The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
500 West Temple Street
Los Angeles, California 90012

Dear Supervisors:

In accordance with Section 25253 of the Government Code of California, I hereby submit the Comprehensive Annual Financial Report (CAFR) of the County of Los Angeles for the year ended June 30, 2012. The report contains financial statements that have been prepared in accordance with generally accepted accounting principles (GAAP) prescribed for governmental entities, and provides a comprehensive overview of the County's financial operations and financial position. The accuracy, completeness and fairness of the presentation of all information in this report are the responsibility of the County.

The Independent Auditor's Report is presented at the front of the financial section of this report. Management's Discussion and Analysis (MD&A), immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

The report includes financial data for all County funds. Additionally, the following entities are considered part of the County for purposes of meeting the reporting entity requirements prescribed by the Governmental Accounting Standards Board:

Fire Protection District	Regional Park and Open Space District
Flood Control District	Garbage Disposal Districts
Street Lighting Districts	Sewer Maintenance Districts
Improvement Districts	Waterworks Districts
Community Development	Various Joint Powers Authorities
Commission (including the	Los Angeles County Employees Retirement Association
Housing Authority of the	Los Angeles County Capital Asset Leasing Corporation
County of Los Angeles and	Los Angeles County Securitization Corporation
Los Angeles County	First 5 LA
Redevelopment Successor	
Agency)	

These entities are component units of the County and are included in the County's basic financial statements because the County Board of Supervisors is financially accountable for them. All component units are blended into the basic financial statements except for First 5 LA, which is discretely presented. Note 1 to the basic financial statements contains additional information regarding the relationship between the County and these entities.

Other local governmental entities provide public or specialized services to the residents of the County, including over eighty cities, one hundred school districts and numerous special districts. The operations of these entities are not included in the County's reporting entity since each entity is responsible for conducting its own day-to-day operations and is compelled to answer to its own separately elected governing board. Significant entities that do not meet the criteria for inclusion in this report include the City of Los Angeles, Los Angeles Unified School District, and Los Angeles County Sanitation Districts. Also, the Los Angeles County Superior Court is not included due to legislation (AB233) which transferred oversight responsibilities for Court operations to the State in 1997-98. However, AB233 requires the County to continue to fund certain Court-related expenditures, and the County continues to receive certain Court collections. Accordingly, the County's financial statements include various Court-related financial transactions.

LOS ANGELES COUNTY AND ITS SERVICES

Los Angeles County was established by an act of the State Legislature on February 18, 1850 as one of California's original 27 counties. Located in the southern portion of the State, the County covers 4,083 square miles. With a population of nearly 10 million, its population is the largest of any county in the nation.

Los Angeles County was a general law county until 1913 when it became a charter county, as a result of local election. The County is governed by a five-member Board of Supervisors who are elected by district to serve alternating four-year terms. The Assessor, District Attorney and Sheriff are also elected officials while all other departments are headed by appointed officials. On March 5, 2002, County voters approved two charter amendments providing for term limits for members of the Board of Supervisors. The affected officials are limited to three consecutive terms, a total of 12 years, commencing December 2002.

On March 27, 2007, the Board of Supervisors (Board) amended the County Code by adopting the Interim Governance Structure Ordinance. This governance structure provides delegated authority to the Chief Executive Office (CEO) to oversee, evaluate, and recommend for appointment and removal certain Department Heads and County Officers. The departments that report directly to the Board (rather than to the CEO) are the Fire Department, Auditor-Controller, County Counsel, Children and Family Services, Probation, the Executive Officer of the Board, and the CEO. The change in administrative structure was designed to improve the operational efficiency of County governance. The Board has retained the exclusive responsibility for establishing County policy, regulations, and organizational direction.

There are over one million residents in the unincorporated areas of the County. These residents receive all municipal services from the County, including law enforcement, fire protection, land use and zoning, building and business permits, local road building and maintenance, animal care and control, and public libraries. In addition, the County provides a wide range of services to all County residents.

The County also provides municipal services to many incorporated cities within its boundaries under the Contract Services Plan (Plan). Established in 1954, the Plan allows cities to provide municipal services without incurring the cost of creating numerous city departments and facilities by having the County provide, at cost, any or all municipal services within a city at the same level as provided in unincorporated areas, or at any higher level the city may choose. Although the Plan was developed to assist new cities, the great majority of the cities in the County now contract for one or more services.

The County's principal functions include seven major areas as required under the County's charter, County ordinances, or by State or federal mandate: general government, public protection, public ways and facilities, health and sanitation, public assistance, education and recreation and cultural services. The State and federal governments mandate certain minimum levels of services in the public assistance and health areas.

ECONOMIC OVERVIEW

With a 2011 Gross Domestic Product (GDP) of \$557.5 billion, Los Angeles County's economy is larger than that of 45 states and all but 19 countries. The County serves as the central trade district for the western United States and the gateway to the Asian economies, as it has evolved into a leader in international commerce and investments. The County's economy experienced continued growth in 2011, with an increase of 3.0% in economic output (as measured by GDP), a 4.6% increase in personal income, and 5.7% increase in taxable retail sales. The economic recovery is expected to continue, with several sectors of the local economy experiencing growth.

The County's unemployment rate averaged 12.2% in 2011, which represents a modest improvement from its 2010 rate of 12.3%. In 2012 and 2013, the job market is expected to show continued improvement, with a projected decline in the unemployment rate to 11.5% during 2013. The significant unemployment in recent years was partially offset by the positive impact of major public and private construction projects. With over \$16 billion in voter approved general obligation bond measures, historically low interest rates and cost-effective financing programs and incentives provided by the federal government, local governments and school districts have undertaken major capital construction projects.

The County enjoys a diverse industrial base, as private sector employment is well-represented in wholesale and retail trade, health care, manufacturing, and leisure and hospitality. The two major seaports in the County, located in the cities of Los Angeles and Long Beach, encompass the largest port complex in the nation as measured by cargo tonnage and the number of containers handled, and on a combined basis rank sixth largest among the world's port facilities.

INTERNAL AND BUDGETARY CONTROLS

The County has developed a system of internal accounting controls designed to provide reasonable, but not absolute, assurance to safeguard assets against loss from unauthorized use. It also provides reliable records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the costs of a system of internal accounting controls should not outweigh related benefits. Also, the evaluation of costs and benefits requires estimates and judgments by management. All internal accounting control evaluations occur within the above framework. We believe that the County's system of internal accounting controls adequately safeguards assets and also provides reasonable assurance of proper recording of financial transactions.

In accordance with the provisions of Section 29000-29144 of the Government Code, commonly known as the County Budget Act, the County prepares and adopts a budget on or before August 30 of each fiscal year. Except for capital assets, expenditures are controlled at the following object levels for all budget units: salaries and employee benefits, services and supplies, other charges, and other financing uses. Amounts are budgeted and controlled for capital assets at the following sub-object levels: land, buildings and improvements, infrastructure and equipment.

The County uses encumbrance accounting to ensure effective budgetary control and accountability. Unencumbered appropriations lapse at year-end and encumbrances outstanding at the time are reported as restricted, committed, or assigned fund balance for subsequent year expenditures.

After the original budget is adopted, the Board of Supervisors must approve all transfers of appropriations between budget units and transfers exceeding \$250,000 within budget units. The Board must also approve necessary supplemental appropriations, normally financed by unanticipated revenues earned during the year.

In addition to these procedural controls, the Auditor-Controller's (A-C) Audit Division performs periodic internal control, operational and management audits of various County departments. On an annual basis, an audit plan is recommended by the A-C and approved by the County's Audit Committee, an oversight group appointed by the Board of Supervisors. These audits help to ensure that prescribed procedures are followed and that operations are conducted in an efficient manner. The Countywide Contract Monitoring Division reviews various social service contract providers to enhance accountability and performance effectiveness. In addition, the A-C operates the County's federal Health Insurance Portability and Accountability Act (HIPAA) Privacy Program, providing supervision and oversight of the County's HIPAA-covered departments. A fraud hotline provides County employees and citizens with a way to anonymously report perceived fraudulent activities by County employees, vendors, contractors, inspectors, etc. Allegations reported over the hotline are evaluated and investigated, as appropriate, by the Office of County Investigations within the A-C.

BUDGET OUTLOOK AND MAJOR INITIATIVES

The Fiscal Year (FY) 2012-13 Budget outlook was improved in comparison with the four previous years' budgets as departmental and program curtailments were avoided while achieving a balanced budget. As a major employer in the region with nearly 100,000 full-time equivalent employees, the County has managed to avoid employee layoffs and furloughs throughout the economic downturn. Demands for certain County services, especially in the public assistance area, are beginning to ease as the County emerges from the lengthy recession. The County Budget is also benefitting from the back-to-back annual increases in assessed property values, as there is a 1.14% increase for FY 2012-13. The budget also assumes slight year-to-year growth for revenues that are derived from the County's share of State sales taxes and documentary transfer taxes.

Although the County continues its long-term trend of zero salary increases, employee benefits for retirement and health care premiums continue to trend upward. The County faces retirement contribution increases of 5% in FY 2012-13, and this represents an ongoing increase until pension fund investment losses from 2008-09 are fully smoothed over a five-year period. In planning for the FY 2012-13 Budget, the County faced a deficit of approximately \$76 million, which was substantially less than the three previous budget years. This gap was ultimately resolved by improvements in the County's financial outlook subsequent to the initial forecast.

COUNTYWIDE EFFICIENCY INITIATIVES

The County continues to aggressively explore efficiencies as a means to generate ongoing and one-time savings while improving operations. With the support of the Board, the County's Chief Executive Office has placed a high emphasis on both countywide and departmental efficiencies over the last three years, working with departments to cut operating costs through diligent efforts and innovative reengineering of existing processes. The County's ability to avoid the serious cutbacks and layoffs that many other jurisdictions have suffered in this economic crisis is in part due to these cost-saving efforts. Major examples of the County's efficiency initiative projects include:

- Dramatically lower pharmaceutical drug costs through streamlined/volume purchasing and inventory management (\$100.3 million per year);
- Conversion of General Relief recipients to collect Supplemental Security Income (\$18.6 million one-time savings);
- Negotiation of enterprise software licenses (\$10.8 million one-time savings)
- Improved Medi-Cal claims processing and reduction of denied days (\$8.0 million per year);
- Increased clinic participation and expansion of industry-sponsored assistance to reduce indigent client medication costs (\$6.1 million per year);

- Systematic monitoring and termination of all unused phone/data lines (\$5.5 million per year);
- Increased collections through offering payment plans at hospitals (\$2.5 million per year); and

Countywide, these initiative projects have resulted in estimated savings of \$255.0 million through June 30, 2012.

CAPITAL ASSET INITIATIVES

The County has been able to continue to fund high priority capital asset projects that address health, public safety, recreation, and infrastructure needs. The capital asset projects funded in the FY 2012-13 Budget are highlighted as follows:

- Public protection facilities, such as new construction at the Biscailuz Center Training Academy, new fire stations in the Santa Clarita Valley, implementation of fire station privacy and access improvements, potable water system upgrades at fire stations, security improvements at juvenile halls and camps, and a new animal shelter in the east Antelope Valley.
- Recreational facilities including construction of swimming pool facilities, community buildings and gymnasiums at County parks, along with beach facility improvements.
- General government facilities, the most significant of which is a new countywide data center.
- Health, public health, and mental health facilities, including build-out of a community hospital and construction of a new multi-service ambulatory care center at the Martin Luther King, Jr., medical campus, construction of a mental health outpatient clinic at Harbor-UCLA Medical Center, construction of a new public health center in South Los Angeles, and construction of new surgery and emergency suites at Harbor-UCLA Medical Center.
- New or replacement library facilities in the unincorporated area of Stevenson Ranch, the San Gabriel Valley, and Manhattan Beach.
- Infrastructure improvements in the County's roads, flood control, and aviation facilities, soil and groundwater investigation and remediation activities, beautification of the County's Eastern Hill complex, and watershed testing efforts.

LONG-TERM FINANCIAL PLANNING

The Board has adopted policies, which guide the County's Chief Executive Officer in financial planning and recommending budget proposals. Key policy elements include:

- Ongoing costs should be funded with ongoing revenues. Aligning continuing expenditures with continuing revenues, on a level that can be reasonably sustained, will foster stability, predictability, and long-range planning, while avoiding volatility in service levels. Before expanding services, use new, ongoing revenues to meet current obligations and reduce reliance on one-time funding. New programs should not be proposed without identifying specific and continuous funding sources.
- Budget decisions should be considered within the context of revenues and expenditures projected beyond a single fiscal year. A long-range forecast should be developed and maintained to reflect continuing programs, anticipated new initiatives, revenue changes, cost increases, potential problem issues and other factors that may impact strategies for maintaining a balanced budget over several years.

Board policy also established a "Reserve for Rainy Day" (Reserve) account within the County's General Fund. It is intended to protect essential County programs against unforeseen emergencies and economic downturns. The Reserve cap should be 10% of ongoing locally generated revenue. Transfers of three percent (3%) should be made into the Reserve each year, if feasible, until the 10% cap is met. When the reserve cap of 10% is exceeded, the excess may be available for specified one-time purposes such as capital projects, unfunded retiree health obligations, efficiency measures and information technology initiatives. The objective is to avoid ongoing commitments with funding that may not be sustainable in an economic downturn.

For the year ended June 30, 2011, the County implemented Governmental Accounting Standards Board Statement No. 54 (GASB 54), "Fund Balance Reporting and Governmental Fund Type Definitions." The County's policies for use of the Reserve are not within the GASB 54 definition of a stabilization arrangement. Therefore, the Reserve is classified as General Fund unassigned fund balance in the GAAP financial statements. As of June 30, 2012, the Reserve balance was \$93 million and it was not used as a financing source for purposes of balancing the FY 2012-13 County Budget.

OTHER INFORMATION

INDEPENDENT AUDIT

The basic financial statements have been audited by Macias Gini & O'Connell LLP (MGO). In accordance with the requirements of the Office of Management and Budget Circular A-133, as revised, MGO is also in the process of completing an annual financial and compliance audit of federal funds received by the County in FY 2011-12. The County's single audit for FY 2010-11 has been completed.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Los Angeles for its Comprehensive Annual Financial Report for the past thirty fiscal years.

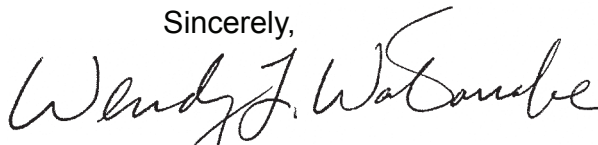

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. The report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

ACKNOWLEDGEMENTS

I would like to express my appreciation to my Accounting Division, the various County departments who assisted in the preparation of this report, and also acknowledge the efforts of our independent auditor.

Sincerely,

A handwritten signature in black ink that reads "Wendy L. Watanabe". The signature is written in a cursive style with a large, prominent initial "W".

INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Supervisors
 County of Los Angeles, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Los Angeles, California (County), as of and for the year ended June 30, 2012, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Community Development Commission (CDC), Los Angeles County Children and Families First – Proposition 10 Commission (First 5 LA), and the Los Angeles County Employees Retirement Association (LACERA), which represent the following percentages of the assets, net assets/fund balances, and revenues/additions of the following opinion units:

Opinion Unit	Assets	Net Assets/ Fund Balances	Revenues/ Additions
Governmental Activities	2%	3%	1%
Business-type Activities	4%	15%	10%
Discretely Presented Component Unit	100%	100%	100%
Aggregate Remaining Fund Information	68%	70%	4%

Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for CDC, First 5 LA and LACERA, are based on the reports of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for

the General Fund, the Fire Protection District, the Flood Control District, the Public Library, and the Regional Park and Open Space District for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 21 and the schedules of funding progress on pages 112 and 113 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we and the other auditors obtained during our audit of the basic financial statements. We and the other auditors do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the reports of other auditors, the information is fairly stated in all material respects in relation to the basic financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

COUNTY OF LOS ANGELES MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the County's Comprehensive Annual Financial Report (CAFR) presents a narrative overview and analysis of financial activities for the fiscal year ended June 30, 2012. We recommend that this information be used in conjunction with additional information contained in the letter of transmittal.

Financial Highlights

At the end of the current year, the net assets (total assets less total liabilities) of the County were positive \$12.131 billion. However, net assets are classified into three categories and the unrestricted component is negative \$7.717 billion. See further discussion on page 7.

During the current year, the County's net assets decreased by a total of \$2.060 billion. Net assets related to governmental activities decreased by \$1.789 billion, while net assets related to business-type activities decreased by \$271 million. Growth in liabilities associated with postemployment health insurance benefits was \$1.572 billion during the current year and continued to have a very significant effect on the County's financial condition and overall decrease in net assets. See further discussion on page 7.

At the end of the current year, the County's General Fund reported a total fund balance of \$2.642 billion. The fund balance categories and amounts consisted of nonspendable fund balance of \$260 million, restricted fund balance of \$55 million, committed fund balance of \$332 million, assigned fund balance of \$405 million, and \$1.590 billion of unassigned fund balance.

The County's capital asset balances were \$18.490 billion at year-end and increased by \$275 million during the year.

During the current year, the County's total long-term debt increased by \$38 million. Newly issued and accreted long-term debt of \$508 million exceeded bond maturities of \$470 million.

Overview of the Basic Financial Statements

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements, which are comprised of the following three components:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

This report also includes other supplementary information in addition to the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all County assets and liabilities, with the difference representing net assets. Over time, increases and decreases in net assets may serve as an indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information that indicates how the County's net assets changed during the fiscal year. All changes in net assets are reported as soon as the underlying events giving rise to the change occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that affect cash flows in future periods. For example, property tax revenues have been recorded that have been earned but not yet collected and workers' compensation expenses have been accrued but not yet paid.

The government-wide financial statements report the following different types of programs or activities:

- **Governmental Activities** - The majority of County services are reported under this category. Taxes and intergovernmental revenues are the major revenue sources that fund these activities which include general government, public protection, public ways and facilities, health and sanitation, public assistance, education, recreation, and cultural services.
- **Business-type Activities** - County services that are intended to recover costs through user charges and fees are reported under this category. The County Hospitals, the Waterworks Districts, the Aviation Fund, and housing programs operated by the Community Development Commission, a blended component unit, are regarded as business-type activities.
- **Discretely Presented Component Unit** - Component units are separate entities for which the County is financially accountable. First 5 LA is the only component unit that is discretely presented. As discussed in Note 20 to the basic financial statements, First 5 LA recognized an "extraordinary item" of \$424 million in the current year which restored this amount to the net assets of this component unit due to a Superior Court decision that invalidated State Assembly Bill (AB) 99. In the prior year, an "extraordinary item" of like amount (\$424 million) was recognized as a reduction of net assets to reflect First 5 LA's obligation to the State under AB 99.

