENTS-Continued

Investments-Continued

The School Districts and the Superior Court are required by legal provisions to participate in the County's investment pool. Eighty-seven percent (87%) of the Treasurer's external investment pool consists of these involuntary participants. Voluntary participants in the County's external investment pool include the Sanitation Districts, Metropolitan Transportation Authority, the South Coast Air Quality Management District and other special districts with independent governing boards. The deposits held for both involuntary and voluntary entities are included in the External Pooled Investment Trust Fund. Certain specific investments have been made by the County, as directed by external depositors. This investment activity occurs separately from the County's investment pool and is reported in the Specific Investment Trust Fund. The pool is not registered as an investment company with the Securities and Exchange Commission (SEC) nor is it an SEC Rule 2a7-like pool. California Government Code statutes and the County Treasury Oversight Committee set forth the various investment policies that the County Treasurer must follow.

County pooled and other investments (excluding Pension Trust Fund other investments) at June 30, 2005 (in thousands) are as follows:

	Fair
	 <u>Value</u>
U.S. Government securities	\$ 6,019,118
Negotiable certificates of deposit	3,579,256
Commercial paper	5,244,633
Corporate and deposit notes	1,021,161
Municipal bonds	5,450
Los Angeles County securities	36,922
Guaranteed investment contracts	515,000
Investment in money market funds	226,448
Investment in State and local agency	
investment funds	130,528
1st and 2nd Mortgages	 1,144
Total	\$ 16,779,660

Pension Trust Fund investments are reported in the basic financial statements at fair value at June 30, 2005 (in thousands) and are as follows:

	Fair <u>Value</u>
Domestic and International Equity Fixed Income Real Estate Private Equity Short term investments Mortgages	\$ 20,300,702 8,467,784 3,213,698 1,777,213 947,634
Total	\$ 34.975,480

4. CASH AND INVESTMENTS-Continued

<u>Investments</u>-Continued

The Pension Trust Fund also had deposits with the Los Angeles County Treasury Pool at June 30, 2005 totaling \$50,945,000. The Pension Trust Fund portfolio contained no concentration of investments in any one organization (other than those issued or guaranteed by the U.S. Government) that represents 5% or more of the total investment portfolio.

The County has not provided nor obtained any legally binding guarantees during the fiscal year ended June 30, 2005 to support the value of shares in the Treasurer's investment pool.

Fair value fluctuates with interest rates, and increasing rates could cause fair value to decline below original cost. County management believes the liquidity in the portfolio is more than adequate to meet cash flow requirements and to preclude the County from having to sell investments below original cost for that purpose.

A summary of investments held by the Treasurer's Pool is as follows (in thousands):

4. CASH AND INVESTMENTS-Continued

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County Treasurer manages equity and mitigates exposure to declines in fair value by generally investing in short-term investments with maturities of six months or less and by holding asset investments to maturity. The County's investment guidelines limit the weighted average maturity of its portfolios to less than 18 months. Of the Pooled Cash and Investments and Other Investments at June 30, 2005, over 70% have a maturity of six months or less. Of the remainder, less than 12% have a maturity of more than one year.

As of June 30, 2005, variable-rate notes comprised 5.20% of the Treasury Pool and Other Investment portfolios. The notes are tied to one-month and three-month London Interbank Offered Rate (LIBOR) with monthly and quarterly coupon resets. The fair value of variable-rate coupon resets back to the market rate on a periodic basic. Effectively, at each reset date, a variable-rate investment reprices back to par value, eliminating interest rate risk at each periodic reset.

Custodial Credit Risk

Custodial credit risk for investments is the risk that the County will not be able to recover the value of investment securities that are in the possession of an outside party. All securities owned by the County are deposited in trust for safekeeping with a custodial bank different from the County's primary bank, except for Bond Anticipation Notes, certain certificates of participation issued by Los Angeles County entities, investment in the State's Local Area Investment Fund, and mortgage trust deeds which are held in the County Treasurer's vault. Securities are not held in broker accounts. At June 30, 2005, the County's external investment pools and specific investments did not have any securities exposed to custodial credit risk and there was no securities lending.

Credit Risk and Concentration of Credit Risk

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The County Treasurer mitigates these risks by holding a diversified portfolio of high quality investments.

The County's investment policy establishes minimum acceptable credit ratings for investments from any two nationally recognized statistical rating organizations. For an issuer of short-term debt, the rating must be no less than A-1 (S&P) or P-1 (Moody's) while an issuer of long-term debt shall be rated no less than an "A". At June 30, 2005, the County was invested in guaranteed investment contracts and the Local Agency Investment Fund, which are unrated as to credit quality.

At June 30, 3005, the County did not exceed the County investment policy limitations that state that no more than 5% of total market value of the pooled funds may be invested in securities of any one issuer, except for obligations of the United States government, U.S. government agencies or government-sponsored enterprises. No more than 10% may be invested in one money market mutual fund.

4. CASH AND INVESTMENTS-Continued

Credit Risk and Concentration of Credit Risk-Continued

The following is a summary of the credit quality distribution and concentration of credit risk by investment type as a percentage of each portfolio's fair value at June 30, 2005:

	S&P	Moody's	% of Portfolio
Pooled Cash and Investments:			
Commercial paper	A-1	P-1	34.08%
Corporate and deposit notes	A-1	P-1	7.68%
Los Angeles County securities	AAA	Aaa	0.24%
Negotiable certificates of deposit	A-1	P-1	21.77%
U.S. agency securities	AAA	Aaa	32.25%
U.S. treasury securities	AAA	Aaa	3.98%
			100.00%
Other Investments:			
Local agency investment fund	Not rated	Not rated	8.91%

Municipal bonds	AAA	Aaa	0.37%
Negotiable certificates of deposit	A-1	P-1	5.12%
Guaranteed investment contracts	Not rated	Not rated	35.19%
U.S. agency securities	AAA	Aaa	11.81%
U.S. treasury securities	AAA	Aaa	20.31%
Money market mutual funds	AAA	Aaa	1 <u>5.48%</u>
			100.00%

The earned yield, which includes net gains on investments sold, on all investments held by the Treasurer's Pool for the fiscal year ended June 30, 2005 was 2.16%.

A separate financial report is not issued for the external investment pool. The following represents a condensed statement of net assets and changes in net assets for the Treasurer's Pool as of June 30, 2005 (in thousands):

Statement of Net Assets Net assets held in trust for all pool participants	<u>\$ 15,381,506</u>
Equity of internal pool participants Equity of external pool participants Total equity	\$ 6,103,101 9,278,405 \$ 15,381,506
Statement of Changes in Net Assets Net assets at July 1, 2004 Net change in investments by pool participants Net assets at June 30, 2005	\$ 15,505,088 (123,582) \$ 15,381,506

The unrealized loss on investments held in the Treasurer's Pool was \$36,642,000 as of June 30, 2005. This amount takes into account all changes in fair value (including purchases, sales and redemptions) that occurred during the year.

4. CASH AND INVESTMENTS-Continued

Reverse Repurchase Agreements

The California Government Code permits the County Treasurer to enter into reverse repurchase agreements, that is, a sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The fair value of the securities underlying reverse repurchase agreements normally exceeds the cash received, providing the broker-dealer a margin against a decline in the fair value of the securities. If the broker-dealer defaults on the obligation to resell these securities to the County or provide securities or cash of equal value, the County would suffer an economic loss equal to the difference between the fair value plus accrued interest of the underlying securities and the agreement obligation, including accrued interest.

The County's investment guidelines limit the maximum par value of reverse repurchase agreements to \$500,000,000 and proceeds from reverse repurchase agreements may only be reinvested in instruments with maturities at or before the maturity of the reverse repurchase agreement. During the fiscal year, the County did not enter into any reverse repurchase agreements.

Derivatives

The California Government Code permits the County Treasurer to purchase floating rate notes, that is, any instruments that have a coupon interest rate that is adjusted periodically due to changes in a base or benchmark rate.

The County's investment guidelines limit the amount of floating rate notes to 10% of the Los Angeles County Treasury Pool portfolio and prohibit the purchase of inverse floating rate notes and hybrid or complex structured investments. As of June 30, 2005, there were approximately \$1,059,272,000 in floating rate notes.

LACERA utilizes forward currency contracts to control currency exposure and facilitate the settlement of international security purchase and sale transactions. Included in net investment income are gains and losses from foreign currency transactions. At June 30, 2005, forward currency contracts receivable and payable totaled \$52,215,000 and \$50,828,000, respectively.

Securities Lending Transactions

LACERA, as the administering agency for the Pension Trust Fund, is authorized to participate in a securities lending program under policies adopted by the LACERA Board of Investments. This program is an investment management activity that mirrors the fundamentals of a loan transaction in which a security is used as collateral. Securities are lent to brokers and dealers (borrowers) and LACERA receives cash as collateral. LACERA pays the borrower interest on the collateral received and invests the collateral with the goal of earning a higher yield than the interest rate paid to the borrower.

