### COUNTY OF LOS ANGELES DEPARTMENT OF AUDITOR-CONTROLLER

KENNETH HAHN HALL OF ADMINISTRATION 500 WEST TEMPLE STREET, ROOM 525 LOS ANGELES, CALIFORNIA 90012-3873 PHONE: (213) 974-8301 FAX: (213) 626-5427

December 13, 2019

The Honorable Board of Supervisors County of Los Angeles 383 Kenneth Hahn Hall of Administration 500 West Temple Street Los Angeles, California 90012

### Dear Supervisors:

In accordance with Section 25253 of the Government Code of California, I hereby submit the Comprehensive Annual Financial Report (CAFR) of the County of Los Angeles (County) for the year ended June 30, 2019. The report contains financial statements that have been prepared in accordance with generally accepted accounting principles (GAAP) prescribed for governmental entities, and provides a comprehensive overview of the County's financial operations and financial position. The accuracy, completeness, and fairness of the presentation of all information in this report are the responsibility of the County.

The Independent Auditor's Report is presented at the front of the financial section of this report. Management's Discussion and Analysis (MD&A), immediately follows the Independent Auditor's Report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

The report includes financial data for all County funds. Additionally, the following entities are considered part of the County for purposes of meeting the reporting entity requirements prescribed by the Governmental Accounting Standards Board:

Fire Protection District
Flood Control District
Garbage Disposal Districts
Improvement Districts
Regional Park and Open
Space District
Sewer Maintenance Districts

Street Lighting Districts

Waterworks Districts

Los Angeles County Capital Asset Leasing Corporation

Various Joint Powers Authorities

Los Angeles County Securitization Corporation

Los Angeles County Employees Retirement Association

Los Angeles County Facilities, Inc.

Los Angeles County Development Authority

First 5 LA

Help Conserve Paper – Print Double-Sided "To Enrich Lives Through Effective and Caring Service"

These entities are component units of the County and are included in the County's basic financial statements because the County Board of Supervisors is financially accountable for them. All component units are blended into the basic financial statements, except for the Los Angeles County Employees Retirement Association, which is reported as a fiduciary component unit, the Los Angeles County Development Authority (formerly the Community Development Commission of the County of Los Angeles) and First 5 LA, which are discretely presented. Note 1 to the basic financial statements contains additional information regarding the relationship between the County and these entities.

Other local governmental entities provide public or specialized services to the residents of the County, including over 80 cities, 100 school districts, and numerous special districts. The operations of these entities are not included in the County's reporting entity since each entity is responsible for conducting its own day-to-day operations and is compelled to answer to its own separately elected governing board. Significant entities that do not meet the criteria for inclusion in this report include the Los Angeles County Office of Education, Los Angeles Unified School District, and Los Angeles County Sanitation Districts. Also, the Los Angeles County Superior Court is not included due to legislation (AB 233) which transferred oversight responsibilities for Court operations to the State in 1997-98. However, AB 233 requires the County to continue to fund certain Court-related expenditures, and the County continues to receive certain Court collections. Accordingly, the County's financial statements include various Court-related financial transactions.

### LOS ANGELES COUNTY AND ITS SERVICES

Los Angeles County was established by an act of the State Legislature on February 18, 1850 as one of California's original 27 counties. Located in the southern portion of the State, the County covers 4,083 square miles. With a population of over ten million, its population is the largest of any county in the nation.

Los Angeles County was a general law county until 1913 when it became a charter county, as a result of local election. The County is governed by a five-member Board of Supervisors (Board) who are elected by district to serve alternating four-year terms. The Assessor, District Attorney, and Sheriff are also elected officials while all other departments are headed by appointed officials. On March 5, 2002, County voters approved two charter amendments providing for term limits for members of the Board. As a result, each Supervisor is now limited to serving a maximum of 12 years.

On July 7, 2015, the Board approved recommendations to amend the County Code by repealing the 2007 Interim Governance Structure Ordinance and to establish a new governance structure. Under the new governance structure, all non-elected department heads report directly to the Board. County departments continue to report to the Chief Executive Officer (CEO) for day-to-day operations, as well as for administrative and budget matters. The CEO acts as the Board's agent to manage Countywide policy objectives and departmental performance management. The new governance structure was designed to streamline the County bureaucracy by improving communications with County departments,

facilitating effective decision making, and enhancing responsiveness to the Board's policy objectives.

There are over one million residents in the unincorporated areas of the County. These residents receive all municipal services from the County, including law enforcement, fire protection, land use and zoning, building and business permits, local road building and maintenance, animal care and control, and public libraries. In addition, the County provides a wide range of services to all County residents.

The County also provides municipal services to many incorporated cities within its boundaries under the Contract Services Plan (Plan). Established in 1954, the Plan allows cities to provide municipal services without incurring the cost of creating numerous city departments and facilities by having the County provide, at cost, any or all municipal services within a city at the same level as provided in unincorporated areas, or at any higher level the city may choose. Although the Plan was developed to assist new cities, the great majority of the cities in the County now contract for one or more services.

The County's principal functions include seven major areas as required under the County's charter, County ordinances, or by State or federal mandate: general government, public protection, public ways and facilities, health and sanitation, public assistance, education, and recreation and cultural services. The State and federal governments mandate certain minimum levels of services in the public assistance and health areas.

### **ECONOMIC OVERVIEW**

With a Gross Domestic Product of \$807 billion in 2018, Los Angeles County's economy is larger than that of 45 states and all but 17 countries. The County serves as the central trade district for the western United States and the gateway to the Asian economies, as it has evolved into a leader in international commerce and investments. The County's economy experienced moderate growth in 2018, with estimated increases of 3.8% in personal income and 2.7% in total taxable sales. The economic recovery is expected to continue, with several sectors of the local economy experiencing growth.

The County's unemployment rate fell to 4.6% in 2018, which reflects the ongoing improvement in the job market and the lowest rate of the post-recession period. The positive developments in the job market are expected to continue in 2019 and 2020, with a projected decline in the average unemployment rate to 4.4% and 4.3%, respectively.

During Fiscal Year (FY) 2016-17, voters approved various State and local ballot measures that could generate approximately \$151 billion in funding for capital infrastructure and public services in the County. Among the voter-approved items was County Measure H, which authorized a one-quarter percent (0.25%) County sales tax for ten years to fund homeless services and prevention. Measure H, which became effective on October 1, 2017, is projected to generate approximately \$355 million of sales tax revenue per year for the County. In addition, on November 6, 2018, voters approved Measure W, which authorizes the Flood Control District to levy a special tax to assist in the capture of stormwater and related pollution

clean-up. Measure W does not have a sunset clause and is expected to generate approximately \$300 million annually. In addition, hospitals throughout the County are engaged in building programs to meet stricter earthquake standards and other regulatory requirements. These major construction projects, combined with terminal expansions underway at the two primary seaports (Port of Los Angeles and Port of Long Beach), the expansion of Los Angeles International Airport (LAX) and the expansion of Metro Light Rail System have continued to support an improving job market in the County. Two major construction projects expected to open in 2021 include the \$2 billion SoFi Stadium in Inglewood that will be home to the Los Angeles Rams and Chargers National Football League teams, and the \$1.5 billion Lucas Museum of Narrative Art that will be located near the University of Southern California.

The County enjoys a diverse industrial base, as private sector employment is well-represented in wholesale and retail trade, health care, manufacturing, and leisure and hospitality. The two major seaports in the County, located in the cities of Los Angeles and Long Beach, encompass the largest port complex in the nation as measured by cargo tonnage and the number of containers handled, and on a combined basis rank ninth largest among the world's port facilities. The County's technology sector, known as "Silicon Beach," has become a large and growing source of highly compensated jobs and this sector employed an estimated 187,600 workers in 2018.

### INTERNAL AND BUDGETARY CONTROLS

The County has developed a system of internal accounting controls designed to provide reasonable, but not absolute, assurance to safeguard assets against loss from unauthorized use. It also provides reliable records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the costs of a system of internal accounting controls should not outweigh related benefits. Also, the evaluation of costs and benefits requires estimates and judgments by management. All internal accounting control evaluations occur within the above framework. We believe that the County's system of internal accounting controls adequately safeguards assets and also provides reasonable assurance of proper recording of financial transactions.

In accordance with the provisions of Section 29000-29144 of the Government Code, commonly known as the County Budget Act, the County prepares and adopts a budget on or before October 2 of each fiscal year. Except for capital assets, expenditures are controlled at the following object levels for all budget units: salaries and employee benefits, services and supplies, other charges, and other financing uses. Amounts are budgeted and controlled for capital assets at the following sub-object levels: land, buildings and improvements, infrastructure, and equipment.

The County uses encumbrance accounting to ensure effective budgetary control and accountability. Unencumbered appropriations lapse at year-end and encumbrances outstanding at the time are reported as restricted, committed, or assigned fund balance for subsequent year expenditures.

After the original budget is adopted, the Board of Supervisors must approve all transfers of appropriations between budget units and transfers exceeding \$250,000 within budget units. The Board must also approve necessary supplemental appropriations, normally financed by unanticipated revenues earned during the year.

In addition to these procedural controls, the Auditor-Controller's (A-C) Audit Division performs periodic internal control, operational, and management audits of various County departments. On an annual basis, an audit plan is recommended by the A-C and approved by the County's Audit Committee, an oversight group appointed by the Board of Supervisors. These audits help to ensure that prescribed procedures are followed and that operations are conducted in an efficient manner. The A-C's Countywide Contract Monitoring Division reviews various social service contract providers to enhance accountability and performance effectiveness. A fraud hotline provides County employees and citizens with a way to anonymously report perceived fraudulent activities by County employees, vendors, contractors, inspectors, etc. Allegations reported to the hotline are evaluated and investigated, as appropriate, by the Office of County Investigations within the A-C.

### BUDGET OUTLOOK AND MAJOR INITIATIVES

The FY 2019-20 Budget reflects the County's value and vision, along with its ambitious commitment to improving life for all County residents, especially the vulnerable and underserved. The projects and programs recommended for funding advance key priorities of the Board of Supervisors (Board), bringing to life a progressive agenda of fighting homelessness, promoting health and well-being, improving our justice system, championing the rights and needs of immigrants, creating better lives for children and families and enriching communities through the arts, recreation, and sustainability projects.

Economic factors are stable, with continued growth in the labor market, steadily advancing housing values, and consumer spending remaining a strength of the local economy.

### **NEWLY FUNDED PROGRAM INITIATIVES**

Outlined below are examples of significant program initiatives that were funded or augmented by the FY 2019-20 Budget process:

- County Measure H provides a dedicated funding source from sales tax revenues to provide homeless services and housing assistance throughout the County. The FY 2019-20 budget of \$538 million represents an increase in annual funding of \$88 million to fund strategic initiatives, which include rapid re-housing, permanent supportive housing, services to address youth homelessness, Eviction Defense Services, and enhanced services for people experiencing unsheltered homelessness.
- Increased funding of \$35 million for the Affordable Housing Programs Budget Unit. In October 2015, the Board approved a motion to establish the Affordable Housing Programs Budget Unit and reach an annual allocation of \$100 million per year for

affordable housing by FY 2020-21. The FY 2019-20 budget expands funding to \$80 million for the development and preservation of affordable housing.

• County Measure A, approved by voters in 2016, provides for \$74.7 million to maintain, construct, and refurbish parks and cultural facilities.

### CAPITAL ASSET AND DEFERRED MAINTENANCE INITIATIVES

The County continues to plan for, and fund, high priority capital asset projects that address health, public safety, recreation, and infrastructure needs. Many capital asset initiatives are multi-year in nature and the FY 2018-19 Budget provides ongoing funding of \$1 billion for initiatives in progress as well as new projects. During FY 2018-19, there were 20 projects completed including new outpatient facilities at the Rancho Los Amigos National Rehabilitation Center.

The County continues to refurbish and construct new facilities to promote the effective delivery of services to the public. On April 9, 2019, the Board of Supervisors authorized the issuance of \$117.5 million in short term lease revenue bonds as the balance of the County's total contribution of \$125 million to the Los Angeles County Museum of Art (LACMA) Building. The LACMA Building for the Permanent Collection will replace four County-owned buildings with a single 347,500 square-foot building consisting of a single horizontal elevated gallery and seven art towers that support the elevated gallery.

The County continues to invest resources to eliminate its backlog of deferred maintenance to meet performance requirements and expectations for its facilities. The FY 2019-20 Budget dedicates \$200 million for high-priority repairs, maintenance, and accessibility modification needs at County facilities.

### STRATEGIC PLANNING INITIATIVES

On November 15, 2016, the Board of Supervisors approved the County of Los Angeles FY 2016-2021 Strategic Plan, *Creating Connections: People, Communities, and Government.* The approved plan includes an updated vision, mission, and values, with three new goals, ten strategies and objectives with a focus on Board priorities and initiatives.

The strategic plan's underlying goals are summarized as follows:

Make Investments that Transform Lives by increasing our focus on prevention initiatives; enhancing our delivery of comprehensive interventions; and reforming service delivery within our justice systems.

Foster Vibrant and Resilient Communities by driving economic and workforce development in the County; supporting the wellness in our communities; and making environmental sustainability our daily reality.

Realize Tomorrow's Government Today by pursuing development of our workforce; embracing digital government for the benefit of our customers and communities; pursuing operational effectiveness, fiscal responsibility, and accountability; and engaging our customers, communities, and partners.

### LONG-TERM FINANCIAL PLANNING

The Board has adopted policies, which guide the County's Chief Executive Officer in financial planning and recommending budget proposals. Key policy elements include:

- Ongoing costs should be funded with ongoing revenues. Aligning continuing expenditures with continuing revenues, on a level that can be reasonably sustained, will foster stability, predictability, and long-range planning, while avoiding volatility in service levels. Before expanding services, use new, ongoing revenues to meet current obligations and reduce reliance on one-time funding. New programs should not be proposed without identifying specific and continuous funding sources.
- Budget decisions should be considered within the context of revenues and expenditures projected beyond a single fiscal year. A long-range forecast should be developed and maintained to reflect continuing programs, anticipated new initiatives, revenue changes, cost increases, potential problem issues, and other factors that may impact strategies for maintaining a balanced budget over several years.

Board policy also established a "Reserve for Rainy Day" (Reserve) account within the County's General Fund. It is intended to protect essential County programs against unforeseen emergencies and economic downturns. The Reserve cap should be 10% of ongoing locally generated revenue. Transfers, at a minimum of 10% of excess fund balance, less Board approved carryover balances, shall be set aside in the Rainy Day Fund and/or the Other Postemployment Benefits (OPEB) Trust Fund each year until the 10% cap is met. When the reserve cap of 10% is exceeded, the excess balance should be deposited into the OPEB Trust Fund in order to fund retiree health obligations. The objective is to avoid ongoing commitments with funding that may not be sustainable in an economic downturn.

For the year ended June 30, 2011, the County implemented Governmental Accounting Standards Board Statement No. 54 (GASB 54), "Fund Balance Reporting and Governmental Fund Type Definitions." The County's policies for use of the Reserve are not within the GASB 54 definition of a stabilization arrangement. Therefore, the Reserve is classified as General Fund unassigned fund balance in the GAAP financial statements. As of June 30, 2019, the Reserve balance was \$563 million, and it was not used as a financing source for purposes of balancing the FY 2019-20 County Budget. On October 1, 2019, the Board added \$39 million to the County's Reserve for Rainy Day, bringing the total balance to \$602 million.

#### OTHER INFORMATION

### INDEPENDENT AUDIT

The basic financial statements have been audited by Macias Gini & O'Connell LLP (MGO). In accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), MGO is also in the process of completing an annual financial and compliance audit of federal funds received by the County in FY 2018-19. The County's single audit for FY 2017-18 has been completed.

#### **AWARDS**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County of Los Angeles for its CAFR for the past 37 fiscal years.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. The report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

#### **ACKNOWLEDGMENTS**

I would like to express my appreciation to my Accounting Division, the various County departments who assisted in the preparation of this report, and also acknowledge the efforts of our independent auditor.

Sincerely,

Arlene Barrera Auditor-Controller

### **Independent Auditor's Report**

The Honorable Board of Supervisors County of Los Angeles, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Los Angeles, California (County), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Los Angeles County Development Authority (LACDA) (discretely presented component unit), the Los Angeles County Children and Families First – Proposition 10 Commission (First 5 LA) (discretely presented component unit) and the Los Angeles County Employees Retirement Association (LACERA), which represent the following percentages of the assets, net position/fund balances, and revenues/additions of the following opinion units.

Opinion Unit	Assets	Net Position/ Fund Balances	Revenues/Additions
Aggregate discretely presented component units	100%	100%	100%
Aggregate remaining fund information	70%	73%	11%

Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for LACDA, First 5 LA, and LACERA is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Los Angeles, California, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund, Fire Protection District, Flood Control District, LA County Library, Regional Park and Open Space District, and Mental Health Services Act for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of the County's proportionate share of the net pension liability and related ratios, the schedule of County's pension contributions, the schedule of the County's proportionate share of the net RHC OPEB liability, the schedule of County's RHC OPEB contributions and the schedule of changes in the total LTD OPEB liability and related ratios as listed on the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual fund statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Macias Gihi & O'Connell D

Los Angeles, California
December 13, 2019

This section of the County's Comprehensive Annual Financial Report (CAFR) presents a narrative overview and analysis of financial activities for the year ended June 30, 2019. We recommend that this information be used in conjunction with additional information contained in the letter of transmittal.

### **Financial Highlights**

At the end of the current year, the net position (total assets and deferred outflows of resources, reduced by total liabilities and deferred inflows of resources) of the County was negative \$13.492 billion. Net position is classified into three categories and the unrestricted component is negative \$34.718 billion.

During the current year, the County's net position increased by \$26 million. Net position related to governmental activities increased by \$261 million, while net position related to business-type activities decreased by \$235 million.

At the end of the current year, the County's General Fund reported a total fund balance of \$4.434 billion. The fund balance categories and amounts consisted of nonspendable fund balance of \$312 million, restricted fund balance of \$79 million, committed fund balance of \$780 million, assigned fund balance of \$621 million, and \$2.642 billion of unassigned fund balance.

The County's capital asset balances were \$19.743 billion at year-end and increased by \$225 million during the year.

During the current year, the County's total long-term debt increased by \$514 million. Newly issued and accreted long-term debt of \$942 million was more than the long-term debt maturities of \$428 million.

### **Overview of the Basic Financial Statements**

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements, which are comprised of the following three components:

- · Government-wide financial statements
- · Fund financial statements
- Notes to the basic financial statements

This report also includes other supplementary information in addition to the basic financial statements.

### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all County assets and deferred outflows of resources reduced by liabilities and deferred inflows of resources, which represent net position. Over time, increases and decreases in net position may serve as an indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information that indicates how the County's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying events giving rise to the changes occur, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in these statements for some items that affect cash flows in future periods. For example, property tax revenues have been recorded that have been earned but not yet collected and pension and Other Postemployment Benefits (OPEB) expenses have been accrued but not yet paid.

The government-wide financial statements report the following different types of programs or activities:

- Governmental Activities The majority of County services are reported under this category. Taxes
  and intergovernmental revenues are the major revenue sources that fund these activities, which
  include general government, public protection, public ways and facilities, health and sanitation, public
  assistance, education, recreation and cultural services, and interest on long-term debt.
- Business-type Activities County services that are intended to recover costs through user charges and fees are reported under this category. The County Hospitals, the Waterworks Districts, and the Aviation Funds represent the County's business activities.
- Discretely Presented Component Units Component units are separate entities for which the County is financially accountable. The Los Angeles County Development Authority (formerly referred to as the "Community Development Commission") and First 5 LA are displayed as discretely presented in the financial statements.

### **FUND FINANCIAL STATEMENTS**

The fund financial statements contain information regarding major individual funds. A fund is a fiscal and accounting entity with a balanced set of accounts. The County uses separate funds to ensure compliance with fiscal and legal requirements.

The County's funds are classified into the following three categories:

- Governmental Funds These funds are used to account for essentially the same services that were previously described as governmental activities above. However, the fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balances sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. Governmental funds include the General Fund, as well as Special Revenue Funds, Debt Service Funds, Capital Projects Funds, and Permanent Funds.
- Proprietary Funds These funds are used to account for functions that are classified as "business-type activities" in the government-wide financial statements. The County's Internal Service Funds are also reported within the proprietary fund section. The County's four Hospital Funds and Waterworks Funds are all considered major funds for presentation purposes. There is one nonmajor enterprise fund (Aviation Funds) and it is displayed with the other major enterprise funds.
- Fiduciary Funds These funds are used to report assets held in a trustee or agency capacity for others and cannot be used to support the County's programs. The Pension and Other Postemployment Benefit Trust Funds, the Investment Trust Funds, and Agency Funds are reported in this fund category, using the accrual basis of accounting.

### NOTES TO THE BASIC FINANCIAL STATEMENTS

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and the fund financial statements.

### REQUIRED SUPPLEMENTARY INFORMATION

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the County's proportionate share of the net pension liability and related ratios, the County's contributions to pension benefits, the County's proportionate share of the net Retiree Healthcare OPEB Liability, the County's contributions to OPEB, and the schedule of changes in the total Long-Term Disability OPEB liability and related ratios.

### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$13.492 billion at the close of the most recent fiscal year.

### Summary of Net Position As of June 30, 2019 and 2018 (in thousands)

	Governmental Activities		Business-type Activities			Total				
		2019	2018	2019		2018		2019		2018
Current and other assets	\$	12,857,626	\$ 11,472,818	\$ 2,638,388	\$	2,629,318	\$	15,496,014	\$	14,102,136
Capital assets		16,676,242	16,271,623	3,067,230		3,247,254		19,743,472		19,518,877

Total net position	\$	(10,388,710)	\$ (10,649,724)	\$ (3,103,470)	\$	(2,868,260)	\$	(13,492,180)	\$	(13,517,984)

Significant changes in assets, deferred outflows of resources, liabilities, and deferred inflows of resources included the following:

### **Current and Other Assets**

Current and other assets increased by \$1.385 billion for governmental activities and by \$9 million for business-type activities. For governmental activities, there was an increase of \$276 million in Other investments, largely due to the unspent bonds proceeds held by the Public Buildings outside trustee, over the prior year. Other receivables increased by \$529 million, as the Other receivables for the County's General Fund were higher by \$496 million from the prior year. On July 1, 2018, the County restructured the ambulatory care services previously provided by the County hospitals and increased the receivables related to ambulatory care services by \$374 million. In addition, the public social services program receivables increased by \$112 million due to higher year-end revenue accruals. Changes from Internal balances of \$505 million had the effect of increasing assets for governmental activities and reducing assets for business-type activities by like amounts. This change was primarily associated with a \$507 million increase in cash flow advances from governmental activities (the County's General Fund) to the business-type activities (the County's Hospitals).

For business-type activities, current and other assets increased by \$9 million. The business-type activities accounts receivable and other receivables were higher by \$202 million and \$313 million, respectively, over the prior year. The increases were primarily attributable to higher receivables associated with the Quality Incentive Program (QIP) and Enhanced Payment Program (EPP) at the hospitals. This was offset by the change from the Internal balances of \$507 million, as mentioned above.

#### **Deferred Outflows of Resources**

In the current year, the County's deferred outflows of resources balances were \$5.825 billion. The deferred outflows of resources were \$4.991 billion and \$834 million for governmental and business-type activities, respectively. The total deferred outflows of resources amounts and net increases of \$645 million were mostly related to pension and OPEB. The total OPEB related deferred outflows increased by \$530 million and \$33 million for governmental and business-type activities, respectively, from the prior year. The total pension related deferred outflows increased by \$75 million and \$7 million for governmental and business-type activities, respectively, from the prior year. These amounts vary from year to year due to differences between projected and actual experience, assumption changes and changes in proportion, as required by GASB 68 and GASB 75.

#### Liabilities

Current and other liabilities increased by \$275 million for governmental activities. There was an increase of \$114 million in accounts payable for amounts owed for the year-end expenditure accruals. In addition, advances payable increased by \$81 million, largely due to higher advances for health, mental health, public protection and social services programs. Accrued payroll was higher by \$25 million due to increases in amounts owed for the year-end payroll accruals. For business-type activities, a net increase of \$90 million in current and other liabilities was largely associated with increases in accounts payable for the hospitals.

### **Liabilities**-Continued

Long-term liabilities decreased by \$1.053 billion for governmental activities and by \$511 million for business-type activities. Net OPEB liabilities significantly decreased by \$1.371 billion for governmental and \$312 million for business-type activities, respectively. The decrease in the Net OPEB liability was a result of an increase to the discount rate resulting from the prefunding of the OPEB liability. Net pension liabilities decreased in the current year by \$443 million and \$61 million for governmental and business-type activities, respectively, which was due to the investment earnings being higher than the actuarial assumptions. For governmental activities, liabilities for bonds payable, notes, loans, workers' compensation and compensated absences were higher by \$687 million. For business-type activities, amounts owed to third party payors by the County's hospitals were lower by \$184 million as discussed in Note 14. Specific disclosures related to pension liabilities, OPEB liabilities, and other changes in long-term liabilities are discussed and referenced in Notes 8, 9, and 11 to the basic financial statements, respectively.