FUND FINANCIAL STATEMENTS

The fund financial statements contain information regarding major individual funds. A fund is a fiscal and accounting entity with a balanced set of accounts. The County uses separate funds to ensure compliance with fiscal and legal requirements.

The County's funds are classified into the following three categories:

- **Governmental Funds** - These funds are used to account for essentially the same services that were previously described as governmental activities above. However, the fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. Governmental funds include the General Fund, as well as Special Revenue Funds, Debt Service Funds, Capital Project Funds, and Permanent Funds.
- **Proprietary Funds** - These funds are used to account for functions that were classified as "business-type activities" in the government-wide financial statements. The County's Internal Service Funds are also reported within the proprietary fund section. The County's four Hospital Funds and Waterworks Funds are all considered major funds for presentation purposes. The remaining proprietary funds are combined in a single column, with individual fund details presented elsewhere in this report.
- **Fiduciary Funds** - These funds are used to report assets held in a trustee or agency capacity for others and cannot be used to support the County's programs. The Pension Trust Fund, the Investment Trust Funds, the Private-Purpose Trust Fund, and Agency Funds are reported in this fund category, using the accrual basis of accounting.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the County's progress in funding its obligation to provide pension benefits and other postemployment benefits to employees.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, assets exceeded liabilities by \$12.131 billion at the close of the most recent fiscal year.

Significant changes in assets and liabilities included the following:

Current and Other Assets

Current and other assets decreased by \$654 million for governmental activities and increased by \$181 million for business-type activities. For governmental activities, pooled cash and investment balances were lower by \$231 million in the current year. However, there was a reduction of \$515 million in investment purchase transactions which took place at the end of the current year and settled subsequent to the statement of net assets date. This decrease was offset by corresponding reductions in liabilities (Other Payables) of like amount. Changes in "internal balances" of \$225 million had the effect of reducing assets for governmental activities and increasing assets for business-type activities by like amount. This change was primarily associated with a \$359 million reduction in cash flow advances from governmental activities (the County's General Fund) to the business activities (the County's Hospitals).

**COUNTY OF LOS ANGELES
MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

Liabilities

Current and other liabilities decreased by \$457 million for governmental activities, largely due to the previously mentioned \$515 million reduction of liabilities associated with investment purchase transactions pending settlement at year-end. For business-type activities, a net increase of \$89 million in current and other liabilities was primarily due to a \$76 million increase in accounts payable for intergovernmental transfer expenses associated with the Hospitals. Long-term liabilities increased by \$1.730 billion for governmental activities and by \$500 million for business-type activities. Other postemployment benefits (OPEB) continued to be funded on a pay-as-you-go basis in the current year and OPEB-related liabilities increased for both governmental and business-type activities by \$1.311 billion and \$261 million, respectively. Additional significant factors increasing liabilities were higher compensated absences for the governmental activities and third party payor liabilities for the business-type activities. Specific disclosures related to OPEB and other changes in long-term liabilities are discussed and referenced in Notes 8 and 10 to the basic financial statements.

The County's total net assets consist of the following three components:

Capital Assets, Net of Related Debt

The largest portion of the County's net assets (\$16.834 billion) represents its investment in capital assets (i.e., land, structures and improvements, infrastructure, software and equipment, net of related depreciation), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Restricted Net Assets

The County's restricted net assets at year-end were \$3.014 billion. Asset restrictions are primarily due to external restrictions imposed by State legislation and bond covenants. Net assets that pertain to the various separate legal entities included in the basic financial statements are also generally restricted because their funding sources require that funds be used for specific purposes.

Unrestricted Net Assets (Deficit)

The County's total unrestricted net assets are negative \$7.717 billion. Both governmental and business-type activities reported deficits in this category of \$6.128 billion and \$1.589 billion, respectively. The deficits closely parallel the OPEB related liabilities of \$5.777 billion for governmental activities and \$1.142 billion for business-type activities. Other unfunded liabilities are also factors, such as workers' compensation, compensated absences, and litigation and self-insurance claims. As discussed in Note 8 to the basic financial statements, the County established an OPEB trust fund during the current year.

EXPENSES BY TYPE – ALL ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2012

**COUNTY OF LOS ANGELES
MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

Governmental Activities

Revenues from governmental activities decreased by \$197 million (1.2%) when compared with the prior year. The most significant changes in specific revenue sources were experienced in the following areas:

- Program revenues recognized from operating grants and contributions decreased by \$224 million. State mental health revenues associated with the Mental Health Services Act (Proposition 63) were lower by \$301 million as program revenues for Proposition 63 declined in the current year. The previous year's revenues were exceptionally higher as there were a large number of significant one-time program plans approved by the State, enabling the County to qualify for, and recognize, these revenues in the prior year. For public assistance programs, there was an \$85 million reduction in federal stimulus revenues as this funding source was phased out in the current year and there were reduced revenues of \$71 million associated with lower claimable costs for the California Work Opportunities and Responsibilities to Kids (CalWORKs) program, particularly in the areas of child care, eligibility and employment services. The above program revenue decreases were partially offset by \$151 million of increased State revenues for public safety programs, which included new current year revenues of \$106 million to fund the State's public safety realignment initiatives.
- Taxes, the County's largest general revenue source, were \$146 million higher than the previous year. The additional growth in tax revenues was concentrated in property taxes, which grew by \$134 million. The County's assessed property tax roll was 1.36% higher in the current year and the increase followed assessed value reductions in the two previous years. Property tax revenues also increased due to State legislation which dissolved redevelopment agencies and shifted residual property taxes to local government agencies, including the County. The County's share of such revenues in the current year was \$100 million.
- Capital grants and contributions were \$111 million lower than the previous year. In the previous year, the County recognized \$85 million of one-time revenues associated with State Proposition 1B. Revenues from Proposition 1B provided transportation infrastructure funding to local governments, including the County and funded street and highway pavement maintenance, drainage facilities, traffic control devices, facilities that expand ridership on transit systems, and capital improvements to address local traffic congestion. There were no current year revenues from Proposition 1B and there were a variety of other current year revenues which comprised the remaining reduction of \$26 million for this revenue category.

COUNTY OF LOS ANGELES MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued

Governmental Activities-Continued

Expenses related to governmental activities increased by \$789 million during the current year. The largest portion of the net increase was attributable to the public protection category, which grew by \$527 million. As discussed in Note 1 to the basic financial statements, the County reevaluated liabilities for compensated absences and this accounted for \$281 million of the growth in the public protection costs. Additional factors were salaries and paid benefits, which grew by \$119 million and an increase of \$88 million in workers' compensation expenses. There were also expense increases of \$255 million in the health and sanitation sector. Of this amount, contractual service costs were higher by \$140 million and were concentrated in mental health services. Salaries and employee benefits, including compensated absences and workers' compensation expenses, also grew by \$98 million in the current year.

Business-type Activities

Revenues from business-type activities increased in comparison to the prior year by \$69 million (2.3%). The most significant change was in the area of operating grants and contributions, which increased by \$95 million and was associated with the County's Hospitals. As discussed in Note 13 to the basic financial statements, a federal funding program known as the Delivery System Reform Incentive Pool (DSRIP) provided nearly \$443 million of revenues to the Hospitals. The DSRIP program began in the prior year and the year-to-year revenue increase for this program was \$100 million. There were reduced revenues from charges for services of \$20 million and all other revenues were \$6 million lower in the current year.

Expenses related to business-type activities increased from the previous year by \$244 million. The increased expenses were principally related to the Hospitals, where expenses were higher by \$227 million. Intergovernmental transfer expenses were \$155 million higher and these increases were associated with managed care programs (\$84 million) and the DSRIP program (\$80 million). There were reductions of \$9 million for the intergovernmental transfers related to the Medi-Cal demonstration projects. Salaries and employee benefits associated with the Hospitals were also higher by \$89 million. For all facilities, the average patient census during the current year was 1,263 patients per day, which was lower in comparison with 1,321 for the prior year.

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the County's financing requirements. Types of governmental funds reported by the County include the General Fund, Special Revenue Funds, Debt Service Funds, Capital Project Funds, and the Permanent Funds.

**COUNTY OF LOS ANGELES
MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

Governmental Funds-Continued

As of the end of the current fiscal year, the County's governmental funds reported combined total fund balances of \$6.144 billion, a decrease of \$61 million in comparison with the prior year. Of the total fund balances, \$306 million is nonspendable to indicate the extent that funds are not in spendable form or are required to remain intact. An additional \$3.237 billion is classified as restricted, \$458 million as committed, and \$553 million as assigned. The remaining balance of \$1.590 billion is classified as unassigned and is entirely associated with the General Fund.

Revenues from all governmental funds for the current year were \$16.455 billion, a decrease of \$95 million (less than 1%) from the previous year. Expenditures for all governmental funds in the current year were \$15.950 billion, an increase of \$174 million (1.1%) from the previous year. In addition, other financing uses exceeded other financing sources by \$560 million as compared to \$483 million in the prior year.

The General Fund is the County's principal operating fund. During the current year, the fund balance in the General Fund decreased by \$80 million (3.0%). At the end of the current fiscal year, the General Fund's total fund balance was \$2.642 billion. Of this amount, \$260 million is classified as nonspendable, \$55 million as restricted, \$332 million as committed, \$405 million as assigned and the remaining \$1.590 billion is classified as unassigned. In the prior year, the County implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" and amounts previously displayed as "designations" were classified as "assigned" fund balance. Based on clarification from GASB and as discussed in Note 1 to the basic financial statements, the County reclassified the former fund balance "designations" from assigned to committed in the current year.

General Fund revenues during the current year were \$13.826 billion, an increase of \$258 million (1.9%) from the previous year. General Fund expenditures during the current year were \$13.619 billion, an increase of \$65 million (less than 1%) from the previous year. Other financing sources/uses-net was negative \$287 million in the current year as compared to negative \$288 million in the prior year.

Following are significant changes in General Fund revenues and expenditures:

- Revenues from taxes increased by \$137 million and property taxes comprised \$127 million of this increase. As previously mentioned, assessed property values were higher in the current year and there were also new property tax revenues from redevelopment dissolution and revenue increases associated with these two factors were \$39 million and \$88 million, respectively.

**COUNTY OF LOS ANGELES
MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

Governmental Funds-Continued

- Intergovernmental revenues increased overall by \$126 million. Within this category, State revenues increased by \$356 million, federal revenues declined by \$208 million and revenues from other governmental agencies were lower by \$22 million. State revenue growth of \$165 million was largely associated with public protection programs, as the Sheriff's and Probation Departments recognized \$96 million of new revenues associated with the State's Assembly Bill 109 public safety realignment initiative and there was also growth of \$50 million from State Proposition 172 public safety revenues. There was also growth of \$110 million in State revenues for mental health services. The decrease in federal revenues was principally due to the expiration of federal economic stimulus revenues, which funded a number of social service initiatives and was previously noted for public assistance programs.
- General fund expenditures increased by a total of \$65 million, or less than 1%. Within this total, there were increases of \$332 million in current expenditures, decreases in debt service expenditures of \$254 million, and capital outlay expenditures were lower by \$13 million. The most significant increase in current expenditures was in the health and sanitation category, where expenditures were higher by \$213 million as mental health expenditures increased by \$130 million, primarily due to higher levels of contracted program services. Public protection expenditures also grew by \$136 million, of which \$97 million was related to the Sheriff's Department and the remainder was concentrated in the Probation Department, District Attorney and Public Defender. In the previous year, the final payment of \$243 million was made on pension obligation bonds and this accounted for nearly all of the year-to-year change in debt service expenditures.

The Fire Protection District reported a year-end fund balance of \$204 million, which represented a decrease of \$14 million from the previous year. Revenues were nearly unchanged in comparison to the previous year while expenditures increased by \$8 million. Transfers out increased by \$16 million in the current year and such transfers were made to a capital projects fund for purposes of accumulating funding to address facility improvement needs.

The Flood Control District reported a year-end fund balance of \$195 million, which was \$38 million higher than the previous year. Revenues were \$10 million higher in the current year and increases were spread among several categories. Expenditures decreased by \$31 million, or 14%, and nearly all of these reductions were due to lower infrastructure improvement expenditures of \$26 million and lower equipment rental expenditures of \$4 million.

The Public Library Fund reported a year-end fund balance of \$54 million, which was \$11 million higher than the previous year. Revenues were lower by \$5 million, with most of the decrease associated with property taxes, as certain property tax revenues were transferred to a city which assumed direct operation of former County library facilities. Expenditures were also lower in the current year, decreasing by approximately \$4 million. There was a net increase of \$12 million for "transfers in," which was attributable to increased contributions from the County's General Fund. In the current year, sales of capital assets decreased by nearly \$8 million as there was a significant sale of library facilities to the aforementioned city near the end of the prior year.

**COUNTY OF LOS ANGELES
MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

Governmental Funds-Continued

The Regional Park and Open Space District reported a year-end fund balance of \$322 million, which was \$12 million higher than the previous year. Current year revenues and expenditures were each slightly higher, increasing by \$2 million and \$4 million, respectively.

Proprietary Funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The County's principal proprietary funds consist of four hospital enterprise funds and each one is reported as a major fund. All of the aforementioned funds incurred a net loss prior to contributions and transfers.

The County is legally required to provide local matching funds to the health care system in order to remain eligible for federal and State assistance. Such funds were provided to the hospitals as operating subsidies from the County General Fund during the year. The amount of subsidy, per facility, ranged from \$77 million for Rancho Los Amigos National Rehabilitation Center to \$258 million for the LAC+USC Medical Center. The total subsidy amount was \$643 million and is reflected in the Statement of Revenues, Expenses and Changes in Fund Net Assets as "transfers in." By comparison, the total General Fund subsidy in the prior year was \$672 million.

An additional source of local funding for the Hospitals is the Health Services Measure B Special Revenue Fund ("Measure B Fund"). The Measure B Fund receives voter approved property taxes for trauma and emergency services. In the current year, the Measure B Fund provided transfers to the LAC+USC Medical Center (\$73 million), Harbor UCLA Medical Center (\$63 million), and Olive View UCLA Medical Center (\$58 million). The total amount of current year Measure B transfers (\$194 million) was lower than the prior year amount of \$202 million.

Waterworks Funds reported year-end net assets of \$828 million, a \$22 million reduction from the previous year. Current year operating revenues of \$68 million were \$10 million higher than the previous year amount of \$58 million. Current year operating expenses of \$95 million were also higher than the previous year's amount of \$84 million.

General Fund Budgetary Highlights

The accompanying basic financial statements include a Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual on Budgetary Basis for the County's General Fund. The County's budgetary basis of accounting has not yet incorporated GASB 54 fund balance terminology and is discussed in Notes 1 and 15 to the basic financial statements. There are approximately 100 separate budget units within the General Fund, excluding capital improvement projects, which are individually budgeted. The data presented below represents the net budgetary changes for the General Fund in a highly summarized format. Accordingly, in certain instances, budgets have been increased for programs within a category even though actual amounts have not been realized for the category in its entirety. Under the budgetary basis, there was a net decrease of \$36 million in the General Fund's available (unreserved and undesignated) fund balance from the previous year.

Budgetary Summary - Revenues/Financing Sources

Following is a summary of current year budgetary changes and actual results (on the County's budgetary basis) for General Fund revenues and other financing sources (in thousands):

Total	<u>\$ 398,890</u>	<u>\$ 15,418,933</u>	<u>\$ 14,259,020</u>	<u>\$ (1,159,913)</u>

Changes from Amounts Originally Budgeted

During the year, net increases in budgeted revenues and other financing sources approximated \$399 million. The most significant changes occurred in the following areas:

- Estimated intergovernmental revenues increased by \$198 million. Of this amount, \$140 million was associated with State revenues for newly realigned programs operated by the County, primarily in the public safety sector. There was \$45 million of State revenues added to the budget to reflect funding for the Seriously Emotionally Disturbed Children's program. There were other net additions to budgeted intergovernmental revenues of \$13 million.

**COUNTY OF LOS ANGELES
MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

Changes from Amounts Originally Budgeted-Continued

- The budget for tax revenues was increased by \$94 million. Of this increase, \$86 million was associated with year-end budgetary changes that are designed to demonstrate compliance with legal provisions related to the appropriation of revenues from property taxes and certain other tax related revenues. The remaining \$8 million of increased tax revenues was appropriated for a variety of programs.
- There was a net increase of \$78 million related to "all other revenues" and \$65 million of this amount was attributable to tobacco settlement revenues. The County's policy is to budget tobacco settlement revenues after they have been received. Miscellaneous revenue increases accounted for the remaining \$13 million.

Actual Revenues/Financing Sources Compared with Final Budget Amounts

Actual revenues and other financing sources recognized by the General Fund were approximately \$1.160 billion, or 7.5%, lower than budget. As discussed below, most of this variance was concentrated in the areas of intergovernmental revenues and "other sources and transfers in."

- Actual intergovernmental revenues were \$715 million lower than the amount budgeted. Budgeted intergovernmental revenues of \$200 million were not realized for various capital improvements, disaster recovery programs and homeland security projects, as these initiatives were not completed prior to year-end. Mental health programs accounted for approximately \$187 million of this variance, which experienced lower than anticipated reimbursable costs and correspondingly lower than expected revenues. Approximately \$155 million was associated with social service programs, where reimbursable costs were lower than anticipated due to hiring and promotion delays, reduced spending for services and supplies, and delays in implementing new systems. Public health related programs experienced budgeted revenue shortfalls of \$54 million, most of which was associated with federal grants and offset by a comparable amount of cost savings. The Registrar-Recorder did not realize \$43 million of federal and state revenues associated with an anticipated election that was canceled during the fiscal year. The remaining variance of \$76 million was related to a variety of other programs.
- The actual amount of "other sources and transfers in" was \$249 million lower than the amount budgeted. Of this amount, mental health programs funded by the Mental Health Services Act Special Revenue Fund (Proposition 63) did not fully materialize at the budgeted level and "transfers in" were \$112 million lower than budgeted. In addition, "transfers in" totaling \$107 million were assumed in the budget for capital improvements and extraordinary building maintenance projects which did not incur expected costs. The budget for the Sheriff's Department under-realized the budgeted amount of "transfers in" by \$25 million as such funds were not required as anticipated. There were various other sources and transfers that comprised the remaining variance of \$5 million.