4. CASH AND INVESTMENTS-Continued

Securities Lending Transactions-Continued

LACERA's program is managed by one principal borrower and two agent lenders. Under exclusive borrowing and lending arrangements, securities on loan must be collateralized with a fair value of 102% for U.S. securities, and 105% for international securities, of the borrowed securities. Collateral is marked to market daily. Cash collateral is invested by the agent lenders in short-term, liquid instruments.

Under the terms of the lending agreements, the two agent lenders have agreed to hold LACERA harmless for borrower default from the loss of securities or income, or from any litigation arising from these loans. The principal borrower's agreement entitles LACERA to terminate all loans upon the occurrence of default and purchase a like amount of "replacement securities." Either LACERA or the borrower can terminate all loans on securities on demand.

At year end, LACERA had no credit risk exposure to borrowers because the collateral exceeded the amount borrowed. As of June 30, 2005, there were no violations of legal or contractual provisions. LACERA had no losses on securities lending transactions resulting from the default of a borrower for the year ended June 30, 2005.

Securities on loan at year-end, which include stocks and government and corporate bonds, are maintained in LACERA's financial records. A corresponding liability is recorded for the fair value of the cash collateral received.

As of June 30, 2005, the fair value of securities on loan was \$2.95 billion. The value of the cash collateral received for those securities was \$3 billion and the non cash collateral was \$6.7 million. Securities lending assets (Other Investments) and liabilities (Other Payables) of \$3 billion are recorded in the Pension Trust Fund. Pension Trust Fund income, net of expenses, from securities lending was \$8.67 million for the year ended June 30, 2005.

For the year ended June 30, 2005, the Los Angeles County Treasury Pool did not enter into any securities lending transactions.

Summary of Deposits and Investments

Following is a summary of the carrying amount of deposits and investments at June 30, 2005 (in thousands):

	County	Pension <u>Ounty Trust Fund</u>

6. PENSION PLAN

Plan Description

The County pension plan is administered by the Los Angeles County Employees Retirement Association (LACERA) which was established under the County Employees' Retirement Law of 1937. It provides benefits to employees of the County and the following additional entities that are not part of the County's reporting entity:

Little Lake Cemetery District
Local Agency Formation Commission
Los Angeles County Office of Education
South Coast Air Quality Management District

New employees of the latter two agencies are not eligible for LACERA benefits.

LACERA is technically a cost sharing, multi-employer defined benefit plan. However, because the non-County entities are immaterial to its operations, the disclosures herein are made as if LACERA was a single employer defined benefit plan. LACERA provides retirement, disability, death benefits and cost of living adjustments to eligible employees. Benefits are authorized in accordance with the California Constitution, the County Employees' Retirement Law, the bylaws, procedures and policies adopted by LACERA's Boards of Retirement and Investments and Board of Supervisors' resolutions.

LACERA issues a stand-alone financial report which is available at its offices located at Gateway Plaza, 300 N. Lake Avenue, Pasadena, California 91101-4199.

Funding Policy

LACERA has seven benefit tiers known as A, B, C, D and E, and Safety A and B. All tiers except E are employee contributory. Tier E is employee non-contributory. New general employees are eligible for tiers D or E at their discretion. New safety members are only eligible for Safety B. Rates for the tiers are established in accordance with State law by LACERA's Boards of Retirement and Investments and the County Board of Supervisors.

The following employer rates were in effect for 2004-2005:

	A	B	C	D	<u> </u>
General Members Safety Members	20.02% 26.84%	13.07% 23.20%	12.67%	12.72%	12.38%

The rates were determined by the actuarial valuation performed as of June 30, 2003 and are the same as those used to calculate the annual required contribution (ARC).

Employee rates vary by the option and employee entry age from 5% to 15% of their annual covered salary.

During 2004-2005, the County did not pay LACERA the full amount of the ARC. LACERA applied \$222,542,000 in excess earnings reserves towards the County's required contribution.

6. PENSION PLAN-Continued

Annual Pension Cost and Net Pension Obligation

The County's annual pension cost and net pension obligation, computed in accordance with GASB 27, for 2004-2005 were as follows (in thousands):

Annual required contribution (ARC):	
County	\$ 750,234
Non County entities	 118
Total ARC	750,352
Interest on net pension obligation	 (47,098)
Annual pension cost	703,254
Contributions made:	
County	527,692
Non County entities	118
Total contributions	527,810
Cost in excess of contributions	 175,444
Net pension obligation (asset), July 1, 2004	(588,730)
Net pension obligation (asset), June 30, 2005	\$ (413,286)

Trend Information (in thousands)

Fiscal Year Ended	Annual Pension <u>Cost (APC)</u>	Percentage of APC Contributed	Net Pension Obligation (Asset)
June 30, 2003 June 30, 2004	\$ 455,452 468,967	71.3% 84.2%	\$ (662,635) (588,730)
June 30, 2005	703,254	75.1%	(413,286)

The annual required contribution was calculated based upon an actuarial valuation performed as of June 30, 2003 using the entry age normal method. The valuation assumed an annual investment rate of return of 7.75%, and projected salary increases ranging from 4.01% to 9.98%, with both assumptions including a 3.5% inflation factor. The valuation also assumed post-retirement benefit increases of between 2% and 3%, in accordance with the provisions of the specific benefit options. The actuarial value of assets was determined utilizing a three-year smoothed method based on the difference between the expected market value and the actual market value of assets as of the valuation date.

The June 30, 2004 valuation determined the funding ratio to be 82.8% and recognized an unfunded actuarial accrued liability (UAAL) of \$5.61 billion. The County contribution rate (effective for the 2005-2006 fiscal year) was, therefore, increased by 6.41% of payroll (using the level percentage of payroll amortization method, over a 30-year open period) over the normal cost rate of 9.60%.

LACERA uses the accrual basis of accounting. Member and employer contributions are recognized in the period in which the contributions are due, and benefits and refunds are recognized when payable in accordance with the terms of each plan.

PENSION PLAN-Continued

Annual Pension Cost and Net Pension Obligation-Continued

Because it is negative, the net pension obligation represents an asset. Accordingly, a pension asset, "Net Pension Obligation," has been recognized in the government-wide financial statements and in the proprietary funds financial statements.

Pension Obligation Bonds and Certificates

During 1994-95 the County sold approximately \$1,965,230,000 in par value pension bonds and utilized the proceeds to fund LACERA. A portion of the bonds (\$1,365,230,000) were fixed rate. The remaining \$600,000,000 were variable rate bonds, which were restructured into fixed rate bonds during 1995-96.

In conjunction with the 1994-95 issuance of the pension bonds, the County entered into debt service advance agreements. Under the agreements, the County received \$79,022,000 in exchange for future interest that the County would have earned on deposits with the trustee between the time the County is required to pay debt service payments to the trustee and the time the trustee pays the bondholders. These proceeds have been recorded as deferred revenue and are being amortized over the life of the bonds on the basis of annual debt service requirements. As of June 30, 2005, the unamortized balance was \$30,767,000.

The outstanding principal balance of the bonds (including accreted interest on deep discount bonds) as of June 30, 2005 was \$1,454,542,000. The bonds have interest rates varying from 6.86% to 9.19%.

In 1986, the County issued \$461,493,000 in fixed rate pension obligation certificates to purchase annuity contracts to provide pension benefits to a specified group of LACERA members. Variable rate bonds totaling \$327,400,000 were issued in May 1996 to advance refund \$327,405,000 of the certificates. Interest rates on the bonds are reset weekly and varied during 2004-2005 from 0.97% to 2.99%. The fixed rate certificates which remain outstanding have a rate of 6.875%. At June 30, 2005, the total outstanding principal (including accreted interest) for the refunding bonds and remaining fixed rate certificates was \$174,033,000 and has been included in the financial statements as pension bonds payable.

For the year ended June 30, 2005, the combined principal and interest payments for both the bonds and certificates were \$265,208,000 and \$71,121,000, respectively. For governmental activities, the total debt service was \$249,223,000. For business-type activities, the total debt service was \$87,106,000. At June 30, 2005, the total outstanding principal, including accreted interest of \$616,975,000 on both bonds and certificates, was \$1,628,575,000.

PENSION PLAN-Continued

Pension Obligation Bonds and Certificates-Continued

Accretions	<u>457,186</u>		159,789	
Total Pension Bonds Payable	<u>\$1,206,794</u>		<u>\$ 421,781</u>	

Swap Transaction Related to Pension Bonds

In conjunction with the issuance of \$327,400,000 of variable pension refunding bonds in 1996, the County entered into a swap transaction to create a synthetic fixed interest rate. The County also received an up-front payment of \$19,036,000 from the counterparty.

The bonds, and the related swap agreement, mature on June 30, 2007. As of June 30, 2005, the swap's notional amount of \$131,800,000 was the same as the principal amount of the outstanding bonds. Under the swap, the County is obligated to pay the counterparty a fixed rate of 6.48% and receives a variable payment based on the market interest rate of the variable bonds. The market interest rate is reset on a weekly basis and the rate as of June 30, 2005 was 2.21%.