#### Deferred Inflows of Resources

In the current year, the County's deferred inflows of resources were \$6.318 billion. Deferred inflows of resources increased by \$2.910 billion and \$526 million for governmental and business-type activities, respectively. The increase in deferred inflows of resources of \$3.436 billion was mostly related to OPEB. The OPEB and pension changes in deferred inflows of resources will vary from year to year due to differences between projected and actual experience, assumption changes and changes in proportion. The total OPEB related deferred inflows increased by \$2.593 billion and \$484 million for governmental and business-type activities, respectively, from the prior year. Pension related deferred inflows of resources increased by \$322 million and \$43 million for governmental and business-type activities, respectively. Pension and OPEB matters are discussed in more detail in Note 8 and 9, respectively, to the basic financial statements.

For service concession arrangements, there were also \$83 million of deferred inflows of resources recognized in the current year, which represents a decrease of \$4 million from the prior year. This amount represents the present value of installment payments associated with private operators of twenty County golf courses, as discussed in Note 7 to the basic financial statements.

The County's total net position consists of the following three components:

#### Net Investment in Capital Assets

The largest portion of the County's net position, \$17.276 billion, represents its investment in capital assets (i.e., land, buildings and improvements, infrastructure, software and equipment, net of related depreciation), less any related debt and related deferred outflows of resources used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

### **Restricted Net Position**

The County's restricted net position at year-end was \$3.950 billion. Asset restrictions are primarily due to external restrictions imposed by State legislation and bond covenants. Net position that pertains to the various separate legal entities included in the basic financial statements is also generally restricted because the entities' funding sources require that funds be used for specific purposes.

### **Unrestricted Net Position (Deficit)**

The County's total unrestricted net position is negative \$34.718 billion. Both governmental and business-type activities reported deficits in this category of \$29.366 billion and \$5.352 billion, respectively. OPEB related liabilities of \$24.639 billion, along with pension liabilities totaling \$10.345 billion, continued to be the most significant factors associated with the reported deficits.

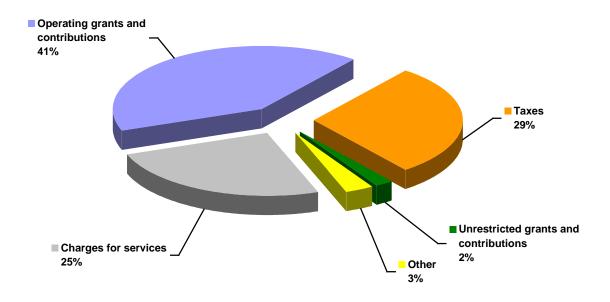

The following table details and identifies changes in net position for governmental and business-type activities:

Summary of Changes in Net Position For the Years Ended June 30, 2019 and 2018 (in thousands)

	Govern Activ			ss-type vities	Total		
	2019	2018	2019	2018	2019	2018	
Revenues:

### COUNTY OF LOS ANGELES MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)-Continued

### REVENUES BY SOURCE – ALL ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2019

### **EXPENSES BY TYPE – ALL ACTIVITIES** FOR THE YEAR ENDED JUNE 30, 2019

### **Governmental Activities**

Revenues from governmental activities increased by \$2.470 billion (11.6%) when compared with the prior year. The most significant changes in specific revenue sources were experienced in the following areas:

- Program revenues recognized from charges for services increased by \$819 million. The increase was primarily attributable to charges for services for health and sanitation programs which grew by \$844 million. As previously discussed, the County restructured the ambulatory care services previously provided by the County hospitals and shifted the revenues from charges for services of \$605 million to the governmental activities. The ambulatory care services were restructured to provide better management oversight and operational efficiencies. Also, the Global Payment Program (GPP) revenue increased by \$119 million from the prior year for health services programs in the General Fund.
- Taxes, the County's largest general revenue source, were \$709 million higher than the prior year and were mostly attributable to an increase in property taxes and sales and use tax, which grew by \$481 million and \$151 million, respectively. The County's total taxable assessed property tax value is \$1.530 trillion, which grew by 6.6% in the current year. Property tax revenues were also recognized in conjunction with the dissolution of redevelopment agencies. "Pass through" payments from redevelopment dissolution were \$136 million and increased by \$27 million from the prior year. Redevelopment dissolution also provides residual property taxes to local governments, including the County. The County's share of such residual tax revenues in the current year was \$290 million, an increase of \$51 million compared to the prior year. Revenues also grew by \$142 million from the Homeless and Housing Measure H program sales and use taxes.
- Program revenues recognized from operating grants and contributions increased by \$456 million. Revenues for public assistance programs grew by \$188 million as there were higher levels of administrative and program costs which are primarily funded from federal and State reimbursement. For health and sanitation programs, there was net revenue growth of \$149 million. Health services program administration revenue of \$100 million was primarily associated with revenues from the Whole Person Care (WPC) program. State and federal funding for public health programs grew by \$54 million. Pursuant to Assembly Bill 85 (AB85), the County is subject to State withholding of revenues known as "1991 County Health Realignment Funds." The amounts withheld are based on an assumption that County healthcare costs for the indigent population will decrease. The funds will be reconciled and trued-up two years after the fiscal year in which the amounts were withheld. For the current year, there was a net decrease of \$71 million from the State Health Realignment revenues for health services from the true-ups. Revenues for public ways and facilities grew by \$70 million primarily related to road projects funded from an increase in the State Road Repair and Accountability Act of 2017 (SB 1).

Expenses related to governmental activities increased by \$1.259 billion (5.8%) during the current year. The most significant increase was in the area of health and sanitation expenses, where expenses increased by \$1.127 billion. As previously mentioned above, \$447 million of expenses from the ambulatory care services program were shifted to the governmental activities. Health services programs and mental health program expenses were higher by \$162 million and \$138 million, respectively, as operating and healthcare costs increased from the prior year. Public assistance expenses were higher by \$229 million primarily from increased costs of \$187 million for the Measure H homeless and housing assistance programs. Recreation expenses were lower by \$166 million. The decrease was associated with the capital assets adjustment that was made in the prior year. Depreciation expense was \$448 million in the current year, an increase of \$26 million from the prior year amount of \$422 million.

#### **Business-type Activities**

Revenues from business-type activities for the current year were \$4.032 billion, a decrease of \$790 million (16.4%) from the previous year. The most significant decrease was in charges for services and operating grants and contributions for the County's hospitals, where revenue declined by \$627 million and \$162 million, respectively. As previously stated, the County restructured the ambulatory care services and it reduced the County hospitals charges for services by \$605 million and operating grants and contributions revenue by \$31 million and shifted the revenue to the governmental activities. As discussed in Note 14 to the basic financial statements, County hospital revenues are derived from a wide range of federal and State funding sources. GPP and PRIME are components of the Medi-Cal Demonstration Project 2020, which provides federal funding to the County for health-care programs that shift the focus from hospital-based and inpatient care to outpatient, primary, and preventative care. QIP represents a new pay structure based on performance achieved on a set of clinically-established quality measures for Medi-Cal managed care enrollees.

Expenses related to business-type activities decreased from the previous year by a net total of \$539 million (9.8%), and were associated primarily with the County's hospitals, where expenses declined by \$544 million. Specifically, as previously stated, the County restructured the ambulatory care services and reduced the hospital expenses by \$447 million and shifted the expenses to the governmental activities under health and sanitation. OPEB and Pension expenses were lower by \$88 million and \$46 million, respectively. For all hospital facilities, the average daily inpatient census during the current year was 1,110 patients, which was slightly lower than the 1,113 patients for the prior year.

### **Financial Analysis of the County's Funds**

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### **Governmental Funds**

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the County's financing requirements. Types of governmental funds reported by the County include the General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Funds, and the Permanent Funds.

As of the end of the current fiscal year, the County's governmental funds reported combined total fund balances of \$8.779 billion, an increase of \$916 million in comparison with the prior year. Of the total fund balances, \$328 million is nonspendable to indicate the extent that funds are not in spendable form or are required to remain intact. An additional \$4.054 billion is classified as restricted, \$908 million as committed, and \$847 million as assigned. The remaining balance of \$2.642 billion is classified as unassigned and is entirely associated with the General Fund.

Revenues from all governmental funds for the current year were \$23.511 billion, an increase of \$2.319 billion (10.9%) from the previous year. Expenditures for all governmental funds in the current year were \$22.326 billion, an increase of \$2.185 billion (10.8%) from the previous year. In addition, other financing uses were \$269 million, a decrease of \$378 million (58.4%) as compared to \$647 million in the prior year.

#### Governmental Funds-Continued

The General Fund is the County's principal operating fund. During the current year, the fund balance in the General Fund increased by \$539 million (13.8%). At the end of the current fiscal year, the General Fund's total fund balance was \$4.434 billion. Of this amount, \$312 million is classified as nonspendable, \$79 million as restricted, \$780 million as committed, \$621 million as assigned and the remaining \$2.642 billion is classified as unassigned.

General Fund revenues during the current year were \$19.551 billion, an increase of \$1.825 billion (10.3%) from the previous year. General Fund expenditures during the current year were \$19.171 billion, an increase of \$1.639 billion (9.3%) from the previous year. Other financing sources/uses-net was positive \$159 million in the current year as compared to positive \$50 million in the prior year.

Following are significant changes in General Fund revenues and expenditures:

- Charges for services increased by a total of \$754 million. The significant increase of \$605 million was primarily associated with the restructure of the ambulatory care services previously included in the Hospital Enterprise funds. There was also an increase of \$119 million associated with the GPP administered by the health services administration program budget. The Registrar-Recorder provides election services and charges for services revenues increased by \$32 million due to the an increase of special elections during the current year. The remaining variance was a net decrease of \$2 million from a variety of other programs.
- Intergovernmental revenues increased by \$493 million overall, and were primarily associated with State and federal revenue increases of \$403 and \$73 million, respectively. The State and federal revenue growth was primarily attributable to higher levels of reimbursable program and administrative costs in the children and family services programs of \$122 million, health administration programs of \$100 million, public health programs of \$54 million, mental health programs of \$38 million, ambulatory care services of \$31 million, and sheriff programs of \$26 million. In addition, the AB85 amount owed was less than the prior year which resulted in a \$95 million increase in State realignment revenue.
- Revenues from taxes increased by \$380 million and property taxes comprised \$307 million of this
  increase which was primarily associated with growth in assessed property values. Residual property
  tax revenues, which are associated with redevelopment dissolution, were \$243 million in the current
  year, or \$41 million higher than the prior year. Property tax growth was also reflected in "pass through"
  property tax revenues, which were \$39 million higher in the current year.

#### Governmental Funds-Continued

• General fund expenditures increased by a total of \$1.639 billion, or 9.3%. Current expenditures increased by \$1.639 billion, and debt service and capital outlay expenditures remained the same. The most significant increase in current expenditures was reflected in the health and sanitation programs, where expenditures grew by \$1.069 billion. This was primarily due to an increase of \$447 million for ambulatory care services and for mental health services. In addition, an increase of \$162 million was from programs administered for health community programs and \$61 million for public health programs. Public protection program costs were higher by \$276 million, of which \$227 million, and \$19 million were associated with the departments of Sheriff and District Attorney, respectively, and \$30 million was for the Diversion and Reentry program. Public assistance expenditures were higher by \$241 million, of which \$153 million was for salary and benefit increases and \$81 million was for increased spending on public assistance payments, children and family assistance payments and the affordable housing program. General government spending increased by \$31 million and was associated with an increase of \$24 million for costs associated with capital improvements.

The Fire Protection District reported a year-end fund balance of \$147 million, which represented a decrease of \$29 million in fund balance compared to the previous year decrease of \$30 million, resulting in a net difference of \$1 million. The Fire Protection District responds to a number of major incidents and emergencies during the fiscal year. Revenues increased by \$32 million, of which \$49 million was related to property taxes and primarily associated with growth in assessed property values and was offset by a decline in a variety of other revenues. Expenditures were higher by \$31 million, of which \$53 million was related to an increase in salaries and employee benefit costs and was offset by decreases of \$13 million and \$8 million in services and supplies and capital asset equipment costs, respectively.

The Flood Control District reported a year-end fund balance of \$488 million, which represented a decrease of \$15 million in fund balance compared to the previous year increase of \$33 million, resulting in a net difference of \$48 million. The change in fund balance was primarily due to higher expenditures by \$93 million for infrastructure improvement projects to support flood protection and water conservation. This was offset by revenues that increased by \$51 million, primarily from property taxes and charges for services.

The LA County Library Fund reported a year-end fund balance of \$88 million, which represented an increase of \$10 million in fund balance compared to the previous year increase of \$3 million, resulting in a net difference of \$7 million. The increase in the change in fund balance was primarily attributable to higher property tax revenues of \$6 million from the prior year. Overall, revenue was higher by \$8 million and expenditures were higher by \$2 million.

The Regional Park and Open Space District reported a year-end fund balance of \$404 million, which represented an increase of \$84 million in fund balance compared to the previous year increase of \$42 million, resulting in a net difference of \$42 million. The increase in the change of fund balance was primarily attributable to higher property tax revenue of \$91 million from the the Safe, Clean Neighborhood Parks, Open Space, Beaches, Rivers Protection, and Water Conservation Measure A (Measure A). Measure A levied 1.5 cents annually per square foot of improved property. Overall, current year revenues were higher by \$17 million and expenditures were lower by \$25 million.

#### Governmental Funds-Continued

The Mental Health Services Act (MHSA) Special Revenue Fund reported a year-end fund balance of \$938 million, which represented a decrease of \$112 million in fund balance compared to no change in fund balance from the previous year. Current year revenues were higher by \$26 million, primarily from an increase in State revenues, while transfers out were higher by \$125 million from an increase in mental health expenditures in the General Fund. Expenditures increased by \$13 million primarily to fund affordable housing projects for mental health clients.

### Proprietary Funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The County's principal proprietary funds consist of four hospital enterprise funds and each one is reported as a major fund. All of the aforementioned funds incurred a net loss prior to contributions and transfers.

The County is legally required to provide local matching funds to the health care system in order to remain eligible for federal and State assistance. Such funds were provided to the hospitals as operating subsidies from the County General Fund during the year as discussed in Note 15 to the basic financial statements. The amount of subsidy, per facility, ranged from \$8 million for Olive View-UCLA Medical Center to \$462 million for the LAC+USC Medical Center. The total subsidy amount was \$632 million and is reflected in the Statement of Revenues, Expenses and Changes in Fund Net Position as "transfers in." By comparison, the total General Fund subsidy in the prior year was \$530 million. During the current year, the County's hospital operations experienced higher levels of patient care revenues and operating expenses in comparison to the prior year as previously discussed.

An additional source of local funding for the Hospitals is the Health Services Measure B Special Revenue Fund (Measure B Fund). The Measure B Fund receives voter approved property taxes for trauma and emergency services. In the current year, the Measure B Fund provided transfers to the LAC+USC Medical Center (\$122 million), Harbor-UCLA Medical Center (\$50 million), and Olive-View UCLA Medical Center (\$45 million). The total current year amount of \$217 million in Measure B transfers was slightly higher by \$8 million from the prior year amount of \$209 million.

Waterworks Funds reported year-end net position of \$790 million, which was \$10 million lower than the previous year due to higher operating expenses. There were no significant operational changes during the current year. Current year operating revenues for charges for services were lower by \$1 million, operating expenses were higher by \$10 million, and nonoperating revenue/(expenses) were higher by \$2 million.

#### **General Fund Budgetary Highlights**

The accompanying basic financial statements include a Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual on Budgetary Basis for the County's General Fund. The County's budgetary basis of accounting is discussed in Notes 1 and 16 to the basic financial statements. There are approximately 180 separate budget units within the General Fund, excluding capital improvement projects, which are individually budgeted. The data presented below represents the net budgetary changes for the General Fund in a highly summarized format. Accordingly, in certain instances, budgets have been increased for programs within a category even though actual amounts have not been realized for the category in its entirety. Under the budgetary basis, there was a net increase of \$161 million in the General Fund's available (unassigned) fund balance from the previous year.

#### Budgetary Summary - Revenues/Financing Sources

Following is a summary of current year budgetary changes and actual results (on the County's budgetary basis) for General Fund revenues and other financing sources (in thousands):

<u>Category</u>	(D Fro	Increase (Decrease) From Original Budget		Final Budget Amount		Actual Amount		Variance- Positive (Negative)	
Taxes	\$	72,204	\$	5,978,608	\$	6,042,289	\$	63,681	
Intergovernmental revenues		40,634		11,135,583		10,175,360		(960,223)	
Charges for services		48,128		2,727,854		2,508,796		(219,058)	
All other revenues		25,771		615,003		707,628		92,625	
Other sources and transfers in		28,626		1,176,661		974,329		(202,332)	
Total	\$	215,363	\$	21,633,709	\$	20,408,402	\$	(1,225,307)	

#### Changes from Amounts Originally Budgeted

During the year, net increases in budgeted revenues and other financing sources were approximately \$215 million. The most significant changes occurred in the following areas:

- The budget for tax revenues increased by \$72 million. Of this increase, \$60 million was associated
  with year-end budgetary changes that are designed to demonstrate compliance with legal provisions
  related to the appropriation of revenues from property taxes and certain other tax related revenues.
- The estimated revenue for "Charge for Services" increased by \$48 million. The increase is primarily from revenue associated with the new Voter Solutions for All People (VSAP) election system of \$22 million. Also, there was in increase of \$12 million in health care administration programs and \$7 million in the Sheriff contract cities revenue. There were other net budget increases in charges for services of \$7 million.
- Estimated intergovernmental revenues increased by \$41 million. The social service and child and family programs increased the estimated State and federal revenues by \$49 million. Net additions of \$31 million were made to augment federal funds budgeted for the GPP and WPC program pursuant to the Medi-Cal 2020 Federal Waiver program in the health department. Budgeted intergovernmental revenues for capital projects were increased by \$25 million to reflect additional grant funding. Also, an increase of \$15 million was made to budgeted intergovernmental revenues associated with redevelopment dissolution successor agencies. The decrease is primarily attributable to the reduction of State Health Realignment estimated revenues of \$85 million. There were other net increases to budgeted intergovernmental revenues of \$6 million.
- The budget for "other sources and transfers in" increased by \$29 million. Budgeted transfers in for capital projects were increased by \$20 million from the nonmajor special revenue funds. Mental Health programs funded by the Mental Health Services Act Special Revenue Fund were increased by \$4 million. There were net increases to budgeted "other sources and transfers in" of \$5 million.

#### Changes from Amounts Originally Budgeted-Continued

• The budgeted "all other revenues" increased by \$26 million. Budgeted revenues were increased by \$15 million for tobacco settlement revenues. The remaining increases of \$11 million were associated with a wide variety of revenues.

#### Actual Revenues/Financing Sources Compared with Final Budget Amounts

Actual revenues and other financing sources recognized by the General Fund were approximately \$20.408 billion. This amount was \$1.225 billion, or 5.7%, lower than budget. As discussed below, most of this variance was concentrated in the areas of intergovernmental revenues, charges for services, and "other sources and transfers in."

- Actual intergovernmental revenues were \$960 million lower than the amount budgeted. Approximately \$344 million was associated with social services and child and family programs, where reimbursable costs were lower than anticipated due to delays in hiring and promoting staff, reduced contractual spending for services and child care provider payments, and delays in implementing new systems. Mental health programs accounted for approximately \$244 million of this variance, which experienced lower than anticipated reimbursable costs and correspondingly lower than expected revenues. Budgeted intergovernmental revenues of \$230 million were not realized for various capital improvements, disaster recovery programs and emergency preparedness projects, as these initiatives were not completed prior to year-end. Public health related programs experienced budgeted revenue shortfalls of \$154 million, most of which was associated with federal and State grants and offset by a comparable amount of cost savings. The remaining difference of \$12 million was related to a variety of other programs.
- Actual charges for services were \$219 million lower than the amount budgeted. The decrease was
  primarily attributable to revenues associated with the GPP and services rendered to the County
  hospitals of \$89 million. Net reductions include costs associated with public health programs which
  experienced lower than anticipated reimbursable costs and correspondingly lower than expected
  revenues of \$83 million. Approximately \$34 million was associated with the Internal Services
  Department (ISD), which experienced lower that reimbursable expenditures. There were net
  decreases of \$13 million related to a variety of other programs.
- The actual amount of "other sources and transfers in" was \$202 million lower than the amount budgeted. Of this amount, mental health programs funded by the Mental Health Services Act Special Revenue Fund did not fully materialize at the budgeted level and "transfers in" were \$122 million lower than budgeted. In addition, "transfers in" totaling \$49 million were assumed in the budget for capital improvements and extraordinary building maintenance projects, which did not incur expected costs. Costs associated with Probation and Sheriff Department programs funded by the Other Public Protection Special Revenue Funds were \$13 million less than budgeted. The "transfers in" for the housing for health program, funded by the nonmajor special revenue funds, were \$10 million less than budgeted. There were various other sources and transfers that comprised the remaining variance of \$8 million.

#### Budgetary Summary - Expenditures/Other Financing Uses

Following is a summary of current year budgetary changes and actual results (on the County's budgetary basis) for General Fund expenditures, transfers out, and changes in fund balance components (in thousands):

<u>Category</u>	Increase (Decrease) From Original Budget		Final Budget Amount		Actual Amount		Variance- Positive	
General government	\$ (187,342)	\$	2,148,163	\$	1,269,518	\$	878,645	
Public protection	163,841		6,117,033		5,922,770		194,263	
Health and sanitation	(45,512)		5,808,067		5,093,306		714,761	
Public assistance	73,794		7,204,254		6,559,773		644,481	
All other expenditures	54,593		1,439,872		600,566		839,306	
Transfers out	7,721		685,649		671,633		14,016	
Contingencies	20,405		58,472				58,472	
Fund balance changes-net	 127,863		101,531		130,328		(28,797)	
Total	\$ 215,363	\$	23,563,041	\$	20,247,894	\$	3,315,147	

#### Changes from Amounts Originally Budgeted

During the year, net increases in General Fund appropriations and fund balance component changes were approximately \$215 million. The most significant changes occurred in the following areas:

- Public protection appropriations were increased by \$164 million. An increase of \$198 million of salaries and employee benefits were appropriated and the majority of the increase was to comply with the Ninth Circuit Court of Appeals decision on overtime. In addition, law enforcement appropriations were decreased by \$50 million to provide funding for grant program and contract cities services. There were net increases of \$16 million for other public protection programs.
- Net fund balance budgetary changes of \$128 million had the effect of reducing the available (unassigned) fund balance component. At the end of the year, the restricted fund balance increased by \$40 million for utility users' taxes that were not expended and remained obligated for programs in unincorporated areas. Committed fund balance was increased by \$38 million for reserve for rainy day funds, \$30 million for Tobacco Settlement funds, and \$15 million for Board Budget Policies and Priorities. The remaining variance of \$5 million was attributable to various other fund balance accounts.
- Public assistance appropriation increased by \$74 million. An increase of \$54 million of salaries and
  employee benefits were appropriated and the majority of the increase was to comply with the Ninth
  Circuit Court of Appeals decision on overtime. In addition, there was an \$15 million increase in
  appropriation for social services programs. The remaining variance of \$5 million was related to other
  public assistance programs.

#### Changes from Amounts Originally Budgeted-Continued

• General government appropriations decreased by \$187 million. The decrease was largely attributable to appropriations not associated with specific County departments. Nondepartmental special accounts appropriations decreased by \$134 million to fund increases in salaries and employee benefits to comply with a Ninth Circuit Court of Appeals decision on overtime. Provisional appropriations decreased by \$72 million and were transferred to other functional categories to fund capital projects, jail medical services, community programs, Sheriff's litigation settlements and unspent User Utility Tax funds to obligated fund balance. In addition, \$12 million shifted funds for extraordinary maintenance to capital projects. This was offset by an increase of appropriations of \$12 million to the Registar-Recorder to fund the VSAP election system. There were net increases of \$19 million for other general governmental programs.