Total	<u>\$ 398,890</u>	<u>\$ 17,020,504</u>	<u>\$14,295,089</u>	<u>\$ 2,725,415</u>

Changes from Amounts Originally Budgeted

During the year, net increases in General Fund appropriations, reserves and designations were approximately \$399 million. As discussed below, the most significant increases occurred in the following areas:

- Appropriations were increased for the public protection category by \$131 million. Of this amount, \$108 million was appropriated for newly realigned State programs associated with public safety. An additional \$10 million was allocated for various Sheriff's and Probation Departments' programs, and the remaining \$13 million augmented various other programs.
- Provisions for net reserves and designations were increased during the year by \$97 million. At the end of the fiscal year, the designation for health services, which is predominately funded by tobacco settlement revenues, was increased by \$73 million. This amount was comprised of tobacco settlement revenues recognized in the current year (\$65 million) plus prior year funds that were appropriated, but unexpended (\$8 million). There were net increases of \$26 million to reserve amounts funded by local utility tax revenues, pending their required allocation for services to unincorporated County areas. Miscellaneous decreases of \$2 million were made to other reserves and designations.
- After the original budget was established, appropriations for contingencies were increased by \$75 million. As previously mentioned, there was an \$86 million increase at the end of the fiscal year to budgeted tax revenues, which was accompanied by an increase in the appropriations for contingencies for purposes of complying with statutory requirements. There were also various reductions in the appropriations for contingencies totaling \$11 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

Actual Expenditures/Other Financing Uses Compared with Final Budget Amount

Actual expenditures/other financing uses for the current year were \$2.725 billion lower (16.0%) than the final total budget of \$17.021 billion. There were budgetary savings in all functional expenditure categories. Due to ongoing economic uncertainties, the County remained fiscally prudent in managing appropriations throughout the fiscal year. Savings were achieved through a variety of measures including departmental hiring freezes, prioritization of purchases of services and supplies and capital assets, and continued reliance on efficiency initiatives. Following are the functional areas that recognized the largest variations from the final budget:

- The general government function reported actual expenditures that were \$752 million less than the amount budgeted. Of this amount, \$580 million represented budgetary savings for items that are not associated with specific County departments, such as provisional appropriations and central non-departmental appropriations. The remaining \$172 million was spread across virtually every department comprising general government and was mostly related to savings in the areas of salaries and services and supplies.
- The category referred to as “all other expenditures” reflected actual spending of \$749 million less than the budgeted amount. Nearly all (\$739 million) of this variance was related to the capital outlay category. There were many capital improvements anticipated in the budget that remained in the planning stages and did not incur expenditures during the year. Most of the unused balance has been reestablished in the following year’s budget to ensure the continuity of the projects, many of which are multi-year in nature.
- Actual public assistance expenditures were \$418 million lower than the final budget. Of this amount, \$355 million was concentrated in social service, children, and family programs. Administrative costs in these areas were lower than anticipated due to overall cost containment efforts, vacant positions, and delays in implementing new technology initiatives. There were also direct program savings associated with lower than anticipated caseloads. There were \$39 million of savings related to homeless and housing programs due to delays in carrying out multi-year projects. The remaining variance amount of \$24 million was related to other public assistance programs.
- Overall expenditures for the health and sanitation category were \$366 million less than the budgeted amount. Appropriations related to mental health services exceeded actual expenditures by \$256 million, primarily due to less than anticipated costs for contracted services and to a lesser extent, salary savings. Public Health Services recognized budgetary savings of \$89 million, primarily due to lower than expected contract service costs. The remaining variance of \$21 million was associated with programs administered by the Department of Health Services.

Capital Assets

The County's capital assets for its governmental and business-type activities as of June 30, 2012 were \$18.490 billion (net of depreciation). Capital assets include land, easements, buildings and improvements, equipment, software, and infrastructure. The major infrastructure network elements are roads, sewers, water, flood control, and aviation. Specific capital asset changes during the current year are presented in Note 6 to the basic financial statements.

The total increase in the County's capital assets (net of depreciation) for the current fiscal year was \$275 million, as shown in the following table.

Changes in Capital Assets, Net of Depreciation
Primary Government - All Activities

Total	<u>\$ 18,489,835</u>	<u>\$ 18,214,456</u>	<u>\$ 275,379</u>

The County's major capital asset initiatives during the current year continued to focus on new medical facilities and major improvements for the Hospitals. There was significant construction-in-progress at Harbor/UCLA Medical Center, as \$88 million was capitalized for surgical facilities and seismic retrofit projects. There were an additional \$88 million of capitalized construction costs for the Martin Luther King, Jr. inpatient tower project, and \$44 million for the Martin Luther King, Jr. Multi-Service Ambulatory Care Center project. As of the end of the current year, there were \$475 million of capital construction commitments outstanding and as discussed in the subsequent events note to the basic financial statements (Note 21), the Board approved \$720 million of new capital asset commitments in November 2012.

Debt Administration

During the current year, the County's liabilities for long-term debt increased by \$38 million, as newly issued debt and accretions of \$508 million exceeded debt maturities of \$470 million. Specific changes related to governmental and business-type activities are presented in Note 10 (Long-Term Obligations) to the basic financial statements. During the current year, significant long-term debt transactions were as follows:

**COUNTY OF LOS ANGELES
MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

- Commercial paper proceeds of \$370 million were issued for governmental and business-type activities in the amounts of \$189 million and \$181 million, respectively. For governmental activities, debt was issued to finance a new hospital facility that will be operated by a non-profit organization (see Note 13 to the basic financial statements) and fire department facilities. For business-type activities, debt was issued to finance hospital and ambulatory care improvements.
- New debt of \$79 million was issued to finance the acquisition of equipment. Equipment debt totaling \$95 million was redeemed during the year in accordance with maturity schedules.
- Current refunding debt of \$51 million, along with bond reserve funds, was issued to refund \$58 million of outstanding bond principal.

In addition to the above borrowing, the County continued to finance General Fund cash flow shortages occurring periodically during the fiscal year by selling \$1.3 billion in tax and revenue anticipation notes, with maturities of \$300 million on February 29, 2012, \$500 million on March 30, 2012, and \$500 million on June 29, 2012. The General Fund also relied upon periodic borrowing from available agency funds.

Bond Ratings

The County's debt is rated by Moody's, Standard and Poor's, and Fitch. The following is a schedule of ratings:

	<u>Moody's</u>	<u>Standard and Poor's</u>	<u>Fitch</u>
General Obligation Bonds	Aa2	AA	AA-
Facilities	A1	AA-	A+
Equipment/Non-Essential Leases	A2	AA-	A+
Operating/Non-Essential Leases	A2	AA-	A
Short-Term	MIG1	SP-1+	F1+
Flood Control District Revenue Bonds	Aaa	AA	AAA
Regional Park and Open Space District Bonds	Aa1	AA	AAA

Since the previous year, the County's bond ratings remained the same except for the following changes:

- Standard and Poor's upgraded the following ratings: General Obligation Bonds from AA- to AA, Facilities from A+ to AA-, Equipment/Non-Essential Leases from A+ to AA-, and Operating/Non-Essential Leases from A+ to AA-.
- Moody's upgraded the rating for the Flood Control District Revenue Bonds from Aa1 to Aaa and upgraded the rating for Regional Park and Open Space District Bonds from Aa2 to Aa1.

MANAGEMENT'S DISCUSSION AND ANALYSIS-Continued**

Economic Conditions and Outlook

The Board of Supervisors adopted the County's 2012-2013 Budget on June 25, 2012. The Budget was adopted based on estimated fund balances that would be available at the end of 2011-2012. The Board updated the Budget on October 2, 2012 to reflect final 2011-2012 fund balances and other pertinent financial information. For the County's General Fund, the 2012-2013 Budget, as updated in October 2012, utilized \$1.566 billion of fund balance, which exceeded the previously estimated fund balance of \$1.270 billion. Of the additional fund balance of \$296 million, \$104 million was used to carryover lapsed appropriations and the remaining \$192 million was used to fund one-time projects and programs.

After four consecutive years of budget reductions and fiscal challenges, the County's 2012-2013 budget outlook was improved and did not require program reductions or departmental curtailments. The County Assessor has released the Net Local Property Tax Roll for 2012-13 and it is 1.14% higher than the previous year. This marks the second consecutive year of increased assessed property values. Despite the relative stability of the 2012-2013 County Budget, there was a cautionary spending approach as the Board reaffirmed a hard hiring freeze, except for critical health and safety positions. Non-essential purchases of services, supplies, and capital assets also remain under close scrutiny.

The County's budgetary process continues to closely monitor the State of California's economic recovery and there are signs of an improved budget outlook at the State level. The State Legislative Analyst's Office (LAO) reports that the State budget situation has improved sharply. The improved economy, State budget reductions and voter approval of temporary taxes (State Proposition 30) have combined to significantly reduce the prospects of a State budget deficit for 2013-2014.

COUNTY OF LOS ANGELES
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
 CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 FOR THE YEAR ENDED JUNE 30, 2012 (in thousands)

Net change in fund balances - total governmental funds (page 31)		\$ (61,126)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:		
Expenditures for general capital assets, infrastructure and other related capital asset adjustments	\$ 457,331	
Less - current year depreciation expense	<u>(348,944)</u>	108,387
In the statement of activities, only the gain or loss on the disposal of capital assets is reported, whereas in the governmental funds, the proceeds from the sale are reported as an increase in financial resources. Thus, the change in net assets differs from the change in fund balance.		(4,306)
Contribution of capital assets is not recognized in the governmental funds.		35,295
Revenue timing differences result in more revenue in government-wide statements.		(58,601)
Issuance of long-term debt provides resources in the governmental funds, but increases long-term liabilities in the statement of net assets.		(258,084)
Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets:		
Certificates of participation	\$ 139,817	
Assessment bonds	26,560	
Other long-term notes, loans and capital leases	<u>22,470</u>	188,847
Some expenses reported in the accompanying statement of activities do not require (or provide) the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:		
Change in workers' compensation	\$ (61,781)	
Change in litigation and self-insurance	(39,366)	
Change in pollution remediation obligations	2,801	
Change in accrued compensated absences	(334,045)	
Change in OPEB obligation	(1,255,782)	
Change in accrued interest payable	5,906	
Change in accretion of tobacco settlement bonds	(2,321)	
Transfer of capital assets from governmental fund to enterprise fund	<u>(1,478)</u>	(1,686,066)
The portion of internal service funds that is reported with governmental activities.		<u>(53,114)</u>
Change in net assets of governmental activities (page 25)		<u><u>\$ (1,788,768)</u></u>

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The County of Los Angeles (County), which was established in 1850, is a legal subdivision of the State of California (State) charged with general governmental powers. The County's powers are exercised through an elected five member Board of Supervisors (Board), which, as the governing body of the County, is responsible for the legislative and executive control of the County. As required by the Governmental Accounting Standards Board (GASB), these basic financial statements include both those of the County and its component units. The component units discussed below are included primarily because the Board is financially accountable for them.

Blended Component Units

County management has determined that the following related entities should be included in the basic financial statements as blended component units:

Fire Protection District	Garbage Disposal Districts
Flood Control District	Sewer Maintenance Districts
Street Lighting Districts	Waterworks Districts
Improvement Districts	Los Angeles County Capital Asset Leasing Corporation (a Non Profit Corporation) (NPC)
Community Development Commission (including the Housing Authority of the County of Los Angeles and Los Angeles County Redevelopment Successor Agency) (CDC)	Various Joint Powers Authorities (JPAs)
Regional Park and Open Space District	Los Angeles County Employees Retirement Association (LACERA)
	Los Angeles County Securitization Corporation (LACSC)

Although they are separate legal entities, the various districts and the CDC are included primarily because the Board is also their governing board. As such, the Board establishes policy, appoints management and exercises budgetary control. The NPC and JPAs have been included because their sole purpose is to finance and construct County capital assets and because they are dependent upon the County for funding. Blended component units are those that, because of the closeness of the relationship with the primary government, should be blended in the basic financial statements as though they are part of the primary government. LACERA is reported in the Pension Trust Fund of the basic financial statements and has been included because its operations are dependent upon County funding and because its operations, almost exclusively, benefit the County.

The LACSC is a California public benefit corporation created by the County Board of Supervisors in January 2006. Three directors, the County's Auditor-Controller, Treasurer and Tax Collector, and an independent party designated by at least one of the County directors, govern the LACSC. The LACSC purpose is to acquire the County's rights in relation to future tobacco settlement payments and to facilitate the issuance of long-term bonds secured by the County Tobacco Assets. The LACSC provides service solely to the County and is reported as a blended component unit of the County.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Discretely Presented Component Unit

First 5 LA (First 5), was established by the County as a separate legal entity to administer the County's share of tobacco taxes levied by the State pursuant to Proposition 10. The County's Board established First 5 with nine voting members and four non-voting representatives. Of the nine voting members, one is a member of the Board of Supervisors, two are heads of County Departments (Public Health Services and Mental Health), one is an early childhood education expert, and five are public members appointed by the Board. The non-voting representatives are from other County commissions and planning groups.

First 5 services are focused on the development and well-being of all children, from the prenatal stage until age five. First 5 is a component unit of the County because the County's Board appoints the voting Commissioners and the County has the ability to impose its will by removing those Commissioners at will. It is discretely presented because its governing body is not substantially the same as the County's governing body and it does not provide services entirely or exclusively to the County.

Component Unit Financial Statements

Separate financial statements or additional financial information for each of the component units may be obtained from the Auditor-Controller at 500 West Temple Street, Room 525, Los Angeles, California 90012.

Government-wide Financial Statements

The statement of net assets and statement of activities display information about the primary government, the County, and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities, except for services provided among funds (other than internal service funds). These statements distinguish between the governmental and business-type activities of the County and between the County and its discretely presented component unit. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs. Grants and contributions that are restricted to meeting the operational or capital requirements of a particular program are also recognized as program revenues. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Government-wide Financial Statements-Continued

Net assets are classified into the following three categories: 1) invested in capital assets, net of related debt; 2) restricted and 3) unrestricted. Net assets are reported as restricted when they have external restrictions imposed by creditors, grantors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation. At June 30, 2012, the restricted net assets balances were \$2.91 billion and \$105.00 million for governmental activities and business-type activities, respectively. For governmental activities, \$707.30 million was restricted by enabling legislation.

When both restricted and unrestricted net assets are available, restricted resources are used first and then unrestricted resources are used to the extent necessary.

Fund Financial Statements

The fund financial statements provide information about the County's funds, including fiduciary funds and blended component units. Separate statements for each fund category - governmental, proprietary, and fiduciary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

The County reports the following major governmental funds:

General Fund

The General Fund is available for any authorized purpose and is used to account for and report all financial resources not accounted for and reported in another fund.

Fire Protection District Fund

The Fire Protection District Fund is used to account for fire prevention and suppression, rescue service, management of hazardous materials incidents, ocean lifeguard services, and acquisition and maintenance of District property and equipment. Funding comes primarily from the District's statutory share of the Countywide tax levy, voter-approved taxes and charges for services.

Flood Control District Fund

The Flood Control District Fund is used to account for the control and conservation of flood, storm and other waste waters, to conserve such waters for beneficial and useful purposes, and to protect the harbors, waterways, public highways and property located within the District from damage from such flood and storm waters. Funding comes primarily from the District's statutory share of the Countywide tax levy and benefit assessments (charges for services).

Public Library Fund

The Public Library Fund is used to account for free library services to the unincorporated areas of the County and to cities that contract for these services. Funding comes primarily from the District's statutory share of the Countywide tax levy and voter-approved taxes.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Fund Financial Statements-Continued

Regional Park and Open Space District Fund

The Regional Park and Open Space District Fund is used to account for the grant programs designed to preserve beaches, parks, and wild lands, to acquire and renovate new and existing recreational facilities, and to restore rivers, streams, and trails in the County. Funding comes primarily from voter-approved assessments, charges for services and long-term debt proceeds.

The County's major enterprise funds consist of four Hospital Funds and a Waterworks Enterprise Fund. The Hospital Enterprise funds provide health services to County residents. Revenues are principally patient service fees. Subsidies are also received from the General Fund. The Waterworks Enterprise Fund provides water services to County residents. Revenues are derived primarily from the sale of water and water service standby charges. A description of each Enterprise Fund is provided below:

Harbor-UCLA Medical Center

The Harbor-UCLA Medical Center (H/UCLA) provides acute and intensive care unit medical/surgical inpatient and outpatient services, trauma and emergency room services, acute psychiatric services, pediatric and obstetric services, and transplants.

Olive View-UCLA Medical Center

The Olive View-UCLA Medical Center (OV/UCLA) provides acute and intensive care, emergency services, medical/surgical inpatient and outpatient health care services, obstetric and gynecological services, and psychiatric services.

LAC+USC Medical Center

The LAC+USC Medical Center (LAC+USC) provides acute and intensive care unit medical/surgical inpatient and outpatient services, trauma and emergency room services, a burn center, psychiatric services, renal dialysis, AIDS services, pediatric and obstetric services, and communicable disease services.

Rancho Los Amigos National Rehabilitation Center

The Rancho Los Amigos National Rehabilitation Center (Rancho) specializes in the rehabilitation for victims of spinal cord injuries and strokes, pathokinesiology and polio services, services for liver diseases, pediatrics, ortho diabetes, dentistry, and neuro-science.

Waterworks Funds

The Waterworks Enterprise funds are used to account for the administration, maintenance, operation and improvement of district water systems.

The following fund types have also been reported:

Internal Service Funds

The Internal Service Funds are used to account for the financing of services provided by a department or agency to other departments or agencies on a cost-reimbursement basis. The County's principal Internal Service Fund is used to account for the cost of services provided by the Department of Public Works to various other County funds and agencies.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Fund Financial Statements-Continued

Fiduciary Fund Types

Pension Trust Fund

The Pension Trust Fund is used to account for financial activities of LACERA.

Investment Trust Funds

The Pooled Investment Trust Fund is used to account for net assets of the County's external investment pool.

The Specific Investment Trust Fund is used to account for the net assets of individual investment accounts, in aggregate. The related investment activity occurs separately from the County's investment pool and is provided as a service to external investors.

CDC Private-Purpose Trust Fund

The CDC Private-Purpose Trust Fund (PPTF) is a fiduciary fund used by the County to report trust arrangements under which principal and income benefit other governments. Unlike the limited reporting typically utilized for agency fund, a private-purpose trust fund reports a statement of fiduciary net assets and changes in fiduciary net assets. This fund reports the assets, liabilities and activities of the Los Angeles County Redevelopment Successor Agency. On February 21, 2012, the Board of Supervisors assigned CDC to become the Successor Agency for the former redevelopment agency in accordance with Assembly Bill x1 26. Specific details related to Assembly Bill x1 26 appear in Note 20.