"Credit risk" refers to the risk that the counterparty will not fulfill its obligations. As of June 30, 2005, the County was not exposed to credit risk because the swap transaction had a negative fair value of \$7,948,000. However, should interest rates change, and the fair value of the swap becomes positive, the County would be exposed to credit risk in the amount of the derivative's fair value. The swap counterparty was rated Aaa and AAA by Moody's and Standard and Poor's, respectively. If the counterparty's credit rating falls below Aa3 or AA-, or if the rating is suspended or withdrawn, the fair value of the swap will be fully collateralized by either U.S. Government or Government Guaranteed Agency securities. Collateral would be posted with a third-party trustee.

6. PENSION PLAN-Continued

Swap Transaction Related to Pension Bonds-Continued

The following is a summary of future funding requirements related to the variable rate pension bonds, net of swap payments associated with those bonds (in thousands):

Year Ending	Variable-Rate	Bonds	Interest Rate	
June 30	Principal	Interest	Swaps, Net	Total
2006	\$ 61,300	\$ 2,913	\$ 5,628	\$ 69,841
2007	70,500	1 <u>,558</u>	3,010	<u>75,068</u>
Total	<u>\$ 131,800</u>	\$ 4,471	<u>\$ 8,638</u>	\$ 144,909

Post-Retirement Benefits

In addition to providing pension benefits, the County provides funding for certain health care benefits for all retired employees and their eligible dependents or survivors. There are approximately 50,000 retirees presently eligible to receive such benefits. LACERA is responsible for administering the benefits to the retirees.

The amount of funding required for health care benefits is dependent on the number of completed years of retirement service credited to the retiree by LACERA upon retirement; it does not include reciprocal service in another retirement system. This ranges from 40% of the benchmark plan cost with ten completed years of service to 100% of the benchmark plan cost with 25 or more completed years of service. In general, each completed year of service after ten years reduces the member's cost by 4%. Service includes all service on which the member's retirement allowance was based.

Prior to 1996-97, the County fully subsidized the funding requirements for these benefits. In 1996-97, the County entered into an agreement with LACERA to establish an Internal Revenue Code Section 401(h) Account for use in connection with the County's payment of retiree health care costs. This agreement, which remains effective until terminated by either party or in the event excess earnings cease to be available, permits the use of LACERA excess earnings reserves to reduce the County's funding requirement for these benefits.

The cost of retiree health care is recognized when the County makes payments to LACERA. For the year ended June 30, 2005, the amounts of such payments were approximately \$192,658,000, for governmental activities, and \$39,782,000, for business-type activities. These amounts exclude \$62,318,000 of LACERA excess earnings reserves, which were utilized to offset a portion of the total funding requirements.

7. LEASES

Operating Leases

The following is a schedule of future minimum rental payments required under operating leases entered into by the County that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2005 (in thousands):

Year Ending June 30		rernmental activities
2006	\$	71,342
2007		61,741
2008		50,465

Leases of County-Owned Property

The County has entered into operating leases relative to the Marina del Rey Project area, various County golf courses and regional parks, and Asset Development Projects. Substantially all of the Marina's land and harbor facilities are leased to others under agreements classified as operating leases. Certain golf courses and regional parks are leased under agreements which provide for activities such as golf course management and clubhouse operations, food and beverage concessions, and recreational vehicle camping. The Asset Development Projects are ground leases and development agreements entered into by the County for private sector development of commercial, industrial, residential and cultural uses on vacant or underutilized County owned property. The Asset Development leases cover remaining periods ranging generally from 1 to 83 years and are accounted for in the General Fund. The lease terms for the golf courses and regional parks cover remaining periods ranging from 1 to 30 years and are also accounted for in the General Fund. The Marina del Rey leases cover remaining periods ranging from 1 to 62 years and are accounted for in the Debt Service Funds as a result of the issuance of certificates of participation related to the Marina del Rey Project area.

The following is a schedule of future minimum rental receipts on noncancelable leases as of June 30, 2005 (in thousands):

Year Ending June 30	Governmental <u>Activities</u>

General Obligation Bonds

The County issued general obligation bonds in 1986 to finance detention facilities. The Flood Control District issued general obligation bonds to finance flood control projects. Waterworks Districts issued general obligation bonds to finance water system projects. Revenue for retirement of such bonds is provided from ad valorem taxes on property within the jurisdiction of the governmental unit issuing the bonds. Principal and interest requirements on general obligation long-term debt are as follows (in thousands):

Year Ending <u>June 30</u>	<u>Governmen</u> <u>Principal</u>	tal Activities Interest	Business-typ Principal	e Activities Interest
2006 2007 2008 2009 2010 2011-2015	\$ 8,995 9,105 370	\$ 1,379 704 9	\$ 45 15 17 18 19 67	\$ 15 12 11 9 7
Total	<u>\$ 18,470</u>	\$ 2,092	<u>\$ 181</u>	<u>\$ 64</u>

8. LONG-TERM OBLIGATIONS-Continued

Assessment Bonds

The Regional Park and Open Space District issued voter approved assessment bonds in 1997 to fund the acquisition, restoration, improvement and preservation of beach, park, wildlife and open space resources within the District. As discussed in Note 3, the bonds were purchased by the Public Works Financing Authority and similar bonds were issued as a public offering. The bonds issued by the Authority are payable from the proceeds of annual assessments levied on parcels within the District's boundaries.

Principal and interest requirements on assessment bonds are as follows (in thousands):

Year Ending June 30	<u>Governme</u> <u>Principal</u>	ntal Activities Interest
2006	\$ 23,980	\$ 17,150
2007	21,475	16,021
2008	22,630	14,835
2009	23,670	13,644
2010	24,835	12,441
2011-2015	144,155	41,681
2016-2020	<u>88,945</u>	9,607
Total	<u>\$ 349,690</u>	\$ 125,379

Certificates of Participation

The County has issued certificates of participation through various financing entities that have been established by, and are component units of, the County. The debt proceeds have been used to finance the acquisition of County facilities and equipment. The County makes annual payments to the financing entities for the use of the property and the debt is secured by the underlying capital assets that have been financed. Principal and interest requirements on certificates of participation are as follows (in thousands):

Year Ending	Governme	ntal Ad	ctivities	Business	-tvpe Ac	tivities
June 30	<u>Principal</u>		Interest	<u>Principal</u>		Interest
2006	\$ 145,403	\$	47,064	\$ 29,933	\$	11,548

Total	\$ 1,079,504	\$	551,229	\$177,944	<u>\$</u>	69,364

8. LONG-TERM OBLIGATIONS-Continued

Notes, Loans, and Commercial Paper

Bond Anticipation Notes (BANS) are issued by the Los Angeles County Capital Assets Leasing Corporation (Equipment Acquisition Internal Service Fund) to provide interim financing for equipment purchases. BANS are purchased by the County Treasury Pool and are payable within five years. In addition, the BANS are issued with a formal agreement that, in the event they are not liquidated by the five-year period, they convert to capital leases with a three-year term secured by County real property.

Community Development Commission notes are secured by annual contributions from the United States Department of Housing and Urban Development (HUD) and housing units constructed with the note proceeds. Commission mortgage notes are secured by revenues from the operation of housing projects and from housing assistance payments from HUD.

Marina del Rey loans were obtained from the California Department of Boating and Waterways for the restoration and renovation of the marina seawall. The loans are secured by Marina del Rey lease revenue and by Los Angeles County Music Center parking revenues.

Tax-exempt commercial paper notes (TECP) are issued by the County to pay for the construction costs of the LAC+USC Medical Center replacement facility. Repayment of the TECP is secured by a letter of credit and a sublease of twenty-one County-owned properties. Pursuant to the underlying leases, the County is able to amortize the remaining TECP over the useful life of the underlying assets. The term of individual commercial paper notes may not exceed 270 days.

Principal and interest requirements on notes, loans, and commercial paper are as follows (in thousands):

Summary-All Future Principal, Interest and Accretions

The following summarizes total future principal and interest requirements for the various debt issues referenced above (in thousands):

	Governmer	ntal Activities	<u> </u>	Business-ty	pe Activities
<u>Debt Type</u>	<u>Principal</u>	<u>Interest</u>	<u> </u>	<u>Principal</u>	<u>Interest</u>
General Obligation Bonds	\$ 18,470	2,092	\$	181	64
Assessment Bonds	349,690	125,379			
Certificates of Participation	1,079,504	551,229		177,944	69,364
Notes, Loans, and					
Commercial Paper	69,888	<u>29,476</u>		203,121	754
Subtotal		<u>708,176</u>			70,182
Add: Accreted Interest	62,545				
Unamortized Bond					
Premiums	37,629			10,005	
Less: Unamortized Loss on					
Advance Refunding of Debt	 (25,133)				
Total Bonds and Notes					
Payable	\$ 1,592,593		\$	391,251	

Long-term liabilities recorded in the Government-wide Statement of Net Assets include accreted interest on zero coupon bonds, unamortized bond premiums, and unamortized losses on advance debt refundings.