#### Actual Expenditures/Other Financing Uses Compared with Final Budget Amount

Actual expenditures/other financing uses for the current year were \$3.315 billion lower (14.1%) than the final total budget of \$23.563 billion. There were budgetary savings in all functional expenditure categories. Following are the functional areas that recognized the largest variations from the final budget:

- The general government function reported actual expenditures that were \$879 million less than the amount budgeted. Of this amount, \$572 million represented budgetary savings for items that are not associated with specific County departments, such as provisional appropriations and central non-departmental appropriations. Salaries and employee benefits savings of \$109 million were due to hiring delays and vacancies. The County's Board of Supervisors had budgetary savings of \$98 million to be spent in future years for various community projects. The County's real estate budget had budgetary savings of \$22 million due to lower than anticipated costs associated with various properties. The County's ISD budget had budgetary savings of \$18 million due to continued implementation of the Countywide energy efficiency programs. The remaining \$60 million was spread across County departments comprising general government and was mostly related to savings in the areas of services and supplies.
- The category referred to as "all other expenditures" reflected actual spending of \$839 million less than the budgeted amount. Of this variance, \$812 million was in the capital outlay category and was related to numerous capital improvements anticipated in the budget that remained in the planning and development stages and did not incur expenditures during the year. Most of the unused balance has been re-established in the following year's budget to ensure the continuity of the projects, many of which are multi-year in nature.
- Overall expenditures for the health and sanitation category were \$715 million less than the budgeted amount. Specifically, the budgetary savings of \$281 million was from mental health programs, \$138 million from public health programs, \$137 million from the County's managed care services for the health services, and \$48 million from the health services administration budget that provides support to the County's hospitals and housing for health programs. There were also \$107 million from salaries and employee benefits savings and lower than anticipated costs for contracted services. The remaining variance of \$4 million was due to lower than expected services and supplies and contracted costs related to other health and sanitation programs.

Actual Expenditures/Other Financing Uses Compared with Final Budget Amount-Continued

Actual public assistance expenditures were \$644 million lower than the final budget. Vendor and assistance payments for social services and children and family programs were lower than budgeted by \$440 million. Administrative cost savings in these areas were due to lower than anticipated costs for professional, contracted, and information technology services and delays in hiring. There were also direct program savings associated with lower than anticipated caseloads. Salaries and employee benefits savings of \$140 million were due to hiring delays and vacancies. There were \$51 million of savings related to homeless and housing programs due to delays in carrying out multi-year projects. The remaining variance of \$13 million was related to other public assistance programs.

#### **Capital Assets**

The County's capital assets for its governmental and business-type activities as of June 30, 2019 were \$19.743 billion (net of depreciation). Capital assets include land, easements, buildings and improvements, equipment, software, and infrastructure. The major infrastructure network elements are roads, sewers, water, flood control, and aviation. Specific capital asset changes during the current year are presented in Note 6 to the basic financial statements.

The total increase in the County's capital assets (net of depreciation) for the current fiscal year was \$225 million as shown in the following table.

### Changes in Capital Assets, Net of Depreciation Primary Government - All Activities (in thousands)

	Current Year		Prior Year	Increase (Decrease)	
Land and easements	\$	7,632,374	\$ 7,595,597	\$	36,777
Buildings and improvements		5,629,127	5,531,749		97,378
Infrastructure		4,279,689	4,421,159		(141,470)
Equipment		661,062	645,853		15,209
Software		238,719	275,010		(36,291)
Capital assets, in progress	1,302,501		1,049,509		252,992
Total	\$	19,743,472	\$ 19,518,877	\$	224,595

The most significant increase was in Capital assets, in progress, which increased by \$253 million. The County's major capital asset initiatives during the current year continued to focus on new facilities and major improvements. For governmental activities, the major capital asset projects were for recreation and cultural services of \$153 million, health and sanitation of \$75 million, and public protection of \$42 million. The governmental activities major projects included the Los Angeles County Museum of Art Building for the Permanent Collection project and the Music Center Plaza renovation, Mental Health Treatment Center, and the Vermont Corridor County Administration Building project.

For business-type activities, major construction in progress was \$27 million at the Rancho Los Amigos National Rehabilitation Center for various projects, including the Support Services Annex Building Renovation and Seismic Retrofit projects. There was also \$24 million of capitalized construction-in-progress costs at Harbor-UCLA Medical Center for various projects, including the new Outpatient/Support Building. In addition, there was capitalized software-in-progress costs of \$23 million for the Assessor's Modernization Project Phase 3 and \$19 million for the Registrar-Recorder/County Clerk's VSAP election system project.

Buildings and improvements increased by \$97 million. Various projects were completed during the fiscal year, including the Rancho Los Amigos National Rehabilitation Center's New Outpatient Facilities, with a net book value of \$101 million, the Martin Luther King, Jr. New Parking Structure, with a net book value of \$39 million, the 3965 S. Vermont Avenue Renovation for Probation, with a net book value of \$26 million, and the Sheila Kuehl Family Wellness Center, with a net book value of \$12 million. As of June 30, 2019, there were \$76 million of capital asset commitments outstanding.

#### **Debt Administration**

During the current year, the County's liabilities for long-term debt, including accreted interest, increased by \$514 million, as newly issued debt and accretions of \$942 million were more than the debt maturities of \$428 million. Specific changes related to governmental and business-type activities are presented in Note 11 to the basic financial statements.

During the current year, significant long-term debt transactions were as follows:

- Lease Revenue Obligation Notes (LRON) of \$562 million were issued for governmental and businesstype activities in the amounts of \$239 million and \$323 million, respectively. For governmental activities, debt was issued to finance a renovation for a probation facility, parking lot and a new museum of art building. For business-type activities, debt was issued to finance hospital improvements.
- New debt of \$347 million (including bond premium proceeds) was issued to finance the construction of the Vermont Corridor County Administration Building and parking structure.
- New debt of \$30 million was issued to finance the acquisition of equipment for governmental activities.
   Equipment debt totaling \$20 million was redeemed during the year in accordance with maturity schedules.

In addition to the above borrowing, the County continued to finance General Fund cash flow shortages occurring periodically during the fiscal year by selling \$700 million in tax and revenue anticipation notes.

The notes matured and were redeemed on June 28, 2019. The General Fund also relied upon periodic borrowing from available agency funds.

#### **Bond Ratings**

The County's debt is rated by Moody's, Standard & Poor's, and Fitch. The following is a schedule of ratings assigned by the respective rating agencies:

	Moody's	Standard & Poor's	<u>Fitch</u>
Certificates of Participation	Aa3	AA	AA
Equipment/Non-Essential Leases	Aa2	AA	AA
Operating/Non-Essential Leases	Aa2	AA	AA
Short-Term	MIG1	SP-1+	F1+
Regional Park and Open Space District Bonds	Aa1	AA	AAA

The County's bond ratings assigned by Fitch for General Obligation Bonds, Certificates of Participation (formerly referred as "Facilities"), Equipment Lease Revenue, and Operating Leases were upgraded from the previous year.

#### **Economic Conditions and Outlook**

The Board of Supervisors adopted the County's 2019-2020 Budget on June 24, 2019. The Budget was adopted based on estimated fund balances that would be available at the end of 2018-2019. The Board updated the Budget on October 1, 2019 to reflect final 2018-2019 fund balances and other pertinent financial information. For the County's General Fund, the 2019-2020 Budget utilized \$2.090 billion of fund balance, which exceeded the previously estimated fund balance of \$1.654 billion. Of the additional fund balance of \$436 million, \$203 million was used to carryover lapsed appropriations and ensure the continuity of funded program initiatives. The remaining \$233 million was primarily used to fund programs for fighting homeless and increasing affordable housing, investing in children, families, and seniors, innovation and growth in health care, fostering arts and culture, advancing information technology initiatives, enhancing public safety, increasing consumer protection, and investing in public assets.

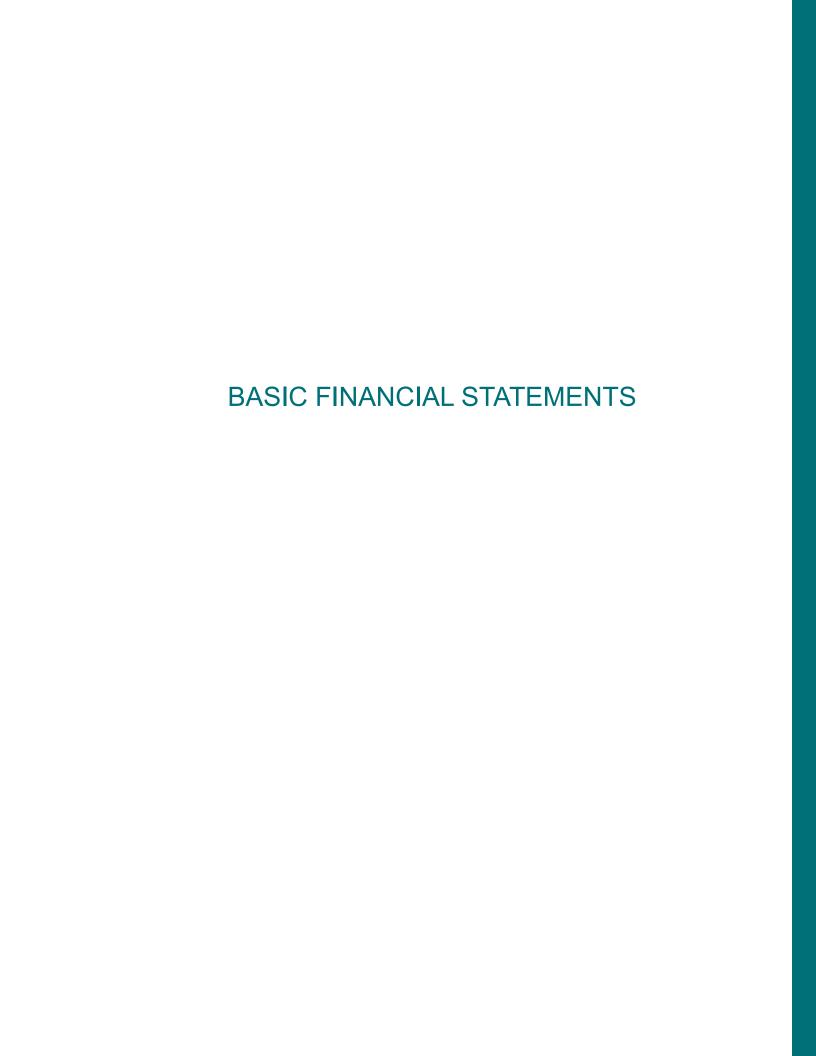

The County's 2019-2020 Budget reflects the County's values and vision, along with its ambitious commitment to improving life for all County residents, especially the vulnerable and under-served. The projects and programs reflects the budget for funding to advance key priorities of fighting homelessness, promoting health and well-being, improving our justice system, championing the rights and needs of immigrants, creating better lives for children and families, and enriching communities through the arts, recreation, and sustainability. The County's budget continues to reflect the County's long-standing commitment to responsible and sustainable fiscal practices. The County has experienced slow and steady growth in the economy and has a positive outlook for the remainder of 2019 and into 2020 year. The County has taken steps to address long-term budget issues by approving a multi-year plan to prefund retiree healthcare benefits and increasing the County's "Rainy Day Reserve" to \$602 million. Looking forward, there are some long-term budgetary issues which will require significant investments and may require a multi-year funding approach related to the expiration of the Title IV-E Waiver, VSAP Election system, Information Technology Systems Replacements, the Facility Reinvestment program, Pensions, OPEB, and Stormwater and Urban Runoff. The County's budget also anticipates uncertainty with budget proposals from both the federal and State governments that could create significant short and long-term budget challenges for the County.

The County's budget outlook, while favorable, continues to be influenced by the fiscal condition and outlook of the State of California. In this regard, the State Legislative Analyst's Office (LAO) reports the California's budget continues to be in a good position for FY 2020-2021. The State projects to have sufficient resources to pay for its existing commitments and estimates to have a surplus for FY 2020-2021. In addition, the State continues to add additional funds to the State's rainy day fund. For the longer term, the State should conservatively allocate its available surplus and focus on one-time, flexible commitments that can be changed mid-year if economic conditions change. The State's outlook is subject to either continuing economic growth or a recession. With a continuing growing economy, the operating surplus will increase, but will decline over time. In the recession scenario, the State has enough reserve to cover its deficit for the outlook period. Health and human services programs are subject to considerable challenges and uncertainty as the State depends on information from the federal government or State executive branch.

The County receives substantial federal revenues and operates many programs which are subject to federal rules and regulations. Federal assistance is especially critical to the County's ability to operate its four County hospitals and health care network. The County is carefully monitoring State and federal policy developments to determine the future impacts, if any, on its ability to administer federal programs and deliver County services that rely upon federal funding. In addition, no update has been received regarding the State audit that questioned California Medical Assistance Program payments. The findings of the audit included \$2.1 billion in overpayments related to Los Angeles County beneficiaries. The financial impact, if any, in future years to the County has yet to be quantified.

#### **Obtaining Additional Information**

This financial report is designed to provide a general overview of the County's finances for all interested parties. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Los Angeles County Auditor-Controller, 500 West Temple Street, Room 525, Los Angeles, CA 90012-3873.

Amounts reported for governmental activities in the statement of activities are different because:  Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:  Expenditures for general capital assets, infrastructure and other related capital asset adjustments  Less - current year depreciation expense:  Less - current year depreciation expense  In the statement of activities, only the gain or loss on the disposal of capital assets is reported, whereas in the governmental funds, the proceeds from the sale are reported as an increase in financial resources. Thus, the change in net position differs from the change in fund balance.  Contribution of capital assets is not recognized in the governmental funds.  Amortization of losses on refunding of debt are reported as changes to deferred outflows of resources in governmental activities. but not reported for governmental funds.  Changes in unavailable revenues are reported as changes to deferred outflows of assets of seasons and contribution of capital assets is not recognized when earned for governmental funds.  Change in accrued interest on long-term receivables  Change in accrued interest on long-term receivables  Change in unamortized premiums  In the statement of the position:  Certificates of participal is an expenditure in the governmental funds, but increases long-term liabilities in the statement of net position:  Certificates of participation and bonds  Assessment bonds  Other long-term notes, loans and capital leases  Some expenses reported in the accompanying statement of activities do not require (or provide) the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:  Change in workers' compensation  Change in preparion liability, net of related deferred outflows of resources and deferred inflows of resources  Change in pacentum funds:  Change in hird party	Net change in fund balances - total governmental funds (page 33)		\$ 915,538
activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:  Expenditures for general capital assets, infrastructure and other related capital asset adjustments  Less - current year depreciation expense:  In the statement of activities, only the gain or loss on the disposal of capital assets is reported, whereas in the governmental funds, the proceeds from the sale are reported as an increase in financial resources. Thus, the change in net position differs from the change in fund balance.  Contribution of capital assets is not recognized in the governmental funds.  Amortization of losses on refunding of debt are reported as changes to deferred outflows of resources for governmental funds, but not reported for governmental funds.  Changes in unavailable revenues are reported as changes in deferred inflows of resources for governmental funds, but were recognized when earned for governmental activities.  Change in accrued interest on long-term receivables  Change in accrued interest on long-term receivables  Change in unamortized premiums  Issuance of long-term debt provides resources in the governmental funds, but increases long-term liabilities in the statement of net position. #### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Reporting Entity

The County of Los Angeles (County), which was established in 1850, is a legal subdivision of the State of California (State) charged with general governmental powers. The County's powers are exercised through an elected five member Board of Supervisors (Board), which, as the governing body of the County, is responsible for the legislative and executive control of the County. As required by generally accepted accounting principles (GAAP), these basic financial statements include both those of the County and its component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational or financial relationships with the County.

The basic financial statements include blended, fiduciary and discretely presented component units. The blended component units, although legally separate entities are, in substance, part of the County's operations. The data from these units are combined with data of the primary government. The fiduciary component unit is reported under Fiduciary Funds in the basic financial statements. The discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements.

## **Blended Component Units**

While each of the component units is legally separate from the County, the County is financially accountable for these entities. Financial accountability is primarily demonstrated by the County's Board acting as the governing board for each of the component units and its ability to impose its will or an existence of a financial benefit/burden relationship. County management has determined that the following related entities should be included in the basic financial statements as blended component units:

Fire Protection District

Flood Control District

Garbage Disposal Districts

Improvement Districts

Regional Park and Open Space District

Sewer Maintenance Districts

Waterworks Districts

Los Angeles County Capital Asset Leasing

Corporation (a Not-for-Profit Corporation) (NPC)

Various Joint Powers Authorities (JPAs)

Los Angeles County Securitization Corporation

(LACSC)

Street Lighting Districts

Uaterworks Districts

Los Angeles County Facilities Inc. (LACF)

The various districts are included primarily because the Board is also their governing board and the County has operational responsibilities for the districts. As such, the Board establishes policy, appoints management and exercises budgetary control. The NPC and JPAs have been included because their sole purpose is to finance and construct County capital assets and because they are dependent upon the County for funding.

The Los Angeles County Capital Asset Leasing Corporation (LACCAL) is organized as a not-for-profit corporation in which the primary government is the sole corporate member, as identified in LACCAL's articles of incorporation or bylaws, and the component unit is included in the financial reporting entity.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

### **Blended Component Units-Continued**

The LACSC is a California public benefit corporation created by the County Board in January 2006. Three directors, the County's Auditor-Controller, Treasurer and Tax Collector, and an independent party designated by at least one of the County directors, govern the LACSC. The LACSC purpose is to acquire the County's rights in relation to future tobacco settlement payments and to facilitate the issuance of long-term bonds secured by the County Tobacco Assets. The LACSC provides service solely to the County and is reported as a blended component unit of the County.

LACF is a California nonprofit pubic benefit corporation and an organization described under Section 501(c)(3) of the Internal Revenue Code of 1986. It was formed on April 25, 2016. On July 26, 2018, LACF issued \$302.38 million of lease revenue bonds to be used to finance the construction of the Vermont Corridor County Administration Building and parking structure. LACF is reported as a blended component unit because it provides services solely to the County and it is fiscally dependent on the County. It is reported under Public Buildings Debt Service and Capital Projects funds.

### **Fiduciary Component Unit**

The County pension plan is administered by the Los Angeles County Employees Retirement Association (LACERA), which was established under the County Employees' Retirement Law of 1937 (CERL). LACERA is a cost-sharing, multi-employer defined benefit plan. LACERA provides retirement, disability, death benefits and cost of living adjustments to eligible members. LACERA also administers a cost-sharing, multi-employer Other Postemployment Benefit (OPEB) or Retiree Healthcare Program on behalf of the County. LACERA is reported in the Pension and OPEB Trust Funds on the Statement of Net Position - Fiduciary Funds of the basic financial statements and has been included because its operations are dependent upon County funding and because its operations, almost exclusively, benefit the County. LACERA issues a stand-alone financial report, which is available at its offices located at Gateway Plaza, 300 N. Lake Avenue, Pasadena, California 91101-4199 or at www.LACERA.com.

### Discretely Presented Component Units

Los Angeles County Development Authority (formerly Community Development Commission of the County of Los Angeles)

On May 16, 2019, the Community Development Commission/Housing Authority of the County of Los Angeles established on July 1, 1982 under the provisions of Section 34100-34160 of the Health and Safety Code of the State of California, was officially rebranded to the Los Angeles County Development Authority (LACDA).

#### LACDA is responsible for:

- Administering the Housing Choice Voucher and other Section 8 programs;
- Directing the County's housing programs, including planning, housing finance, production and conservation, and management of the County's public housing developments;
- Financing community improvements such as resurfacing streets and rehabilitating homes and businesses;
- Providing economic development, business revitalization services, and comprehensive planning systems for affordable housing; and
- Developing housing, business, and industry in designated areas.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

## <u>Discretely Presented Component Units</u>-Continued

<u>Los Angeles County Development Authority (formerly Community Development Commission of the County of Los Angeles)</u>-Continued

While its Board members are the same as the County Board, LACDA does not meet the criteria for blending due to the following: 1) there is no financial burden or benefit relationship with the County nor does management of the County have operational responsibilities over it; 2) LACDA does not provide services entirely or almost entirely to the County; and 3) LACDA's total debt outstanding is not expected to be repaid with resources of the County. The financial activity of LACDA is reported within the Discretely Presented Component Units column of the government-wide financial statements. LACDA issues a separate financial report that can be obtained at <a href="https://www.lacda.org/about-cdc/budget-and-finance">https://www.lacda.org/about-cdc/budget-and-finance</a> or by writing to the Los Angeles County Development Authority at 700 W. Main Street, Alhambra, California 91801.

## Los Angeles County Children and Families First - Proposition 10 Commission

Los Angeles County Children and Families First - Proposition 10 Commission, also known as First 5 LA, was established by the County as a separate legal entity to administer the County's share of tobacco taxes levied by the State pursuant to Proposition 10. The Board established First 5 LA with nine voting members and four non-voting representatives. Of the nine voting members, one is a member of the Board of Supervisors, three are heads of County Departments (Public Health Services, Mental Health, and Children and Family Services), and five are public members appointed by the Board. The non-voting representatives are from other County commissions and planning groups.

First 5 LA services support programs and services for children ages prenatal through five, and their families, in the areas of health, safety, early education and literacy. First 5 LA is a discretely presented component unit of the County because the County's Board appoints the voting Commissioners and the County has the ability to impose its will by removing those Commissioners at will. First 5 LA hires its own employees, including an Executive Director and functions independent of the County. It is discretely presented because its governing body is not substantially the same as the County's governing body and it does not provide services entirely or exclusively to the County. The financial activity of First 5 LA is reported within the Discretely Presented Component Units column of the government-wide financial statements. First 5 LA issues a separate financial report that can be obtained by writing to First 5 LA at 750 N. Alameda Street, Suite 300, Los Angeles, California 90012.

### Related Organization

Los Angeles County Office of Education (LACOE) is a legally separate entity from the County. LACOE is governed by a seven-member Board of Education appointed by the County Board. However, the County's accountability for LACOE does not extend beyond making appointments and no financial benefit/burden relationship exists between the County and LACOE. LACOE is deemed to be a related organization. LACOE issues a separate financial report that can be obtained by writing to the Los Angeles County Office of Education at 9300 Imperial Highway, Downey, California 90242-2890.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

### **Basic Financial Statements**

In accordance with Governmental Accounting Standards Board Statement (GASB) 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments," the basic financial statements consist of the following:

- Government-wide financial statements;
- · Fund financial statements; and
- Notes to the basic financial statements.

### Government-wide Financial Statements

The statement of net position and statement of activities display information about the primary government, the County, and its blended and discretely presented component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities, except for services provided among funds (other than internal service funds). These statements distinguish between the governmental and business-type activities of the County and between the County and its discretely presented component units.

Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs. Grants and contributions that are restricted to meeting the operational or capital requirements of a particular program are also recognized as program revenues. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

Net position is classified into the following three components: 1) net investment in capital assets; 2) restricted; and 3) unrestricted. Net position is reported as restricted when it has external restrictions imposed by creditors, grantors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation. At June 30, 2019, the restricted net position balances were \$3.811 billion and \$138.69 million for governmental activities and business-type activities, respectively. For governmental activities, \$602.37 million was restricted by enabling legislation.

When both the restricted and unrestricted components of net position are available, restricted resources are used first and then unrestricted resources are used to the extent necessary.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

### **Fund Financial Statements**

The fund financial statements provide information about the County's funds, including fiduciary funds and blended component units. Separate statements for each fund category - governmental, proprietary, and fiduciary are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

In accordance with GAAP, the County reports on each major fund. By definition, the general fund is always considered a major fund. Funds other than the general fund must be reported as major funds if they meet both the ten percent and five percent criterion, defined respectively, 1) an individual fund reports at least ten percent of any of the following: a) total fund assets and deferred outflows of resources, b) total fund liabilities and deferred inflows of resources, c) total fund revenues, or d) total fund expenditures/expenses; 2) an individual fund reports at least five percent of the aggregated total for both governmental funds and enterprise funds of any one of the items for which it met the ten percent criterion. In addition, a fund may be reported as major if it is believed to be of particular importance to financial statement users.

The County reports the following major governmental funds:

### **General Fund**

The General Fund is available for any authorized purpose and is used to account for and report all financial resources not accounted for and reported in another fund.

#### Fire Protection District Fund

The Fire Protection District Fund is used to account for fire prevention and suppression, rescue service, management of hazardous materials incidents, ocean lifeguard services, and acquisition and maintenance of the Fire Protection District property and equipment. Funding comes primarily from the Fire Protection District's statutory share of the Countywide tax levy, voter-approved taxes and charges for services.

### Flood Control District Fund

The Flood Control District provides flood protection services that incorporate an integrated water resource management approach in providing flood protection; increases local water availability through conservation efforts; increases stormwater capture and reduces stormwater and urban runoff pollution; and provides passive recreational opportunities. The primary sources of revenue for the Flood Control District are property taxes and benefit assessments (charges for services).

### LA County Library Fund

The LA County Library Fund is used to account for free library services to the unincorporated areas of the County and to cities that contract for these services. Funding comes primarily from the District's statutory share of the Countywide tax levy and voter-approved taxes.

### Regional Park and Open Space District Fund

The Regional Park and Open Space District Fund is used to account for the programs designed to preserve beaches, parks, and wild lands, to acquire and renovate new and existing recreational facilities, and to restore rivers, streams, and trails in the County. Funding comes primarily from voter-approved special taxes, benefit assessments (charges for services) and long-term debt proceeds.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

#### **Fund Financial Statements-Continued**

### Mental Health Services Act Fund

The Mental Health Services Act (MHSA) Fund is used to account for the County's mental health delivery system for children, transition age youth, adults, older adults, and families. Revenues are derived primarily by the passage of State Proposition 63 in November 2004. Proposition 63 generates mental health revenue through a one percent income surcharge on individuals with State taxable incomes over \$1.00 million.