Agency Funds

The Agency Funds are used primarily to account for assets held by the County in an agency capacity pending transfer or distribution to individuals, private organizations, other governmental entities, and other funds. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. These funds (including property taxes and departmental funds) account for assets held by the County in an agency capacity for individuals or other government units.

Basis of Accounting

The government-wide, proprietary, pension, investment and private-purpose trust fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants and similar items are recognized in the fiscal year in which all eligibility requirements have been satisfied.

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Basis of Accounting-Continued

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers revenues to be available if collectible within one year after year-end, except for property taxes, which are considered available to the extent that they are collectible within 60 days after year-end. When property taxes are measurable but not available, the collectible portion (taxes levied less estimated uncollectibles) are recorded as deferred revenue in the period when an enforceable legal claim to the assets arises or when the resources are received, whichever occurs first. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims (including workers' compensation) and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and capital lease obligations are reported as other financing sources.

For the governmental funds financial statements, revenues are recorded when they are susceptible to accrual. Specifically, property and sales taxes, investment income, and charges for services and other miscellaneous revenue are all considered to be susceptible to accrual and have been recognized as revenue in the current fiscal period. Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met and are recorded at the time of receipt or earlier, if the susceptible to accrual criteria are met. All other revenues are not considered susceptible to accrual and are recognized when received.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's four Hospital Enterprise Funds (Hospitals) are from patient services. The principal operating revenues for the Waterworks Enterprise Funds are from charges for services. The principal operating revenues for the County's Nonmajor Enterprise Funds and Internal Service Funds are charges for services and rental revenues. Operating expenses for all Enterprise Funds and the Internal Service Funds include the cost of sales and services, administrative expenses and depreciation on capital assets. Medical malpractice expenses, which are self-insured, are classified as operating expenses of the Hospitals. All other revenues and expenses not meeting this definition are reported as nonoperating items. As discussed in Note 13, intergovernmental transfer payments are recorded in the Hospitals and this item is classified as a nonoperating expense.

Agency funds do not have a measurement focus because they report only assets and liabilities. They do however, use the accrual basis of accounting to recognize receivables and payables.

The County applies all applicable Financial Accounting Standards Board (FASB) statements and pronouncements of all predecessor entities issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in accounting and reporting for government-wide and proprietary fund financial statements. FASB statements issued after November 30, 1989, have not been applied unless specifically adopted in a GASB statement.

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Budgetary Data

In accordance with the provisions of Sections 29000-29144 of the Government Code of the State of California (Government Code), commonly known as the County Budget Act, the County prepares and adopts a budget on or before October 2 for each fiscal year. Budgets are adopted for the major governmental funds and certain nonmajor governmental funds on a basis of accounting, which is different from generally accepted accounting principles (GAAP). Annual budgets were not adopted for the Flood Control District, JPAs, Public Buildings and the LACSC debt service funds, the capital project funds and the permanent funds.

The County budget is organized by budget unit and by expenditure object. Budget units are established at the discretion of the Board of Supervisors. Within the General Fund (with certain exceptions), budget units are generally defined as individual departments. For other funds, each individual fund constitutes a budget unit. Expenditures are controlled on the object level for all budget units within the County, except for capital asset expenditures, which are controlled on the sub-object level. The total budget exceeds \$25 billion and is currently controlled through the use of approximately 400 separate budget units. There were no excesses of expenditures over the related appropriations within any fund for the year ended June 30, 2012. The County prepares a separate budgetary document, the County Budget, which demonstrates legal compliance with budgetary control.

Transfers of appropriations between budget units must be approved by the Board. Supplemental appropriations financed by unanticipated revenue during the year must also be approved by the Board. Transfers of appropriations between objects of expenditure within the same budget unit must be approved by the Board or the Chief Executive Office, depending upon the amount transferred. The original and final budget amounts are reported in the accompanying basic financial statements. Any excess of budgetary expenditures and other financing uses over revenues and other financing sources is financed by beginning available fund balances as provided for in the County Budget Act.

Note 15 describes the differences between the budgetary basis of accounting and GAAP. A reconciling schedule is also presented for the major governmental funds.

Property Taxes

All jurisdictions within California derive their taxing authority from the State Constitution and various legislative provisions contained in the Government Code and Revenue and Taxation Code. Property is assessed at 100% of full cash or market value (with some exceptions) pursuant to Article XIII A of the California State Constitution and statutory provisions by the County Assessor and State Board of Equalization. The total 2011-2012 assessed valuation of the County of Los Angeles approximated \$1.071 trillion.

The property tax levy to support general operations of the various jurisdictions is limited to one percent (1%) of full cash value and is distributed in accordance with statutory formulae. Amounts needed to finance the annual requirements of voter-approved debt are excluded from this limitation and are separately calculated and levied each fiscal year. The rates are formally adopted by either the Board or the city councils and, in some instances, the governing board of a special district.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Property Taxes-Continued

The County is divided into 11,969 tax rate areas, which are unique combinations of various jurisdictions servicing a specific geographic area. The rates levied within each tax rate area vary only in relation to levies assessed as a result of voter-approved taxes or indebtedness.

Property taxes are levied on both real and personal property. Secured property taxes are levied during September of each year. They become a lien on real property on January 1 preceding the fiscal year for which taxes are levied. These tax payments can be made in two equal installments; the first is due November 1 and delinquent with penalties after December 10; the second is due February 1 and delinquent with penalties after April 10. Secured property taxes, which are delinquent and unpaid as of June 30, are declared to be tax defaulted and are subject to redemption penalties, costs, and interest when paid. If the delinquent taxes are not paid at the end of five (5) years, the property may be sold at public auction. The proceeds are used to pay the delinquent amounts due, and any excess is remitted, if claimed, to the taxpayer. Additional tax liens are created when there is a change in ownership of property or upon completion of new construction. Tax bills for these new tax liens are issued throughout the fiscal year and contain various payment and delinquent dates but are generally due within one year. If the new tax liens are lower, the taxpayer receives a tax refund rather than a tax bill. Unsecured personal property taxes are not a lien against real property. These taxes are due on August 1 and become delinquent, if unpaid, on August 31.

Legislation Dissolving Redevelopment Agencies and Affect on Property Taxes

State Assembly Bill x1 26 (AB x1 26), also referred to as the "Redevelopment Dissolution Act," was upheld by the State Supreme Court in December 2011 and redevelopment agencies were dissolved on February 1, 2012. AB x1 26 requires successor agencies to take over from the former redevelopment agencies and perform the following functions:

- Continue making payments on existing legal obligations and not incur any additional debt.
- Wind down the affairs of the former redevelopment agencies and return the funds of liquidated assets to the County's Auditor-Controller, who will in turn distribute these funds to the appropriate local government agencies.

Under AB x1 26, property tax revenues are allocated to pay enforceable legal obligations, pass-through payments and eligible administrative costs. Any remaining property tax revenues, otherwise known as "residual taxes," are distributed as property tax revenue to the appropriate local government agencies, including the County. Oversight Boards have been established for each of the 71 successor agencies within the County. The Oversight Boards are required to evaluate and approve the successor agencies' remaining enforceable legal obligations. The Auditor-Controller is responsible for disbursing property tax increment revenues in accordance with provisions of AB x1 26 and applicable amendments. For the year ended June 30, 2012, the County's share of residual property tax revenues was \$100 million, of which \$88 million was recognized in the County's General Fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Legislation Dissolving Redevelopment Agencies and Affect on Property Taxes-Continued

The County's direct involvement in redevelopment activities was limited to unincorporated areas of the County and a small number of projects. The successor agency for these activities is the County's Community Development Commission (a blended component unit) and the dissolution of County related projects is expected to have minimal impact, if any, to the County's overall financial condition. As discussed earlier in this Note 1, a newly established fiduciary fund, the Community Development Commission Private-Purpose Trust Fund, was established to account for the County's dissolution of redevelopment activities.

Deposits and Investments

In accordance with GASB 25, "Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans" and No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the accompanying basic financial statements reflect the fair value of investments. Specific disclosures related to GASB 31 appear in Note 5.

Deposits and investments are reflected in the following asset accounts:

Pooled Cash and Investments

As provided for by the Government Code, the cash balances of substantially all funds are pooled and invested by the County Treasurer for the purpose of increasing interest earnings through investment activities. Interest earned on pooled investments is deposited to participating funds based upon each fund's average daily deposit balance during the allocation period. Each respective fund's share of the total pooled cash and investments is included among asset balances under the caption "Pooled Cash and Investments."

Pooled Cash and Investments are identified within the following categories for all County operating funds:

Operating Pooled Cash and Investments

This account represents amounts reflected in the County's day-to-day financial records. Such amounts are utilized to determine the availability of cash for purposes of disbursing and borrowing funds.

Other Pooled Cash and Investments

This account represents amounts identified in various agency funds as of June 30, 2012 that were owed to or were more appropriately classified in County operating funds. Accordingly, certain cash balances have been reclassified from the agency funds as required by GASB 34.

Other Investments

"Other Investments" represent Pension Trust Fund investments, investments of the CDC, various JPAs, NPCs and Public Buildings (bond financed capital assets), and amounts on deposit with the County Treasurer, which are invested separately as provided by the Government Code or by specific instructions from the depositing entity.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Deposits and Investments-Continued

Restricted Assets

Enterprise Funds' restricted assets represent cash and investments of certain JPAs and Public Buildings projects restricted in accordance with the provisions of the certificates of participation issued. The Internal Service Funds' restricted assets represent cash and investments restricted for debt service in accordance with the provisions of the LAC-CAL bond indenture. All of the above noted assets are included in the various disclosures in Note 5. These restricted assets are presented as noncurrent assets and are generally associated with long-term bonds payable.

Inventories

Inventories, which consist of materials and supplies held for consumption, are valued at cost using the average cost basis. The inventory costs of the governmental funds are accounted for as expenditures when the inventory items are consumed. Reported inventories are categorized as nonspendable fund balance as required by GASB 54 because these amounts are not available for appropriation and expenditure.

Of the amounts reported as inventories in the governmental activities and fiduciary funds, \$23,508,000 and \$5,368,000, respectively, represents land held for resale by the CDC. The CDC records land held for resale at the lower of cost or estimated net realizable value.

Capital Assets

Capital assets, which include land and easements, buildings and improvements, equipment, intangible and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Infrastructure assets are divided into the five following networks: road; water; sewer; flood control and aviation. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the estimated fair value at the date of donation. Certain buildings and equipment are being leased under capital leases as defined in FASB Statement No. 13. The present value of the minimum lease obligation has been capitalized in the statement of net assets and is also reflected as a liability in that statement.

Capital outlay is recorded as expenditures in the fund financial statements and as assets in the government-wide financial statements to the extent the County's capitalization threshold is met. Interest incurred during the construction phase of the capital assets of business-type activities is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Capital Assets-Continued

The County's capitalization thresholds are \$5,000 for equipment, \$100,000 for buildings and improvements, \$1 million for software intangible assets, \$100,000 for non-software intangible assets, and \$25,000 for infrastructure assets. Maintenance and repairs are charged to operations when incurred. Betterments and major improvements, which significantly increase values, change capacities, or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and the related accumulated depreciation or amortization, as applicable, are removed from the respective accounts and any resulting gain or loss is included in the results of operations. Specific disclosures related to capital assets appear in Note 6. Amortization for software and other intangible assets is included in the reporting of depreciation.

Capital assets are depreciated or amortized using the straight-line method over the following estimated useful lives:

Buildings and Improvements	10 to 50 years
Equipment	2 to 35 years
Software	5 to 25 years
Infrastructure	15 to 100 years

Works of art and historical treasures held for public exhibition, education, or research in furtherance of public service, rather than financial gain, are not capitalized. These items are protected, encumbered, conserved, and preserved by the County. It is the County's policy to utilize proceeds from the sale of these items for the acquisition of other items for collection and display.

Advances Payable

The County uses certain agency funds as clearing accounts for the distribution of financial resources to other County funds. Pursuant to GASB 34, for external financial reporting purposes, the portions of the clearing account balances that pertain to other County funds should be reported as cash of the appropriate funds. The corresponding liability is included in "Advances Payable."

Compensated Absences

Vacation pay benefits accrue to employees ranging from 10 to 20 days per year depending on years of service and the benefit plan. Sick leave benefits accrue at the rate of 10 to 12 days per year for union represented employees depending on years of service. Non-represented employees accrue at a rate of up to 8 days per year depending on the benefit plan. Employees can also accumulate unused holiday and compensatory time off benefits throughout the year. All benefits are payable upon termination, if unused, within limits and rates as specified in the County Salary Ordinance.

Liabilities for accrued compensated absences are accrued in the government-wide financial statements and in the proprietary funds. For the governmental funds, expenditures are recorded when amounts become due and payable (i.e., when employees terminate from service).

In FY 2011-2012, and in conjunction with its various collective bargaining agreements, the County re-evaluated the accumulation of compensatory time earned on holidays and compensatory overtime. As a result of this review, approximately \$474 million of current year additions were made to the liabilities for compensated absences. The increase was concentrated in the public protection functional area due to the heavy reliance on those departments to provide continuous service to the public.

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Long-term Debt

In the government-wide and proprietary funds financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary funds statement of net assets. Bond premiums, discounts and deferred losses on refunding, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium, discount or deferred losses on refundings. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the governmental funds financial statements, bond premiums, discounts, and issuance costs, are recognized in the period issued. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. Interest is reported as an expenditure in the period in which the related payment is made. The matured portion of long-term debt (i.e. portion that has come due for payment) is reported as a liability in the fund financial statements of the related fund.

Fund Balances

In the fund financial statements, the governmental funds report the classification of fund balance in accordance with GASB 54 "Fund Balance Reporting and Governmental Fund Type Definitions." The reported fund balances are categorized as nonspendable, restricted, committed, assigned, or unassigned based on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Specific details related to Fund Balances appear in Note 19.

Nonspendable Fund Balance - amounts that cannot be spent because they are either (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories and long-term notes receivable.

Restricted Fund Balance - amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. Restrictions may effectively be changed or lifted only by changing the condition of the constraint.

Committed Fund Balance - amounts that can only be used for the specific purposes determined by a formal action of the County's highest level of decision-making authority, the County's Board. Commitments may be changed or lifted only by the County taking the same formal action that imposed the constraint originally. The underlying action that imposed the limitation needs to occur no later than the close of the fiscal year.

Assigned Fund Balance - amounts intended to be used by the County for specific purposes that are neither restricted nor committed. The intent can be established at either the highest level of decision making, or by a body or an official designated for that purpose.

Unassigned Fund Balance - the residual classification for the County's General Fund that includes amounts not contained in other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

Fund Balance-Continued

The Board of Supervisors establishes, modifies, or rescinds fund balance commitments by passage of an ordinance or resolution. In FY 2011-2012, the County reviewed the GASB 54 criteria and determined that an ordinance or resolution is equally binding, and either action can establish a fund balance commitment. This is done through the adoption of the budget and subsequent amendments that occur throughout the fiscal year.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is generally depleted in the order of restricted, committed, assigned, and unassigned.

Cash Flows

For purposes of reporting cash flows, all amounts reported as "Pooled Cash and Investments," "Other Investments", and "Restricted Assets" are considered cash equivalents. Pooled cash and investment amounts represent funds held in the County Treasurer's cash management pool. Other investments and restricted assets are invested in money market mutual funds held by outside trustees. Such amounts are similar in nature to demand deposits (i.e., funds may be deposited and withdrawn at any time without prior notice or penalty).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Reclassification

Certain prior year balances may have been reclassified in order to conform to current year presentation. These reclassifications have no effect upon reported net assets or fund balances.

2. NEW PRONOUNCEMENTS

For the fiscal year ended June 30, 2012, the County implemented GASB 64, "Derivative Instruments: Application of Hedge Accounting Termination Provisions." GASB 64 is an amendment to GASB 53, "Accounting for Financial Reporting for Derivative Instruments."

GASB 64 sets forth criteria that establish when the effective hedging relationship continues and hedge accounting should continue to be applied. GASB 64 did not have an impact to the County or LACERA financial statements.

3. NET ASSET DEFICITS-Continued

The Enterprise and Internal Service Funds' deficits result primarily from the recognition of certain liabilities including accrued compensated absences, Other Postemployment Benefits (OPEB) obligation, workers' compensation, self-insurance and, for the enterprise funds, medical malpractice, and third party payors, as required by GAAP. Deficits are expected to continue until such liabilities are retired through user charges or otherwise funded.

4. ELIMINATIONS

The Regional Park and Open Space District (RPOSD), a blended component unit, is authorized to issue assessment bonds to acquire and improve recreational land and facilities. These bonds are secured by voter-approved property tax assessments. The RPOSD executed a financing agreement with the Public Works Financing Authority, another blended component unit referred to in the basic financial statements as "Joint Powers Authorities" (JPAs). Under the terms of the agreement, the RPOSD sold \$510,185,000 of bonds in 1997 that were acquired as an investment by the JPAs. The JPAs financed this investment from proceeds of a simultaneous issuance of an equivalent amount of bonds as a public offering. The structure of the publicly offered JPA bonds was designed to match the RPOSD's bonds relative to principal and interest maturities and interest rates. This series of transactions was conducted to facilitate the issuance of RPOSD related bonds and to minimize the County's overall interest cost. Pursuant to the financing agreement with the JPAs, the RPOSD has pledged all available tax assessments necessary to ensure the timely payment of principal and interest on the bonds issued by the JPAs. The 1997 bonds were partially refunded in 2004-2005 and the remaining 1997 bonds were fully refunded in 2007-2008. The transactions between the two component units have been accounted for as follows:

Fund Financial Statements

At June 30, 2012, the governmental fund financial statements reflect an investment asset (referred to as "Other Investments") held by the JPAs of \$170,725,000 that has been recorded in the Nonmajor Governmental Funds. The governmental fund financial statements do not reflect a liability for the related bonds payable (\$170,725,000), as this obligation is not currently due. Accordingly, the value of the asset represents additional fund balance in the Nonmajor Governmental Funds.

In order to reflect the economic substance of the transaction described above, an eliminations column has been established in the governmental fund financial statements. The purpose of the column is to remove the duplication of assets, fund balances, revenues and expenditures that resulted from the consolidation of the two component units into the County's overall financial reporting structure.

Government-wide Financial Statements

The government-wide financial statements are designed to minimize the duplicative effects of transactions between funds. Accordingly, the effects of the transaction described above have been eliminated from the amounts presented within governmental activities (as appropriate under the accrual basis of accounting). The specific items eliminated were other investments and bonds payable (\$170,725,000) and investment income and interest expense (\$9,270,000 for each). Accordingly, there are no reconciling differences between the two sets of financial statements (after the effects of eliminations) for this matter.