Advance Refunding of Debt

On February 15, 2005, the County issued \$181,220,000 of Regional Park and Open Space District revenue refunding bonds, maturing on various dates between 2005 and 2019. These bonds with an average interest rate of 3.50%, were issued to partially refund the outstanding principal amount of \$188,175,000 of bonds issued in 1997 at an interest rate of 5.05%.

On March 1, 2005, the County issued \$393,315,000 of Public Buildings lease revenue refunding bonds, maturing on various dates between 2005 and 2032. These bonds, with an average interest rate of 3.85%, were issued to refund the outstanding principal amount of \$433,655,000 of bonds issued between 1993 and 1997 at interest rates ranging from 5.26% to 5.79%.

U.S. Government securities were purchased and deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded bonds. Accordingly, the refunded bonds were considered to be defeased and the liabilities for those bonds were removed from the Government-Wide Statement of Net Assets - Governmental Activities. Specific disclosures related to each refunding issue are as follows (in thousands):

8. LONG-TERM OBLIGATIONS-Continued

Advance Refunding of Debt-Continued

	oruary 2005 <u>defunding</u>		arch 2005 efunding
Proceeds of refunding bonds issued	\$ 181,220	\$	393,315
Prior years' bond reserves and/or premiums	 <u> 20,691</u>		28,095
Deposit to escrow	\$ 201,911	<u>\$</u>	<u>421,410</u>
Future years' aggregate debt service payment reduction	\$ 19,122	\$	105,058
Present value savings (economic gain)	\$ 12,608	\$	30,039

For each of the two advance refunding transactions, the carrying amount of the refunded debt was less than the reacquisition price. These differences were \$13,736,000 and \$25,133,000, respectively, for the February 2005 and March 2005 refunding transactions. These amounts have been reported as reductions of the amount of outstanding debt in the basic financial statements.

Bonds Defeased in Prior Years

In prior years, various debt obligations, consisting of bonds and certificates of participation, were defeased by placing the proceeds of refunding bonds in an irrevocable trust to provide for all future debt service payments on the old obligations. Accordingly, the trust account assets and the related liabilities for the defeased bonds are not reflected in the County's financial position. At June 30, 2005, the amount of outstanding bonds and certificates of participation considered defeased was \$519,160,000. All of this amount was related to governmental activities.

Changes in Long-term Liabilities

The following is a summary of long-term liabilities and corresponding activity for the year ended June 30, 2005 (in thousands):

	Balance	Additions/	Transfers/	Balance	Due Within
	<u>July 1, 2004</u>	<u>Accretions</u>	<u> Maturities</u>	<u>June 30, 2005</u>	One Year

Total business-type activities	\$	<u>1,955,260</u>	\$ 339,802	\$ 397,945	<u>\$1,</u>	897,117	\$ 413,107

For governmental activities, the General Fund, the Fire Protection District Special Revenue Fund and the Public Library Special Revenue Fund have typically been used to liquidate workers' compensation, accrued vacation and sick leave and litigation and self-insurance liabilities.

Bond interest accretions for deep discount bonds have been included in the amounts reported for Bonds and Notes Payable and Pension Bonds Payable. Amounts accreted in previous years were paid during 2004-2005 thereby reducing liabilities for Bonds and Notes Payable by \$12,834,000 for governmental activities. Liabilities for Pension Bonds Payable were increased for governmental and business-type activities by \$63,366,000 and \$22,147,000, respectively, for interest accretions. Note 15 contains information about changes in the combined current and long-term liabilities for workers' compensation and litigation and self-insurance liabilities.

9. SHORT-TERM DEBT

On July 1, 2004, the County issued \$600 million of short-term Tax and Revenue Anticipation Notes at an effective interest rate of 1.6%. The proceeds of the notes were used to assist with County General Fund cash flow needs prior to the first major apportionment of property taxes, which occurred in December 2004. The notes matured and were redeemed on June 30, 2005.

10. CONDUIT DEBT OBLIGATIONS

Community Facilities and Improvement District Bonds

As of June 30, 2005, various community facilities and improvement districts established by the County had outstanding special tax bonds payable totaling \$97,541,000 and limited obligation improvement bonds totaling \$17,249,000. The bonds were issued to finance the cost of various construction activities and infrastructure improvements which have a regional or direct benefit to the related property owners.

The bonds do not constitute an indebtedness of the County, and are payable solely from special taxes and benefit assessments collected from property owners within the districts. In the opinion of County officials, these bonds are not payable from any revenues or assets of the County and neither the full faith and credit of the County, the State or any political subdivision thereof is obligated to the payment of the principal or interest on the bonds. Accordingly, no liability has been recorded in the accompanying basic financial statements.

10. CONDUIT DEBT OBLIGATIONS-Continued

Community Facilities and Improvement District Bonds-Continued

The County functions as an agent for the districts and bondholders. Debt service transactions related to the various bond issues are reported in the agency funds. Construction activities are reported in the Improvement Districts' Capital Projects Fund. Revenues have been recorded (proceeds from property owners) to reflect the bond proceeds issued for capital improvements.

Residential Mortgage Revenue Bonds

Residential Mortgage Revenue Bonds have been issued to provide funds to purchase mortgage loans secured by first trust deeds on newly constructed and existing single family residences in the County. The purpose of this program is to provide low interest rate home mortgage loans to persons who are unable to qualify for conventional mortgages at market rates. Multi-Family Mortgage Revenue Bonds have been issued to provide permanent financing for apartment projects located in the County to be partially occupied by persons of low or moderate income. The amount of Mortgage Revenue Bonds issued since inception of the programs approximates \$1,445,164,000. The amount of bonds outstanding as of June 30, 2005 was not determinable.

The bonds do not constitute an indebtedness of the County. The bonds are payable solely from payments made on and secured by a pledge of the acquired mortgage loans and certain funds and other monies held for the benefit of the bondholders pursuant to the bond indentures. In the opinion of County officials, these bonds are not payable from any revenues or assets of the County, and neither the full faith and credit nor the taxing authority of the County, the State or any political subdivision thereof is obligated to the payment of the principal or interest on the bonds. Accordingly, no liability has been recorded in the accompanying basic financial statements.

Industrial Development and Other Conduit Bonds

Industrial development bonds, and other conduit bonds, have been issued to provide financial assistance to private sector entities and nonprofit corporations for the acquisition of industrial and health care facilities which provide a public benefit. The bonds are secured by the facilities acquired and/or bank letter of credit and are payable solely from project revenue or other pledged funds. The County is not obligated in any manner for the repayment of the bonds. Accordingly, no liability has been recorded in the accompanying basic financial statements.

As of June 30, 2005, the amount of industrial development and other conduit bonds outstanding was \$19,435,000.

11. HOSPITAL AND OTHER PROGRAM REVENUES

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

11. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Medicaid Demonstration Project

For fiscal year 1995-96, Federal, State, and County officials approved a Medicaid Demonstration Project ("Project") to enable the County to stabilize and restructure its health care system. The basis for the Project required a shift in emphasis from conventional inpatient care to preventive, primary, and outpatient care. The Project was initially approved for a five-year period that was scheduled to end on June 30, 2000. The status of the Project's extension for an additional five-year period is discussed in the next segment of this Note.

Medicaid Demonstration Project Extension

The Federal Health Care Financing Administration, now known as the Centers for Medicare & Medicaid Services (CMS), granted an extension and phase-out of the Project over a term of five years (July 1, 2000 through June 30, 2005), to assist the County in restructuring its health care delivery system.

As part of this extension agreement, the County committed to use \$300 million of tobacco litigation settlement revenues and an additional \$100 million of General Fund contributions for Project-related services during the extension period. Also, as part of this extension agreement, a minimum of \$40 million in State and County funds at a 2 to 1 ratio, respectively, was made available over the course of the extension period to fund the system's workforce training needs, as identified in the CMS/Department of Labor approved work plan.

For the period July 1, 2000 through June 30, 2005, CMS provided Federal Financial Participation (FFP) at the applicable Federal-matching rate for the Federally Reimbursable Ambulatory Care Service Costs and the Supplemental Project Pool for both the Department of Health Services and Department of Mental Health. Payments for these components did not exceed the annual and total budget limits as follows (in thousands):

Fiscal Year	Percent Limit on Demonstration FFP	Dollar Limit on Demonstration FFP
2000-01	100%	\$ 246,600
2001-02	100%	246,600
2002-03	75%	185,000
2003-04	55%	135,500
2004-05	35%	86,300
2005-06 post-extension	0%	
Total		\$ 900,000

To provide increased funding to the County for outpatient services, CMS approved an amendment to the State Medi-Cal Plan, effective July 1, 2000, to provide cost-based reimbursement for County-operated and contracted facilities for covered outpatient services rendered to Medi-Cal beneficiaries.

11. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Medicaid Demonstration Project Extension-Continued

If the County does not meet specified milestones in the "Terms and Conditions" provisions of the extension agreement, the State may impose sanctions on the County of up to 18 percent of the Supplemental Project Pool and 10 percent of the Federally Reimbursable Ambulatory Care Service Cost claim, depending on the program. The County believes that it met the requirements; however, external auditors found that, in many cases, it did not. The County has contested these findings and is awaiting a final decision by the State.

The Project Federal Financial Participation (FFP) revenues recognized in the Hospital Enterprise Funds totaled \$71.7 million for the year ended June 30, 2005 and consisted of the following:

- \$52.8 million in additional Medi-Cal matching funds for indigent care at health centers and outpatient facilities.
- \$18.9 million in increased Medi-Cal funding for providing at least 450,000 outpatient visits.

The County transitioned to a new method of health care financing effective fiscal year 2005-06 (see Note 18).

Medi-Cal and Medicare Programs

A substantial portion of the Hospitals' revenue is derived from services provided to patients eligible for benefits under the Medi-Cal and Medicare programs. Medi-Cal acute inpatient services are reimbursed at a contractually agreed upon per-diem rate. Services to inpatient Medicare program beneficiaries are primarily paid under prospectively determined rates-per-discharge based upon diagnostic related groups (DRGs). Cost Based Reimbursement Clinics (CBRC) funding became effective on July 1, 2000, as part of the 1115 Waiver Extension, and was scheduled to expire on June 30, 2005. A new state plan amendment to extend CBRC is pending with the federal government. CBRC reimburses at 100 percent of reasonable costs for Medi-Cal outpatient services provided to Medi-Cal beneficiaries at hospital-based clinics and health centers (excluding clinics that provide predominately public health services). Certain other services to Medicare beneficiaries are reimbursed based on fee schedule or other rates. Revenues from Medi-Cal and Medicare programs represent approximately 86% and 4% respectively, of net patient care revenue for the year ended June 30, 2005.

Medi-Cal cost audit reports have been issued for all hospitals through Fiscal Year 2001-02 with the exception of Martin Luther King, Jr./Drew Medical Center (King). Medi-Cal CBRC Fiscal Year 2001-02 audit reports have been issued for all hospitals except for King. Fiscal Year 2002-03 audit reports for both Medi-Cal inpatient services and Medi-Cal CBRC have not been issued and the audits are in progress.

11. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Medi-Cal and Medicare Programs-Continued

The Medicare audits have been completed for Fiscal Year 1998-99 at all hospitals. The notices of program reimbursement have been received for all hospitals. For Fiscal Year 1999-2000, the audits have been completed at all hospitals; however, the notice of program reimbursement has not been issued for LAC+USC Medical Center (LAC+USC) and Rancho Los Amigos National Rehabilitation Center (Rancho). For Fiscal Year 2000-01, only King, Olive View/UCLA Medical Center and High Desert Hospital have been audited and the notices of program reimbursement have been issued. For Fiscal Year 2001-02, only Rancho's audit has been completed and the notice of program reimbursement has been issued. For Fiscal Years 2002-03 and 2003-04, the audits have not been scheduled.

The Hospitals have various outstanding appeals pertaining to Medi-Cal and Medicare audit settlements. There are also outstanding Medi-Cal appeals related to health centers. These amounts have not been recorded, as the outcome is not certain. The County believes the final resolution of the appeals will not have a material effect on its financial condition.

The Hospitals, excluding health centers, also received revenues from the following programs:

During FY 1991-92, SB 855 and SB 146 were enacted to provide higher Medi-Cal reimbursement rates to Disproportionate Share Hospitals ("DSH"). These are hospitals which provide a disproportionate share of services to Medi-Cal and other low income patients. The law requires certain public entities to contribute matching funds to the State. These funds, along with additional Federal revenues, are utilized by the State to fund the supplemental payment amounts.

SB 855 funds cannot exceed each hospital's DSH limits as mandated under OBRA '93. As a result of the original 1115 Waiver, the Department of Health Services may have received SB 855 funds beyond its OBRA '93 DSH limits for the fiscal year ended June 30, 1996 (estimated to be \$104 million) in cash flow assistance which may be an obligation that is expected to be repaid in the future, and has been recorded as a liability ("Estimated Liability to Third-Party Payors") of the Hospital Enterprise Funds in the accompanying basic financial statements. Additional potential obligations totaling \$89.4 million have also been recognized as liabilities in the basic financial statements as of June 30, 2005. The amount includes \$61.0 million and \$28.4 million related to Fiscal Years 1996-97 and 1997-98, respectively.

SB 1255, which became effective in 1990, established the State Disproportionate Share and Emergency Services Fund to receive contributions from public agencies. The State utilizes these funds to obtain additional Federal matching funds. The total is then distributed to the hospital applicants through a negotiation process with the California Medical Assistance Commission. To be eligible to receive funds, among other requirements, a hospital must be a disproportionate share provider.

11. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Office of Inspector General

The Office of Inspector General (OIG) performed an audit to verify that Medi-Cal's Fiscal Year (FY) 1997-98 Disproportionate Share Hospital (DSH) payments to the six Los Angeles County hospitals did not exceed their OBRA '93 limits. The OIG Audit found that the DSH payments to four of the six LAC hospitals exceeded their respective FY 1997-98 OBRA '93 limits by more than a total of \$195 million (\$98 million federal share). According to the OIG, the excess payments occurred because the State's DSH payment formula did not limit hospitals' total operating expenses to amounts that would be allowable under Medicare cost principles. The State and the County strongly disagreed with the audit findings and submitted written objections to many of the points raised by the OIG.

The OIG recommended that the State work with CMS to address and resolve the DSH payments in excess of the limits. In its approval of the State's application for renewal of its Selective Provider Contracting Program (SPCP) waiver for the period of January 1, 2003 through December 31, 2004, CMS agreed to permit the State to make DSH payments to the Los Angeles County hospitals without applying Medicare cost principles, but required the State to exclude any amounts not related to patient care from its calculations of the hospitals' operating expenses and to modify its treatment of bad debt. CMS has agreed not to pursue retroactive recovery of overpayments found by the OIG as long as the State corrects the formula in its State Plan prospectively.

The State has complied with CMS' requirement to submit a state plan amendment ("SPA") regarding bad debt and CMS has accepted the SPA. The State believes that the other changes can be made administratively, and has done so and has sought CMS approval for what it has done. An issue remains as to whether CMS will accept these changes without a formal SPA. Even if this issue can not be satisfactorily resolved, the County believes that the potential liabilities of \$98 million will not significantly affect the County's financial position.

Other Program Revenues

Proposition 99 imposes an additional State excise tax on cigarettes and other tobacco products. The increased taxes on tobacco products generate additional revenues for health care, research, health education, and public resources. State Assembly Bill 75 allocates these revenues to health care providers based upon their share of the financial burden for providing care to persons who are uninsured or otherwise unable to pay for care. The County's share of the AB 75 California Healthcare for the Indigent Program (CHIP) revenues for the year ended June 30, 2005 was \$11.8 million.

Revenues related to the aforementioned programs are included in the accompanying basic financial statements as hospital operating revenues. Uncollected amounts are reported as Accounts Receivable. Claims for these programs are subject to audit by State and/or Federal agencies.

11. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Intergovernmental Transfers

The County of Los Angeles provides funding for the State's share of the Medicaid Demonstration Project Supplemental Project Pool (SPP) and a portion of the State's share of the SB 855 and SB 1255 programs by transferring funds to the State from the County's General Fund. These transferred funds are referred to as intergovernmental transfers (IGT) and are used by the State to draw down federal matching funds. The IGT funds transferred to the State by the County and the matching federal funds are utilized by the State to provide supplemental funding to the County, and in some instances other providers, under the SPP, SB 855 and SB 1255 programs.

The transfer of County General Funds to the State (IGT) is initially recorded as a health expenditure of the General Fund. At the time the Hospitals recognize the supplemental funding received (net patient services revenue) under one of the aforementioned programs, the General Fund distributes the cost of the IGTs to each of the Hospitals. This cost is reflected as a non-operating expense by each Hospital in its Statement of Revenues, Expenses, and Changes in Fund Net Assets. For the year ended June 30, 2005, the cost of the IGTs and the supplemental funding received are as follows (in thousands):

<u>Program</u>	Intergovernmental <u>Transfers Expense</u>	Revenues
Medicaid Demonstration Project (SPP)	\$ 18,882	\$ 37,764
SB 855	444,442	599,788
SB 1255	451,500	855,500
Total	\$ 914,824	<u>\$1,493,052</u>

During the fiscal year, the County changed its accounting method to initially record the IGT as a health expenditure in each of the hospital funds. This new accounting method did not have an impact on the financial statements.

Charity Care

Charity care includes those uncollectible amounts, for which the patient is unable to pay. Generally, charity care adjustment accounts are those accounts for which an indigence standard has been established and under which the patient qualifies. Inability to pay may be determined through one of the Department's Reduced Cost Health Care plans, through other eligibility plans utilized by the Department, by the Treasurer-Tax Collector, or by an outside collection agency. Determinations of charity care may be made prior to, at the time of service, or any time thereafter.

11. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Charity Care-Continued

The total amount of such charity care provided by the hospitals for the fiscal year ended June 30, 2005, based on established rates, is as follows (in thousands):

Restructuring of the County's Health Care Delivery System

As indicated in the "Medicaid Demonstration Project Extension" segment of this note, the County's augmented reimbursement for health services expired during fiscal year 2004-2005. To address projected budget deficits, the Board approved two strategic plans that provided several options for a redesigned Health Care Delivery System (System).

As of June 30, 2005, the Department has not been able to fully implement either of these plans because of a preliminary injunction issued by a federal district court prohibiting any service reductions at these two facilities. On August 9, 2005, the Board of Supervisors approved negotiated settlement to the lawsuits with the plaintiffs. One settlement is awaiting final approval by the courts and the implementation process for the other has begun. The settlements allow for the phased reduction of beds at LAC+USC contingent upon meeting agreed upon milestones in length of stay reduction. The settlements also call for the Department to continue to operate Rancho, although at a reduced size with only core rehabilitation services, for three years while the County simultaneously seeks an entity to take-over the operations of the hospital.

In Fiscal Year 2004-05 the incremental cost of operating Rancho and not reducing 100 acute beds at LAC+USC was \$53.9 million and \$29.8 million, respectively.

At the end of the current fiscal year, High Desert Health Systems and Antelope Valley Rehabilitation Center have been transferred from the High Desert Hospital Enterprise Fund to the Olive View/UCLA Medical Center Enterprise Fund.

12. INTERFUND TRANSACTIONS

Interfund Receivables/Payables

Interfund receivables and payables have been eliminated in the government-wide financial statements, except for "internal balances" that are reflected between the governmental and business-type activities. Interfund receivables and payables have been recorded in the fund financial statements. Such amounts arise due to the exchange of goods or services (or subsidy transfers) between funds that were pending the transfer of cash as of June 30, 2005.

12. INTERFUND TRANSACTIONS-Continued

Interfund Receivables/Payables-Continued

Cash transfers related to interfund receivables/payables are generally made within 30 days after yearend. Amounts due to/from other funds at June 30, 2005 are as follows (in thousands):

Receivable Fund	Payable Fund	Amount

Interfund Transfers

Transfers were made during the year from the General Fund to subsidize the operations of the Public Library and the six hospitals. Other transfers primarily consisted of payments from the various operating funds (principally the General Fund) to debt service funds in accordance with long-term debt covenants. In addition, special revenue funds that are statutorily restricted made transfers to other funds to reimburse eligible costs incurred.

Interfund transfers to/from other funds for the year ended June 30, 2005 are as follows (in thousands):

12. INTERFUND TRANSACTIONS-Continued

Short-term Advances-Continued

The General Fund makes short-term advances to assist the Hospital Funds in meeting their cash flow requirements. The General Fund, along with other funds that receive services from the Public Works Internal Service Fund, makes short-term advances to ensure sufficient cash is available to fund operations.

13. BUDGETARY ACCOUNTING CHANGES/RECONCILIATION BETWEEN THE BUDGETARY BASIS AND GAAP

The County's Statement of Revenues, Expenditures and Changes in Fund Balances-Budget and Actual on Budgetary Basis for the major governmental funds has been prepared on the budgetary basis of accounting, which is different from GAAP.

The amounts presented for the governmental fund statements are based on the modified accrual basis of accounting and differ from the amounts presented on a budgetary basis of accounting. The major areas of difference are as follows:

- For budgetary purposes, designations are recorded as other financing uses at the time they are established. Although designations are not legal commitments, the County recognizes them as uses of budgetary fund balance. Designations that are subsequently cancelled or otherwise made available for appropriation are recorded as other financing sources.
- For the General Fund, obligations for accrued vacation and sick leave and estimated liabilities for litigation and self-insurance are recorded as budgetary expenditures to the extent that they are estimated to be payable within one year after year-end. Under the modified accrual basis of accounting, such expenditures are not recognized until they become due and payable in accordance with GASB Interpretation No. 6.
- In conjunction with the sale of pension obligation bonds in 1994-95, the County sold the right to future investment income on debt service deposits. Under the budgetary basis, the proceeds were included in 1994-95 revenues. Under the modified accrual basis, the proceeds were recorded as deferred revenue (unearned) and are being amortized over the life of the bonds. This matter is also discussed in Note 6.
- Under the budgetary basis, revenues (primarily intergovernmental) are recognized at the time encumbrances are established for certain programs and capital improvements. The intent of the budgetary policy is to match the use of budgetary resources (for amounts encumbered, but not yet expended) with funding sources that will materialize as revenues when actual expenditures are incurred. Under the modified accrual basis, revenues are not recognized until the qualifying expenditures are incurred.
- Under the budgetary basis, property tax revenues are recognized to the extent that they are collectible within one year after year-end. Under the modified accrual basis, property tax revenues are recognized only to the extent that they are collectible within 60 days.
- For budgetary purposes, investment income is recognized prior to the effect of changes in the fair value of investments. Under the modified accrual basis, the effects of such fair value changes have been recognized.

13. BUDGETARY ACCOUNTING CHANGES/RECONCILIATION BETWEEN THE BUDGETARY BASIS AND GAAP-Continued

The following schedule is a reconciliation of the budgetary and GAAP fund balances (in thousands):

	General Fund	Fire Protection District	Flood Control District	Public <u>Library</u>	Regional Park and Open Space District

Fund balance - GAAP basis	\$2,326,729	<u>\$ 103,189</u>	<u>\$ 121,296</u>	<u>\$10,425</u>	\$ 238,802

14. COMMITMENTS

Construction Commitments

At June 30, 2005, the LAC+USC Medical Center Hospital Enterprise Fund had contractual commitments of approximately \$202,978,000 to provide for the construction of the LAC+USC Medical Center replacement facility. The construction is currently being financed by commercial paper and a grant from the Federal Emergency Management Agency.

LACERA Capital Commitments

At June 30, 2005, LACERA had outstanding capital commitments to various investment managers, approximating \$2,080,000,000. Subsequent to June 30, 2005, LACERA funded \$108,000,000 of these capital commitments.

Investment Purchase Commitments

At June 30, 2005, the County had open trade commitments with various brokers to purchase investments approximating \$199,816,000 with settlement dates subsequent to year end. These investment transactions had not been recorded as of June 30, 2005 since the County neither takes delivery of the securities nor earns interest on the investments until the settlement date. By July 1, 2005, the County had purchased such investments.

15. RISK MANAGEMENT

The County purchases insurance for certain risk exposures such as aviation, employee fidelity, boiler and machinery in certain structures, art objects, catastrophic hospital general liability, volunteer, special events, public official bond, crime, safety reserve employee death and disability, and fiduciary liability for the deferred compensation plans. There have been no settlements related to these programs that exceeded insurance coverage in the last three years. The County also has insurance on most major structures. Losses did not exceed coverage in 2003-2004 or 2004-2005.

The County retains the risk for all other loss exposures. Major areas of risk include workers' compensation and long-term disability, medical malpractice, law enforcement, theft and damage to property including natural disasters, errors and omissions, and torts. Expenditures are accounted for in the fund whose operations resulted in the loss. Claims expenditures and liabilities are reported when it is probable that a loss has been incurred and the amount of that loss, including those incurred but not reported, can be reasonably estimated. The County utilizes actuarial studies, historical data, and individual claims reviews to estimate these liabilities. The liabilities include estimable incremental claim adjustment expenses, net of salvage, and subrogation of approximately 10% of the total liabilities. They do not include other claim adjustment costs because the County does not believe it is practical or cost effective to estimate them.

As indicated in the following table, the County's workers' compensation liabilities as of June 30, 2005 were approximately \$2.488 billion. This amount is undiscounted and is based on an actuarial study of the County's self-insured program as of June 30, 2005. Approximately \$252 million of the total liabilities pertain to salary continuation payments and other related costs mandated by the State Labor Code.

As of June 30, 2005, the County's best estimate of these liabilities is \$3.115 billion. Changes in the reported liability since July 1, 2003 resulted from the following (in thousands):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes In Estimates	Claim <u>Payments</u>	Balance At Fiscal Year-End
2003-2004 Workers' Compensation Other	\$ 2,284,625 733,128	\$ 646,922 60,458	\$ 374,946 	\$ 2,556,601 606,793
Total 2003-2004	\$ 3,017,753	<u>\$ 707,380</u>	<u>\$ 561,739</u>	\$ 3,163,394
2004-2005 Workers' Compensation Other	\$ 2,556,601 606,793	\$ 244,726 77,285	\$ 313,609 56,716	\$ 2,487,718 627,362
Total 2004-2005	<u>\$ 3,163,394</u>	<u>\$ 322,011</u>	<u>\$ 370,325</u>	<u>\$ 3,115,080</u>

15. RISK MANAGEMENT-Continued

In addition to the above estimated liabilities, the County has determined that claims seeking damages of approximately \$197 million (including the \$98 million discussed in Note 11) are possible of creating adverse judgments against the County. Because of the uncertainty of their outcome, no loss has been accrued for these claims.