The County's four Hospital Funds and Waterworks Funds are all considered major funds for presentation purposes. There is one nonmajor enterprise fund (Aviation Funds). The Hospital Enterprise funds provide health services to County residents. Revenues are principally patient service fees. Subsidies are also received from the General Fund. The Waterworks Enterprise Funds provide water services to County residents. Revenues are derived primarily from the sale of water and water service standby charges. The Aviation Enterprise Funds provide airport services for five County airports. Revenues are derived primarily from airport charges and rentals. A description of each Enterprise Fund is provided below:

### Harbor-UCLA Medical Center

The Harbor-UCLA Medical Center (H-UCLA) provides acute and intensive care unit medical/surgical inpatient and outpatient services, trauma and emergency room services, acute psychiatric services, pediatric and obstetric services, and transplants.

### Olive View-UCLA Medical Center

The Olive View-UCLA Medical Center (OV-UCLA) provides acute and intensive care, emergency services, medical/surgical inpatient and outpatient health care services, obstetric and gynecological services, and psychiatric services.

### **LAC+USC Medical Center**

The LAC+USC Medical Center (LAC+USC) provides acute and intensive care unit medical/surgical inpatient and outpatient services, trauma and emergency room services, a burn center, psychiatric services, renal dialysis, AIDS services, pediatric and obstetric services, and communicable disease services.

#### Rancho Los Amigos National Rehabilitation Center

The Rancho Los Amigos National Rehabilitation Center (Rancho) specializes in the rehabilitation for victims of spinal cord injuries and strokes, pathokinesiology and polio services, services for liver diseases, pediatrics, ortho diabetes, dentistry, and neuro-science.

### Waterworks Funds

The Waterworks Enterprise funds are used to account for the administration, maintenance, operation and improvement of district water systems.

### **Aviation Funds**

The Aviation Enterprise Funds are used to account for the administration, maintenance, operation and improvement of the five airports which are owned by the County.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

### **Fund Financial Statements-Continued**

The following fund types have also been reported:

### Internal Service Funds

The Internal Service Funds are used to account for the financing of services provided by a department or agency to other departments or agencies on a cost-reimbursement basis. The County's principal Internal Service Fund is used to account for the cost of services provided by the Department of Public Works to various other County funds and agencies.

### Fiduciary Fund Types

### Pension and Other Postemployment Benefits Trust Funds

The Pension Trust Fund is used to account for financial activities of the County's Pension Plan administered by LACERA.

The OPEB Trust Fund is used to account for the financial activities of the OPEB trust for the purpose of holding and investing assets to pre-fund the Retiree Health Program administered by LACERA.

#### **Investment Trust Funds**

The Pooled Investment Trust Fund is used to account for the net position of the County's external investment pool.

The Specific Investment Trust Fund is used to account for the net position of individual investment accounts, in aggregate. The related investment activity occurs separately from the County's investment pool and is provided as a service to external investors.

### **Agency Funds**

The Agency Funds are used primarily to account for assets held by the County in an agency capacity pending transfer or distribution to individuals, private organizations, other governmental entities, and other funds. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. These funds (including property taxes and departmental funds) account for assets held by the County in an agency capacity for individuals or other government units.

### Basis of Accounting

The government-wide, proprietary, pension and other postemployment benefits, and investment trust funds financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants and similar items are recognized in the fiscal year in which all eligibility requirements have been satisfied.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

## **Basis of Accounting-Continued**

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers revenues to be available if collectible within one year after year-end, except for property taxes, which are considered available to the extent that they are collectible within 60 days after year-end. When property taxes are measurable but not available, the collectible portion (taxes levied less estimated uncollectibles) is recorded as deferred inflows of resources in the period when an enforceable legal claim to the assets arises. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims (including workers' compensation) and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and capital lease obligations are reported as other financing sources.

For the governmental funds financial statements, revenues are recorded when they are susceptible to accrual. Specifically, ad valorem property taxes (except for redevelopment agency dissolution), sales taxes, investment income (loss), charges for services, and other miscellaneous revenue are all considered to be susceptible to accrual and have been recognized as revenue in the current fiscal period. Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met and are recorded at the time of receipt or earlier, if the susceptible to accrual criteria are met. When all eligibility requirements are met, except for the timing requirements, a deferred inflow of resources is reported until the time requirements have passed. All other revenues are not considered susceptible to accrual and are recognized when received, including property tax revenues derived from redevelopment agency dissolution.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's four Hospital Enterprise Funds (Hospitals) are from patient services. The principal operating revenues for the Waterworks Enterprise Funds are from charges for services. The principal operating revenues for the Nonmajor Aviation Enterprise Funds and Internal Service Funds are charges for services and rental revenues. Operating expenses for all Enterprise Funds and the Internal Service Funds include the cost of sales and services, administrative expenses and depreciation on capital assets. Medical malpractice expenses, which are self-insured, are classified as operating expenses of the Hospitals. All other revenues and expenses not meeting this definition are reported as nonoperating items. As discussed in Note 14, intergovernmental transfer payments are recorded in the Hospitals and this item is classified as a nonoperating expense.

Agency funds do not have a measurement focus because they report only assets and liabilities. They do, however, use the accrual basis of accounting to recognize receivables and payables.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

### **Budgetary Data**

In accordance with the provisions of Sections 29000-29144 of the Government Code of the State of California (Government Code), commonly known as the County Budget Act, the County prepares and adopts a budget on or before October 2 for each fiscal year. Budgets are adopted for the major governmental funds and certain nonmajor governmental funds on a basis of accounting that is different from GAAP. Annual budgets were not adopted for the JPAs, Public Buildings and the LACSC debt service funds, the capital project funds and the permanent funds.

The County budget is organized by budget unit and by expenditure object. Budget units are established at the discretion of the Board. Within the General Fund (with certain exceptions), budget units are generally defined as individual departments. For other funds, each individual fund constitutes a budget unit. Expenditures are controlled at the object level for all budget units within the County, except for capital asset expenditures, which are controlled at the sub-object level. The total budget exceeds \$34.461 billion and is currently controlled through the use of approximately 500 separate budget units. There were no excesses of expenditures over the related appropriations within any fund for the year ended June 30, 2019. The County prepares a separate budgetary document, the County Budget, which demonstrates legal compliance with budgetary control. This document is made available to the public on the County's website at <a href="https://ceo.lacounty.gov/budget">https://ceo.lacounty.gov/budget</a>, or can be obtained from the Auditor-Controller's office.

Transfers of appropriations between budget units must be approved by the Board. Supplemental appropriations financed by unanticipated revenue during the year must also be approved by the Board. Transfers of appropriations between objects of expenditure within the same budget unit must be approved by the Board or the Chief Executive Office, depending upon the amount transferred. The original and final budget amounts are reported in the accompanying basic financial statements. Any excess of budgetary expenditures and other financing uses over revenues and other financing sources is financed by beginning available fund balances as provided for in the County Budget Act.

Note 16 describes the differences between the budgetary basis of accounting and GAAP. A reconciling schedule is also presented for the major governmental funds.

### **Property Taxes**

All jurisdictions within California derive their taxing authority from the State Constitution and various legislative provisions contained in the Government Code and Revenue and Taxation Code. Property is assessed at 100% of full cash or market value (with some exceptions) pursuant to Article XIIIA of the California State Constitution and statutory provisions by the County Assessor and State Board of Equalization. The total Fiscal Year (FY) 2018-2019 assessed valuation of the County approximated \$1.530 trillion.

The property tax levy to support general operations of the various jurisdictions is limited to one percent (1%) of full cash value and is distributed in accordance with statutory formulae. Amounts needed to finance the annual requirements of voter-approved debt are excluded from this limitation and are separately calculated and levied each fiscal year. The rates are formally adopted by either the Board or the city councils and, in some instances, the governing board of a special district.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

### **Property Taxes-Continued**

The County is divided into 12,736 tax rate areas, which are unique combinations of various jurisdictions servicing a specific geographic area. The rates levied within each tax rate area vary only in relation to levies assessed as a result of voter-approved taxes or indebtedness.

Property taxes are levied on both real and personal property. Secured property taxes are levied during September of each year. They become a lien on real property on January 1 preceding the fiscal year for which taxes are levied. These tax payments can be made in two equal installments; the first is due November 1 and delinquent with penalties after December 10; the second is due February 1 and delinquent with penalties after April 10. Secured property taxes, which are delinquent and unpaid as of June 30, are declared to be tax defaulted and are subject to redemption penalties, costs, and interest when paid. If the delinquent taxes are not paid at the end of five (5) years, the property may be sold at public auction. The proceeds are used to pay the delinquent amounts due, and any excess is remitted, if claimed, to the taxpayer. Additional tax liens are created when there is a change in ownership of property or upon completion of new construction. Tax bills for these new tax liens are issued throughout the fiscal year and contain various payment and delinquent dates but are generally due within one year. If the new tax liens are lower, the taxpayer receives a tax refund rather than a tax bill. Unsecured personal property taxes are not a lien against real property. These taxes are due on August 1 and become delinquent, if unpaid, on August 31.

### Legislation Dissolving Redevelopment Agencies and Affect on Property Taxes

State Assembly Bill (AB) x1 26, also referred to as the "Redevelopment Dissolution Act" was approved in 2011. Under AB x1 26, property tax revenues are allocated to pay enforceable legal obligations, pass-through payments and eligible administrative costs. Any remaining property tax revenues, otherwise known as "residual taxes," are distributed as property tax revenue to the appropriate local government agencies, including the County. Oversight Boards were established for each of the 71 successor agencies within the County. In FY 2018-2019, the 71 Oversight Boards were consolidated to 5 Oversight Boards per Senate Bill 107. The Oversight Boards are required to evaluate and approve the successor agencies' remaining enforceable legal obligations. The County Auditor-Controller is responsible for disbursing property tax increment revenues in accordance with provisions of AB x1 26 and applicable amendments. For the year ended June 30, 2019, the County's share of residual property tax revenues was \$290.32 million, of which \$243.21 million was recognized in the County's General Fund.

### Deposits and Investments

Deposits and investments as discussed in Note 5 are reflected in the following asset accounts:

### Pooled Cash and Investments

As provided for by the Government Code, the cash balances of substantially all funds are pooled and invested by the County Treasurer for the purpose of increasing interest earnings through investment activities. Interest earned on pooled investments is deposited to participating funds based upon each fund's average daily deposit balance during the allocation period. Each respective fund's share of the total pooled cash and investments is included among asset balances under the caption "Pooled Cash and Investments."

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

## **Deposits and Investments-Continued**

## Pooled Cash and Investments-Continued

Pooled Cash and Investments are identified within the following categories for all County operating funds:

### Operating Pooled Cash and Investments

This account represents amounts reflected in the County's day-to-day financial records. Such amounts are utilized to determine the availability of cash for purposes of disbursing and borrowing funds.

## Other Pooled Cash and Investments

This account represents amounts identified in various agency funds as of June 30, 2019, that were owed to or were more appropriately classified in County operating funds. Accordingly, certain cash balances have been reclassified from the agency funds as required by GASB 34.

### Other Investments

This account represents Pension and OPEB Trust Fund investments, various JPAs, NPCs and Public Buildings (bond financed capital assets), and amounts on deposit with the County Treasurer, which are invested separately as provided by the Government Code or by specific instructions from the depositing entities.

### Restricted Assets

Enterprise Funds' restricted assets represent cash and investments of certain JPAs and Public Buildings projects restricted in accordance with the provisions of the certificates of participation issued. The Internal Service Funds' restricted assets represent cash and investments restricted for debt service in accordance with the provisions of the LACCAL bond indenture. All of the above noted assets are included in the various disclosures in Note 5. These restricted assets are presented as noncurrent assets and are generally associated with long-term bonds payable and certificates of participation.

## **Inventories**

Inventories, which consist of materials and supplies held for consumption, are valued at cost using the first in / first out basis. The inventory costs of the governmental funds are accounted for as expenditures when the inventory items are purchased. Reported inventories are categorized as nonspendable fund balance as required by GASB 54, "Fund Balance Reporting and Governmental Fund Type Definitions" (GASB 54) because these amounts are not available for appropriation and expenditure.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

### Capital Assets

Capital assets, which include land and easements, buildings and improvements, equipment, and intangible and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Infrastructure assets are divided into the five following networks: road, water, sewer, flood control and aviation. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement should be reported at acquisition value rather than fair value. Certain buildings and equipment are being leased under capital leases as defined in GASB 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements." The present value of the minimum lease obligation has been capitalized in the statement of net position and is also reflected as a liability in that statement.

Capital outlay is recorded as expenditures in the governmental fund financial statements and as assets in the government-wide financial statements to the extent the County's capitalization threshold is met. Interest incurred during the construction phase of the capital assets of business-type activities is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds from tax-exempt debt over the same period. For taxable debt, business-type activities interest is capitalized and not netted with interest earnings.

The County's capitalization thresholds are \$5,000 for equipment, \$100,000 for buildings and improvements, \$1 million for software intangible assets, \$100,000 for non-software intangible assets, and \$25,000 for infrastructure assets. Maintenance and repairs are charged to operations when incurred. Betterments and major improvements, which significantly increase values, change capacities, or extend useful lives are capitalized subject to the threshold in the affected asset category. Upon sale or retirement of capital assets, the cost and the related accumulated depreciation or amortization, as applicable, are removed from the respective accounts and any resulting gain or loss is included in the results of operations. Specific disclosures related to capital assets appear in Note 6. Amortization for software and other intangible assets is included in the reporting of depreciation.

Capital assets are depreciated or amortized using the straight-line method over the following estimated useful lives:

Buildings and Improvements 10 to 50 years
Equipment 2 to 35 years
Software 5 to 25 years
Infrastructure 15 to 100 years

Works of art and historical treasures held for public exhibition, education, or research in furtherance of public service, rather than financial gain, are not capitalized. These items are protected, encumbered, conserved, and preserved by the County. It is the County's policy to utilize proceeds from the sale of these items for the acquisition of other items for collection and display.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

## Deferred Outflows and Inflows of Resources

Pursuant to GASB 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position," and GASB 65, "Items Previously Reported as Assets and Liabilities," the County recognizes deferred outflows of resources and/or deferred inflows of resources in the government-wide statement of net position, governmental funds balance sheets, and proprietary funds statement of net position.

In addition to assets, the financial statements report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditures) until then.

In addition to liabilities, the financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time, except for pension and OPEB related deferred inflows of resources, which will be recognized as a credit to expense.

Specific disclosures of items representing deferred outflows and inflows of resources appear in Note 20.

## Advances Payable

The County uses certain agency funds as clearing accounts for the distribution of financial resources to other County funds. Pursuant to GASB 34, for external financial reporting purposes, the portions of the clearing account balances that pertain to other County funds should be reported as cash of the appropriate funds. The corresponding liability is included in "Advances Payable" because the amounts represent unearned revenue.

#### Compensated Absences

Vacation pay benefits accrue to employees ranging from 10 to 25 days per year depending on years of service and the benefit plan. Sick leave benefits accrue at the rate of 10 to 12 days per year for union represented employees depending on years of service. Non-represented employees accrue at a rate of up to 8 days of sick leave per year depending on the benefit plan. Employees can also accumulate unused holiday and compensatory time off benefits throughout the year. All benefits are payable upon termination, if unused, within limits and rates as specified in the County Salary Ordinance.

Liabilities for accrued compensated absences are accrued in the government-wide financial statements and in the proprietary funds. For the governmental funds, expenditures are recorded when amounts become due and payable (i.e., when employees terminate from service).

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

## Net Pension Liability and Related Balances

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of LACERA and additions to/deductions from LACERA's fiduciary net position have been determined on the same basis as they are reported by LACERA. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Reported results pertain to liability and asset information within the following defined timeframes:

Valuation Date - June 30, 2017 rolled forward to June 30, 2018 Measurement Date - June 30, 2018 Measurement Period - July 1, 2017 to June 30, 2018

## Net OPEB Liability and Related Balances - Retiree Healthcare

For purposes of measuring the net OPEB liability related to Retiree Healthcare, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of LACERA and additions to/deductions from LACERA's fiduciary net position have been determined on the same basis as they are reported by LACERA. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Reported results pertain to liability and asset information within the following defined timeframes:

Valuation Date - June 30, 2017 rolled forward to June 30, 2018 Measurement Date - June 30, 2018 Measurement Period - July 1, 2017 to June 30, 2018

## Total OPEB Liability and Related Balances - Long-Term Disability

For purposes of measuring the total OPEB liability related to Long-Term Disability (LTD), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, have been determined on the same basis as they are reported by the plan. For this purpose, the LTD plan recognizes benefit payments when due and payable in accordance with the benefit terms. Reported results pertain to liability information within the following defined timeframes:

Valuation Date - June 30, 2017 rolled forward to June 30, 2018 Measurement Date - June 30, 2018 Measurement Period - July 1, 2017 to June 30, 2018

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

## **Long-term Debt**

In the government-wide and proprietary funds financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary funds statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized in the period issued.

In the governmental funds financial statements, bond premiums, discounts, and issuance costs are recognized in the period issued. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures. Interest is reported as an expenditure in the period in which the related payment is made. The matured portion of long-term debt (i.e., portion that has come due for payment) is reported as a liability in the fund financial statements of the related fund.

## **Fund Balances**

In the fund financial statements, the governmental funds report the classification of fund balance in accordance with GASB 54. The reported fund balances are categorized as nonspendable, restricted, committed, assigned, or unassigned based on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Specific details related to Fund Balances appear in Note 21.

<u>Nonspendable Fund Balance</u> - amounts that cannot be spent because they are either (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories and long-term notes receivable.

Restricted Fund Balance - amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. Restrictions may effectively be changed or lifted only by changing the condition of the constraint.

<u>Committed Fund Balance</u> - amounts that can only be used for the specific purposes determined by a formal action of the County's highest level of decision-making authority, the County's Board. Commitments may be changed or lifted only by the County taking the same formal action that imposed the constraint originally. The underlying action that imposed the limitation needs to occur no later than the close of the fiscal year.

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES-Continued

### **Fund Balances-Continued**

<u>Assigned Fund Balance</u> - amounts intended to be used by the County for specific purposes that are neither restricted nor committed. The intent can be established at either the highest level of decision making, or by a body or an official designated for that purpose. Authorization to assign fund balance rests with the County's Board through the budget process. The Board has also delegated authority to the Chief Executive Officer and County Department Heads for contracts and purchasing authority.

<u>Unassigned Fund Balance</u> - the residual classification for the County's General Fund that includes amounts not contained in other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The Board establishes, modifies, or rescinds fund balance commitments by passage of an ordinance or resolution. For its budget, the County utilizes the GASB 54 criteria and an ordinance or resolution is equally binding, for purposes of establishing a fund balance commitment. This is done through the adoption of the budget and subsequent amendments that occur throughout the fiscal year.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is generally depleted in the order of restricted, committed, assigned, and unassigned.

## Cash Flows

For purposes of reporting cash flows, all amounts reported as "Pooled Cash and Investments," "Other Investments," and "Restricted Assets" are considered cash equivalents. Pooled cash and investment amounts represent funds held in the County Treasurer's cash management pool. Other investments and restricted assets are invested in money market mutual funds held by outside trustees. Such amounts are similar in nature to demand deposits (i.e., funds may be deposited and withdrawn at any time without prior notice or penalty).

## **Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and deferred outflows of resources, liabilities and deferred inflows of resources, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

#### 2. NEW ACCOUNTING PRONOUNCEMENTS

The following GASB Statements have been implemented in the current basic financial statements.

GASB 83 Certain Asset Retirement Obligations Addresses accounting and financial reporting for

Addresses accounting and financial reporting for certain asset retirement obligations (AROs). This statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This statement requires that recognition occur when the liability is both incurred and reasonably estimable. This statement did not have a material impact on the financial statements.

GASB 88 Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements

Improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. This statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. Refer to Note 11 for the required note disclosure information.

## 3. DEFICIT NET POSITION

The following activities/funds had a net deficit at June 30, 2019 (in thousands):

	Accu	mulated Deficit
Government-wide:		
Governmental Activities	\$	10,388,710
Business-type Activities		3,103,470
Enterprise Funds:		
Harbor-UCLA Medical Center		1,387,439
Olive View-UCLA Medical Center		1,038,208
LAC+USC Medical Center		1,344,839
Rancho Los Amigos National Rehab Center		312,348
Internal Service Funds-		
Public Works		1,175,566

The government-wide governmental and business-type activities, enterprise and internal service funds' Public Works deficits result primarily from the recognition of certain liabilities including accrued compensated absences, net pension liability, net OPEB liability, workers' compensation, self-insurance and, for the enterprise funds, medical malpractice, and third party payors, as required by GAAP. Deficits are expected to continue until such liabilities are retired through user charges or otherwise funded.

#### 4. ELIMINATIONS

The Regional Park and Open Space District (RPOSD), a blended component unit, is authorized to issue assessment bonds to acquire and improve recreational land and facilities. These bonds are secured by voter-approved property tax assessments. The RPOSD executed a financing agreement with the Public Works Financing Authority, another blended component unit referred to in the basic financial statements as "Various Joint Powers Authorities (JPAs)". Under the terms of the agreement, the RPOSD sold \$510.19 million of bonds in 1997 that were acquired as an investment by the JPAs. The JPAs financed this investment from proceeds of a simultaneous issuance of an equivalent amount of bonds as a public offering. The structure of the publicly offered JPA bonds was designed to match the RPOSD's bonds relative to the principal and interest maturities and interest rates. This series of transactions was conducted to facilitate the issuance of RPOSD related bonds and to minimize the County's overall interest cost. Pursuant to the financing agreement with the JPAs, the RPOSD has pledged all available tax assessments necessary to ensure the timely payment of principal and interest on the bonds issued by the JPAs. The 1997 bonds were partially refunded in FY 2004-2005 and the remaining 1997 bonds were fully refunded in FY 2007-2008. The transactions between the two component units have been accounted for as follows:

## **Fund Financial Statements**

At June 30, 2019, the governmental funds financial statements reflect an investment asset (referred to as "Other Investments") held by the JPAs of \$13.62 million that has been recorded in the nonmajor governmental funds. The governmental funds financial statements do not reflect a liability for the related bonds payable (\$13.62 million), as this obligation is not currently due. Accordingly, the value of the asset represents restricted fund balance in the nonmajor governmental funds.

In order to reflect the economic substance of the transaction described above, an eliminations column has been established in the governmental funds financial statements. The purpose of the column is to remove the duplication of assets, fund balances, revenues and expenditures that resulted from the consolidation of the two component units into the County's overall financial reporting structure.

#### Government-wide Financial Statements

The government-wide financial statements are designed to minimize the duplicative effects of transactions between funds. Accordingly, the effects of the transaction described above have been eliminated from the amounts presented within governmental activities (as appropriate under the accrual basis of accounting). The specific items eliminated were other investments and bonds payable (\$13.62 million) and investment income and interest expense (\$1.04 million for each). Accordingly, there are no reconciling differences between the two sets of financial statements (after the effects of eliminations) for this matter.

The bonds payable of \$13.62 million, that were publicly issued, are included among the liabilities presented in the Government-wide Financial Statements. Disclosures related to those outstanding bonds appear in Note 11 and are captioned "Assessment Bonds."

### 5. CASH AND INVESTMENTS

Investments in the County's cash and investment pool, other cash and investments, and Pension and OPEB Trust Funds investments, are stated at fair value. Aggregate pooled cash and investments and other cash and investments are as follows at June 30, 2019 (in thousands):

				Restricted Assets			
	-	ooled Cash I Investments	Other Investments	Pooled Cash and Investments	Other Investments	'	Total
Governmental Funds	\$	8,634,552	329,100			\$	8,963,652
Proprietary Funds		243,585		119,996	1,037		364,618
Fiduciary Funds (excluding Pension and OPEB)		22,483,432	165,787				22,649,219
Pension and OPEB Trust Funds		96,221	61,337,375				61,433,596

Total Cash and Investments	\$ 94,322,681			

#### CASH AND INVESTMENTS-Continued

### **County Treasurer Cash**

As of June 30, 2019, the County Treasurer (Treasurer) maintained accounts in six banks. The carrying amount of the Treasurer's total deposits in financial institutions was \$260.57 million, deposits in transit were \$10.68 million, and cash in the Treasurer's vault was \$0.36 million.

Under California Government Code Section 53652, each financial institution in California is required to pledge a pool of securities as collateral against all of its public deposits. California Government Code Section 53651 delineates the types of eligible securities, and the required collateral percentage, generally at 110%. In addition, under California Government Code Section 53653, the Treasurer has discretion to waive security for the portion of any deposits as insured pursuant to federal law. Through contractual agreement, the Treasurer has opted to waive security for the portion of deposits that is federally insured.

The total balance of deposits in financial institutions was covered by federal depository insurance or collateralized with securities monitored by the California Department of Business Oversight (DBO). DBO confirmed that the pools of collateral related to the County Treasurer's deposits were maintained at required levels as of June 30, 2019.