4. ELIMINATIONS-Continued

Government-wide Financial Statements-Continued

The bonds payable of \$170,725,000, that were publicly issued, are included among the liabilities presented in the Government-wide Financial Statements. Disclosures related to those outstanding bonds appear in Note 10 and are captioned "Assessment Bonds."

5. CASH AND INVESTMENTS

Investments in the County's cash and investment pool, other cash and investments, and Pension Trust Fund investments, are stated at fair value. Aggregate pooled cash and investments and other cash and investments are as follows at June 30, 2012 (in thousands):

	Pooled Cash and Investments	Other Investments	Restricted Assets		Total

Deposits-Custodial Credit Risk

The custodial credit risk for deposits is the risk that the County will not be able to recover deposits that are in the possession of an outside party. Deposits are exposed to custodial credit risk if they are not insured or not collateralized.

At June 30, 2012, the carrying amount of the County's deposits was \$144,251,000 and the balance per various financial institutions was \$141,999,000. The County's deposits are not exposed to custodial credit risk since all of its deposits are either covered by federal depository insurance or collateralized with securities held by the County or its agent in the County's name, in accordance with California Government Code Section 53652.

At June 30, 2012, the carrying amount of Pension Trust Fund deposits was \$130,198,000. Pension Trust Fund deposits are held in the Fund's custodial bank and, therefore, are not exposed to custodial credit risk since its deposits are eligible for and covered by "pass through insurance" in accordance with applicable law and FDIC rules and regulations.

Investments

State statutes authorize the County to invest pooled funds in certain types of investments including obligations of the United States Treasury, federal, State and local agencies, municipalities, asset-backed securities, mortgaged-backed securities, bankers' acceptances, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, negotiable certificates of deposits, medium-term notes, corporate notes, repurchase agreements, reverse repurchase agreements, floating rate notes, time deposits, shares of beneficial interest of a Joint Powers Authority that invests in authorized securities, shares of beneficial interest issued by diversified management companies known as money market mutual funds (MMF) registered with the Securities and Exchange Commission, State and local agency investment funds, mortgage pass-through securities, and guaranteed investment contracts. The investments are managed by the County Treasurer who reports on a monthly basis to the Board of Supervisors. In addition, Treasury investment activity is subject to an annual investment policy review, compliance oversight, quarterly financial reviews, and annual financial reporting.

As permitted by the Government Code, the County Treasurer developed, and the Board adopted, an Investment Policy that further defines and restricts the limits within which the County Treasurer may invest. The table below identifies the investment types that are authorized by the County, along with the related concentration of credit limits:

<u>Authorized Investment Type</u>	<u>Maximum Maturity</u>	<u>Maximum Percentage of Portfolio</u>	<u>Maximum Investment In One Issuer</u>
U.S. Treasury Notes, Bills and Bonds	None	None	None
U.S. Agency Securities	None	None	None

Asset-Backed Securities	5 years	20%	\$500 million*

*Represents restriction in which the County's Investment Policy is more restrictive than the California Government Code.

**The maximum percentage of portfolio is based on the investment limit established by LAIF for each account, not by Pool Policy.

Investments held by the County Treasurer are stated at fair value, except for certain non-negotiable securities that are reported at cost because they are not transferable and have terms that are not affected by changes in market interest rates such as repurchase agreements, mortgage trust deeds, Los Angeles County securities and guaranteed investment contracts. The fair value of pooled investments is determined and provided by the custodian bank based on quoted market prices at month-end. The method used to determine the value of participants' equity withdrawn is based on the book value, which is amortized cost, of the participants' percentage participation at the date of such withdrawals.

5. CASH AND INVESTMENTS-Continued

Investments-Continued

At June 30, 2012, the County had open trade commitments with various brokers to purchase investments totaling \$1,123,745,000 with settlement dates subsequent to year-end. These investments have been included in Pooled Cash and Investments-Other and corresponding liabilities have been recorded as Other Payables.

The Pension Trust Fund is managed by LACERA. Pension Trust Fund investments are authorized by State Statutes, which are referred to as the "County Employees' Retirement Law of 1937." Statutes authorize a "Prudent Expert" guideline as to form and types of investments, which may be purchased. Examples of the Fund's investments are obligations of the various agencies of the federal government, corporate and private placement bonds, global bonds, domestic and global stocks, domestic and global convertible debentures and real estate. LACERA's investment policy also allows the limited use of derivatives by certain investment managers. The classes of derivatives that are permitted are futures contracts, currency forward contracts, options, and swaps.

The interest rate risk, foreign currency risk, credit risk, concentration of credit risk, and custodial credit risk related to Pension Trust Fund investments are different than the corresponding risk on investments held by the County Treasurer. Detailed deposit and investment risk disclosures are included in Note G and Note I of LACERA's Report on Audited Financial Statements for the year ended June 30, 2012.

The School Districts and the Superior Court are required by legal provisions to participate in the County's investment pool. Eighty percent (80%) of the Treasurer's external investment pool consists of these involuntary participants. Voluntary participants in the County's external investment pool include the Sanitation Districts, Metropolitan Transportation Authority, the South Coast Air Quality Management District and other special districts with independent governing boards. The deposits held for both involuntary and voluntary entities are included in the Pooled Investment Trust Fund. Certain Specific Purpose Investments (SPI) have been made by the County, as directed by external depositors. This investment activity occurs separately from the County's investment pool and is reported in the Specific Investment Trust Fund in the amount of \$98,785,000. The pool is not registered as an investment company with the Securities and Exchange Commission (SEC) nor is it an SEC Rule 2a7-like pool. California Government Code statutes and the County Board of Supervisors set forth the various investment policies that the County Treasurer must follow.

County pooled and other investments (excluding Pension Trust Fund other investments) at June 30, 2012 (in thousands) are as follows:

Pension Trust Fund investments are reported in the basic financial statements at fair value at June 30, 2012 (in thousands) and are as follows:

	<u>Fair Value</u>
Domestic and international equity	\$ 20,478,503
Fixed income	10,747,978

Private equity	3,789,891

Hedge Funds	251,955
Total	<u>\$ 40,096,673</u>

The Pension Trust Fund also had deposits with the Los Angeles County Treasury Pool at June 30, 2012 totaling \$63,046,000. The Pension Trust Fund portfolio contained no concentration of investments in any one organization (other than those issued or guaranteed by the U.S. Government) that represents 5% or more of total investments.

The County has not provided nor obtained any legally binding guarantees during the year ended June 30, 2012 to support the value of shares in the Treasurer's investment pool.

Fair value fluctuates with interest rates, and increasing rates could cause fair value to decline below original cost. County management believes the liquidity in the portfolio is more than adequate to meet cash flow requirements and to preclude the County from having to sell investments below original cost for that purpose.

A summary of deposits and investments held by the Treasury Pool is as follows (in thousands):

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County's Investment policy limits most investment maturities to less than three years, with the exception of commercial paper and bankers' acceptances, which are limited to 270 days and 180 days, respectively. In addition, U.S. Treasury Notes, Bills, and Bonds may have maturities beyond five years. The County Treasurer manages equity and mitigates exposure to declines in fair value by generally investing in short-term investments with maturities of six months or less and by holding all investments to maturity. The County's investment guidelines limit the weighted average maturity of its portfolios to a target of less than 1.5 years. Of the Pooled Cash and Investments and Other Investments at June 30, 2012, 50.96% have a maturity of six months or less, 6.02% have a maturity of between six and twelve months, and 43.02% have a maturity of more than one year.

As of June 30, 2012, variable-rate notes comprised 3.81% of the Treasury Pool and Other Investment portfolios. The notes are tied to one-month and three-month London Interbank Offered Rate (LIBOR) with monthly and quarterly coupon resets. The fair value of variable-rate coupon resets back to the market rate on a periodic basis. Effectively, at each reset date, a variable-rate investment reprices back to par value, eliminating interest rate risk at each periodic reset.

Custodial Credit Risk

Custodial credit risk for investments is the risk that the County will not be able to recover the value of investment securities that are in the possession of an outside party. All securities owned by the County are deposited in trust for safekeeping with a custodial bank different from the County's primary bank, except for Bond Anticipation Notes, certain long-term debt proceeds issued by Los Angeles County entities, investment in the State's Local Agency Investment Fund, and mortgage trust deeds, which are held in the County Treasurer's vault. Securities are not held in broker accounts. At June 30, 2012, the County's external investment pools and specific investments did not have any securities exposed to custodial credit risk and there was no securities lending.

Credit Risk and Concentration of Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The County Treasurer mitigates these risks by holding a diversified portfolio of high quality investments.

The County's investment policy establishes minimum acceptable credit ratings for investments from any two Nationally Recognized Statistical Rating Organizations (NRSROs). For an issuer of short-term debt, the rating must be no less than A-1 (S&P) or P-1 (Moody's) while an issuer of long-term debt shall be rated no less than an "A." All investments purchased in the fiscal year met the credit rating criteria in the Investment Policy, at the issuer level. While the NRSROs rated the issuer of the investments purchased, it did not in all instances rate the investment itself (e.g. commercial paper, corporate and deposit notes, and negotiable certificates of deposit). For purposes of reporting credit quality distribution of investments in the following table, some investments are reported as not rated. At June 30, 2012, a portion of the County's other investments was invested in the State of California's Local Agency Investment Fund, which is unrated as to credit quality.

The County's Investment Policy, approved annually by the Board of Supervisors, limits the maximum total par value for each permissible security type (e.g., commercial paper and certificates of deposit) to a certain percentage of the investment pool. Exceptions to this are obligations of the United States government and United States government agencies or government-sponsored enterprises, which do not have limits. Further, the County restricts investments in any one issuer based on the issuer's Nationally Recognized Statistical Rating Organization (NRSRO) ratings. For bankers' acceptances, certificates of deposit, corporate notes and floating rate notes, the highest issuer limit was \$500 million, approximately 2.12% of the investment pool's daily investment balance. For commercial paper, the highest issuer limit was \$750 million, or 3.18% of the investment pool's daily investment balance.

The Pool and SPI had the following U.S. Agency securities in a single issuer that represent 5 percent or more of total investments at June 30, 2012 (in thousands):

<u>Issuer</u>	<u>Pool</u>	<u>SPI</u>
Federal Farm Credit Bank	\$ 2,355,659	\$ 8,050

A separate financial report is issued for the Treasury Pool. The most current report, as of June 30, 2011, is available on the Treasurer's website, and the report as of June 30, 2012, is in progress. The following represents a condensed statement of net assets and changes in net assets for the Treasury Pool as of and for the year ended June 30, 2012 (in thousands):

Statement of Net Assets	
Net assets held in trust for all pool participants	<u>\$ 22,273,527</u>
Equity of internal pool participants	\$ 8,355,428
Equity of external pool participants	<u>13,918,099</u>

Statement of Changes in Net Assets	
Net assets at July 1, 2011	\$ 24,248,618
Net change in investments by pool participants	<u>(1,975,091)</u>
Net assets at June 30, 2012	<u>\$ 22,273,527</u>

The unrealized gain on investments held in the Treasury Pool was \$64,289,000 as of June 30, 2012. This amount takes into account all changes in fair value (including purchases, sales and redemptions) that occurred during the year.

Reverse Repurchase Agreements

The California Government Code permits the County Treasurer to enter into reverse repurchase agreements, that is, a sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The fair value of the securities underlying reverse repurchase agreements normally exceeds the cash received, providing the broker-dealer a margin against a decline in the fair value of the securities. If the broker-dealer defaults on the obligation to resell these securities to the County or provide securities or cash of equal value, the County would suffer an economic loss equal to the difference between the fair value plus accrued interest of the underlying securities and the agreement obligation, including accrued interest.

The County's investment guidelines limit the maximum par value of reverse repurchase agreements to \$500,000,000 and proceeds from reverse repurchase agreements may only be reinvested in instruments with maturities at or before the maturity of the reverse repurchase agreement. During the fiscal year, the County did not enter into any reverse repurchase agreements.

Floating Rate Notes

The California Government Code permits the County Treasurer to purchase floating rate notes, that is, any instruments that have a coupon interest rate that is adjusted periodically due to changes in a base or benchmark rate. The County's investment guidelines limit the amount of floating rate notes to 10% of the Los Angeles County Treasury Pool portfolio and prohibit the purchase of inverse floating rate notes and hybrid or complex structured investments. As of June 30, 2012, there were approximately \$844,101,000 in floating rate notes.

Derivatives

LACERA utilizes forward currency contracts to control currency exposure and facilitate the settlement of international security purchase and sale transactions. Included in net investment income are gains and losses from foreign currency transactions. At June 30, 2012, forward currency contracts receivable and payable totaled \$7,543,962,000 and \$7,501,703,000, respectively. All investment derivative positions are included as part of investments at fair value on LACERA's statement of plan net assets. All changes in fair value are reported as part of net appreciation/(depreciation) in fair value of investments in the statement of changes in plan net assets.

LACERA's Investment Policy Statement and Investment Manager Guidelines allow the limited use of other investment derivatives by certain investment managers. Detailed derivative disclosures are included in Note I of LACERA's Report on Audited Financial Statements for the year ended June 30, 2012.

Securities Lending Transactions

LACERA, as the administering agency for the Pension Trust Fund, is authorized to participate in a securities lending program under policies adopted by the LACERA Board of Investments. This program is an investment management activity that mirrors the fundamentals of a loan transaction in which a security is used as collateral. Securities are lent to brokers and dealers (borrowers) and LACERA receives cash as collateral. LACERA pays the borrower interest on the collateral received and invests the collateral with the goal of earning a higher yield than the interest rate paid to the borrower.

LACERA's program is managed by one principal borrower and two agent lenders. Under exclusive borrowing and lending arrangements, securities on loan must be collateralized with a fair value of 102% for U.S. securities, and 105% for international securities, of the borrowed securities. Collateral is marked to market daily. Cash collateral is invested by the agent lenders in short-term, liquid instruments.

Under the terms of the lending agreements, the two agent lenders have agreed to hold LACERA harmless for borrower default from the loss of securities or income, or from any litigation arising from these loans. The principal borrower's agreement entitles LACERA to terminate all loans upon the occurrence of default and purchase a like amount of "replacement securities." Either LACERA or the borrower can terminate all loans on securities on demand.

Securities Lending Transactions-Continued

At year-end, LACERA had no credit risk exposure to borrowers because the collateral exceeded the amount borrowed. As of June 30, 2012, there were no violations of legal or contractual provisions. LACERA had no losses on securities lending transactions resulting from the default of a borrower for the year ended June 30, 2012.

As of June 30, 2012, the fair value of securities on loan was \$2.01 billion. The value of the cash collateral received for those securities was \$1.47 billion and the non-cash collateral was \$587 million. Securities lending assets (Other Investments) and liabilities (Other Payables) of \$1.5 billion are recorded in the Pension Trust Fund. Pension Trust Fund income, net of expenses, from securities lending was \$3.8 million for the year ended June 30, 2012.

For the year ended June 30, 2012, the Los Angeles County Treasury Pool did not enter into any securities lending transactions.

The business-type activities included equipment transfers from the County's General Fund to each Hospital Fund. Capital contributions totaling \$1.5 million are shown in the statement of revenues, expenses and changes in fund net assets for each of the Hospital Funds.

The State Trial Court Facilities Act (SB 1732, Chapter 1082 of 2002), as amended by later statutes, authorized the County to enter into agreements with the State of California for the transfer of responsibility for and title to court facilities, as well as for the joint occupancy of those court facilities. Administrative oversight of court operations was transferred from the County to the State in 1998, pursuant to State legislative action at that time. The Trial Court Facilities Act is a continuation of this process. Although the County is required to make ongoing "maintenance of effort" payments to the State for the transferred facilities, the amount is fixed and the County will no longer be responsible for costs, which exceed the fixed amount due to inflation and other factors.

In fiscal year 2011-2012, the County recorded two courthouse transfers of buildings and improvements to the State, which resulted in a loss on the transfer of capital assets used in governmental activities. The loss of \$13.6 million is reported as a general government expense in the government-wide statement of activities.

7. PENSION PLAN

Plan Description

The County pension plan is administered by the Los Angeles County Employees Retirement Association (LACERA), which was established under the County Employees' Retirement Law of 1937. It provides benefits to employees of the County and the following additional entities that are not part of the County's reporting entity:

Little Lake Cemetery District
Local Agency Formation Commission
Los Angeles County Office of Education
South Coast Air Quality Management District

New employees of the latter two agencies are not eligible for LACERA benefits.

LACERA is technically a cost-sharing, multi-employer defined benefit plan. However, because the non-County entities are immaterial to its operations the disclosures herein are made as if LACERA was a single employer defined benefit plan. LACERA provides retirement, disability, death benefits and cost of living adjustments to eligible members. Benefits are authorized in accordance with the California Constitution, the County Employees' Retirement Law, the bylaws, procedures and policies adopted by LACERA's Boards of Retirement and Investments and Board of Supervisors' resolutions.

Plan Description-Continued

LACERA issues a stand-alone financial report, which is available at its offices located at Gateway Plaza, 300 N. Lake Avenue, Pasadena, California 91101-4199.

Funding Policy

LACERA has seven benefit tiers known as A, B, C, D and E, and Safety A and B. All tiers except E are employee contributory. Tier E is employee non-contributory. New general employees are eligible for tiers D or E at their discretion. New safety members are eligible for only Safety B. Rates for the tiers are established in accordance with State law by LACERA's Boards of Retirement and Investments and the County Board of Supervisors.

The following employer rates were in effect for 2011-2012:

The rates were determined by the actuarial valuation performed as of June 30, 2010 and June 30, 2011, respectively. The June 30, 2010 and June 30, 2011 actuarial valuations were used to calculate the annual required contribution (ARC).

Employee rates vary by the option and employee entry age from 5% to 15% of their annual covered salary.

During 2011-2012, the County contributed the full amount of the ARC.

Funded Status and Funding Progress

As of June 30, 2011, the most recent actuarial valuation date, the funded ratio was determined to be 80.6%. The actuarial value of assets was \$39.2 billion, and the actuarial accrued liability (AAL) was \$48.6 billion, resulting in an unfunded AAL of \$9.4 billion. The covered payroll was \$6.7 billion and the ratio of the unfunded AAL to the covered payroll was 141.4%.

The schedule of funding progress, presented as Required Supplementary Information (RSI) following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

The annual required contribution was calculated using the entry age normal method. The most recent actuarial valuation also assumed an annual investment rate of return of 7.70%, and projected salary increases ranging from 4.21% to 10.19%, with both assumptions including a 3.45% inflation factor. Additionally, the valuation assumed post-retirement benefit increases of between 2% and 3%, in accordance with the provisions of the specific benefit options. The actuarial value of assets was determined utilizing a five-year smoothed method based on the difference between the expected market value and the actual market value of assets as of the valuation date. The assumptions remained the same from the last actuarial valuation completed in 2010.