In addition to the aforementioned lawsuits, there are unasserted claims approximating \$150 million as a result of a federal court decision which ordered the California Secretary of State to decertify the use of punch card voting systems. The County has implemented an interim paper-based voting system to replace the punch card system and is continuing to evaluate new technologies in this area.

In November 2003 and May 2004, the Secretary of State issued directives that will require all existing and new touch screens to have an accessible voter verifiable paper audit trail. In the opinion of County Counsel, it is reasonably possible for the County to incur costs of approximately \$150 million to comply with the regulatory requirements if the County were to replace the current paper-based voting system to a touch screen voting system. However, it is also reasonable to assume that both federal and State funding would be available to offset at least a portion of such costs. During 2003-2004, the County received approximately \$15.8 million from the State as advance funding to comply with some of the new requirements. County management believes that the timing of this matter is uncertain and its final outcome will not have a material affect on the County's financial condition.

Litigation Related to Pension Benefits

In addition to the aforementioned claims, the County and LACERA have been named as defendants in a number of lawsuits that seek to expand the types of benefits to be applied in determining pension compensation.

The most significant of these items sought to expand the types of employee compensation that was includable in the determination of pension benefits. As a result of a series of Court decisions related to this issue, LACERA's actuary assumed a present value estimate of \$190 million as an additional unfunded actuarial accrued liability (UAAL). This estimated was included in the actuarial valuation of the County's pension conducted as of June 30, 2003. Revised County contribution rates were recommended by the actuary and included in a provision to fund the UAAL over a rolling thirty year period. These rates were adopted by the Board of Supervisors (Board) and were effective throughout 2004-2005. During the current year, the Board authorized an agreement with all parties to the litigation for joint submission in the trial court. The settlement establishes the County's actuarial liability for this matter at \$176.9 million. This amount will update the previously estimated amount of \$190 million, will be factored into the subsequent actuarial study, and will continue to be amortized over thirty years.

The final outcome of two other significant pension benefit litigation issues is still pending. One matter pertains to the effect of certain employee benefits (commonly known as "flexible benefits") on final pension compensation. The second matter pertains to a group of employees classified as temporary or recurrent. This group of employees is seeking enhanced pension benefits. The total estimated exposure for these issues approximates \$54 million. The County's ultimate liability for these matters would be added to the UAAL and would be funded over 30 years.

16. PROPOSITIONS 218 AND 62

In November 1996, the voters approved the "Right To Vote on Taxes Act" (Proposition 218) which limits the County's ability to levy general and special taxes without voter approval and property related benefit assessments without property owner approval. In September 1998, the Board of Supervisors approved ordinance amendments to bring the County's general purpose taxes into conformance with Proposition 218.

In September 1995, the California Supreme Court upheld the constitutionality of Proposition 62, which requires voter approval of all new local taxes. Taxes imposed without voter approval after the 1986 effective date of Proposition 62 may be invalidated. The Court did not provide clarification about whether the decision would apply only prospectively to all new taxes or retrospectively to all taxes since the effective date of the Proposition. Accordingly, there is uncertainty about the validity of taxes currently being collected and as of June 30, 2005, a portion (\$204.7 million) of the General Fund's designation for budgetary uncertainties pertained to such collections.

17. SPECIAL ITEM-SALE OF ACCOUNTS RECEIVABLE

During the year, the County sold accounts receivable which were attributable to the pending receipt of State vehicle license fees approximating \$204,710,000. The fees were originally receivable by the County from the State in FY 2003-2004. Due to severe budget shortfalls at that time, the State deferred payment of such amounts and indicated its intent to pay the County in FY 2006-2007. The withheld funds have been commonly referred to as the Gap Loan Receivable.

In August 2004, State legislation was specifically adopted to permit cities and counties to sell Gap Loan Receivables. The County sold its receivable to the JPA Public Works Financing Authority (PWFA), a component unit. The PWFA issued Gap Loan Receivable Notes (Notes) with a par value of \$204,710,000 and received a premium of \$6,563,000. The Notes mature on December 1, 2006 and the total proceeds of \$211,273,000 were applied as follows (in thousands):

Capitalized interest	\$ 15,603
Fees and expenses	7,177
Net proceeds to County	<u> 188,493</u>
Total	\$ 211,273

The capitalized interest proceeds were deposited with an independent trustee bank (Trustee) to provide for semi-annual interest payments through the final maturity date. The County has also irrevocably instructed the State to remit payments of the Gap Loan Receivable directly to the Trustee.

The Notes are secured solely by the County's receivable from the State. Under no circumstances will the County or the PWFA be obligated to pay the debt service on the Notes except from amounts received from the Gap Loan Receivable. The credit status of the State has been relied upon to issue the Notes, which do not constitute a charge against the general credit of the County or the PWFA. Accordingly, a liability has not been recorded for the Notes in the accompanying basic financial statements.

17. SPECIAL ITEM-SALE OF ACCOUNTS RECEIVABLE-Continued

Government-wide Financial Statements

Due to the severity of the State's budgetary shortfalls, there was no carrying value established for the Gap Loan Receivables in the fiscal year 2003-2004 Government-wide Financial Statements. Accordingly, this transaction has been recorded as a "Special Item-Gain on Sale of Receivables" for the entire amount of the net proceeds (\$188,493,000) realized when such receivables were sold.

Fund Financial Statements

The County established a new capital project fund (referred to as the Gap Loan Capital Projects Fund) to account for the net proceeds from the sale of the Gap Loan Receivables. The net proceeds (\$188,493,000) have been recorded as a "Special Item-Proceeds from Sale of Receivables" and their usage is legally restricted to capital spending.

18. SUBSEQUENT EVENTS

Tax and Revenue Anticipation Notes ("TRANS")

On July 1, 2005, the County issued \$500,000,000 in 2005-06 TRANS which will mature on June 30, 2006. The TRANS are collateralized by taxes and other revenues attributable to the 2005-06 fiscal year and were issued in the form of Fixed Rate Notes at an interest rate of 2.54%.

Public Works Financing Authority-Flood Control District Revenue Bonds Series 2005A

On July 13, 2005, the Authority issued \$20,540,000 in revenue bonds maturing from 2006 to 2025, with interest rates ranging from 4% to 4.125%. The bond proceeds will be used to finance the design, renovation, and seismic retrofitting of the District's headquarters building.

Capital Asset Leasing Corporation Bond Anticipation Notes

On both July 21, 2005 and September 1, 2005, the Corporation issued a \$5,000,000 Bond Anticipation Note each with an initial interest rate of 3.389%. The rate is adjustable on January 2 and July 1 of each year. The notes were purchased by the Los Angeles County Treasury Pool and are due on June 30, 2008. Proceeds of the notes are being used to purchase equipment. The notes are to be repaid from the proceeds of lease revenue bonds.

Defeasance of Gap Loan Receivable Notes

As discussed in Note 17, the County issued \$204,710,000 of Gap Receivable Notes ("Notes"), which have not been recognized as obligations of the County. On July 26, 2005, the State remitted \$204.7 million to the Trustee and this payment fully satisfies the State's obligation for this matter. The State's full payment of this obligation occurred earlier than anticipated and the Notes were legally defeased on August 12, 2005. Repayment funds have been placed in escrow by the trustee and will be held until December 1, 2006, which is the maturity date of the Notes.

18. SUBSEQUENT EVENTS-Continued

Marina Del Rey Certificates of Participation

On August 1, 2005, the County prepaid all \$55,313,000 of the outstanding Marina Del Rey Certificates of Participation (COPs) as permitted under the Trust Agreement. The other \$11,515,000 of Marina Del Rey COPs were redeemed as part of the regularly scheduled July 1, 2005 debt service payment. General Fund revenues were used to finance the prepayment.

Medi-Cal Redesign

On August 1, 2005, the California Health and Human Services Agency and CMS approved for the five-year period, August 1, 2005 through July 31, 2010, California's Medi-Cal Hospital/Uninsured Care Section 1115(a) Medicaid Demonstration Project.

Tax-Exempt Commercial Paper

On September 27, 2005, the Los Angeles County Capital Asset Leasing Corporation issued an additional \$60,000,000 in tax-exempt commercial paper. The proceeds are being used to fund capital requirements of the LAC+USC Medical Center Replacement Project. The commercial paper, which was initially issued at an average rate of 2.70%, is secured by a long-term lease of County real estate and a letter of credit.

COUNTY OF LOS ANGELES MAJOR GOVERNMENTAL FUND GENERAL FUND

The General Fund is the general operating fund of the County. It is used to account for all financial resources except those accounted for in other funds. Revenues are derived from Taxes; Licenses, permits and franchises; Fines, forfeitures and penalties; Revenue from use of money and property; Intergovernmental revenues; Charges for services and Miscellaneous. Expenditures are expended for functions of General government; Public protection; Health and sanitation; Public assistance; Recreation and cultural services; Debt service and Capital outlay.