## County Investment Pool

California Government Code Sections 53601, 53635 and 53534 authorize the Treasurer to invest the External Investment Pool (Pool) and SPI funds in obligations of the United States Treasury, federal agencies, municipalities, asset-backed securities, bankers' acceptances, commercial paper, negotiable certificates of deposit, medium-term notes, corporate notes, repurchase agreements, reverse repurchase agreements, forwards, futures, options, shares of beneficial interest of a Joint Powers Authority (JPA) that invests in authorized securities, shares of beneficial interest issued by diversified management companies known as money market mutual funds (MMF) registered with the Securities and Exchange Commission (SEC), securities lending agreements, the State of California's Local Agency Investment Fund (LAIF), interest rate swaps, and supranational institutions. California Government Code Section 53534 authorizes the Treasurer to enter into interest rate swaps agreements. However, these agreements should only be used in conjunction with the sale of the bonds approved by the Board. The investments are managed by the Treasurer, which reports investment activity to the Board on a monthly basis. In addition, Treasurer investment activity is subject to an annual investment policy review, compliance oversight, quarterly financial review, and annual financial reporting. The Treasurer also maintains Other Specific Investments, which are invested pursuant to the California Government Code. The County has not provided nor obtained any legally binding guarantees during the year ended June 30, 2019, to support the value of shares in the Pool.

#### CASH AND INVESTMENTS-Continued

## County Investment Pool-Continued

The School Districts and the Superior Court are required by legal provisions to participate in the County's investment pool. Fifty-six percent (55.96%) of the Treasurer's Pool consists of these involuntary participants. Voluntary participants in the County's Pool include the Sanitation Districts, Metropolitan Transportation Authority, the South Coast Air Quality Management District and other special districts with independent governing boards. The deposits held for both involuntary and voluntary entities are included in the Pooled Investment Trust Fund. Certain SPI have been made by the County, as directed by external depositors. This investment activity occurs separately from the County's Pool and is reported in the Specific Investment Trust Fund in the amount of \$165.49 million. The Pool is not registered as an investment company with the SEC. California Government Code statutes and the County Board set forth the various investment policies that the Treasurer must follow.

Investments are stated at fair value and are valued on a monthly basis. The Treasurer categorizes its fair value measurements within the fair value hierarchy established by GAAP. Securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Securities classified in Level 2 of the fair value hierarchy are valued using other observable inputs such as matrix pricing techniques or based on quoted prices for assets in markets that are not active. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Level 3 inputs are significant unobservable inputs. Securities classified in Level 3 are valued using the income approach such as discounted cash flow techniques. Investment in an external government investment pool is not subject to reporting within the level hierarchy.

Investments in LAIF are governed by the California Government Code and overseen by a five member Local Investment Advisory Board as designated by the California Government Code. As of June 30, 2019, the total amount invested by all California local governments and special districts in LAIF was \$24.580 billion. LAIF is part of the State of California's Pooled Money Investment Account (PMIA), which as of June 30, 2019 had a balance of \$105.740 billion. The PMIA is not SEC registered, but is required to invest according to the California Government Code. Included in the PMIA's investment portfolio are certain derivative securities or similar products in the form of asset-backed securities totaling \$1.880 billion at June 30, 2019. Collectively, these represent 1.78% of the PMIA balance of \$105.740 billion. The SPI holdings in the LAIF investment pool as of June 30, 2019, were \$42.24 million, which were valued using a fair value factor provided by LAIF.

- (1) Pursuant to the California Government Code 53601, the Board granted authority to make investments in U.S. Treasury Notes, Bills and Bonds, and U.S. Agency Securities that have maturities beyond 5 years.
- (2) Any obligation issued or caused to be issued on behalf of other County affiliates must have a minimum rating of "A3" (Moody's) or "A-" (S&P or Fitch) and the maximum maturity is limited to thirty years. Any short- or medium-term obligation issued by the State of California or a California local agency must have a minimum rating of "MIG-1" or "A2" (Moody's) or "SP-1" or "A" (S&P) and the maximum maturity is limited to 5 years.
- (3) All Asset-Backed securities must be rated at least "AA". Pool Policy also requires that Asset-Backed securities issuers' debt be rated "A" or its equivalent or better.
- (4) Euro Certificates of Deposit are further restricted to a maximum maturity of one year and a maximum percentage of portfolio
- (5) Floating Rate Notes are further restricted to a maximum maturity of five years, maximum of 10% of the portfolio, and maximum investment in one issuer of \$750 million. The maximum maturity may be seven years, provided that the Board's authorization to exceed maturities in excess of five years is in effect, of which \$100 million par value may be greater than five years to maturity.
- (6) The maximum percentage of the portfolio is based on the investment limit established by LAIF for each account, not by Pool Policy.
- (7) The maximum par value is limited to a combined total of reverse repurchase agreements and securities lending agreements of 20% of the base value of the portfolio.
  - \*Represents restriction in which the County's Investment Policy is more restrictive than the California Government Code.

## County Investment Pool-Continued

A summary of investments held by the Pool at June 30, 2019 is as follows (dollars in thousands):

<u>Pool</u>	Fair Value	Principal	Interest Rate Range	Maturity Range	Average Maturity In Years
Commercial Paper	\$ 9,436,908	\$ 9,438,744	2.29% - 2.55%	07/01/19 - 09/05/19	0.06
Corporate and Deposit Notes	102,432	101,616	2.00% - 3.05%	01/10/20 - 03/03/22	1.27
Los Angeles County Securities	49,146	50,000	2.60% - 5.50%	06/30/20 - 06/30/21	1.60
Negotiable Certificates of Deposit	1,900,305	1,900,000	2.31% - 2.71%	07/01/19 - 03/27/20	0.10
U.S. Agency Securities	19,006,583	19,036,285	1.13% - 3.90%	07/01/19 - 07/23/25	2.43
U.S. Treasury Securities:					
U.S. Treasury Notes	148,035	149,332	1.13%	07/31/21 - 09/30/21	2.20
U.S. Treasury Bills	1,143,712	1,142,351	2.31% - 2.64%	07/02/19 - 03/26/20	0.27
Total	\$ 31,787,121	\$ 31,818,328			1.50

The unrealized loss on investments held in the Pool was \$31.21 million as of June 30, 2019. This amount takes into account all changes in fair value that occurred during the year. The method used to apportion the unrealized loss was based on a prorata share of each funds' cash balance as of June 30, 2019 relative to the County Pool balances. A separate financial report is issued for the Pool for the year ended June 30, 2019 and can be obtained at <a href="https://ttc.lacounty.gov/investor-information/">https://ttc.lacounty.gov/investor-information/</a>.

## Specific Purpose Investments and Other Specific Investments

A summary of investments held by the SPI and Other Specific Investments at June 30, 2019 is as follows (dollars in thousands):

Maightad

### **Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County's Investment Policy limits most investment maturities to less than five years, with the exception of U.S. Treasury Notes, Bills, and Bonds and U.S. Agency Securities, which may have maturities beyond five years. The Treasurer manages the Pool and mitigates exposure to declines in fair value by generally investing in short-term investments with maturities of six months or less and by holding all investments to maturity.

The Treasurer manages the Pool's exposure to declines in fair value by limiting its weighted average maturity target to a range between 1.0 and 2.0 years, in accordance with the Investment Policy. For purposes of computing weighted average maturity, the maturity date of variable-rate notes is the stated maturity.

The balance of the Pool's investments at June 30, 2019 is \$31.787 billion, of which 42.28% will mature in six months or less. Of the remainder, 43.46% have a maturity of more than one year. At June 30, 2019, the weighted average maturity in years for the Pool was 1.50.

The California Government Code and the Investment Policy allow the Treasurer to purchase floating rate notes, that is, any instruments that have a coupon interest rate that is adjusted periodically due to changes in a base or benchmark rate. The Investment Policy limits the amount invested in floating rate notes to 10% of the Pool portfolio. The Investment Policy prohibits the purchase of inverse floating rate notes and hybrid or complex structured investments and for the year ended June 30, 2019, there were none.

At June 30, 2019, the Pool contained floating rate notes at fair value of \$207.21 million (0.65% of the Pool). The notes are tied to one-month and three-month London Interbank Offered Rate (LIBOR) with monthly and quarterly coupon resets. The fair value of variable securities is generally less susceptible to changes in value than fixed rate securities because the variable-rate coupon resets back to the market rate on a periodic basis. There were no variable rate notes in the SPI and Other Specific Investments.

Fair value fluctuates with interest rates, and increasing interest rates could cause fair value to decline below original cost. County management believes the liquidity in the portfolios is adequate to meet cash flow requirements and to preclude the County from having to sell investments below original cost for that purpose.

#### CASH AND INVESTMENTS-Continued

### **Custodial Credit Risk**

Custodial credit risk for investments is the risk that the Treasurer will not be able to recover the value of investment securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Treasurer and are held by either the counterparty, or the counterparty's trust department or agent but not in the Treasurer's name. At year-end, all Pool, SPI and Other Specific Investment securities, except for the Rancho Palos Verdes Redevelopment Agency Tax Allocation Bond (Bond), Bond Anticipation Notes (BANs) and LAIF, were either held by the Treasurer or by the custodian bank in the name of the Treasurer. The Bond and the BANs were held in the Treasurer's vault and are recorded in the Los Angeles County Securities line item. The LAIF investments were managed by the State of California and the County is considered a pool participant.

### Credit Risk and Concentration of Credit Risk

Credit risk is the risk that an issuer, or other counterparty to an investment, will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The County mitigates these risks by holding a diversified portfolio of high quality investments.

The Investment Policy establishes acceptable credit ratings for investments from any two Nationally Recognized Statistical Rating Organizations (NRSRO). For an issuer of short-term debt, the rating must be no less than A-1 (S&P) or P-1 (Moody's), and F-1 (Fitch) while an issuer of long-term debt shall be rated no less than an "A." All investments purchased during the year ended June 30, 2019 met the credit rating criteria in the Investment Policy, at the issuer level. However, while the NRSROs did rate the issuer of the investments purchased, the NRSRO did not, in all instances, rate the investment itself (e.g., commercial paper, bankers' acceptances, corporate and deposit notes, negotiable certificates of deposit, and U.S. Treasury bills, bonds and notes). Accordingly, for purposes of reporting the credit quality distribution of investments, some investments are reported as not rated.

The Investment Policy also permits investments in LAIF, pursuant to California Government Code Section 16429.1. At June 30, 2019, a portion of the SPI was invested in LAIF, which is unrated as to credit quality.

The Pool and SPI had the following U.S. Agency and commercial paper securities in a single issuer that represent 5% or more of total investments at June 30, 2019 (dollars in thousands):

#### CASH AND INVESTMENTS-Continued

# Reverse Repurchase Agreements

The California Government Code permits the Treasurer to enter into reverse repurchase agreements, that is, a sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The fair value of the securities underlying reverse repurchase agreements normally exceeds the cash received, providing the broker-dealer a margin against a decline in the fair value of the securities. If the broker-dealer defaults on the obligation to resell these securities to the County or provide securities or cash of equal value, the County would suffer an economic loss equal to the difference between the fair value plus accrued interest of the underlying securities and the agreement obligation, including accrued interest.

The County's investment guidelines limit the maximum par value of reverse repurchase agreements to \$500.00 million and proceeds from reverse repurchase agreements may only be reinvested in instruments with maturities at or before the maturity of the reverse repurchase agreement. During the fiscal year, the County did not enter into any reverse repurchase agreements.

## Securities Lending Transactions

For the year ended June 30, 2019, the Pool did not enter into any securities lending transactions.

## Cash and Investments - Held by Outside Trustees

NPC and JPAs have been established for the purpose of rendering assistance to the County to refinance, acquire, construct, improve, lease and sell properties and equipment, including the construction of buildings, and purchase of equipment, land, and any other real or personal property, for the benefit of County residents, through the issuance of bonds, certificates of participation notes (COPs) and commercial paper.

The NPC and JPAs' cash is invested with the outside trustees and the amounts are held in the NPC and JPAs name. Investment practices are governed by the County's investment guidelines, established pursuant to the California Government Code and the County Board's action.

Investments are stated at fair value. Deposits held by outside trustees as of June 30, 2019 were \$234.12 million. A total of \$111.90 million of investments held by outside trustees are invested in the Pool. In addition, the outside trustees invested \$92.04 million outside of the Pool.

## LACERA Investment Portfolio

Narratives and tables presented for the Pension and OPEB Trust funds managed by the LACERA are taken directly from LACERA's CAFR for the year ended June 30, 2019 (certain terms have been modified to conform with the County's CAFR presentation). The custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk related to Pension and OPEB Trust Funds investments are different than the corresponding risk on investments held by the Treasurer. Detailed deposit and investment risk disclosures are included in Note G, Note I and the fair value measurement disclosures are included in Note P of the LACERA's CAFR.

#### Investments

Pension and OPEB Trust Funds investments are reported at fair value at June 30, 2019, (in thousands) and are as follows:

	I	Fair Value
Cash Collateral on Loaned Securities	\$	814,829
Short-term Investments		1,322,051
Domestic and International Equity		26,460,105
Fixed Income		18,508,520
Real Estate*		6,312,866
Private Equity		6,028,265
Hedge Funds		1,890,739
Total	\$	61,337,375

<sup>\*</sup> Refer to Note J of LACERA's CAFR for year ended June 30, 2019, for additional discussion on special purpose entities.

#### CASH AND INVESTMENTS-Continued

#### LACERA Investment Portfolio-Continued

## **Investments-Continued**

The Pension and OPEB Trust Funds also had deposits with the Pool at June 30, 2019 totaling \$96.22 million.

## Concentration of Credit Risk

The Pension and OPEB Trust Funds portfolio contained no concentration of investments in any one organization (other than those issued or guaranteed by the U.S. Government) that represents 5% or more of total investments or plan net position.

#### **Investment Risks**

The County Employees Retirement Law of 1937 (CERL) vests the Board of Investments (BOI) with exclusive control over LACERA's investment portfolio. The BOI established Investment Policy Statements and Manager Guidelines for the management of the LACERA defined benefit retirement plan (Pension Plan) and the LACERA Other Post-Employment Benefit Master Trust (OPEB Master Trust or OPEB Trust). BOI members exercise authority and control over the management of LACERA's Net Position Restricted for Benefits by setting a policy that the investments staff executes either internally or through the use of prudent external experts.

Each Investment Policy Statement recognizes that every investment asset class and type is subject to certain risks. Outlined below are the Investment Risks as they relate to fixed income investments.

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations, causing the investment to decline in value. LACERA seeks to maintain a diversified portfolio of fixed income instruments in order to obtain the highest total return for the Pension and OPEB plans at an acceptable level of risk within this asset class. To control credit risk, credit quality guidelines have been established.

#### <u>Investment Grade Bonds</u>

Investment Grade bonds are subdivided into two types of strategies: Core and Core Plus, with target allocation weights of 80% for Core and 20% for Core Plus. Investment guidelines for Core managers require that they invest predominantly in sectors represented in their benchmark index, which consists 100% of bonds rated investment grade. As a result, Core portfolios consist almost 100% of bonds rated investment grade by the major credit rating agencies: Moody's, S&P, and Fitch. Core Plus managers are afforded some latitude to deviate from the benchmark index in order to generate excess return, so investment grade bonds must comprise at least 70% of Core Plus portfolios.

#### CASH AND INVESTMENTS-Continued

## LACERA Investment Portfolio-Continued

#### **High Yield Bonds**

High yield portfolios use the following credit quality guidelines.

- At least 95.00% of all rated securities, including Rule 144A securities, must be rated B- or higher by S&P or equivalent by a major credit rating agency at the time of purchase.
- Consistent with the preceding requirement, a maximum of 5.00% of the portfolio may be invested in issues rated below B- by S&P or equivalent; however, these issues must be rated at least CCC by S&P or Caa by Moody's.
- Unrated issues may be purchased, provided that, in the judgment of the Investment Manager, they would not violate LACERA's minimum credit criteria.
- Money market instruments must be rated at least A-2/P-2 or equivalent by at least one major credit rating agency.

The credit portfolios allow for the assumption of more credit risk than Investment Grade portfolios by investing in securities that include unrated bonds, bonds rated below investment grade issued by corporations undergoing financial stress or distress, junior tranches of structured securities backed by residential and commercial mortgages, bank loans, illiquid credit, and emerging market debt. LACERA utilizes specific investment guidelines for these portfolios that limit maximum exposure by issuer, industry, and sector, which result in well-diversified portfolios.

The following is a schedule as of June 30, 2019 of the credit quality ratings by Moody's, a nationally recognized statistical rating organization, of investments in fixed income securities. Whole loan mortgages included in the Pension Plan portfolio of \$27.21 million are excluded from this presentation.

#### Custodial Credit Risk

LACERA's contract with its primary custodian State Street Bank and Trust (Bank) provides that the Bank may hold LACERA's securities registered in the Bank's or its agent's nominee name, in bearer form, book-entry form, with a clearing house corporation, or with a depository, so long as the Bank's records clearly indicate that the securities are held in custody for LACERA's account. The Bank may also hold securities in custody in LACERA's name when required by LACERA. When held in custody by the Bank, the securities are not at risk of loss in the event of the Bank's financial failure, because the securities are not property (assets) of the Bank. Cash invested overnight in the Bank's depository accounts is subject to the risk that in the event of the Bank's failure, LACERA might not recover all or some of those overnight deposits. This risk is mitigated when the overnight deposits are insured or collateralized.

LACERA's policy as incorporated in its current contract with the Bank requires the Bank to certify it has taken all steps to assure all LACERA monies on deposit with the Bank are eligible for and covered by "pass-through insurance," in accordance with applicable law and FDIC rules and regulations. The steps taken by the Bank include paying deposit insurance premiums when due, maintaining a "prompt corrective action" capital category of "well capitalized," and identifying on the Bank's records that it acts as a fiduciary for LACERA with respect to the monies on deposit. In addition, the Bank is required to provide evidence of insurance and to maintain a Financial Institution Bond, which would cover the loss of money and securities with respect to any and all property the Bank or its agents hold in or for LACERA's account, up to the amount of the bond. To implement certain investment strategies, some of LACERA's assets are invested in investment managers' pooled vehicles. The securities in these vehicles may be held by a different custodian other than the Bank.

#### CASH AND INVESTMENTS-Continued

## LACERA Investment Portfolio-Continued

#### Counterparty Risk

Counterparty risk for investments is the risk that, in the event of the failure of the counterparty to complete a transaction, LACERA would not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. LACERA and its managers seek to minimize risk of loss from its counterparties by diversifying the number of counterparties, periodically reviewing their credit quality and seeking to structure agreements so that collateral is posted on accrued gains if they reach certain size thresholds.

#### Concentration of Credit Risk

No more than 5.00% of the Investment Grade bond and High Yield bond portfolios may be invested in securities of a single issuer, except: U.S. Treasury securities, government-guaranteed debt (including G-7 countries), agency debt, agency mortgage-backed securities, and approved commingled funds.

As of June 30, 2019, LACERA did not hold any investments in any one issuer that would represent 5.00% or more of the Pension Plan Fiduciary Net Position nor the OPEB Trust Fiduciary Net Position. Investments issued or explicitly guaranteed by the U.S. government and pooled investments are excluded from this requirement.

#### **Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration is a measure of the price sensitivity of a fixed income portfolio to changes in interest rates. It is calculated as the weighted average time to receive a bond's coupon and principal payments. The longer the duration of a portfolio, the greater its price sensitivity to changes in interest rates.

To manage interest rate risk, the duration of all Investment Grade bond portfolios is restricted to +/-25.00% of the duration of the portfolios' respective benchmarks. Deviations from any of the stated guidelines require prior written authorization from LACERA.

Pooled Funds		8,555,790	N/A
Subtotal Corporate Bonds and Credit Securities		12,156,881	
Non-U.S. Fixed Income		85,779	3.17
Private Placement Fixed Income		1,950,914	3.03
Subtotal Non-U.S. and Private Placement Securities		2,036,693	
Total Fixed Income Securities - Pension Plan	\$	18,001,542	

<sup>\*</sup>Effective Duration is a measure of a bond's sensitivity to interest rates. It is calculated as the percentage change in a bond's price caused by a change in the bond's yield. For example, a duration of 5 indicates that a 1.00% increase in a bond's yield will cause the bond price to decline 5.00%.

#### CASH AND INVESTMENTS-Continued

Private Placement Fixed Income	 2,500	0.62		
Total Fixed Income Securities - OPEB Trust	\$ 479,773			

<sup>\*</sup>Effective Duration is a measure of a bond's sensitivity to interest rates. It is calculated as the percentage change in a bond's price caused by a change in the bond's yield. For example, a duration of 5 indicates that a 1.00% increase in a bond's yield will cause the bond price to decline 5.00%.

#### Foreign Currency Risk

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. LACERA's authorized managers are permitted to invest in approved countries or regions, as stated in their respective investment guidelines. To mitigate foreign currency risk with global equity, LACERA has implemented a passive currency hedging program, which hedges into U.S. dollars approximately 50.00% of LACERA's foreign currency exposure for developed market equities.

The following schedule represents LACERA's exposure to foreign currency risk in U.S. dollars. LACERA is invested in several non-U.S. commingled funds. This means LACERA owns units of commingled funds, and the fund holds the actual securities and/or currencies. The values shown include LACERA's pro rata portion of non-U.S. commingled fund holdings.

#### CASH AND INVESTMENTS-Continued

#### LACERA Investment Portfolio-Continued

#### Securities Lending Program

The Board of Investments' policies authorize LACERA to participate in a securities lending program. Securities lending is an investment management activity that mirrors the fundamentals of a loan transaction. Securities are lent to brokers and dealers (borrower), and in turn, LACERA receives cash and non-cash collateral. When cash collateral is received, the income that is generated from securities lending has two sources: lending and reinvestment. LACERA pays the borrower interest on the collateral and invests the collateral with the goal of earning a higher yield than the interest rate paid to the borrower. When non-cash collateral is received, the borrower pays a fee for borrowing the security.

LACERA's securities lending program is managed by two parties: LACERA's custodian bank, State Street Bank and Trust, and a third-party lending agent, Goldman Sachs Agency Lending (GSAL). The Bank lends LACERA's non-U.S. equities, U.S. Treasury, and U.S. Agency securities. GSAL lends LACERA's U.S. equities and corporate bonds. Collateralization is set on non-U.S. loans at 105% and on U.S. loans at 102% of the market value of securities on loan.

State Street Global Advisors invests the collateral received from both lending programs. The collateral is invested in short-term highly liquid instruments. The maturities of the investments made with cash collateral typically do not match the maturities of their securities loans. Loans are marked-to-market daily, so that if the market value of a security on loan rises, LACERA receives additional collateral. Conversely, if the market value of a security on loan declines, then the borrower receives a partial return of the collateral. Earnings generated in excess of the interest paid to the borrowers represent net income. LACERA shares this net income with the two lending agents based on contractual agreements.

Under the terms of their lending agreements, both lending agents provide borrower default indemnification in the event a borrower does not return securities on loan. The terms of the lending agreements entitle LACERA to terminate all loans upon the occurrence of default and purchase a like amount of "replacement securities" when loaned securities are not returned. LACERA does not have the ability to pledge assets received as collateral without a borrower default. In the event the purchase price of replacement securities exceeds the amount of collateral, the lending agent is liable to LACERA for the difference, plus interest. Either LACERA or the borrower of the security can terminate a loan on demand.

At fiscal year end, LACERA had no credit risk exposure to borrowers, because the amount of collateral received exceeded the value of securities on loan. As of June 30, 2019, there were no known violations of legal or contractual provisions. LACERA had no losses on securities lending transactions resulting from the default of a borrower for the year ended June 30, 2019.

As of June 30, 2019, the fair value of securities on loan was \$927.07 million, with a value of cash collateral received of \$814.83 million, which is included in Other payables on the financial statements, and non-cash collateral of \$136.35 million. LACERA's income, net of expenses from securities lending, was \$4.49 million for the year ended June 30, 2019.

#### LACERA Investment Portfolio-Continued

Securities Lending Program-Continued

Securities Lending As of June 30, 2019 (in thousands)

Securities on Loan	Fair Value of Securities on Loan		Cash Collateral Received	C	on-Cash collateral deceived	Calculated Mark <sup>(1)</sup>	
U.S. Equity	\$	197,819	\$ 199,522	\$		\$	
U.S. Fixed Income		674,828	604,323		90,445		115
Non-U.S. Equity		54,423	10,984		45,906		1,204
Total	\$	927,070	\$ 814,829	\$	136,351	\$	1,319

<sup>(1)</sup> Calculated Mark is performed daily, and it is the amount LACERA will collect from the borrower (if the amount is positive), or payment to the borrower (if the amount is negative), to bring the collateralization to appropriate levels based on market value.

## Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Interest rate swaps are an example of an investment that has a fair value that is highly sensitive to interest rate changes. These investments are disclosed in the following table:

Interest Rate Risk Analysis As of June 30, 2019 (dollars in thousands)

				Investment Maturities (in years)					
Investment Type	Notional Value (Dollar)	Notional Shares Units	Fair Value	Less Than 1	1 - 5	6 - 10	More than 10

#### CASH AND INVESTMENTS-Continued

## **LACERA Investment Portfolio-Continued**

## **Hedge Funds**

The hedge fund category of investments is not a separate asset class but is comprised of strategies that may: 1) invest in securities within LACERA's existing asset classes or across multiple asset classes; 2) have an absolute return objective; and 3) include the ability to use specialized techniques, such as leverage and short-selling, and instruments such as derivatives.

As of the fiscal year end, LACERA employed two hedge fund of funds managers, Grosvenor Capital Management (GCM) and Goldman Sachs Asset Management (GSAM), with discretion to construct hedge fund portfolios. The hedge fund of funds managers identify, select, implement, and monitor portfolios consistent with LACERA's stated objectives, constraints, and Investment Policy Statement. Additionally, LACERA invested directly with five investment managers as part of a Direct hedge funds portfolio.

LACERA's Investment Policy Statement establishes the portfolio framework for the hedge funds program. Each underlying investment in the entire hedge fund program is in an entity legally structured to limit liability for each investor to the capital invested by that investor.

The GCM diversified portfolio, GSAM diversified portfolio, and Direct portfolio reside within the Diversified Hedge Funds class under the Risk Reduction and Mitigation functional asset category of LACERA's Total Fund, and the GCM credit portfolio resides within the Credit functional asset category. A prior credit portfolio, also managed by GCM, was liquidated during the fiscal year.

The investment performance for this strategy is measured separately from other asset classes. The fair value of assets invested in hedge funds as of June 30, 2019 was \$1.891 billion.

#### Fair Value

For the year ended June 30, 2016, LACERA adopted GASB 72, "Fair Value Measurement and Application". GASB 72 was issued to address accounting and financial reporting issues related to fair value measurements and disclosures. LACERA categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the investment securities and assets. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Certain investments held by LACERA are valued at net asset value (NAV) per share when an investment does not have a readily determined fair value, provided that the NAV is calculated and used as a practical expedient to estimate fair value in accordance with the requirements of GAAP.

#### CASH AND INVESTMENTS-Continued

#### LACERA Investment Portfolio-Continued

Fair Value-Continued

#### Equity and Fixed Income Securities

Equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets issued by pricing vendors for these securities. Fixed income and equity securities classified in Level 2 of the fair value hierarchy are valued using prices determined by matrix pricing techniques maintained by the various pricing vendors for these securities. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Fixed income and equity securities classified in Level 3 are securities whose stated market price is unobservable by the marketplace; many of these securities are priced by the issuers or industry groups for these securities. Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by LACERA's custodian bank.

## Hedge Funds, Private Equity, and Real Estate Funds

Investments in hedge funds, private equity, and real estate funds are valued at estimated fair value, as determined in good faith by the General Partner (GP), in accordance with GAAP fair value principles and in instances where no observable public market values are available. Investments which are estimated at fair value, are initially valued at cost with subsequent adjustments that reflect third party transactions, financial operating results, and other factors deemed relevant by the GP. These assets are reported by LACERA based on the practical expedient allowed under GAAP.

#### Real Estate Separate Account Investments

Investments in real estate are valued at estimated fair value, as determined in good faith by the Investment Manager. These investments are initially valued at cost with subsequent adjustments that reflect third party transactions, financial operating results, and other factors deemed relevant by the Investment Manager. Properties are subject to independent third party appraisals every three years.

Investments Measured at the Net Asset Value - Pension Plan As of June 30, 2019 (dollars in thousands)

	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Commingled Fixed Income Funds (1)	\$ 8,548,547	\$	Daily, Monthly or Not Eligible	1-60 days or N/A
Commingled Equity Funds (2)	9,805,218	14,544	Daily, Monthly or Not Eligible	1-60 days or N/A
Hedge Funds (3)	1,890,739	18,500	Daily, Monthly, Quarterly, Semi-Annual, Annual, Self-Liquidating	5-180 days
Private Equity (4)	6,028,265	4,337,030	Not Eligible	N/A
Real Estate (4)	6,192,619	970,531	Quarterly or Not Eligible	30 days+ or N/A
Total Investments Measured at the NAV	\$32,465,388			

- (1) Commingled Fixed Income Funds: 9 fixed income funds are considered commingled in nature. They are valued at the NAV of units held at the end of the period based upon the fair value of the underlying investments. Most of the funds are highly liquid within one month; 2 of the funds representing 3% of Commingled Fixed Income assets have liquidity available at the end of the fund terms which range from 3 to 7 years.
- (2) Commingled Equity Funds: 13 equity funds are considered commingled in nature. They are valued at the NAV of units held at the end of the period based upon the fair value of the underlying investments. Most of the funds are highly liquid within one month; 3 of the funds representing 5% of Commingled Equity assets have liquidity subject to lock up periods that limit or prohibit redemptions for the next 3 to 4 years.
- (3) Hedge Funds: This portfolio consists of 70 funds. Hedge Fund investments are valued at NAV per share. When considering liquidity terms, 78% of the fund assets are available within 12 months; these funds provide daily, monthly, quarterly, semi-annual, or annual liquidity. Some of these funds are subject to redemption notices that extend the time frame to receive redemptions beyond the next 12 months. The remaining 22% of fund assets are in self-liquidating funds which do not permit voluntary redemption/withdrawals or in funds that offer periodic liquidity that extends beyond the next 12 months.

LACERA's Hedge Funds portfolio invests in the following strategies:

- (a) Macro and Tactical Trading: This strategy makes investments based on analyses and forecasts of macroeconomic trends, including governmental and central bank policies, fiscal trends, trade imbalances, interest rate trends, inter-country relations, and economic and technical analysis.
- (b) Equity Long/Short: This strategy purchases and/or sells equities based on fundamental and/or quantitative analysis and other factors.
- (c) Credit: This strategy includes long-biased credit, long/short credit, structured credit, and mortgage credit.
- (d) Relative Value: This strategy's main focus is to benefit from valuation discrepancies that may be present in related financial instruments by purchasing and/or shorting these instruments.
- (e) Multi-Strategy: This strategy aims to pursue varying strategies in order to diversify risks and reduce volatility.
- (f) Event Driven: This strategy seeks to gain an advantage from pricing inefficiencies that may occur in the onset or aftermath of a corporate action or related event.
- (4) Private Equity and Real Estate Funds: LACERA's Private Equity portfolio consists of 207 funds, investing primarily in Buyout Funds, with some exposure to Venture Capital, Special Situations. Due to contractual limitations, none of the 207 funds are eligible for redemption for up to 10 years. The Real Estate portfolio, composed of 23 commingled funds, invests in both U.S. and Non-U.S. commercial real estate. The fair values of these funds have been determined using net assets valued at the end of the period and net assets valued one quarter in arrears plus current quarter cash flows. 2 out of 23 Real Estate funds are eligible for redemption depending upon the availability of cash for redemptions in the fund. Distributions are received as underlying investments within the funds are liquidated, which on average can occur over the span of 5 to 10 years. For Real Estate investments held in separate accounts and debt program investments, see Note J Special Purpose Entities of LACERA's CAFR.

## 7. SERVICE CONCESSION ARRANGEMENTS (SCA)

GASB 60, "Accounting and Financial Reporting for Service Concession Arrangements (SCA)," (GASB 60) defines an SCA as a type of public-private or public-public partnership. An SCA is an arrangement, which meets specific criteria under GASB 60, between a government (the transferor) and an operator.

The County determined that golf courses met the criteria set forth in GASB 60 (where the County is the transferor) and therefore included these SCAs in the County's financial statements as deferred inflows of resources. GASB 60 also provides guidance on accounting treatment if the County were acting as an operator of another government's facility. The County has determined that there are no incidences where the County would qualify as an operator.

#### **Golf Courses**

The County manages a public golf course system, which offers affordable greens fees, discount programs for senior citizens and students, and a junior golf program. Each golf course is leased under agreement with an operator, which provides for activities such as golf course management, clubhouse operations, and food and beverage concessions. The operators collect user fees and are responsible for the day-to-day operations of the golf courses. The operators are required to operate and maintain the golf courses, and make installment payments to the County, in accordance with their respective contracts.

As of June 30, 2019, the present value of the installment payments under contract is estimated to be \$82.85 million and reported as deferred inflows of resources in the statement of net position. The present values of the installment payments were calculated using discount rates of 5.12%, 3.55% and 3.70% for the term of the agreement for each SCA. The lease terms for the twenty golf courses cover remaining periods ranging from 5 to 20 years as of June 30, 2019. The FY 2018-2019 total monthly installment payments are approximately \$667,000. The County primarily uses the proceeds to fund parks and recreation operations, 10% of which is set aside for future golf course capital improvements. The acquisition value of the golf courses, including land, buildings, and construction in progress, is reported at \$24.37 million as of June 30, 2019.

#### PENSION PLAN

#### Plan Description

The County pension plan is administered by LACERA, which was established under the CERL. LACERA is a cost-sharing, multi-employer defined benefit plan. It provides benefits to employees of the County and the following additional entities that are not part of the County's reporting entity:

Los Angeles Superior Court
Little Lake Cemetery District
Local Agency Formation Commission
Los Angeles County Office of Education (LACOE)
South Coast Air Quality Management District (SCAQMD)

New employees of LACOE hired on or after July 1971 and new employees of SCAQMD hired after December 31, 1979 are not eligible for LACERA benefits.

LACERA issues a stand-alone financial report, which is available at its offices located at Gateway Plaza, 300 N. Lake Avenue, Pasadena, California 91101-4199 or at www.LACERA.com.

#### 8. PENSION PLAN-Continued

## **Benefits Provided**

Benefits are authorized in accordance with the California Constitution, the CERL, the bylaws, and procedures and policies adopted by LACERA's Boards of Retirement and Investments. The Board may also adopt resolutions, as permitted by CERL, which may affect the benefits of LACERA members.

LACERA provides retirement, disability, death benefits and cost of living adjustments to eligible members. Vesting occurs when a member accumulates 5 years of creditable service under contributory plans or accumulates 10 years of creditable service under the general service non-contributory plan. Benefits are based upon 12 or 36 months' average compensation, depending on the plan, as well as age at retirement and length of service as of the retirement date, according to applicable statutory formula. Vested members who terminate employment before retirement age are considered terminated vested (deferred) members. Service-connected disability benefits may be granted regardless of length of service consideration. Five years of service are required for nonservice-connected disability eligibility according to applicable statutory formula. Members of the non-contributory plan, who are covered under separate long-term disability provisions not administered by LACERA, are not eligible for disability benefits provided by LACERA.

#### Contributions

LACERA has nine benefit tiers known as A, B, C, D, E and G, and Safety A, B and C. All tiers except E are employee contributory. Tier E is employee non-contributory. Prior to December 31, 2012, new general members were only eligible for tier D or E and new safety members were only eligible for Safety B. As of January 1, 2013, new general employees are only eligible for tier G and new safety members are only eligible for Safety C. These new tiers were added as a result of the California Public Employees' Pension Reform Act of 2013 (PEPRA) and became effective January 1, 2013. Rates for the tiers are established in accordance with State law by LACERA's Boards of Retirement and Investments and the County Board.

The following employer rates were in effect for FY 2018-2019:

July 1, 2018 - September 30, 2018	Α	В	С	D	E	G
General Members	26.06%	17.50%	16.80%	18.70%	19.57%	18.04%
Safety Members	34.45%	27.75%	23.73%			
October 1, 2018 - June 30, 2019	Α	В	С	D	Е	G
Canaral Manahara		40.040/			40.040/	10 =00/
General Members	26.94%	18.04%	16.85%	18.51%	19.84%	18.53%

#### 8. PENSION PLAN-Continued

## Contributions-Continued

The rates were determined by the actuarial valuation performed as of June 30, 2017. The assumptions remained unchanged from the assumptions used in the actuarial valuation performed as of June 30, 2016. The employer contribution rates used in FY 2018-2019, beginning October 1, 2018, increased by 0.05% to 0.88% over the rates used in FY 2017-2018 and may increase again during the following fiscal year. The most significant factor causing the increase was the additional year phase-in of the cost impact of the 2016 assumption changes.

Employee rates vary by option and employee entry age from 5% to 16% of their annual covered salary.

During FY 2018-2019, the County contributed the full amount of the Actuarial Determined Contribution, as determined by the actuarial valuations, in the form of semi-monthly cash payments in the amount of \$1.605 billion.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2019, the County reported a liability of \$10.345 billion for its proportionate share of the net pension liability in accordance with the parameters of GASB 68, "Accounting and Financial Reporting For Pensions-An Amendment of GASB Statement No. 27" (GASB 68). The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017, projected forward to the measurement date, taking into account any significant changes between the valuation date and the measurement date. The County's proportion of the net pension liability was based on a projection of the County's future contribution effort to the pension plan relative to the projected contributions of all Pension Plan participants, actuarially determined. At June 30, 2018, the County's proportionate share was 96.17%, which was an increase of 0.05% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the County recognized pension expense of \$1.382 billion which is reported as \$1.165 billion for governmental activities and \$0.217 billion for business-type activities. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or methods, and plan benefits. At June 30, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

	erred Inflows Resources	rred Outflows Resources
Net difference between projected and actual earnings	\$ 418,426	\$ 
Change in assumptions		2,221,442
Change in experience	650,863	260,144
Change in proportion and differences between County contributions and proportionate share of contributions	272,711	314,851
Contributions made subsequent to measurement date		 1,605,150
Total	\$ 1,342,000	\$ 4,401,587

#### 8. PENSION PLAN-Continued

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions-Continued</u>

Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes to net pension liability to be recognized in future periods in a systematic and rational manner in accordance with GASB 68. Investment gains or losses are recognized in pension expense over a five year period and economic/demographic gains or losses and assumption changes or inputs are recognized over the average remaining service life for all active and inactive members, which is 8 years.

Amounts currently reported as deferred outflows and inflows of resources, other than contributions related to pension, will be recognized in pension expense as follows (in thousands):

	eferred vs/(Inflows) esources
Year Ending June 30:	
2020	\$ 623,973
2021	312,986
2022	(379,808)
2023	102,385
2024	352,829
Thereafter	442,072

Deferred outflows of \$1.605 billion related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020.

#### **Actuarial Assumptions**

Valuation Timing Actuarial Cost Method Inflation General Wage Growth Projected Salary Increases Investment Rate of Return	June 30, 2017, rolled forward to June 30, 2018 Individual Entry Age Normal 2.75% 3.25% 3.51% to 11.51% 7.38%, net of investment expense, including inflation
Cost of Living Adjustments (COLA)	Based on changes in the Consumer Price Index from the previous January 1 to the current January 1, to the nearest 0.50% of 1.00%, limited to a maximum of 3.00%. Supplemental Targeted Adjustment for Retirees (STAR) COLA benefits are assumed to be substantively automatic at the 80% purchasing power level until the STAR reserve is projected to be insufficient to pay further STAR benefits.
Mortality	Various rates based on the RP-2014 Healthy and Disabled Annuitant mortality tables and including projection for expected future mortality improvement using the MP2014 Ultimate Projection Scale. See June 30, 2017 actuarial valuation for details. It can be found at <a href="https://www.LACERA.com">www.LACERA.com</a> .
Experience Study	Covers the three year period ended June 30, 2016.

#### 8. PENSION PLAN-Continued

## Actuarial Assumptions-Continued

The long-term expected rate of return on pension plan investments (7.25%, net of all expenses) was determined using a building block method in which a median, or expected, geometric rate of return was developed for each major asset class. The median rates were combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentages.

For the year ended June 30, 2018:

Asset Class	Target Allocation	Weighted Average Long- Term Expected Rate of Return (After Expected 2.75% Inflation Rate) (Geometric)
Global Equity	43.40%	5.70%
Fixed Income	26.60%	2.60%
Real Estate	11.00%	4.60%
Private Equity	10.00%	6.90%
Commodities	2.80%	1.60%
Hedge Funds	4.20%	3.10%
Other Opportunities	0.00%	4.50%
Cash	2.00%	(0.20)%

## **Discount Rate**

The discount rate used to measure the total pension liability was 7.38%. This is equal to the 7.25% long-term investment return assumption adopted by LACERA (net of investment and administrative expenses), plus 0.13% assumed administrative expenses. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate, and that County contributions will be made at rates equal to the difference between actuarially determined contribution rates and member rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be sufficient to pay all projected future benefit payments of current active and inactive plan members. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return, gross of administrative expenses.

## Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following represents the County's proportionate share of the net pension liability calculated using the discount rate of 7.38%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.38%) or 1-percentage point higher (8.38%) than the current rate (in thousands):

	1% Decrease	Discount Rate	1% Increase
	(6.38%)	(7.38%)	(8.38%)
Net Pension Liability	\$19,053,004	\$10,345,209	\$ 3,146,511

#### 8. PENSION PLAN-Continued

## Pension Plan Fiduciary Net Position

Detailed information about pension plan fiduciary net position as of June 30, 2018 is available in the separately issued LACERA financial report, which can be found at <a href="https://www.LACERA.com">www.LACERA.com</a>.

#### Deferred Compensation Plans

The County offers to its employees three deferred compensation plans created in accordance with Sections 401 and 457 of the Internal Revenue Code. One or more of these plans are available to substantially all employees and allow participants to defer a portion of their current income until future years.

#### Plan Description and Funding Policy

The Deferred Compensation and Thrift Plan was established as a Section 457 defined contribution plan covering employees who have achieved full time and permanent employment status. The Plan is designed to permit these employees to voluntarily defer a portion of their compensation and provide for retirement and death benefits. The plan is funded by employer and employee contributions. As of June 30, 2019, the County provided up to a 4% matching contribution per pay period of the employee's voluntary contribution. Employer and employee contributions are deposited into the participant accounts and invested based on participant selected options. Total employer contributions for the year ended June 30, 2019, were \$259.37 million.

The Savings Plan is a Section 401(k) defined contribution plan covering eligible full-time permanent employees of the County not covered by collective bargaining agreements and who desire to participate in the Plan. Employees eligible for voluntary participation in this plan are also eligible for participation in the Deferred Compensation and Thrift Plan. The plan is funded by employer and employee contributions. As of June 30, 2019, the County provided up to a 4% matching contribution per pay period of the employee's voluntary contribution. Employer and employee contributions are deposited into the participant accounts and invested based on participant selected options. Total employer contributions for the year ended June 30, 2019, were \$69.80 million.

The Pension Savings Plan is a Section 457 defined contribution plan covering part-time, temporary and seasonal County employees who are not eligible to participate in the retirement programs provided through the LACERA. The Plan was established in lieu of employee coverage under Social Security. Participation in the plan is mandatory and employees must contribute a minimum of 4.5% of their eligible earnings and the County makes a contribution equal to 3% of compensation. Participants may contribute additional amounts beyond the required 4.5%. Total employer contributions for the year ended June 30, 2019, were \$8.99 million.

The plans are administered through a third-party administrator. The assets of the plans are held in trust by Wells Fargo Bank, N.A. and invested at the direction of the participants. Thus, plan assets and any related liability to plan participants have been excluded from the County's financial statements.

#### 9. OTHER POSTEMPLOYMENT BENEFITS

#### Retiree Healthcare

## Plan Description

LACERA administers a cost-sharing, multi-employer Retiree Healthcare (RHC) OPEB program on behalf of the County, its affiliated Superior Court, and four outside districts. The outside districts include: Little Lake Cemetery District, Local Agency Formation Commission, LACOE and the South Coast Air Quality Management District.

In April 1982, the County adopted an ordinance pursuant to Government Code Section 31691, which provided for a health insurance program and death benefits for retired employees and their dependents. In 1994, the County amended the agreements to continue to support LACERA's retiree insurance benefits program regardless of the status of active member insurance.

In June 2014, the LACERA Board approved the County's request to modify the agreements to create a new retiree healthcare benefit plan in order to lower its Retiree Healthcare Program (RHP) costs. Structurally, this means the County will be segregating all current retirees and current employees into RHP Tier 1 and placing all employees hired after June 30, 2014 into RHP Tier 2. Under the new RHP Tier 2, retirees who are eligible for Medicare will be required to enroll in that program. In addition, coverage will be available for employees or eligible survivors only.

Pursuant to the 1982, 1994, and 2014 Agreements between the County and LACERA, the parties agreed to the continuation of the health insurance benefits then in existence. The County agreed to subsidize a portion of the insurance premiums of certain retired members and their eligible dependents based on the member's length of service. The County further agreed to maintain the status quo of existing benefits provided to participants. As part of the 2014 Agreement, the County modified the existing healthcare benefit plan, which created a new benefit structure, Tier 2, for all employees hired after June 30, 2014. LACERA agreed not to change retired members' contributions toward insurance premiums or modify medical benefit levels without the County's prior consent. Active employees are not required to make contributions to the plan.

Pursuant to the California Government Code, the County established an irrevocable OPEB Trust for the purpose of holding and investing assets to pre-fund the RHP, which LACERA administers. On May 15, 2012, the County Board entered into a trust and investment services agreement with the LACERA Board of Investments to act as trustee and investment manager. The OPEB Trust does not modify the County's benefit programs.

LACERA issues a stand-alone financial report that includes the required information for the OPEB plan. The report is available at its offices located at Gateway Plaza, 300 North Lake Avenue, Pasadena, California 91101-4199 or <a href="https://www.LACERA.com">www.LACERA.com</a>.

#### OTHER POSTEMPLOYMENT BENEFITS-Continued

#### Retiree Healthcare-Continued

## Benefits Provided

Health care benefits earned by County employees are dependent on the number of completed years of retirement service credited to the retiree by LACERA upon retirement; it does not include reciprocal service in another retirement system. Service includes all service on which the member's retirement allowance was based.

The RHC OPEB Program offers members an extensive choice of medical plans as well as two dental/vision plans. The medical plans are either HMOs or indemnity plans, and some are designed to work with Medicare benefits, such as the Medicare Supplement or Medicare HMO plans. Coverage is available regardless of preexisting medical conditions. Under Tier 2, retirees who are eligible for Medicare are required to enroll in that program. Medicare-eligible retirees and their covered dependents must enroll in Medicare Parts A and B and in a Medicare HMO plan or Medicare Supplement plan under Tier 2.

Medical and Dental/Vision - Program benefits are provided through third party insurance carriers with the participant's cost for medical and dental/vision insurance varying according to the years of retirement service credit with LACERA, the plan selected, and the number of persons covered. The County contribution subsidizing the participant's cost starts at 10 years of service credit in the amount of 40% of the lesser of the benchmark plan rate or the premium of the plan in which the retiree is enrolled. For each year of retirement service credit earned beyond 10 years, the County contributes 4% per year, up to a maximum of 100% for a member with 25 years of service credit. The County contribution can never exceed the premium of the benchmark plans. Members are responsible for premium amounts above the benchmark plans, including those with 25 or more years of service credit.

Under Tier 1, the County subsidy is based on the coverage elected by the retiree. The benchmark plans are Anthem Blue Cross Plans I and II for medical and Cigna Indemnity Dental/Vision for dental and vision. Under Tier 2, the County subsidy is based on retiree only coverage. Tier 2 medical benchmark plans are Anthem Blue Cross Plans I and II for Medicare-ineligible members, Anthem Blue Cross Plan III for Medicare-eligible members, and Cigna Indemnity Dental/Vision for dental and vision plans.

Medicare Part B - The County reimburses the member's Medicare Part B Standard rate premiums paid by member to Social Security for Part B coverage, subject to annual approval by the County Board of Supervisors. Eligible members and their dependents must be enrolled in both Medicare Part A and Medicare Part B and enrolled in a LACERA- administered Medicare HMO Plan or Medicare Supplement Plan and meet all of the qualifications. Under Tier 2, the County reimburses for Medicare Part B (at the standard rate) for eligible members or eligible survivors only.

Disability - If a member is granted a service-connected disability retirement and has less than 13 years of service, the County contributes the lesser of 50% of the benchmark plan rate or the premium of the plan in which the retiree is enrolled. Under Tier 2, the benchmark plan rate is based on retiree-only premiums. A member with 13 years of service credit receives a 52% subsidy. This percentage increases 4% for each additional completed year of service, up to a maximum of 100%.

#### 9. OTHER POSTEMPLOYMENT BENEFITS-Continued

#### Retiree Healthcare-Continued

#### Benefits Provided-Continued

Death/Burial Benefit - There is a one-time lump-sum \$5,000 death/burial benefit payable to the designated beneficiary upon the death of a retiree, reimbursed to LACERA by the County. Active and vested terminated (deferred) members are eligible for this benefit once they retire. Spouses and dependents are not eligible for this death benefit.

#### Contributions

The County's required contribution during FY 2018-2019 is on a pay-as-you-go basis. During FY 2018-2019, the County made payments to LACERA totaling \$604.52 million for retiree health care benefits. Included in this amount was \$67.80 million for Medicare Part B reimbursements and \$8.60 million in death benefits. Additionally, \$47.80 million was paid by member participants. During FY 2018-2019, the County also contributed \$182.85 million in excess of the pay-as-you-go amounts.