The County contribution rate to finance the unfunded AAL is 16.31% and 17.54% of payroll, which is a weighted average for all LACERA plans, as determined by the June 30, 2010 and 2011 actuarial valuations, respectively.

LACERA uses the accrual basis of accounting. Member and employer contributions are recognized in the period in which the contributions are due, and benefits and refunds are recognized when payable in accordance with the terms of each plan.

8. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

LACERA administers a cost-sharing, multi-employer defined benefit Other Postemployment Benefit (OPEB) plan on behalf of the County. As indicated in Note 7-Pension Plan, because the non-County entities are immaterial to its operations, the disclosures herein are made as if LACERA was a single employer defined benefit plan.

In April 1982, the County of Los Angeles adopted an ordinance pursuant to Government Code Section 31691, which provided for a health insurance program and death benefits for retired employees and their dependents. In 1994, the County amended the agreements to continue to support LACERA's retiree insurance benefits program regardless of the status of active member insurance.

LACERA issues a stand-alone financial report that includes the required information for the OPEB plan. The report is available at its offices located at Gateway Plaza, 300 North Lake Avenue, Pasadena, California 91101-4199.

Funding Policy

Health care benefits earned by County employees are dependent on the number of completed years of retirement service credited to the retiree by LACERA upon retirement; it does not include reciprocal service in another retirement system. The benefits earned by County employees range from 40% of the benchmark plan cost with ten completed years of service to 100% of the benchmark plan cost with 25 or more completed years of service. In general, each completed year of service after ten years reduces the member's cost by 4%. Service includes all service on which the member's retirement allowance was based.

Health care benefits include medical, dental, vision, Medicare Part B reimbursement and death benefits. In addition to these retiree health care benefits, the County provides long-term disability benefits to employees, and these benefits have been determined to fall within the definition of OPEB, per GASB 45. These long-term disability benefits provide for income replacement if an employee is unable to work because of illness or injury. Specific coverage depends on the employee's employment classification, chosen plan and, in some instances, years of service.

The County's contribution during 2011-2012 is on a pay-as-you-go basis. During the 2011-2012 fiscal year, the County made payments to LACERA totaling \$379.7 million for retiree health care benefits. Included in this amount was \$38.0 million for Medicare Part B reimbursements and \$6.9 million in death benefits. Additionally, \$36.0 million was paid by member participants. The County also made payments of \$36.7 million for long-term disability benefits.

Establishment of OPEB Trust

Pursuant to the California Government Code, the County established an irrevocable Other Post-Employment Benefit (OPEB) Trust for the purpose of holding and investing assets to pre-fund the Retiree Health Program, which LACERA administers. On May 15, 2012, the Los Angeles County Board of Supervisors entered into a trust and investment services agreement with the LACERA Board of Investments to act as trustee and investment manager. The County established an OPEB trust fund and there were no financing activities during the current year.

8. OTHER POSTEMPLOYMENT BENEFITS-Continued

Establishment of OPEB Trust-Continued

The OPEB Trust is the County's first step to reduce its OPEB unfunded liability. It will provide a framework where the Board of Supervisors can begin making contributions to the trust and transition, over time, from "pay-as-you-go" to "pre-funding." The OPEB Trust does not modify the County's benefit programs.

Annual OPEB Cost and Net OPEB Obligation

The County's Annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB 45. The OPEB cost and OPEB obligation were determined by the OPEB health care actuarial valuation as of July 1, 2010, and the OPEB long-term disability actuarial valuation as of July 1, 2011. The following table shows the ARC, the amount actually contributed and the net OPEB obligation (in thousands):

Funded Status and Funding Progress

As of July 1, 2010, the most recent actuarial valuation date for OPEB health care benefits, the funded ratio was 0%. The actuarial value of assets was zero. The actuarial accrued liability (AAL) was \$22.9 billion, resulting in an unfunded AAL of \$22.9 billion. The covered payroll was \$6.7 billion and the ratio of the unfunded AAL to the covered payroll was 342.62%.

As of July 1, 2011, the most recent actuarial valuation date for OPEB long-term disability benefits, the funded ratio was 0%. The assumptions remained the same from the last actuarial valuation completed in 2009. The actuarial value of assets was zero. The AAL was \$1.019 billion, resulting in an unfunded AAL of \$1.019 billion. The covered payroll was \$6.7 billion and the ratio of the unfunded AAL to the covered payroll was 15.22%.

The schedules of funding progress are presented as RSI following the notes to the financial statements. These RSI schedules present multi-year trend information.

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continued revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point.

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future.

Actuarial calculations reflect a long-term perspective. Actuarial methods and assumptions used include techniques designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

While the actuarial valuations for OPEB health care and OPEB long-term disability benefits were prepared by two different firms, they both used the same methods and assumptions, with one exception noted below. The projected unit credit cost method was used. Both valuations assumed an annual investment rate of return of 5%, an inflation rate of 3.5% per annum and projected general wage increases of 4%. The increases in salary due to promotions and longevity do not affect the amount of the OPEB program benefits. An actuarial asset valuation was not performed. Finally, the OPEB valuation report used the level percentage of projected payroll over a rolling (open) 30-year amortization period. The OPEB Long-Term Disability valuation report used the level dollar of projected payroll over a rolling (open) 30-year amortization period.

Buildings and improvements	153,513
Equipment	63,036
Accumulated depreciation	(37,477)
Total	<u>\$ 196,351</u>

Future rent revenues to be received from noncancelable subleases are \$1,160,000 as of June 30, 2012.

Leases of County-Owned Property

The County has entered into operating leases relative to the Marina del Rey Project area, various County golf courses and regional parks, and Asset Development Projects. Substantially all of the Marina's land and harbor facilities are leased to others under agreements classified as operating leases. Certain golf courses and regional parks are leased under agreements, which provide for activities such as golf course management and clubhouse operations, food and beverage concessions, and recreational vehicle camping. The Asset Development Projects are ground leases and development agreements entered into by the County for private sector development of commercial, industrial, residential, and cultural uses on vacant or underutilized County owned property. The Asset Development leases cover remaining periods ranging generally from 1 to 85 years and are accounted for in the General Fund. The lease terms for the golf courses and regional parks cover remaining periods ranging from 1 to 27 years and are also accounted for in the General Fund. The Marina del Rey leases cover remaining periods ranging from 1 to 55 years and are accounted for in the General Fund.

The land carrying value of the Asset Development Project ground leases and the Marina del Rey Project area leases is \$435,086,000. The carrying value of the capital assets associated with the golf course and regional park operating leases is not determinable.

The following is a schedule of future minimum rental receipts on noncancelable leases as of June 30, 2012 (in thousands):

<u>Year Ending June 30</u>	Governmental Activities

Assessment Bonds

The Regional Park and Open Space District issued voter approved assessment bonds in 1997, some of which were advance refunded in 2004-2005 and the remainder in 2007-2008, to fund the acquisition, restoration, improvement and preservation of beach, park, wildlife and open space resources within the District. As discussed in Note 4, the bonds were purchased by the Public Works Financing Authority (Authority) and similar bonds were issued as a public offering. The bonds issued by the Authority are payable from the pledged proceeds of annual assessments levied on parcels within the District's boundaries.

The bonds mature in fiscal year 2019-2020. Annual principal and interest payments of the bonds are expected to require less than 50% of annual assessment revenues. Total principal and interest remaining on the bonds is \$198,963,000, not including unamortized bond premiums. Principal and interest for the current year and assessment revenues were \$35,830,000 and \$79,484,000, respectively.

Certificates of Participation

The County has issued certificates of participation (COPs) through various financing entities that have been established by, and are component units of, the County. The debt proceeds have been used to finance the acquisition of County facilities and equipment. The County makes annual payments to the financing entities for the use of the property and the debt is secured by the underlying capital assets that have been financed. During the 2011-2012 fiscal year, the County issued COPs of \$50,675,000 to refund the 1998 Disney Concert Hall Parking Garage Refunding COPs and \$55,475,000 to finance equipment purchases. The allocation of debt between Governmental Activities and Business-type Activities was \$101,816,000 and \$4,334,000, respectively.

The County has pledged net revenues from the Calabasas Landfill for the payment of the Calabasas Landfill Project Revenue bonds, included here in the Public Buildings COPS, issued in 2005 and maturing in 2022. To the extent that the net available revenues, in the amount of \$679,000, are insufficient to cover the debt payments in any fiscal year, the County has pledged to make the debt payments from any source of legally available funds. The County paid \$2,540,000 of the current fiscal year debt payment of \$3,219,000. Total principal and interest remaining on the bonds is \$35,959,000.

Tobacco Settlement Asset-Backed Bonds

In 2006, the County entered into a Sale Agreement with the Los Angeles County Securitization Corporation (LACSC) under which the County relinquishes to the LACSC a portion of its future tobacco settlement revenues (TSRs) for the next 40 years. The County received from the sold TSRs a lump sum payment of \$319,827,000 and a residual certificate in exchange for the rights to receive and retain 25.9% of the County's TSRs through 2046. The residual certificate represented the County's ownership interest in excess TSRs to be received by the LACSC during the term of the Sale Agreement. Residuals through 2012 were \$131,514,000. The total TSRs sold, based on the projected payment schedule in the Master Settlement Agreement and adjusted for historical trends, was estimated to be \$1,438,000,000. The estimated present value of the TSRs sold, net of the expected residuals and assuming a 5.7% interest rate at the time of the sale, was \$309,230,000. In the event of a decline in the tobacco settlement revenues for any reason, including the default or bankruptcy of a participating cigarette manufacturer, resulting in a decline in the tobacco settlement revenues and possible default on the Tobacco Bonds, neither the California County Tobacco Securitization Agency, the County, nor the LACSC has any liability to make up any such shortfall.

Notes and Loans

Bond Anticipation Notes (BANS) are issued by the Los Angeles County Capital Assets Leasing Corporation (LACCAL) to provide interim financing for equipment purchases. BANS are purchased by the County Treasury Pool and are payable within five years. In addition, the BANS are issued with a formal agreement that, in the event they are not liquidated within the five-year period, they convert to capital lease obligations with a three-year term secured by County real property. During the 2011-2012 fiscal year, LACCAL issued additional BANS in the amount of \$18,040,000, as reflected in Governmental Activities and \$2,460,000 as reflected in Business-type Activities.

CDC notes are secured by annual contributions from the United States Department of Housing and Urban Development (HUD) and housing units constructed with the note proceeds. Commission mortgage notes are secured by revenues from the operation of housing projects and from housing assistance payments from HUD. During the 2011-2012 fiscal year, CDC issued additional notes payable in the amount of \$3,216,000 as reflected in Governmental Activities and \$6,000 as reflected in Business-type Activities.

Marina del Rey loans were obtained from the California Department of Boating and Waterways for the restoration and renovation of the marina seawall. The loans are secured by Marina del Rey lease revenue and by Los Angeles County Music Center parking revenues.

During the 2011-2012 fiscal year, the Waterworks District obtained loans in the amount of \$5,032,000 from the California Department of Public Health for the replacement of aging water pipelines. The loans are secured by revenue from surcharges collected for capital improvements.

Notes, Loans, and Commercial Paper-Continued

Commercial Paper

Tax-exempt commercial paper (TECP) notes provide the County with a flexible and cost-effective source of financing to provide interim funding during the initial construction phase of a capital project, which may be refinanced with the issuance of long-term bonds upon completion. Repayment of the TECP is secured by irrevocable direct-pay letters of credit (LOC) from four separate banks, with twenty-four County-owned properties pledged as collateral in a lease-revenue financing structure with the Los Angeles County Capital Asset Leasing Corporation. The LOCs were issued for a three-year period and have a termination date of April 26, 2013. The County has the option to extend the LOCs for an additional one-year period, or to some other term mutually agreed to with the participating banks.

The aggregate principal amount of the four LOCs is \$400 million, which consists of \$175 million of Series A (JP Morgan), \$75 million of Series B (Bank of America), \$75 million of Series C (Wells Fargo) and \$75 million of Series D (Union Bank). For Series A, B and C, the County is required to pay an annual fee equal to 1.25% of the stated amounts of the LOCs. For Series D, the County is required to pay an annual fee equal to 0.95% of the stated amount on the utilized portion of the LOC and 0.50% of the stated amount on the unutilized portion of the LOC. The stated amount for each LOC series is equal to the sum of the principal amount and the 12% maximum interest rate permitted on the LOCs. As of June 30, 2012, \$370 million of TECP notes were outstanding, including \$175 million of Series A, \$75 million of Series B, \$75 million of Series C and \$45 million of Series D.

The TECP notes are issued as variable rate instruments with a maximum term not to exceed 270 days. On the maturity date of the TECP notes, the notes are re-issued at prevailing interest rates in the short term note market, which reflects the term of the note and the perceived credit quality of the supporting letter of credit bank. During fiscal year 2011-2012, County issued TECP notes are reflected as notes payable in the amount of \$189,065,000 for Governmental Activities and \$180,935,000 for Business-type Activities. The average interest rate on TECP notes in fiscal year 2011-2012 was 0.152%.

Long-term liabilities recorded in the Government-wide Statement of Net Assets include accreted interest on zero coupon bonds, unamortized bond premiums, and unamortized losses on advance debt refunding.

Current Refunding of Debt

On March 6, 2012, the County issued \$50,675,000 of 2012 Refunding Certificate of Participation for Disney Concert Hall Parking Garage, maturing on various dates between 2020 and 2023. These bonds, with an average rate of 3.12%, were issued to refund the outstanding principal amount of \$57,975,000 of bonds issued in 1995, with an average interest rate of 4.75%.

Proceeds from the sale of the Certificates were deposited in an irrevocable trust with an escrow agent to provide for the prepayment of debt service payments on the refunded bonds. Accordingly, the refunded bonds were considered to be defeased and the liabilities for those bonds were removed from the Government-Wide Statement of Net Asset – Governmental Activities. Specific disclosures related to the refunding issue are as follows (in thousands):

Current Refunding of Debt-Continued

For the refunding transaction, the carrying amount of the refunded debt was less than the reacquisition price. This difference was \$375,000. This amount has been reported as a reduction of the amount of outstanding debt in the basic financial statements.

Bonds Defeased in Prior Years

In prior years, various debt obligations, consisting of bonds and certificates of participation, were defeased by placing the proceeds of refunding bonds in an irrevocable trust to provide for all future debt service payments on the old obligations. Accordingly, the trust account assets and the related liabilities for the defeased bonds are not reflected in the County's financial position. At June 30, 2012, the amount of outstanding bonds and certificates of participation considered defeased was \$18,410,000. All of this amount was related to governmental activities.

Changes in Long-term Liabilities-Continued

For governmental activities, the General Fund, the Fire Protection District Special Revenue Fund and the Public Library Special Revenue Fund have typically been used to liquidate workers' compensation, accrued compensated absences and litigation and self-insurance.

Bond interest accretions for deep discount bonds have been included in the amounts reported for Bonds and Notes. Accretions increased during 2011-2012, thereby increasing liabilities for Bonds and Notes by \$425,000 for governmental activities. Note 17 contains information about changes in the combined current and long-term liabilities for workers' compensation and litigation and self-insurance.

11. SHORT-TERM DEBT

On July 1, 2011, the County issued \$ 1,300,000,000 of short-term Tax and Revenue Anticipation Notes Series A, B and C at an effective interest rate of 0.32%, 0.34%, and 0.40%, respectively. The proceeds of the notes were used to assist with County General Fund cash flow needs prior to the first major apportionment of property taxes, which occurred in December 2011. The Series A notes, \$300,000,000, matured and were redeemed on February 29, 2012, the Series B notes, \$500,000,000, on March 30, 2012 and the Series C notes, \$500,000,000, on June 29, 2012.

12. CONDUIT DEBT OBLIGATIONS

Community Facilities and Improvement District Bonds

As of June 30, 2012, various community facilities and improvement districts established by the County had outstanding special tax bonds payable totaling \$59,614,000 and limited obligation improvement bonds totaling \$8,357,000. The bonds were issued to finance the cost of various construction activities and infrastructure improvements, which have a regional or direct benefit to the related property owners.

The bonds do not constitute an indebtedness of the County and are payable solely from special taxes and benefit assessments collected from property owners within the districts. In the opinion of County officials, these bonds are not payable from any revenues or assets of the County and neither the full faith and credit of the County, the State or any political subdivision thereof is obligated to the payment of the principal or interest on the bonds. Accordingly, no liability has been recorded in the accompanying basic financial statements.

The County functions as an agent for the districts and bondholders. Debt service transactions related to the various bond issues are reported in the agency funds. Construction activities are reported in the Improvement Districts' Capital Projects Fund.

Residential Mortgage Revenue Bonds

Residential Mortgage Revenue Bonds have been issued to provide funds to purchase mortgage loans secured by first trust deeds on newly constructed and existing single family residences in the County. The purpose of this program is to provide low interest rate home mortgage loans to persons who are unable to qualify for conventional mortgages at market rates. Multi-Family Mortgage Revenue Bonds have been issued to provide permanent financing for apartment projects located in the County to be partially occupied by persons of low or moderate income. The amount of Mortgage Revenue Bonds outstanding as of June 30, 2012, was \$336,087,000.

12. CONDUIT DEBT OBLIGATIONS-Continued

Residential Mortgage Revenue Bonds-Continued

The bonds do not constitute an indebtedness of the County. The bonds are payable solely from payments made on and secured by a pledge of the acquired mortgage loans and certain funds and other monies held for the benefit of the bondholders pursuant to the bond indentures. In the opinion of County officials, these bonds are not payable from any revenues or assets of the County, and neither the full faith and credit nor the taxing authority of the County, the State or any political subdivision thereof is obligated to the payment of the principal or interest on the bonds. Accordingly, no liability has been recorded in the accompanying basic financial statements.

Industrial Development and Other Conduit Bonds

Industrial development bonds, and other conduit bonds, have been issued to provide financial assistance to private sector entities and nonprofit corporations for the acquisition of industrial and health care facilities, which provide a public benefit. The bonds are secured by the facilities acquired and/or bank letter of credit and are payable solely from project revenue or other pledged funds. The County is not obligated in any manner for the repayment of the bonds. Accordingly, no liability has been recorded in the accompanying basic financial statements.

As of June 30, 2012, the amount of industrial development and other conduit bonds outstanding was \$24,255,000.