	_				

COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR SPECIAL REVENUE FUNDS

- The Road Fund was established to provide for the maintenance and construction of streets, roads, highways, and bridges. Revenue consists primarily of the County's share of State highway use taxes as supplemented by federal funds, vehicle code fines and charges for services provided to cities.
- The Other Streets, Highways, Roads and Bridges Funds: Article 3-Bikeway, Off-Street Parking, Proposition C Local Return, Special Road Districts, Construction Fee Districts, Transit Operations, Paratransit Operations, and Off Highway License Fee were established to provide for transportation and road related services or functions. Revenues are derived from local sales tax revenue, parking meter receipts, districts' share of the countywide tax levy, State revenues and service charges to parking lots.
- The Street Lighting Districts Funds were established to provide for the installation and maintenance of street lighting systems. Revenues are derived primarily from the countywide tax levy and benefit assessments.
- The Garbage Disposal District Funds were established under the provisions of the Health and Safety Code to provide garbage and refuse collection and disposal services within the boundaries of each District. Revenues are mostly from charges for services and property taxes.
- The Sewer Maintenance District Funds were established pursuant to the Health and Safety Code for the administration, maintenance, operation and repair of sanitary sewers, appurtenances, pumping plants, sewer treatment plants and related services. These Districts are financed through sewer service charges.
- The Health Services Measure B Fund was established to support a countywide system of Trauma Centers and Emergency Medical Services, for bioterrorism preparedness and response, and for related administrative costs. Revenues are derived primarily from a voter approved special tax.
- The Health & Sanitation Funds: Hospital Services, Physician Services, Statham Alcohol, Alcohol and Drug Problem, Proposition 36, Driving Under the Influence, AIDS Education, Air Quality Improvement, Bicycle Safety Helmet, Hazardous Waste Enforcement, and Solid Waste Management Funds were established to offset the cost of emergency services for the indigent, County alcoholism programs and services, AIDS education, air quality improvements, bicycle safety, hazardous waste enforcement and solid waste management. Revenues are from State tobacco taxes, patient collections, court fines, State-assessed vehicle fees, penalties assessed for hazardous waste violations, and sanitation services.

COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR SPECIAL REVENUE FUNDS

- The Other Public Protection Funds: Jail Store, Inmate Welfare, Narcotic Enforcement, Vehicle Theft Prevention, Countywide Warrant System, Sheriff's Processing Fees, Training and Automation, Automated Fingerprint Identification System, District Attorney Asset Forfeiture, Fire Department Developer Fees, Children's Waiting Room, Oak Forest Mitigation, Information Systems Advisory Body, Drug Abuse Gang Diversion, Jury Operations Improvement, Dependency Court Facilities and Small Claims Advisor Program were established to provide certain services and supplies to inmates, to supplement the cost of various law enforcement and prosecutorial investigation activities, and to finance vehicle replacement, facilities improvement, equipment maintenance and automated systems. Revenues are derived from sale of minor supplies, fines related to controlled substance convictions, benefit assessments, forfeiture of assets used in connection with transportation or possession of a controlled substance and court revenues.
- The Public Assistance Funds: Child Abuse/Neglect Prevention Program, Alternate Dispute Resolution Program, Alcohol and Drug Abuse Education Program, Domestic Violence Program, and Linkages Support Program were established to provide a variety of public assistance services. The programs are financed from special fees collected for birth certificates, marriage licenses, confidential marriage certificates, court fines for driving under the influence of alcohol or drugs, and disabled parking violation assessments.
- The Recreation Funds: Golf Course, Recreation and Development, and Ford Theater were established to provide for maintenance and improvements to County golf courses, public recreation areas, and Ford Theater. Fish and Game was set up for the preservation and propagation of fish and wildlife. Revenues are derived from a percentage of golf course green fees, vehicle entrance fees collected from the regional parks, and local fish and game fines.
- The Community Development Commission: The Housing Authority and Community Development Commission were established to increase the supply of affordable housing, effect community improvements under grant programs and to administer the County's Community Development Block Grant Funds, the County Redevelopment Agency and other County housing related functions. Revenues are derived principally from Federal grants.
- The Courthouse Temporary Construction Fund was established to temporarily account for monies ultimately to be used for various courthouse construction projects. Revenues are derived principally from surcharges included in fines for criminal convictions.
- The Criminal Justice Temporary Construction Fund was established to temporarily account for monies ultimately to be used for the improvement of criminal justice facilities and automated information systems. Revenues are derived principally from surcharges on criminal fines.

COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR SPECIAL REVENUE FUNDS

The Other Special Revenue Funds: Accumulative Capital Outlay (ACO) was set up for the replacement of motor vehicles, printing and communications equipment, and helicopters. Productivity Investment was established to account for the start-up and incidental costs associated with productivity improvement projects. Civic Center Employee parking was established to provide parking services and alternative means of transportation for County employees. Energy Management provides for the replacement of inefficient energy equipment in County facilities and other energy cost reduction measures. Cable TV Franchise was established to fund cable-related activities. Revenues are derived from a percentage of cable franchise fees. Operating transfers are also made from the General Fund to support operations. Public Library Developer Fees were established to acquire land, construct library facilities, and purchase equipment and library materials. Various funds have been established to report resources that are legally restricted and the principal and earnings may be used for purposes that support recreation, cultural, education, and health and sanitation programs.

COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR DEBT SERVICE FUNDS

The Detention Facilities and Flood Control District Debt Service Funds receive their funds from a voted indebtedness tax levy. The Flood Control District additionally receives operating transfers from the Flood Control District Special Revenue Fund. The Regional Park and Open Space District received long-term debt proceeds and also receives voter-approved benefit assessments. The Marina del Rey Fund receives rental revenues from the Marina del Rey Project area. Joint Powers Authorities and Public Buildings receive their funds primarily from the General Fund in the form of operating transfers.

2005 Master Refunding Project - Series A

COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR CAPITAL PROJECTS FUNDS

- The Capital Projects Funds were established to account for financial resources for the acquisition or construction of major capital facilities.
 - Accumulative Capital Outlay Funds have been established in accordance with Government Code Section 53730 for specific capital projects.
 - Flood Control District projects are financed by general obligation bonds and certificates of participation.

Improvement Districts are financed by contributions from property owners.

Public Buildings projects are financed by bonds and operating transfers.

Gap Loan Fund has been established to record the County's proceeds from sale of "Gap Loan" receivables that are restricted for capital spending purposes.

COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR PERMANENT FUNDS

Permanent Funds have been established to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support various County programs.

COUNTY OF LOS ANGELES NONMAJOR ENTERPRISE FUNDS

- The Aviation Enterprise Fund was established to provide for the maintenance and operations of the five airports which are owned by the County. Operating revenues are derived primarily from charges for services and rentals associated with airport operations.
- The Waterworks Enterprise Funds were established to provide for the administration, maintenance and operation and improvement of district water systems. Revenues are derived primarily from the sale of water and water service standby charges.
- The Community Development Commission Enterprise Fund was established to provide for the operation, maintenance and management of certain housing developments. Revenues are derived primarily from tenant rentals and federal grants.

COUNTY OF LOS ANGELES INTERNAL SERVICE FUNDS

- The Public Works Fund was established to account for the cost of services provided by the Department of Public Works to the Road Fund, Flood Control District, County Engineer and various other special districts and agencies. Costs are recovered through billings for services.
- The Equipment Acquisition Fund was established to account for the operations of the Los Angeles County Capital Asset Leasing Corporation. County departments are charged for equipment items acquired on their behalf. The charges represent recovery of equipment depreciation expense and bond interest expense.
- The Community Development Commission Internal Service Fund was established to account for the accumulation of resources for, and the payment of, services provided to various departments within the Commission. The charges for services are on a cost-reimbursement basis.

COUNTY OF LOS ANGELES FIDUCIARY FUNDS

POOLED INVESTMENT TRUST FUND

The Pooled Investment Trust Fund was established to account for net assets of the County's external investment pool. The fund primarily consists of deposits held on behalf of School Districts and Sanitation Districts.

SPECIFIC INVESTMENT TRUST FUND

The Specific Investment Trust Fund is used to account for the net assets of individual investment accounts, in aggregate. The related investment activity occurs separately from the County's investment pool and is provided as a service to external investors.

AGENCY

Agency funds have been established to account for cash and other assets and related liabilities of such funds as temporary funds for deposits of unapportioned taxes, departmental funds, and clearing and revolving funds.

Source: "Secured Tax Rate and Ratios" Report from Auditor-Controller, Tax Division. The tax rate for Tax Rate Area #4, which applies to most property within the City of Los Angeles, is used to illustrate the breakdown of a tax rate within the County.

Article XIIIA (Proposition 13) limits the maximum ad valorem tax rate to 1% of "full cash value" except for indebtedness approved by the voters prior to July 1, 1978.

An exception to the 1% limit was provided by Proposition 46 which was approved in June, 1986, re-establishing authority of local governments to issue general obligation bonds for certain purposes.