#### <u>Investments</u>

The LACERA Board of Investments is responsible for setting the investment policy and investing any contributions made to the OPEB Trust from the participating employers. In December, 2017, the LACERA Board of Investments adopted a revised asset allocation policy which divides the OPEB Trust into four broad functional categories and contain asset classes that align with the purpose of each function. The approved target weights provide for diversification of assets in an effort to meet the LACERA's actuarial assumed rate of return, consistent with market conditions and risk control. The following was the adopted asset allocation policy as of June 30, 2018.

Asset Class	Target All	ocation	Weighted Av Long-Term Ex Rate of Retur Expected 2 Inflation R (Geomet	rpected n (After .75% ate)
Growth	50.00%		4.70%	
Global Equity		50.00%		4.70%

Real estate (REITs)		10.00%		3.90%
Commodities		4.00%		1.80%

#### 9. OTHER POSTEMPLOYMENT BENEFITS-Continued

Retiree Healthcare-Continued

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Retiree Healthcare OPEB Plan

#### Annual RHC OPEB Expense and Net OPEB Liability

At June 30, 2019, the County reported a liability of \$23.591 billion for its proportionate share of the net RHC OPEB liability. The net RHC OPEB liability was measured as of June 30, 2018, and the total RHC OPEB liability used to calculate the net RHC OPEB liability was determined by an actuarial valuation as July 1, 2017, projected forward to the measurement date taking into account any significant changes between the valuation date and the measurement date. The County's proportion of the net OPEB liability was based on a projection of the County's future contribution effort to the OPEB plan relative to the projected contributions of all OPEB participants actuarially determined. At June 30, 2018, the County's proportionate share was 95.39%, which was the same as the proportion measured at June 30, 2017.

For the year ended June 30, 2019, the County recognized OPEB expense of \$1.631 billion which is reported as \$1.353 billion for governmental activities and \$0.278 billion for business-type activities. OPEB expense represents the change in the net OPEB liability during the measurement period, adjusted for actual contributions and the deferred recognition of change in investment gain/loss, actuarial gain/loss, actuarial assumptions or methods, and plan benefits.

At June 30, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to RHC OPEB from the following sources (in thousands):

	Deferred Inflows of Resources	Deferred Outflows of Resources
Net difference between projected and actual earnings	\$ 50,178	\$ 
Change of assumptions	2,928,167	
Change in experience	1,170,484	
Change in proportion and differences between County contributions and the proportionate share of contributions	555,809	559,601
Contributions made subsequent to measurement date		787,366
Total	\$ 4,704,638	\$ 1,346,967

The deferred inflows of resources and deferred outflows of resources above represent the unamortized portion of changes to the net RHC OPEB liability to be recognized in future periods in a systematic and rationale manner in accordance with GASB 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" (GASB 75). Investment gains or losses are recognized in OPEB expense over a five year period and economic/demographic gains or losses and assumption changes or inputs are recognized over the average remaining service life of all active and inactive members, which is 9 years.

#### 9. OTHER POSTEMPLOYMENT BENEFITS-Continued

## Retiree Healthcare-Continued

## Annual RHC OPEB Expense and Net OPEB Liability-Continued

Amounts currently reported as deferred outflows and inflows of resources, other than contributions related to RHC OPEB, will be recognized in RHC OPEB expense as follows (in thousands):

	Outfl	Deferred ows/(Inflows) Resources
Year Ending June 30:		
2020	\$	(550,310)
2021		(550,310)
2022		(550,310)
2023		(540,022)
2024		(535,193)
Thereafter		(1,418,892)

Deferred outflows of resources of \$787.37 million related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2020.

## **Actuarial Methods and Assumptions**

0.00%	3.70%
5.85%	4.47%
	6.00% 9.25% 0.00%

#### Discount Rate

GASB 75 requires determination of whether the OPEB Trust's Fiduciary Net Position is projected to be sufficient to make projected benefit payments. The Plan's fiduciary net position was not projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate incorporates a municipal bond rate based on the 20-year Bond Buyer GO index (municipal bond rate) which was 3.87% as of June 30, 2018. For 2018, the long-term expected rate of return of 6.30% was applied to projected benefit payments from 2018 to 2058. The municipal bond rate was applied to the remaining periods. The resultant blended discount rate used to measure the Total OPEB Liability as of June 30, 2018 was 5.11%, an increase of 0.42% from the rate as of June 30, 2017.

Sensitivity of the County's Proportionate Share of the RHC OPEB Liability to Changes in the Discount Rate

The following represents the County's proportionate share of the net RHC OPEB liability calculated using the discount rate of 5.11%, as well as what the County's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (4.11%) or 1-percentage point higher (6.11%) than the current rate (in thousands):

	1%	Discount	1%
	Decrease	Rate	Increase
	(4.11%)	(5.11%)	(6.11%)
Net RHC OPEB Liability	\$ 28,263,233	\$ 23,590,686	\$ 19,905,335

Sensitivity of the County's Proportionate Share of the RHC OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following represents the County's proportionate share of the net RHC OPEB liability, as well as what the County's proportionate share of the net RHC OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage point lower or 1-percentage point higher than the current healthcare cost trend rates (in thousands):

	1%	Cı	urrent Trend	1%
	Decrease		Rate	Increase
Net RHC OPEB Liability	\$ 19,236,410	\$	23,590,686	\$ 29,369,024

#### **Long-Term Disability**

#### Plan Description

The County provides LTD benefits to employees and these benefits have been determined to fall within the definition of OPEB, per GASB 75. The LTD plans are administered by the County and are not administered through a trust. Each of the LTD plans are a single employer plan and the amounts paid by the County are paid when the benefits become due during the reporting period. These LTD benefits provide for income replacement if an employee is unable to work because of illness or injury. The Board approved the County's original LTD plan effective March 3, 1982. Effective January 1, 1991, a new Megaflex plan was approved by the Board and includes a Megaflex LTD plan and a LTD Health plan. The LTD Health plan was added to the LTD program and made available to all participants effective January 1, 2002.

#### Benefits Provided

The benefit provisions of the four LTD plans is as follows:

#### Eligibility

Non-Megaflex Income/Survivor Income Benefit (SIB) - The Plans cover:

- (1) An employee who becomes totally disabled as a direct result of an injury or disease while performing his/her assigned duties; or,
- (2) An employee who becomes totally disabled after having completed five or more years of continuous service with the County; or,
- (3) A qualified beneficiary of a deceased employee who had previously become totally disabled as a direct result of an injury or disease while performing his/her assigned duties;
- (4) A qualified beneficiary of a deceased employee who had previously become totally disabled after having completed five or more years of continuous service with the County.
- (5) A qualified beneficiary of an employee who dies as a direct result of an injury or disease while performing his/her assigned duties, or,
- (6) A qualified beneficiary of an employee who dies in active service after having completed five or more years of continuous service with the County.

## Megaflex Income/SIB - The Plans covers:

(1) An employee purchases LTD coverage and then becomes totally disabled; or,

#### 9. OTHER POSTEMPLOYMENT BENEFITS-Continued

## **Long-Term Disability-Continued**

#### Benefits Provided-Continued

- (2) An employee who becomes totally disabled after having completed five or more years of continuous service with the County and is a member of Retirement Plan E.
- (3) The Qualified Beneficiary of a Retirement Plan E participant who is currently enrolled in the SIB plan at the time of death.

Non-MegaFlex Member LTD Health Plan - The plan continues medical insurance coverage for employees who are receiving or eligible to receive LTD Income benefits and are enrolled in one of the County approved health plans.

MegaFlex Member LTD Health Plan - The plan continues medical insurance coverage for employees who are receiving or eligible to receive LTD Income benefits and are enrolled in one of the County approved health plans.

#### Benefit Formula

Non-Megaflex Income/SIB - The plan provides a basic monthly benefit of:

- (1) 60% of Basic Monthly Compensation (commences after 6 months of disability).
- (2) Annual COLA, beginning after 2 years of benefit payments (limited to a maximum of 2%/ year), if disabled after 1/1/2001.
- (3) For a qualified beneficiary, 55% of the LTD disability benefit that the employee was receiving or would have received immediately prior to death; and, continues for the life of the qualified surviving spouse/domestic partner and upon spousal death to the qualified children beneficiaries.

Megaflex Income/SIB - The plan provides a basic monthly benefit of:

- (1) 40% or 60% of Basic Monthly Compensation (commences after 6 months of disability)
  - a. Plan E members
    - (1) With 5+ years of services 40% non-elective or can buy up to 60
    - (2) With less than 5 years of service: can buy 40% or 60%
  - b. Plan A, B, C, or D members: can buy 40% or 60%
- (2) Annual COLA, beginning after 2 years of benefit payments (limited to a maximum of 2% per year), if disabled after 1/1/2001.
- (3) For a qualified beneficiary, the plan provides a basic monthly benefit of 10%, 15%, 25%, 35%, or 50% of employee's monthly salary if they elected.

Non-MegaFlex Member LTD Health Plan - The plan pays 75% of monthly medical premiums for disabled members.

MegaFlex Member LTD Health Plan - The plan pays 75% of monthly medical premiums for disabled members.

#### 9. OTHER POSTEMPLOYMENT BENEFITS-Continued

## Long-Term Disability-Continued

## Benefits Provided-Continued

#### Maximum Period

Non-Megaflex Income/SIB and Megaflex Income/SIB - LTD benefits stop when:

(1) Employee is no longer totally disabled or turns age 65, whichever occurs first. However, if employee is age 62 or older when benefit commences, benefit can continue beyond age 65 (length depends on age at commencement) as follows:

Age at Disability	Maximum Period
62	3 ½
63	3
64	2 ½
65	2
66	1 3/4
67	1 ½
68	1 1/4
69 and older	1

or

(2) Employee takes early or normal retirement under Plan E.

#### Employees covered by benefit terms

At June 30, 2018, the following employees were covered by the benefit terms:

## LTD Income and Survivor Benefit Plans:

Inactive employees or beneficiaries currently receiving benefit payments	2,518
Inactive employees entitled to but not yet receiving benefit payments	0
Active employees	74,357

## LTD Health Plans

Inactive employees or beneficiaries currently receiving benefit payments	594
Inactive employees entitled to but not yet receiving benefit payments	0
Active employees	65,168

#### Total LTD OPEB Liability

At June 30, 2019, the County reported a total LTD OPEB liability of \$1.048 billion. The total LTD OPEB liability was determined by an actuarial valuation as of July 1, 2017, rolled forward to July 1, 2018.

#### 9. OTHER POSTEMPLOYMENT BENEFITS-Continued

Long Term Disability-Continued

OPEB Expense and the Deferred Outflows of Resources and Deferred Inflows of Resources Related to LTD OPEB

For the year ended June 30, 2019, the County recognized LTD OPEB expense of (\$15.21) million which is reported as (\$8.01) million for governmental activities and (\$7.20) million for business-type activities. OPEB expense represents the change in the total LTD OPEB liability during the measurement period, adjusted for the deferred recognition of change in investment gain/loss, actuarial gain/loss, actuarial assumptions or methods, and plan benefits.

At June 30, 2019, the County reported deferred outflows of resources and deferred inflows of resources related to LTD OPEB from the following sources (in thousands):

	Ir	Deferred Inflows of Resources		Deferred Outflows of Resources	
Change in experience	\$	\$			
Change of assumptions		128,444			
Change in proportionate share		60,390		60,390	
Total	\$	188,834	\$	61,899	

The deferred inflows of resources and deferred outflows of resources above represent the unamortized portion of changes to the total LTD OPEB liability to be recognized in future periods in a systematic and rationale manner in accordance with GASB 75. Economic/demographic gains or losses, assumption changes or inputs, and change in proportion are recognized over the average remaining service life of all active and inactive members, which is 12 years. The change in proportionate share represents the changes in allocation percentages to the individual funds, including the proprietary funds, of the total OPEB LTD liability from the prior measurement date to the current measurement date.

Amounts currently reported as deferred outflows and inflows of resources will be recognized in OPEB expense as follows (in thousands):

	Outflow	ferred vs/(Inflows) esources
Year Ending June 30:		
2020	\$	(12,339)
2021		(12,339)
2022		(12,339)
2023		(12,339)
2024		(12,339)
Thereafter		(65,240)

Deferred Inflows of Resources		4,704,638	188,834	4,893,472
OPEB Expense		1,633,970	(15,213)	1,618,757

### 10. LEASES

### Operating Leases

The following is a schedule of future minimum rental payments required under operating leases entered into by the County that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2019 (in thousands):

Year Ending June 30	Governmental Activities		
2020	\$ 84,945		
2021	65,940		
2022	51,320		
2023	40,434		
2024	33,796		
2025-2029	98,648		
2030-2034	46,555		
2035-2039	22,221		
2040-2044	15,153		
2045-2049	12,880		
Total	\$ 471,892		

Rent expenses related to operating leases were \$102.51 million for the year ended June 30, 2019.

#### 10. LEASES-Continued

### Capital Lease Obligations

The following is a schedule of future minimum lease payments under capital lease obligations together with the present value of future minimum lease payments as of June 30, 2019 (in thousands):

Year Ending June 30	Governmental Activities		Business-type Activities	
2020	\$	27,439	\$	78
2021		27,196		52
2022		26,708		34
2023		26,669		11
2024		26,506		
2025-2029		94,114		
2030-2034		62,917		
2035-2038		27,840		
Total		319,389		175
Less: Amount representing interest		162,502		10
Present value of future minimum lease payments	\$	156,887	\$	165

The following is a schedule of property under capital leases by major classes at June 30, 2019 (in thousands):

	Governmental Activities			Business-type Activities		
Land	\$	\$ 32,238				
Buildings and improvements		142,638				
Equipment		59,471		276		
Accumulated depreciation		(73,193)		(117)		
Total	\$	161,154	\$	159		

Future rent revenues to be received from noncancelable subleases are \$838,000 as of June 30, 2019.

### Leases of County-Owned Property

The County has entered into operating leases relative to the Marina del Rey Project area, regional parks, asset development projects and Whiteman Airport. Substantially all of the Marina's land and harbor facilities are leased to others under agreements classified as operating leases. Certain regional parks are leased under agreements, which provide for activities such as food and beverage concessions, and recreational vehicle camping. The asset development projects are ground leases and development agreements are entered into by the County for private sector development of commercial, industrial, residential, and cultural uses on vacant or underutilized County owned property. The Whiteman Airport lease is for hanger space. The asset development leases cover remaining periods ranging generally from 3 to 79 years and are accounted for in the General Fund. The lease terms for the regional parks cover remaining periods ranging from 1 to 20 years and are also accounted for in the General Fund. The Marina del Rey leases cover remaining periods ranging from 1 to 59 years and are accounted for in the General Fund. The airport lease covers a remaining period of 12 years and is accounted for in the Aviation Enterprise Fund.

### 10. LEASES-Continued

# Leases of County-Owned Property-Continued

The land carrying value of the asset development project ground leases and the Marina del Rey Project area leases is \$650.23 million. The carrying value of the capital assets associated with the regional park and Whiteman Aiport operating leases is not determinable.

The following is a schedule of future minimum rental receipts on noncancelable leases as of June 30, 2019 (in thousands):

Year Ending June 30	Governmental Activities		siness-type Activities
2020	\$ 49,601	\$	192
2021	49,580		196
2022	49,481		201
2023	46,775		206
2024	44,329		212
Thereafter	1,673,427		1,637
Total	\$ 1,913,193	\$	2,644

The following is a schedule of rental income for these operating leases for the year ended June 30, 2019 (in thousands):

	Governmental Activities		iness-type ctivities
Minimum rentals	\$ 44,812	\$	186
Contingent rentals	 21,387		
Total	\$ 66,199	\$	186

The minimum rental income is a fixed amount based on the lease agreements. The contingent rental income is a percentage of revenue above a certain base for the asset development leases or a calculated percentage of the gross revenue less the minimum rent payment for the other leases.

### 11. LONG-TERM OBLIGATIONS

Long-term obligations of the County consist of bonds, notes and loans from direct borrowings and direct placements, pension (see Note 8), OPEB (see Note 9), capital lease obligations (see Note 10) and other liabilities, which are payable from the General, Special Revenue, Debt Service, Enterprise and Internal Service Funds.

Lease Revenue Obligation Notes, 1.27% to 2.70%		323,145		323,145
Waterworks District Loans, 2.28%		8,869		6,931
Aviation Loan, 2.95%		2,000		1,614
Total	\$	1,118,736	\$	1,065,644

### **Assessment Bonds**

The RPOSD issued voter approved assessment bonds in 1997, some of which were advance refunded in FY 2004-2005 and the remainder in FY 2007-2008, to fund the acquisition, restoration, improvement and preservation of beach, park, wildlife and open space resources within the RPOSD. As discussed in Note 4, the bonds were purchased by the Public Works Financing Authority (Authority) and similar bonds were issued as a public offering. The bonds issued by the Authority are payable from the pledged proceeds of annual assessments levied on parcels within RPOSD's boundaries. The current year assessment revenues were \$28.66 million.

#### 11. LONG-TERM OBLIGATIONS-Continued

### **Assessment Bonds-Continued**

The bonds mature in FY 2019-2020. Annual principal and interest payments of the bonds are expected to require less than 50% of annual assessment revenues. The Authority Master Indenture of Trust contains a provision that in an event of default, outstanding principal and accrued interest may be declared due and payable immediately. Total principal and interest remaining on the bonds is \$13.97 million, not including unamortized bond premiums. Principal and interest for the current year were \$13.99 million.

Principal and interest requirements on assessment bonds are as follows (in thousands):

Year Ending	Governmental Activities				
June 30	P	rincipal		Interest	
2020	\$	13,620	\$	352	
Subtotal		13,620	\$	352	
Add: Unamortized bond premiums		990			
Total assessment bonds	\$	14,610			

### Certificates of Participation and Bonds

The County has issued lease revenue bonds through various financing entities that have been established and are component units of the County. The debt proceeds have been used to finance the acquisition of County facilities and equipment. The County makes annual payments to the financing entities for the use of the property and the debt is secured by the underlying capital assets that have been financed. The County has pledged a total of 15 County-owned properties as collateral for various bonds, including the new bonds below.

During FY 2018-2019, LACF issued \$302.38 million of lease revenue bonds, which includes \$297.28 million in tax-exempt lease revenue bonds (Series 2018A) and \$5.10 million in federally taxable lease revenue bonds (Series 2018B), to finance the construction of the Vermont Corridor County Administration Building and parking structure. The proceeds from these bonds plus the associated premium of \$44.18 million less issuance costs of \$1.98 million were used to fund the Project Fund, totaling \$297.13 million, and the Capitalized Interest Fund, totaling \$47.45 million. The County has pledged four County-owned properties as collateral for the debt. In addition, the Indenture of Trust contains a provision that in an event of default, the outstanding principal and interest accrued may be declared due and payable immediately. The debt was only issued for governmental activities.

Principal and interest requirements on NPC bonds and Public Buildings certificates of participation and bonds for governmental activities and business-type activities are as follows (in thousands):

### Tobacco Settlement Asset-Backed Bonds

In 2006, the County entered into a Sale Agreement with the LACSC under which the County relinquishes to the LACSC a portion of its future tobacco settlement revenues (TSRs) for the next 40 years. The County received from the sold TSRs a lump sum payment of \$ 319.83 million and a residual certificate in exchange for the rights to receive and retain 25.90% of the County's TSRs through 2046. The residual certificate represented the County's ownership interest in excess TSRs to be received by the LACSC during the term of the Sale Agreement. Residuals through 2019 were \$131.51 million. The total TSRs sold, based on the projected payment schedule in the Master Settlement Agreement and adjusted for historical trends, was estimated to be \$ 1.438 billion. The estimated present value of the TSRs sold, net of the expected residuals and assuming a 5.70% interest rate at the time of the sale, was \$309.23 million. In the event of a decline in the tobacco settlement revenues for any reason, including the default or bankruptcy of a participating cigarette manufacturer, resulting in a decline in the tobacco settlement revenues and possible default on the Tobacco Bonds, neither the California County Tobacco Securitization Agency, the County, nor the LACSC has any liability to make up any such shortfall.

# Notes, Loans, and Lease Revenue Obligation Notes

### Notes from Direct Placements

BANs are issued by LACCAL to provide interim financing for equipment purchases. BANs are purchased by the County Treasury Pool and are payable within 5 years. In addition, the BANs are issued with a formal agreement that, in the event they are not liquidated within the five-year period, they convert to capital lease obligations with a three-year term secured by County real property. During FY 2018-2019, LACCAL, an Internal Service Fund, issued additional BANs in the amount of \$30.00 million as reflected in governmental activities and \$0 as reflected in business-type activities. As of June 30, 2019, the unissued BANS balance is \$17.50 million and the note balance is \$50.00 million for governmental activities only.

### Loans from Direct Borrowings

Marina del Rey loans were obtained from the California Department of Boating and Waterways for the restoration and renovation of the marina seawall. The loans are secured by Marina del Rey lease revenue and by Los Angeles County Music Center parking revenues. The loan contract contains a provision that in the event the County fails to make payment due, all principal and interest outstanding shall become immediately due and payable, and the deficiency will be added to, and become part of, the principal of the loan. As of June 30, 2019, the balance is \$12.22 million.

#### 11. LONG-TERM OBLIGATIONS-Continued

Notes, Loans, and Lease Revenue Obligation Notes-Continued

### Loans from Direct Borrowings-Continued

In June 2010, the Board approved a resolution authorizing the Waterworks Districts to obtain Safe Drinking Water State Revolving loans in the amount of \$3.41 million and \$5.47 million from the California Department of Public Health to fund the Sepulveda Feeder Interconnection project (Malibu) and the Marina del Rey Waterline Replacement project (Marina), respectively. The loans will be repaid over 20 years and are secured by revenues from surcharges collected for capital improvements. Annual principal and interest payments of the loans are expected to require less than 46.73% of the annual surcharge revenues. The funding agreements contain a provision that in an event of default, obligations may be immediately due and payable, and further disbursements may be terminated. During FY 2018-2019, the County did not obtain any additional loans. As of June 30, 2019, total loans drawn are \$3.40 million on the Sepulveda Feeder Interconnection project and \$5.47 million on the Marina del Rey Waterline Replacement project. As of June 30, 2019, the balance is \$6.93 million.

In July 2014, the Board approved the Whiteman Airport Leasehold Interest Acquisition Project, with a total Project cost of \$4.02 million. To partially finance the acquisition, the Aviation Enterprise Fund obtained an Airport Development Loan from the State of California Department of Transportation, Aeronautics Program for \$2.00 million with an annual interest rate of 2.95%. The Airport Development Loan will be repaid over 17 years with revenue generated by rental income. The loan agreement contains a provision that if the County fails to comply with or perform any term or condition in the agreement, or fails to pay the annual loan payment, the entire outstanding principal amount of the loan and all accrued interest may be immediately due and payable. In addition, the County may be ineligible for future financing under the program. During FY 2018-2019, the County did not obtain any additional airport development loans. As of June 30, 2019, the balance is \$1.62 million.

### Lease Revenue Obligation Notes from Direct Borrowings

Lease revenue obligation notes (LRON) provide the County with a flexible and cost-effective source of financing to provide interim funding during the initial construction phase of a capital project, which may be refinanced with the issuance of long-term bonds upon completion. Repayment of LRON are secured by four irrevocable direct-pay letters of credit (LOC) from separate banks supporting the issuance of LRON. This program is secured by fifteen County-owned properties pledged as collateral in a lease-revenue financing structure with LACCAL. The LOCs were issued for a five-year period and have a termination date of April 4, 2024. The County has the option to extend the LOCs for an additional one-year period or to some other term mutually agreed to with the participating banks.

The aggregate maximum principal amount of the four LOCs is \$600.00 million, which consists of \$100.00 million of Series A (Bank of the West), \$200.00 million of Series B (U.S. Bank), \$200.00 million of Series C (Wells Fargo Bank), and \$100.00 million of Series D (State Street Bank). The County is responsible for the payment of a non-refundable letter of credit fee for each LOC on a quarterly basis in an amount equal to the rate per annum corresponding to the lowest long-term unenhanced debt ratings assigned by any of Moody's, S&P, or Fitch to any Lease Obligation Debt of the County. The letter of credit fee for all four series of LOCs is equal to 0.35% of the maximum principal amount of the LOC. As of June 30, 2019, \$562.32 million of LRON issued under the program were outstanding, including \$100.00 million of Series A, \$186.84 million of Series B, \$175.48 million of Series C, and \$100.00 million of Series D.