13. HOSPITAL AND OTHER PROGRAM REVENUES

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Medi-Cal Demonstration Project

In November, 2010, the Centers for Medicare and Medicaid Services (CMS) approved, pursuant to Section 1115(a) of the Social Security Act, the new Medi-Cal demonstration project, called the California Bridge to Reform, which effects many aspects of Medi-Cal revenue for the County hospitals and clinics including the financing methods by which the State draws down federal matching funds. It incorporates many of the features of the prior demonstration projects, particularly as they relate to inpatient hospital services paid on a fee-for-service basis (FFS), and disproportionate share hospital (DSH) payments.

Under the Demonstration Project, revenues for the public hospitals are comprised of: 1) cost-based reimbursement for inpatient hospital services for Medi-Cal patients who are not enrolled in managed care; 2) DSH payments; and 3) distribution from a pool of federal funding for uninsured care, known as the Safety Net Care Pool (SNCP), which was capped Statewide at \$436.0 million in FY 2011-2012. The non-federal share of these three types of payments is provided by the public hospitals rather than the State, through certified public expenditures (CPE). In addition to CPE, for DSH, Intergovernmental Transfers (IGT) are also made whereby the hospital would utilize its local funding for services to draw down the federal financial participation (FFP).

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

13. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Medi-Cal Demonstration Project-Continued

The federal medical assistance percentage (FMAP), which establishes the matching amount for the FFS cost-based reimbursement, was 50% for FY 2011-2012.

The FMAP for DSH remains at 50%. For the inpatient hospital cost-based reimbursement, each hospital receives all of the federal match associated with its CPE.

For the DSH and SNCP distributions, the CPEs of all the public hospitals are used in the aggregate to draw down the federal match. It is therefore possible for one hospital to receive the federal match that results from another hospital's CPE. In this situation, the first hospital is referred to as a "recipient" hospital, while the second is referred to as a "donor" hospital. A recipient hospital is required to "retain" the FFP amounts resulting from donated CPEs.

The County also provides funding for the State's share of the DSH program by transferring funds to the State. These transferred funds, referred to as IGTs are used by the State to draw down federal matching funds. The combined IGTs sent to the State by each Hospital Enterprise Fund, plus the matching federal funds, are utilized by the State to provide supplemental funding for the Demonstration Project.

The Demonstration Project restricts the amount of IGTs that may be used for DSH payments. A hospital's IGT may be used to draw federal DSH funding, but only with respect to DSH payments made to that hospital, and the gross amount of such IGT funded payments (non-federal plus federal match) may not exceed 75% of the hospital's uncompensated care costs. The gross IGT funded DSH payment must be "retained" by the recipient hospital fund.

The County recognizes the funding received under the Demonstration Project by each hospital as net patient services revenue, unless mentioned otherwise, as reflected in the statement of revenues, expenses, and changes in fund net assets. The IGTs are reflected as nonoperating expenses by each hospital in the statement of revenues, expenses, and changes in fund net assets.

The IGTs paid during FY 2011-2012 include payments for services provided in FYs 2010-2011 and 2011-2012. The estimated Medi-Cal Demonstration Project net revenues for inpatient services, DSH and SNCP include amounts collected and accrued for FY 2011-2012 as adjusted for over/under-realization of revenues for FY 2005-2006 through FY 2010-2011. 13. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Medi-Cal Demonstration Project-Continued

Besides these revenues, the Demonstration Project provides support for public hospital systems in the following areas:

Coverage Expansion – Low Income Health Program or Healthy Way LA

Under the Demonstration Project, counties have the option to expand coverage by operating a Low Income Health Program (LIHP). Under this plan the County may cover individuals up to 133% of the federal poverty level (FPL), known as the Medicaid Coverage Expansion (MCE) population for a particular group of services, and receive federal matching funds for the amount they expend. If counties meet certain federal requirements and have the resources available to do so, they can also cover individuals between 133% and 200% FPL, known as the Health Care Coverage Initiative (HCCI) population. The LIHP will run through the end of 2013, at which time coverage under federal health care reform will take effect.

For the County, the LIHP program is called Healthy Way LA (HWLA) – Matched. In FY 2011-2012, supplemental federal revenues estimated at \$142.5 million for patient care services and \$10.3 million for HWLA administration were recognized.

CMS is currently considering a proposal retroactively to allow the County to change the basis for HWLA payments to capitation. Once CMS makes a decision on a capitation rate, the County will decide whether to actually make the change.

Delivery System Reform Incentive Pool

The Demonstration Project establishes the Delivery System Reform Incentive Pool (DSRIP), which will tie federal funding to the achievement of milestones in care delivery improvements. To obtain funding under the DSRIP, public hospital systems submitted a five-year plan showing how they will accomplish desired results, and will be required to achieve significant milestones that were approved by the State and CMS. The amounts below, in thousands, were recorded as “other operating revenues” in FY 2011-2012:

	<u>DSRIP Gross Revenues</u>	<u>Intergovernmental Transfers Expense</u>

13. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Medi-Cal Demonstration Project-Continued

Managed Care for Seniors and Persons with Disabilities (SPDs)

Under the Demonstration Project, the State of California requires Medi-Cal beneficiaries who are Seniors and Persons with Disabilities (SPDs) to enroll in managed care plans, rather than using a fee for service system, in an effort to provide more coordinated care and contain costs. In FY 2011-2012, an estimated \$93.6 million of SPD gross revenues were recorded, which included \$92.5 million for FY 2011-2012 and \$1.1 million for FY 2010-2011.

SPD also requires that the County make IGTs to the State to fund the non-federal share of Medi-Cal inpatient payments for this population and expenses associated with such IGTs were \$22.0 million in FY 2011-2012.

Reported CPEs Subject to Audit

All CPEs reported by each hospital will be subject to State and federal audit and final reconciliation. If at the end of the final reconciliation process, it is determined that a hospital's claimed CPEs resulted in an overpayment of federal funds to the State, the hospital may be required to return the overpayment whether or not the County's hospital received the federal matching funds.

Medi-Cal Physician State Plan Amendment (Physician SPA)

Prior to July 1, 2005, Medi-Cal inpatient physician professional services (as well as non-physician practitioner services) provided by the County were reimbursed as part of an all-inclusive fixed contract rate per-diem. Effective July 1, 2005, public hospitals were no longer paid a fixed rate but were reimbursed under a Demonstration Project. The Demonstration Project payment for inpatient and other facility services excluded professional services. California State Plan Amendment 05-23 allows professional services to be paid similarly to the inpatient hospital services under the Demonstration Project. Hospitals are allowed to claim federal reimbursement for unreimbursed costs of Medi-Cal professional services (Hospital Inpatient, Emergency Room, and Psychiatric services), which is matched at the applicable FMAP rate for the year.

Net revenues of \$21.7 million were recognized during FY 2011-2012 and included adjustments for the over/under-realization of revenues associated with FY 2005-2006 through FY 2010-2011.

Other Medi-Cal Programs

Cost Based Reimbursement Clinics (CBRC)

CBRC reimburses 100% of allowable costs for outpatient services provided to Medi-Cal beneficiaries at the County's hospital-based clinics, Multi-Service Ambulatory Care Centers (MACC) and health centers (excluding clinics that provide predominately public health services). The Department-wide CBRC revenues in FY 2011-2012 were \$203.5 million. As of June 30, 2012, the County estimated that approximately \$219.8 million of CBRC accounts receivable would not be collectable within 12 months and this amount is classified as a noncurrent asset in the proprietary fund statements of net assets for each hospital.

13. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Other Medi-Cal Programs-Continued

Medi-Cal Cost Report Settlements

All of the FY 2007-2008 CBRC audit reports were issued and total audit settlements of \$68.5 million were paid to the County. The Department issued appeal letters to the State Office of Administrative Appeals regarding unresolved audit adjustment issues. The informal level appeal hearing between DHS and the Medi-Cal Auditors to discuss disputed adjustments before the Administrative Hearing Officer was held during August 2012. The hearing results are anticipated to be issued sometime next year.

The State auditors are in the process of finalizing the FY 2008-09 CBRC audit findings and the anticipated issuance of the audit report is late December 2012.

Medi-Cal Managed Care Rate Supplement

The State received permission from CMS to continue the Medi-Cal Managed Care rate supplements paid to L.A. Care and Health Net for the period October 1, 2010 through September 30, 2011. The supplement is funded by an IGT made by the County. The County does not receive managed care payments directly from the State; rather, the State contracts with L.A. Care and Health Net, which then subcontract for services with various provider networks, including DHS' Community Health Plan and providers.

For L.A. Care and Health Net, the total estimated revenues and related estimated IGTs recorded in FY 2011-2012, including prior year over/under realization, are as follows (in thousands):

	<u>Program Revenues</u>	<u>Intergovernmental Transfers Expense</u>
L.A. Care	\$ 100,080	\$ 46,783
Health Net	44,196	20,556
Totals	<u>\$ 144,276</u>	<u>\$ 67,339</u>

Revenues from the various Medi-Cal programs (i.e., FFS, DSH, SNCP, CBRC, AB 915, SB 1732, etc.) represent approximately 61% of the hospitals' patient care revenue for the year ended June 30, 2012.

Medicare Program

Services to inpatient Medicare program beneficiaries are primarily paid under prospectively determined rates-per-discharge based upon diagnostic related groups (DRGs). Certain other services to Medicare beneficiaries are reimbursed based on a fee schedule or other rates.

Medicare audits have been ongoing at all hospitals. The initial notices of program reimbursement (NPR) have not been issued for all hospitals for recent fiscal years due to CMS Ruling No. CMS-1498-R, which required a revision to the methodology used to determine Medicare DSH payments. Before the initial NPR can be issued, CMS will revise the data matching process in recalculating the hospital's Medicare Supplemental Security Income (SSI) fraction that determines a portion of the Disproportionate Share payment adjustment for each hospital. The remaining issues, other than the Medicare DSH SSI fraction issue, have been reviewed and completed for all hospitals through FY 2005-2006.

13. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Medicare Program-Continued

For FY 2002-2003 and FY 2003-2004, the audits have been completed for all hospitals and NPRs have been issued for the former Martin Luther King Jr./Drew Medical Center (MLK/D), Harbor-UCLA Medical Center (H-UCLA MC), Rancho Los Amigos National Rehabilitation Center (RLANRC), and Olive View-UCLA Medical Center (OV-UCLA MC) only. LAC+USC Medical Center (LAC+USC MC) has not received their NPR due to the Medicare SSI fraction issue.

For FY 2004-2005, the audits have been completed and the NPRs issued for MLK/D and OV-UCLA MC only. Except for the Medicare SSI fraction issue, the FY 2004-2005 audits have been completed for LAC+USC MC, H-UCLA MC and RLANRC.

For FY 2005-2006, the audits have been completed and NPRs issued for MLK/D and OV-UCLA MC only. Except for the Medicare SSI fraction issue, the FY 2005-2006 audits have been completed for LAC+USC MC, H-UCLA MC, and RLANRC.

For FY 2006-2007, the audits for MLK/D, RLANRC and OV-UCLA MC have been completed and the NPRs have been issued. The audits are in progress for H-UCLA MC and LAC+USC MC.

For FY 2007-2008, the audits for RLANRC and OV-UCLA MC have been completed except for the Medicare SSI fraction issue. The audits are in progress for LAC+USC MC and H-UCLA MC. Effective August 16, 2007, MLK/D ceased to be certified as a participant in the Medicare program and will not undergo a hospital Medicare audit for FY 2007-2008 due to low Medicare utilization.

For FY 2008-2009, the Medicare audit has been completed, except for the Medicare SSI fraction issue for RLANRC. The audit is in progress for OV-UCLA MC. Audits for LAC+USC MC and H-UCLA MC have not been scheduled.

For FY 2009-2010, the audits are in progress for RLANRC and OV-UCLA MC. Audits for LAC+USC MC and H-UCLA MC have not been scheduled.

For FY 2010-2011, audits have not been scheduled for LAC+USC MC, H-UCLA MC, RLANRC, and OV-UCLA MC.

Revenues from the Medicare program represent approximately 8% of patient care revenue for the year ended June 30, 2012.

Revenues related to the aforementioned programs are included in the accompanying basic financial statements as hospital operating revenues. Uncollected amounts are reported as accounts receivable-net. Claims for these programs are subject to audit by State and/or federal agencies.

Accounts Receivable-Net

The following is a summary, by hospital, of accounts receivable and allowances for uncollectible amounts as of June 30, 2012 (in thousands):

	<u>H-UCLA</u>	<u>OV-UCLA</u>	<u>LAC+USC</u>	<u>Rancho</u>	<u>Total</u>
Accounts receivable	\$1,783,472	\$ 901,138	\$ 2,346,958	\$ 420,022	\$ 5,451,590

Charity Care

Charity care includes those uncollectible amounts, for which the patient is unable to pay. Generally, charity care adjustment accounts are those accounts for which an indigence standard has been established and under which the patient qualifies. Inability to pay may be determined through one of the Department's Reduced Cost Health Care programs, through other collection efforts by the Department, by the Treasurer-Tax Collector, or by an outside collection agency. Determinations of charity care may be made prior to, at the time of service, or any time thereafter.

The total amount of such charity care provided by the hospitals for the year ended June 30, 2012, based on established rates, is as follows (in thousands):

Charges forgone	\$2,033,597
Less: Federal and State subventions	<u>-</u>
Net charges forgone	<u>\$2,033,597</u>

Martin Luther King, Jr.

The County and the University of California ("UC"), with the State, have created a wholly independent, non-profit 501(c)(3), the Martin Luther King, Jr.-Los Angeles Healthcare Corporation, to operate a new hospital at the MLK-MACC site. The new hospital would: i) serve as a safety-net provider treating a high volume of Medi-Cal and uninsured patients and ii) be integrated with the County's existing network of specialty and primary care ambulatory clinics. The seven-member MLK Hospital Board of Directors was appointed by the County and UC effective on August 10, 2010, and is proceeding with efforts to open the new MLK Hospital. Construction of the new hospital facility at the MLK-MACC site is expected to be completed by mid-year 2013.

14. INTERFUND TRANSACTIONS

Interfund Receivables/Payables

Interfund receivables and payables have been eliminated in the government-wide financial statements, except for "internal balances" that are reflected between the governmental and business-type activities. Interfund receivables and payables have been recorded in the fund financial statements. Such amounts arise due to the exchange of goods or services (or subsidy transfers) between funds that were pending the transfer of cash as of June 30, 2012.

Interfund Transfers

Transfers were made during the year from the General Fund to subsidize the operations of the Public Library and the four hospitals. Other transfers primarily consisted of payments from the various operating funds (principally the General Fund) to debt service funds in accordance with long-term debt covenants. In addition, special revenue funds that are statutorily restricted made transfers to other funds to reimburse eligible costs incurred.

Interfund transfers to/from other funds for the year ended June 30, 2012 are as follows (in thousands):

The General Fund, along with other funds that receive services from the Public Works Internal Service Fund, makes short-term advances to ensure sufficient cash is available to fund operations. In addition, the General Fund makes short-term and long-term advances to assist the Hospital Funds in meeting their cash flow requirements. The County estimates that a portion of Hospital revenue is not collectible within one year and has identified long-term receivables in each Hospital Enterprise Fund. To assist the Hospital Funds in meeting their cash flow requirements, the General Fund provided a \$162.7 million long-term advance and classified a corresponding amount of fund balance as nonspendable balance.

15. BUDGETARY ACCOUNTING DIFFERENCES/RECONCILIATIONS BETWEEN THE BUDGETARY BASIS AND GAAP

The County's Statement of Revenues, Expenditures and Changes in Fund Balances-Budget and Actual on Budgetary Basis for the major governmental funds has been prepared on the budgetary basis of accounting, which is different from GAAP.

The Budget adopted by the County for FY 2011-2012 uses fund balance terminology that was in effect prior to GASB 54. As such, the Statement of Revenue, Expenditures, and Changes in Fund Balances-Budget and Actual on Budgetary Basis continues to make reference to reserves and designations.

The amounts presented for the governmental fund statements are based on the modified accrual basis of accounting and differ from the amounts presented on a budgetary basis of accounting. The major areas of difference are as follows:

- For budgetary purposes, reserves and designations are recorded as other financing uses at the time they are established. Although designations are not legal commitments, the County recognizes them as uses of budgetary fund balance. Designations that are subsequently cancelled or otherwise made available for appropriation are recorded as other financing sources.
- Under the budgetary basis, revenues (primarily intergovernmental) are recognized at the time encumbrances are established for certain programs and capital improvements. The intent of the budgetary policy is to match the use of budgetary resources (for amounts encumbered, but not yet expended) with funding sources that will materialize as revenues when actual expenditures are incurred. Under the modified accrual basis, revenues are not recognized until the qualifying expenditures are incurred.
- For the General Fund, obligations for accrued compensated absences and estimated liabilities for litigation and self-insurance are recorded as budgetary expenditures to the extent that they are estimated to be payable within one year after year-end. Under the modified accrual basis of accounting, such expenditures are not recognized until they become due and payable in accordance with GASB Interpretation No. 6.

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

15. BUDGETARY ACCOUNTING DIFFERENCES/RECONCILIATIONS BETWEEN THE BUDGETARY BASIS AND GAAP-Continued

- In conjunction with the sale of Tobacco Settlement Asset-Backed bonds in 2005-06, the County sold 25.9% of its future tobacco settlement revenues. Under the budgetary basis, the proceeds were recognized as revenues. Under the modified accrual basis, the proceeds were recorded as a sale of future revenues and were being recognized over the duration of the sale agreement, in accordance with GASB 48. This matter is also discussed in Note 10, under the caption, "Tobacco Settlement Asset-Backed Bonds."
- Under the budgetary basis, property tax revenues are recognized to the extent that they are collectible within one year after year-end. Under the modified accrual basis, property tax revenues are recognized only to the extent that they are collectible within 60 days.
- For budgetary purposes, investment income is recognized prior to the effect of changes in the fair value of investments. Under the modified accrual basis, the effects of such fair value changes have been recognized.
- In conjunction with implementing GASB 45, the County determined that certain assets were held by LACERA (the OPEB administrator) in an OPEB Agency Fund. For budgetary purposes, any excess payments (beyond the pay-as-you-go amount) are recognized as expenditures. Under the modified accrual basis, the expenditures are adjusted to recognize the OPEB Agency assets at June 30, 2012.

The following schedule is a reconciliation of the budgetary and GAAP fund balances for the major governmental funds (in thousands):

16. COMMITMENTS AND CONTINGENCIES

Construction Commitments

At June 30, 2012, there were contractual commitments of approximately \$252.3 million for various general government construction projects and approximately \$223.0 million for various hospital construction projects that were financed by bonds and commercial paper.

LACERA Capital Commitments

At June 30, 2012, LACERA had outstanding capital commitments to various investment managers, approximating \$2,210,000,000. Subsequent to June 30, 2012, LACERA funded \$220,000,000 of these capital commitments.

Encumbrances

The County uses "encumbrances" to control expenditure commitments for the year. Encumbrances represent commitments related to executory contracts not yet performed and purchase orders not yet filled. Commitments for such expenditure of monies are encumbered to reserve applicable appropriations. Depending on the source(s) of funding, encumbrances are reported as part of restricted, committed or assigned fund balance on the governmental funds balance sheet. As of June 30, 2012, the encumbrance balances for the governmental funds (in thousands) are reported as follows:

	<u>Restricted</u>	<u>Committed</u>	<u>Assigned</u>	<u>Total</u>
General Fund	\$	\$	\$ 397,192	\$ 397,192
Fire Protection District	27,697			27,697
Flood Control District	51,582			51,582
Public Library			12,792	12,792
Regional Park and Open Space District	56,667			56,667
Nonmajor Governmental Funds	120,101	14,428	4,848	139,377
Total Encumbrances	<u>\$ 256,047</u>	<u>\$ 14,428</u>	<u>\$ 414,832</u>	<u>\$ 685,307</u>

17. RISK MANAGEMENT

The County purchases insurance for certain risk exposures such as aviation, employee fidelity, boiler and machinery in certain structures, art objects, catastrophic hospital general liability, volunteer, special events, public official bond, crime, safety reserve employee death and disability, and fiduciary liability for the deferred compensation plans. There have been no settlements related to these programs that exceeded insurance coverage in the last three years. The County also has insurance on most major structures. Losses did not exceed coverage in 2009-2010, 2010-2011 or 2011-2012.

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

17. RISK MANAGEMENT-Continued

The County retains the risk for all other loss exposures. Major areas of risk include workers' compensation, medical malpractice, law enforcement, theft and damage to property including natural disasters, errors and omissions, and torts. Expenditures are accounted for in the fund whose operations resulted in the loss. Claims expenditures and liabilities are reported when it is probable that a loss has been incurred and the amount of that loss, including those incurred but not reported, can be reasonably estimated. The County utilizes actuarial studies, historical data, and individual claims reviews to estimate these liabilities. The liabilities include estimable incremental claim adjustment expenses, net of salvage, and subrogation of approximately 10% of the total liabilities. They do not include other claim adjustment costs because the County does not believe it is practical or cost effective to estimate them.

As indicated in the following table, the County's workers' compensation balance as of June 30, 2012 were approximately \$2.123 billion. This amount is undiscounted and is based on an actuarial study of the County's self-insured program as of June 30, 2012. Approximately \$101,715,000 of the total liabilities pertain to salary continuation payments and other related costs mandated by the State Labor Code.

As of June 30, 2012, the County's best estimate of these liabilities is \$2.385 billion. Changes in the reported liability since July 1, 2010 resulted from the following (in thousands):

	<u>Beginning of Fiscal Year Liability</u>	<u>Current Year Claims and Changes In Estimates</u>	<u>Claim Payments</u>	<u>Balance At Fiscal Year-End</u>
<u>2010-2011</u>				
Workers' Compensation	\$ 2,159,415	\$ 245,578	\$(334,395)	\$ 2,070,598
Other	<u>257,708</u>	<u>22,302</u>	<u>(67,760)</u>	<u>212,250</u>
Total 2010-2011	<u>\$ 2,417,123</u>	<u>\$ 267,880</u>	<u>\$(402,155)</u>	<u>\$ 2,282,848</u>
<u>2011-2012</u>				
Workers' Compensation	\$ 2,070,598	\$ 407,207	\$(355,289)	\$ 2,122,516
Other	<u>212,250</u>	<u>115,340</u>	<u>(64,653)</u>	<u>262,937</u>
Total 2011-2012	<u>\$ 2,282,848</u>	<u>\$ 522,547</u>	<u>\$(419,942)</u>	<u>\$ 2,385,453</u>

In addition to the above estimated liabilities, the County has determined that claims seeking damages of approximately \$148.7 million are reasonably possible of creating adverse judgments against the County. Because of the uncertainty of their outcome, no loss has been accrued for these claims.

18. POLLUTION REMEDIATION

GASB 49 establishes accounting and reporting guidelines for the recognition and measurement of pollution remediation obligation (liabilities).

The County is involved in several remediation actions to clean up pollution sites within its boundaries. These matters generally coincide with the County's ownership of land, buildings and infrastructure assets. In some cases, regulatory agencies (e.g., Regional Water Quality Board, State Department of Toxic Control, California Coastal Commission) notified the County of the need for remedial action. In addition, the County conducts its own environmental monitoring and this activity identifies pollution sites and matters requiring further investigation and possible remediation. Once the County is aware of these conditions, it commences monitoring, assessment, testing and/or clean up activities, and recognizes pollution remediation obligation when estimates can reasonably be determined.

COUNTY OF LOS ANGELES
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2012

18. POLLUTION REMEDIATION-Continued

The types of pollution that have been identified include leaking underground storage tanks, water, groundwater and soil contamination, asbestos and lead paint contamination, methane gas detection and excessive levels of other contaminants. Remediation efforts include developing remediation and feasibility studies, source identification studies, site testing, sampling and analysis, ground water clean up, and removal of storage tanks, asbestos tiles and other hazardous materials.

As of June 30, 2012, the County's estimated pollution remediation obligation totaled \$25,294,000. These obligations were all associated with the County's government-wide governmental activities. Obligations of enterprise and internal service funds were immaterial. The estimated liabilities were determined by project managers, based on historical cost information for projects of the same type, size and complexity and measured at their current value. In subsequent periods, the County will adjust estimated obligations when new information indicates that such changes are required. At this time, the County has determined there are no estimated recoveries reducing the obligations.

19. FUND BALANCES

Fund balances are presented in the following categories: nonspendable, restricted, committed, assigned, and unassigned as described in Note 1. A detailed schedule of fund balances for all the major and nonmajor governmental funds at June 30, 2012 (in thousands) are as follows:

Reserve for "Rainy Day" Fund

On June 22, 2009, the Board established a Reserve for "Rainy Day" fund. The Reserve for "Rainy Day" fund was established and maintained to protect essential County programs against unforeseen emergencies and economic downturns. The Reserve cap should be 10% of on-going locally generated revenue. Transfers of three percent (3%) should be made into the Reserve each year, if feasible, until the 10% cap is met.

When the Reserve cap of 10% is exceeded, the excess may be available for specified one-time purposes such as capital projects, unfunded retiree health obligations, efficiency measures and information technology initiatives. The objective is to avoid on-going commitments with funding that may not be sustainable in an economic downturn.

The County's "Rainy-Day" fund does not meet the criteria for a stabilization arrangement for reporting the funds as either restricted or committed. As such, the Reserve for "Rainy Day" funds in the amount of \$93,271,000 is reported as unassigned fund balance in the General Fund.

20. EXTRAORDINARY ITEMS

First 5 LA (Discretely Presented Component Unit)

On March 24, 2011, the Governor signed Assembly Bill 99 ("AB 99") into law. AB 99 established the Children and Families Health and Human Services Fund (the "CFHHSF"). As specified in the legislation, the CFHHSF will be used, upon appropriation, by the California State Legislature for health and human services. First 5 LA accrued the AB 99 amount of \$424,389,000 as a liability with a corresponding expense at June 30, 2011 as an extraordinary item.

20. EXTRAORDINARY ITEMS-Continued

First 5 LA (Discretely Presented Component Unit)-Continued

A lawsuit was filed by First 5 LA against the State challenging that the AB 99 violates the intent of Proposition 10. Several Counties joined the suit against the State and in November 2011, a Fresno Superior Court judge found AB 99 invalid. As a result, the AB 99 liability reflected in the First 5 LA statement of net assets as of June 30, 2011 in the amount of \$424,389,000 was reversed, a corresponding extraordinary item was recognized in FY 2011-2012, and net assets for this matter were restored in the government-wide financial statements.

Community Development Commission

On December 29, 2011, the California Supreme Court upheld Assembly Bill x1 26 (AB x1 26) that provides for the dissolution of all redevelopment agencies in the State of California. This action impacted the County's Community Development Commission (CDC) that previously had reported a redevelopment agency.

AB x1 26 provides that upon the dissolution of the redevelopment agency, either CDC or another unit of local government will agree to serve as the "successor agency" to hold the assets until they are distributed to other units of state and local government. On February 21, 2012, the Board of Supervisors assigned CDC to become the Successor Agency for the County's former redevelopment agency.

All redevelopment agencies in the State of California were dissolved and ceased to operate as a legal entity as of February 1, 2012. Prior to that date, the final seven months of activity of the redevelopment agency continued to be reported in the governmental funds of the CDC Nonmajor Special Revenue fund. After the date of dissolution, the assets and activities of the dissolved redevelopment agency are reported in the financial statements in the CDC Private-Purpose Trust Fund.

The transfer of assets and liabilities of the former redevelopment agency as of February 1, 2012 from governmental funds of CDC to fiduciary funds was reported in the governmental funds as an extraordinary loss in the governmental fund financial statements. The receipt of these assets and liabilities as of February 1, 2012 was reported in the CDC Private-Purpose Trust Fund as an extraordinary gain. Total extraordinary loss reported in the governmental funds and government-wide financial statements amounted to \$6.3 million.

21. SUBSEQUENT EVENTS

Tax and Revenue Anticipation Notes ("TRANS")

On July 2, 2012, the County issued \$300,000,000; \$400,000,000; and \$400,000,000 in 2012-2013 TRANS Series A, B, and C, respectively, which will mature on the following dates: February 28, 2013, March 29, 2013, and June 28, 2013, respectively. The TRANS are collateralized by taxes and other revenues attributable to the 2012-2013 fiscal year and were issued in the form of Fixed Rate Notes at effective interest rates of 0.18%, 0.19%, and 0.20%, respectively.

21. SUBSEQUENT EVENTS-Continued

Tax-Exempt Commercial Paper

On September 6, 2012, the Los Angeles County Capital Asset Leasing Corporation issued an additional \$30,000,000 in tax-exempt commercial paper with an initial average rate of 0.180%. Also, on November 26, 2012, the Corporation issued an additional \$25,000,000 in tax-exempt commercial paper with an initial average rate of 0.244%. The proceeds are being used to fund capital requirements of various capital projects. The commercial paper notes are secured by a long-term lease of County real estate and a letter of credit.

California Public Employees' Pension Reform Act of 2013

On September 12, 2012, AB 340, known as the California Public Employees' Pension Reform Act of 2013 (PEPRA), was signed into law by Governor Brown. PEPRA takes effect January 1, 2013. LACERA and the County of Los Angeles are working together to thoroughly analyze the complex legislation's impact on the County of Los Angeles and its employees.

Public Works Financing Authority - Lease Revenue Bonds Series 2012

On October 10, 2012, the authority issued \$339,410,000 in lease revenue bonds, maturing from 2013 to 2033, with yields ranging from 0.40% to 3.5%. Proceeds from the sale of the bonds will be used to finance and/or refinance various capital improvements projects.

County Assessor

On October 17, 2012, certain members of the Office of the Assessor, including the elected Assessor, were arrested by the Los Angeles County District Attorney in connection with assessed property value reductions allegedly extended to the Assessor's campaign contributors and would-be contributors. The investigations are not focused on the day-to-day operations of the Office of the Assessor and are not expected to have a material financial impact on the County's financial statements.

Significant Contractual Commitments

In November 2012, the Board of Supervisors approved and authorized approximately \$720 million in various contractual commitments to be financed by bonds and commercial paper. The committed projects approved by the Board included the \$367 million for an Electronic Health Record System, \$176 million for the San Fernando Valley Family Support Center Project and \$177 million for the Rancho Seismic Retrofit Compliance and Inpatient Consolidation Project.

Capital Asset Leasing Corporation Lease Revenue Bond Anticipation Notes

On December 5, 2012, the Corporation issued a \$10,000,000 Bond Anticipation Note with an initial interest rate of 0.632%. The rates are adjustable on January 2 and July 1, of each year. The notes were purchased by the Los Angeles County Treasury Pool and are due on June 30, 2015. Proceeds of the notes are being used to purchase equipment. The notes are to be paid from the proceeds of lease revenue bonds.

NONMAJOR GOVERNMENTAL FUNDS

COUNTY OF LOS ANGELES
NONMAJOR GOVERNMENTAL FUNDS
NONMAJOR SPECIAL REVENUE FUNDS

The Road Fund is used to account for the maintenance and construction of streets, roads, highways, and bridges. Revenue consists primarily of the County's share of State highway users taxes as supplemented by federal funds, State Proposition 1B funds, vehicle code fines and charges for services provided to cities.

The Other Streets, Highways, Roads and Bridges Funds: Article 3-Bikeway, Off-Street Parking, Proposition C Local Return, Proposition C Local Return Capital Reserve, Special Road Districts, Construction Fee Districts, Transit Operations, Paratransit Operations, and Measure R Local Return are used to account for transportation and road related services or functions. Revenues are derived from local sales tax revenue, parking meter receipts, Districts' share of the countywide tax levy, State revenues and service charges to parking lots.

The Street Lighting Districts Funds are used to account for the installation and maintenance of street lighting systems. Revenues are derived primarily from the countywide tax levy and benefit assessments.

The Garbage Disposal Districts Funds are used to account for the provisions of the Health and Safety Code to provide garbage and refuse collection and disposal services within the boundaries of each District. Revenues are mostly from charges for services and property taxes.

The Sewer Maintenance Districts Funds are used to account for the Health and Safety Code for the administration, maintenance, operation and repair of sanitary sewers, appurtenances, pumping plants, sewer treatment plants and related services. These Districts are financed through sewer service charges.

The Health Services Measure B Fund is used to account for a countywide system of Trauma Centers and Emergency Medical Services, for bioterrorism preparedness and response, and for related administrative costs. Revenues are derived primarily from a voter approved special tax.

The Health & Sanitation Funds: Hospital Services, Physician Services, Statham Alcohol, Alcohol and Drug Problem, Proposition 36, Driving Under the Influence, AIDS Education, Air Quality Improvement, Bicycle Safety Helmet, Hazardous Waste Enforcement, Mission Canyon Closure, Solid Waste Management Funds, and Cancer Patient Welfare, and EMS Vehicle Replacement are used to account for the cost of emergency services for the indigent, County alcoholism programs and services, AIDS education, air quality improvements, bicycle safety, hazardous waste enforcement, solid waste management, cancer patient services, and replacement of vehicles. Revenues are from State tobacco taxes, patient collections, court fines, State-assessed vehicle fees, State income tax, penalties assessed for hazardous waste violations, and sanitation services.

COUNTY OF LOS ANGELES
NONMAJOR ENTERPRISE FUNDS

The Aviation Enterprise Fund is used to account for the maintenance and operations of the five airports which are owned by the County. Operating revenues are derived primarily from charges for services and rentals associated with airport operations.

The Community Development Commission Enterprise Fund is used to account for the operation, maintenance and management of certain housing developments. Revenues are derived primarily from tenant rentals and federal grants.

INTERNAL SERVICE FUNDS

COUNTY OF LOS ANGELES
INTERNAL SERVICE FUNDS

The Public Works Fund is used to account for the cost of services provided by the Department of Public Works to the Road Fund, Flood Control District, County Engineer and various other special districts and agencies. Costs are recovered through billings for services.

The Equipment Acquisition Fund is used to account for the operations of the Los Angeles County Capital Asset Leasing Corporation. County departments are charged for equipment items acquired on their behalf. The charges represent recovery of equipment depreciation expense and bond interest expense.

The Community Development Commission Internal Service Fund is used to account for the accumulation of resources for, and the payment of, services provided to various departments within the Commission. The charges for services are on a cost-reimbursement basis.

FIDUCIARY FUNDS

COUNTY OF LOS ANGELES
FIDUCIARY FUNDS

POOLED INVESTMENT TRUST FUND

The Pooled Investment Trust Fund is used to account for net assets of the County's external investment pool. The fund primarily consists of deposits held on behalf of School Districts and Sanitation Districts.

SPECIFIC INVESTMENT TRUST FUND

The Specific Investment Trust Fund is used to account for the net assets of individual investment accounts, in aggregate. The related investment activity occurs separately from the County's investment pool and is provided as a service to external investors.

AGENCY

Property Tax Funds

This group of funds is used to account for the monies received from property and other taxes, which must be held pending authority for distribution to the appropriate recipients.

Departmental Funds

This group of funds is used to account for cash and other assets and related liabilities where the County holds money either in a custodial capacity for other entities, or as a clearing account to accumulate and hold certain monies until disbursement to the ultimate recipient.

Notes:

- (1) Due to the 1978 passage of the property tax initiative Proposition 13 (Prop 13), the County does not track the estimated actual value of all County properties. Under Prop 13 property is assessed at the 1978 market value with an annual increase limited to the lesser of 2% or the CPI on property not involved in a change of ownership or properties that did not undergo new construction. Newly acquired property is assessed at its new market value (usually the purchase price) and the value of any new construction is added to the existing base value of a parcel. As a result, similar properties can have substantially different assessed values based on the date of purchase. Additionally, Prop 13 limits the property tax rate to 1% of assessed value plus the rate necessary to fund local voter-approved bonds and special assessments.
- (2) Secured property is generally real property, as defined as land, mines, minerals, timber and improvements such as buildings, structures, crops, trees and vines.
- (3) Unsecured property is generally personal property including machinery, equipment, office tools and supplies.
- (4) Unitary properties are railroads and utilities crossing the County and are assessed by the State Board of Equalization.
- (5) Exempt properties include numerous full and partial exclusions/exemptions provided by the State Constitution and the legislature that relieve certain taxpayers from the burden of paying property taxes.

Notes:

- (1) The Secured Tax Rate and Ratios Report no longer includes the Detention Facilities & Flood Control Districts rates, as these bonds have matured.
- (A) The tax rate for Tax Area #4, which applies to most property within the City of Los Angeles, is used to illustrate the breakdown of a tax rate within the County.
- (B) Article XIII(A) (Proposition 13) limits the maximum ad valorem tax rate to 1% of "full cash value" except for indebtedness approved by the voters prior to July 1, 1978. All other rates are calculated per \$100 of assessed value.
- (C) An exception to the 1% limit was provided by Proposition 46 which was approved in June, 1986 re-establishing authority of local governments to issue general obligation bonds for certain purposes.
- (D) The County is divided into 11,969 tax rate areas which are unique combinations of various jurisdictions servicing a specific geographic area.