#### 11. LONG-TERM OBLIGATIONS-Continued

Notes, Loans, and Lease Revenue Obligation Notes-Continued

Lease Revenue Obligation Notes from Direct Borrowings-Continued

LRON are issued as variable rate instruments with a maximum term not to exceed 270 days. On the maturity date of LRON, the notes are reissued at the prevailing interest rates in the note market, which reflects the term of the note and the perceived credit quality of the supporting letter of credit bank. In the event the notes are not able to be reissued in the note market, the bank will make a Principal Advance to pay the principal of the maturing note. If the Principal Advance remains outstanding longer than 90 days, a term loan is created to repay the bank. During FY 2018-2019, the County reissued \$75.49 million for governmental activities and reissued \$249.10 million for business-type activities, representing the total amounts outstanding at the beginning of the year. These reissues, along with an additional \$237.73 million of new County LRON, which is reported as \$163.69 million for governmental activities and \$74.04 million for business-type activities, are reflected as notes payable. The total outstanding LRON as of June 30, 2019 is \$562.32 million, which is reported as \$239.18 million for governmental activities and \$323.14 million for business-type activities. The average interest rate on LRON issued in FY 2018-2019 was 1.34%.

Long-term liabilities recorded in the government-wide statement of net position include accreted interest on zero coupon bonds and unamortized bond premiums.

### Bonds Defeased in Prior Years

In prior years, various debt obligations, consisting of bonds and certificates of participation, were defeased by placing the proceeds of refunding bonds in an irrevocable trust to provide for all future debt service payments on the old obligations. GASB 86, "Certain Debt Extinguishment Issues," requires that debt also be considered defeased when cash and other monetary assets acquired with only existing resources are placed in an irrevocable trust to extinguish debt. Accordingly, the trust account assets and the related debt service payments for the defeased bonds would not be reflected in the County's statement of net position. At June 30, 2019, there were no outstanding bonds and certificates of participation considered defeased.

#### 11. LONG-TERM OBLIGATIONS-Continued

# Changes in Long-term Liabilities-Continued

For governmental activities, the General Fund, the Fire Protection District Special Revenue Fund and the LA County Library Special Revenue Fund have typically been used to liquidate workers' compensation, accrued compensated absences, pension, OPEB, and litigation and self-insurance.

Bond interest accretions for deep discount bonds have been included in the amounts reported for Bonds. Accretions decreased during FY 2018-2019, thereby decreasing liabilities for Bonds by \$8.32 million for governmental activities. Note 18 contains information about changes in the combined current and long-term liabilities for workers' compensation and litigation and self-insurance.

## <u>Discretely Presented Component Unit</u>

Long-term debt obligations and corresponding activity for the LACDA discretely presented component unit for the year ended June 30, 2019, was as follows (in thousands):

						Balance		ue Within

#### 12. SHORT-TERM DEBT

On July 2, 2018, the County issued \$700.00 million of short-term Tax and Revenue Anticipation Notes at an effective interest rate of 1.55%. The proceeds of the notes were used to assist with County General Fund cash flow needs prior to the first major apportionment of property taxes, which occurred in December 2018. The notes matured and were redeemed on June 28, 2019.

#### 13. CONDUIT DEBT OBLIGATIONS

### Community Facilities and Improvement District Bonds

As of June 30, 2019, various community facilities and improvement districts established by the County had outstanding special tax bonds payable totaling \$22.86 million and limited obligation improvement bonds totaling \$1.14 million. The bonds were issued to finance the cost of various construction activities and infrastructure improvements, which have a regional or direct benefit to the related property owners.

The bonds do not constitute an indebtedness of the County and are payable solely from special taxes and benefit assessments collected from property owners within the districts. In the opinion of County officials, these bonds are not payable from any revenues or assets of the County and neither the full faith and credit of the County, the State or any political subdivision thereof is obligated to the payment of the principal or interest on the bonds. Accordingly, no liability has been recorded in the accompanying basic financial statements.

The County functions as an agent for the districts and bondholders. Debt service transactions related to the various bond issues are reported in the agency funds. Construction activities are reported in the Improvement Districts' Capital Projects Fund.

### Industrial Development and Other Conduit Bonds

Industrial development bonds, and other conduit bonds, have been issued to provide financial assistance to private sector entities and nonprofit corporations for the acquisition of industrial and health care facilities, which provide a public benefit. The bonds are secured by the facilities acquired and/or bank letter of credit and are payable solely from project revenue or other pledged funds. The County is not obligated in any manner for the repayment of the bonds. Accordingly, no liability has been recorded in the accompanying basic financial statements.

As of June 30, 2019, the amount of industrial development and other conduit bonds outstanding was \$69.06 million.

# Redevelopment Refunding Bonds

The County of Los Angeles Redevelopment Refunding Authority, a JPA between the County and the Public Works Financing Authority, was established to issue bonds that would enable successor agencies to former redevelopment agencies within the County to refund their outstanding tax allocation bonds in order to achieve debt service savings and to provide significant economies of scale through reduced costs of issuance and lower interest rates. The bonds are secured by a lien on future tax revenues of successor agencies. The County is not obligated in any manner for the repayment of the bonds. Accordingly, no liability has been recorded in the accompanying basic financial statements.

As of June 30, 2019, the amount of redevelopment refunding bonds outstanding was \$620.77 million.

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES

Net patient service revenue is reported at the estimated net realizable amounts from patients, third party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

#### Medi-Cal Demonstration Project: Medi-Cal 2020

On December 30, 2015, the federal Centers for Medicaid and Medicare Services (CMS) approved the special terms and conditions (STCs) for Medi-Cal 2020 - a five-year renewal of California's Section 1115(a) Medi-Cal Demonstration Project, which provides California with new federal funding through programs with an intent to shift focus away from hospital-based and inpatient care, towards outpatient, primary, and preventative care. Medi-Cal 2020 covers the period January 1, 2016 to December 31, 2020.

Revenues for the public hospitals under Medi-Cal 2020 are composed of:

- 1) Global Payment Program
- 2) Public Hospitals Redesign and Incentives in Medi-Cal
- 3) Whole Person Care

### Global Payment Program

The Global Payment Program (GPP) is a payment reform program that aims to change the way county-owned and operated Public Hospital Systems (PHS) in California are compensated for providing care to the remaining uninsured. The program encourages a shift away from cost-based, hospital-centric models of care, through financial incentives to provide cost-effective primary and specialty care.

The GPP funds are comprised of Disproportional Share Hospital (DSH) funds that otherwise would have been allotted to a PHS, and Safety Net Uncompensated Care Pool (SNCP). DSH is a federal program to support safety-net hospital caring for a disproportionate share of low-income patients. SNCP was established under California's 2005 waiver to support services provided to uninsured patients. The GPP lifts restrictions that have historically impeded providing services for the remaining uninsured in the most appropriate setting for each patient, and now includes non-traditional methods of care delivery that have not been covered under either program.

The shift from volume to value is done through a value-based point methodology, which takes into account both the value of care to the patient, and the recognition of costs to the health care system.

Each participating PHS has an opportunity to earn a global budget for care to the remaining uninsured, and must meet service thresholds to receive full funding. Points are assigned to services in the following categories:

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Medi-Cal Demonstration Project: Medi-Cal 2020-Continued

### **Global Payment Program-Continued**

- Traditional Outpatient (e.g., primary or specialty care visit, dental, ER/urgent care, mental health visit).
- Non-Traditional Outpatient (e.g., health coaching, care navigation, community wellness encounters).
- Technology-Based Outpatient (e.g., nurse advice line, email consultation, provider-to-provider eConsult for specialty care).
- Inpatient and Facility Stays (e.g., trauma care, ICU stays, recuperative care, respite care, sober center stays, skilled nursing facility stays).

The County provides funding for the State of California's (State's) share of the program by "using Intergovernmental Transfers (IGTs)" to draw down federal matching funds.

The estimated GPP revenues and related IGTs recorded in FY 2018-2019, in thousands, were as follows:

GPP Revenues			governmental fers Expense
\$	302,472	\$	160,348
	131,180		61,642
	323,826		244,631
	118,117		101,666
\$	875,595	\$	568,287
	\$	Revenues \$ 302,472 131,180 323,826 118,117	Revenues Trans  \$ 302,472 \$ 131,180 323,826 118,117

The General Fund received \$352.34 million for GPP and paid \$62.82 million of related IGTs, which were recorded as "Charges for Services" revenue and "Health and Sanitation" expenditures, respectively, on the governmental funds statement.

### Public Hospital Redesign and Incentives in Medi-Cal

The Public Hospital Redesign and Incentives in Medi-Cal (PRIME) program is the successor to the 2010 Bridge to Reform waiver's Delivery System Reform Incentive Program (DSRIP), a pay-for-performance program that improves care delivery to prepare California's PHS for an influx of newly covered patients through the implementation of the Affordable Care Act (ACA).

PRIME directs PHS, district, and municipal hospitals to use evidence-based quality improvement methods to achieve ambitious, year-over-year performance targets. All federal funding for this program is contingent on meeting these targets.

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

Medi-Cal Demonstration Project: Medi-Cal 2020-Continued

### Public Hospital Redesign and Incentives in Medi-Cal-Continued

Efforts within PRIME include (1) increasing the capability to furnish patient-centered, data driven, team-based care, (2) improving the capacity to provide point-of-care services, complex care management and population health management, (3) improving population and health outcomes, (4) high quality care that integrates physical and behavioral health services in the most appropriate setting and (5) moving towards value-based payments. The estimated revenues below, in thousands, were recorded as "other operating revenues" in FY 2018-2019:

		vernmental ers Expense
\$ 138,237	\$	86,029
33,994		33,995
106,266		39,686
30,195		30,195
\$ 308,692	\$	189,905
<b>R</b> €	33,994 106,266 30,195	Revenues Transfe \$ 138,237 \$ 33,994 106,266 30,195

The General Fund received \$109.71 million for PRIME and paid \$19.29 million of related IGTs, which were recorded as "Intergovernmental Revenue Federal" and "Health and Sanitation" expenditures, respectively, on the governmental funds statement.

### Whole Person Care

Whole Person Care (WPC) pilot program focuses on coordination of health, behavioral health, and social services in a patient-centered manner with the goals of improved beneficiary health and well-being through more efficient and effective use of resources.

WPC program is on a calendar year basis, starting with 2016. The General Fund received \$259.88 million for WPC revenues, which were recorded as "Intergovernmental Revenue Federal" on the governmental funds statement. In addition, the General Fund recorded \$149.26 million of WPC IGT expenditures, which were recorded as "Health and Sanitation" expenditures on the governmental funds statement.

### Medi-Cal Demonstration Project: Bridge to Reform

Bridge to Reform was approved in November 2010 by CMS, pursuant to Section 1115(a) of the Social Security Act. This waiver affected many aspects of Medi-Cal revenue for the County hospitals and clinics including the financing methods by which the State drew down federal matching funds. Bridge to Reform covered the period November 1, 2010 to October 31, 2015, with a temporary extension to December 31, 2015.

Although DSH and SNCP ended in FY 2014-2015, the Department of Health Care Services (DHCS) has yet to perform the final reconciliation for various program years. In FY 2018-2019, the financial impact of these programs is immaterial.

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

### Managed Care for Seniors and Persons with Disabilities

Under the Medi-Cal Demonstration Project, in an effort to provide more coordinated care and contain costs, Medi-Cal beneficiaries who are Seniors and Persons with Disabilities (SPDs) are required to enroll in managed care plans, rather than using a fee for service system. In FY 2018-2019, an estimated \$121.87 million of SPD revenues were recorded as part of net patient service revenue.

The Medi-Cal Demonstration Project required the County to make IGTs to the State to fund the non-federal share of Medi-Cal inpatient payments for the SPD managed care population. Expenses associated with such IGTs were \$75.48 million in FY 2018-2019.

The General Fund received \$26.11 million for SPD, which were recorded as "Charges for Services" revenue on the governmental funds statement.

### Affordable Care Act

On January 1, 2014, when the federal health care reform of the Patient Protection went into effect, the Hospital Presumptive Eligibility program also provided individuals with temporary Medi-Cal benefits while a formal, permanent Medi-Cal application is being processed.

### Medicaid Coverage Expansion

The Medicaid Coverage Expansion (MCE), also known as the Optional Medicaid Expansion program, provides Medi-Cal coverage for adult citizens or legal residents (ages 19-64) who are uninsured and have incomes at or below 138% of the Federal Property Level. The Federal Medical Assistance Percentage (FMAP) for the MCE Program is 100.00% from July 1, 2016 through December 31, 2016, 95.00% from January 1, 2017 through December 31, 2017, 94.00% from January 1, 2018 through December 31, 2018, and 93.00% effective January 1, 2019.

During FY 2018-2019, LA Care Health Plan (LA Care), one of the health plans which subcontracts with the County to provide services for their Medi-Cal managed care members, continued to pay the County managed care capitation payments based on the FY 2017-2018 contract rates. The two organizations are currently working together to determine the new rates, but the negotiated rates are not yet finalized. For the MCE capitated lives, the official MCE rates are estimated to have increased in FY 2018-2019.

In FY 2018-2019, the total estimated MCE revenues and related estimated IGTs, including prior year over/under-realization were as follows (in thousands):

	Program evenues	overnmental ers Expense
MCE	\$ 131,333	\$ 16,861
MCRS - MCE	148,787	9,770
Total	\$ 280,120	\$ 26,631

The General Fund received \$78.52 million for MCE and paid \$12.40 million of related IGTs, which were recorded as "Charges for Services" revenue and "Health and Sanitation" expenditures, respectively, on the governmental funds statement.

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

### Other Medi-Cal Programs

### Medi-Cal Fee-For-Service

The Medi-Cal Demonstration Project restructured the financing method by which the State draws down federal matching funds for the inpatient hospital fee for service (FFS) to cost based reimbursement. The non-federal share of the Medi-Cal FFS is provided by the hospitals primarily through certified public expenditures (CPE) whereby the hospital expends its local funding for services to draw down the federal financing participation, currently provided at a 50% match. For FY 2018-2019, an estimated \$420.18 million of Medi-Cal FFS revenues were recorded as part of net patient service revenue.

### Medi-Cal Physician State Plan Amendment

The Medi-Cal Demonstration Project payment for inpatient and other facility services excluded professional services. State Plan Amendment 05-23 allows professional services provided by public entities to be paid similarly to the inpatient hospital services under the Medi-Cal Demonstration Project. Hospitals are allowed to claim federal reimbursement for unreimbursed costs of Medi-Cal professional services (Hospital Inpatient, Emergency Room, and Psychiatric services), which is matched at the applicable FMAP rate for the year.

Revenues of \$49.38 million were recognized and recorded as part of net patient service revenue during FY 2018-2019 and included adjustments for the over/under-realization of revenues associated with FY 2008-2009 and FY 2016-2017 through FY 2017-2018.

### Cost Based Reimbursement Clinics

Cost Based Reimbursement Clinics (CBRC) reimburse 100% of allowable costs for outpatient services provided to Medi-Cal beneficiaries at the County's hospital-based clinics, outpatient centers and Ambulatory Care Network health centers (excluding clinics that provide predominately public health services). CBRC revenues in FY 2018-2019 were \$147.06 million. As of June 30, 2019, the County estimated that approximately \$65.61 million of CBRC accounts receivable would not be collectible within 12 months and this amount is classified as a non-current asset in the proprietary fund statements of net position for each hospital.

The General Fund received \$42.31 million for CBRC, which was recorded as "Charges for Services" revenue on the governmental funds statement. As of June 30, 2019, the County estimated that approximately \$11.38 million of CBRC accounts receivable would not be collectible within 12 months.

### Medi-Cal Cost Report Settlements

In FY 2018-2019, the County recognized favorable audit settlements of \$83.86 million related to FY 2015-2016, and FY 2016-2017. The County's various level appeals to the Office of Administrative Appeals of certain audit adjustments have been favorably resolved resulting in \$5.35 million of final settlement revenues.

The State is in the process of auditing the FY 2017-2018 cost reports and settlements are expected by the 4th quarter of FY 2019-2020.

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

# Other Medi-Cal Programs-Continued

### Medi-Cal Managed Care Rate Supplements

The State is obtaining CMS' approval to continue the Medi-Cal Managed Care Rate Supplements (MCRS) paid to LA Care and Health Net Health Plans for FY 2018-2019. The supplements are funded by IGTs made by the County. The County does not receive the supplemental payments directly from the State; rather, the State contracts with LA Care and Health Net, which then subcontract for services with various provider networks.

In addition, in order to receive the supplemental payments, the County is required by Welfare and Institutions Code Section 14301.4, to pay the State a 20% administrative fee that is assessed on the full amount of the IGTs. This amount is also recorded as part of the IGT.

The total estimated managed care rate supplement revenues and related estimated IGTs recorded in FY 2018-2019, including prior year over/under realization, were as follows (in thousands):

	_	MCRS evenues	governmental sfers Expense
LA Care	\$	70,810	\$ 40,468
Health Net		25,321	15,064
Total	\$	96,131	\$ 55,532

The General Fund received \$127.71 million for MCRS and paid \$71.39 million of related IGTs, which were recorded as "Charges for Services" revenue and "Health and Sanitation" expenditures, respectively, on the governmental funds statement.

### Managed Care Rule

On April 25 2016, CMS published the Medicaid and Children's Health Insurance Program (CHIP) Managed Care Final Rule. The rule, many provisions of which went into effect July 1, 2017, is an update to the regulatory framework for Medicaid, aligning it as much as possible with Medicare and other commercial insurance requirements for issues like rate setting, access standards, grievances and appeals, and quality.

The managed care rule limits the ability of states to direct payments to health care providers, unless certain conditions are met. Among the allowable exceptions are payments tied to performance, and payments that provide a uniform payment increase which includes a pre-determined increase over contracted rates. The previous SPD-SB208 and AB85 MCE-to-Cost programs did not meet these conditions. In order to retain this critical funding, the following two programs were introduced:

- 1. Enhanced Payment Program
- 2. Quality Incentive Program

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

#### Other Medi-Cal Programs-Continued

### Managed Care Rule-Continued

### **Enhanced Payment Program**

The Enhanced Payment Program (EPP) creates a funding to be used to supplement the base rates public health care systems receive through Medi-Cal managed care contracts, meant to meet the managed care rule's exception that allows payments that provide a uniform increase within a class of providers such as a predetermined increase over contracted rates.

Enhanced payments public health care systems would be eligible to receive depend largely on systems' existing payment arrangements with their managed care plans. Under the proposed structure, health plans would receive an add-on to their managed care rates and would provide interim payments to providers throughout the year. Payments would be reconciled at the end of the year, protecting health plans from any risk associated with payment.

At FY 2018-2019 year-end, the estimated EPP revenues and related IGTs are as follows (in thousands):

	EPP Revenues	Inte Trar	rgovernmental nsfers Expense
Harbor-UCLA Medical Center	\$ 180,518	\$	28,651
Olive View-UCLA Medical Center	66,019		11,377
LAC+USC Medical Center	207,138		33,062
Rancho Los Amigos National Rehab Center	10,180		2,611
Total	\$ 463,855	\$	75,701

As of June 30, 2019, the County estimated that approximately \$299.10 million of EPP accounts receivable would not be collectible within 12 months and this amount is classified as a non-current asset in the proprietary fund statements of net position for each hospital.

The General Fund received \$184.55 million for EPP and paid \$21.82 million of related IGTs, which were recorded as "Charges for Services" revenue and "Health and Sanitation" expenditures, respectively, on the governmental funds statement.

### **Quality Incentive Program**

The Quality Incentive Program (QIP) is meant to meet the Managed Care Rule's exception that allows payments tied to performance.

The QIP represents a new pay for performance program for California's public health care systems that would convert funding from previously-existing supplemental payments into a value-based structure. QIP payments are tied to the achievement of performance on a set of clinically-established quality measures for Medi-Cal managed care enrollees.

The QIP is structured similar to the PRIME program. The QIP's measures do not directly overlap with any of the quality measures being used in PRIME, but are designed to be complementary.

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

# Other Medi-Cal Programs-Continued

### Managed Care Rule-Continued

### **Quality Incentive Program-Continued**

At FY 2018-2019 year end, the estimated QIP revenues, recorded as "other operating revenues", and related IGTs, including prior year over/under realization, are as follows (in thousands):

	QIP Revenues	Int Tra	tergovernmental ansfers Expense
Harbor-UCLA Medical Center	\$ 35,138	\$	(10,428)
Olive View-UCLA Medical Center	18,770		(7,402)
LAC+USC Medical Center	38,252		(11,820)
Rancho Los Amigos National Rehab Center	77		(1,480)
Total	\$ 92,237	\$	(31,130)

As of June 30, 2019, the County estimated that approximately \$88.16 million of QIP accounts receivable would not be collectible within 12 months and this amount is classified as a non-current asset in the proprietary fund statements of net position for each hospital.

The General Fund received \$14.81 million for QIP and paid \$3.49 million of related IGTs, which were recorded as "Intergovernmental Revenue Federal" and "Health and Sanitation" expenditures, respectively, on the governmental funds statement.

### Third Party Payor Liability

The County's Hospitals reported third party payor liabilities of \$548.95 million (see Note 11) as of June 30, 2019, as reported on the statement of net position for proprietary funds. The current liabilities for amounts due within one year are \$2.96 million.

The noncurrent liabilities for third party payors are \$545.99 million. The primary programs associated with third party payors liabilities include DSH (\$239.15 million), Medi-Cal (\$103.98 million), SNCP (\$54.95 million), Medicare (\$49.97 million), SPD (\$40.48 million), and other miscellaneous programs (\$57.46 million).

#### Accounts Receivable-Net

The following is a summary, by hospital, of accounts receivable and allowances for uncollectible amounts as of June 30, 2019 (in thousands):

	H-UCLA	(	OV-UCLA	l	_AC+USC	Rancho		Total
Accounts receivable	\$ 2,661,136	\$	1,454,024	\$	3,973,642	\$ 637,270	\$	8,726,072
Less: Allowance for uncollectible amounts	1,817,767		1,042,391		2,963,759	473.218		6,297,135
amounts	 1,017,707		1,072,001		2,300,700	 770,210		0,237,100
Accounts receivable - net	\$ 843,369	\$	411,633	\$	1,009,883	\$ 164,052	\$	2,428,937

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

#### Charity Care

Charity care includes those uncollectible amounts for which the patient is unable to pay. Generally, charity care adjustment accounts are those accounts for which an indigence standard has been established and under which the patient qualifies. Inability to pay may be determined through the Department's Ability-to-Pay program, through other collection efforts by the Department, by the Treasurer and Tax Collector, or by an outside collection agency. Determinations of charity care may be made prior to, at the time of service, or any time thereafter. The estimated cost of charity care for the year ended June 30, 2019 was \$558.43 million. A portion of the charity care is funded by GPP at a rate of 20.00%. The total amount of such charity care provided by the hospitals for the year ended June 30, 2019 is as follows (in thousands):

Charity care at established rates	\$ 1,279,384
GPP reimbursement	175,119
Charges forgone	\$ 1,104,265

### Realignment

As a result of the ACA, the State of California (State) adopted and passed Assembly Bill 85 (AB85), as amended by Senate Bill 98, which lays out the process by which a portion of the 1991 County Health Realignment funds will be redirected to support Social Services programs based on a formula. The redirection is based on the assumption that the counties will decrease their cost for healthcare for the indigent population. These savings will be shared between the counties' health departments and the State. The sharing ratio is 80% to the State and 20% to the County. This ratio has been in place since FY 2014-2015. AB85, as amended, provides a unique formula for the County to determine the amount to be redirected.

In FY 2018-2019, the State did not withhold any of the County's Health Realignment funds. This amount is expected to be reconciled against actual revenues and expenses for FY 2018-2019 within two years. The redirection amount will be subject to the State's review and approval. The financial impact of the potential redirection of realignment funding in future years is not yet known.

In FY 2017-2018, the State did not withhold any of the County's Health Realignment funds. However, based on updated revenues realized for FY 2017-2018 services in FY 2018-2019, the projected redirection amount is \$82.34 million. As a result, the "Intergovernmental Revenue - State" revenue has been reduced by \$82.34 million in the County's General Fund in FY 2018-2019.

In FY 2016-2017, the State withheld \$5.61 million from the County's Health Realignment funds. However, based on updated revenues realized for FY 2016-2017 services in FY 2018-2019, the projected redirection amount is \$229.89 million. As a result, the "Intergovernmental Revenue - State" revenue has been reduced by \$224.28 million in the County's General Fund in FY 2018-2019.

#### 14. HOSPITAL AND OTHER PROGRAM REVENUES-Continued

# Martin Luther King, Jr. Community Hospital

The County and the University of California (UC), with the State, have created a wholly independent, non-profit 501(c)(3) entity, the Martin Luther King, Jr. - Los Angeles Healthcare Corporation (MLK-LA), to operate a new hospital at the MLK-MACC site. The hospital will: i) serve as a safety-net provider treating a high volume of Medi-Cal and uninsured patients and ii) be integrated with the County's existing network of specialty and primary care ambulatory clinics. The seven-member MLK Hospital Board of Directors was appointed by the County and UC in August 2010. The new MLK Community Hospital opened on May 14, 2015.

To assist with the opening of the MLK Hospital, the County provided MLK-LA with \$50.00 million of coordination start-up funds, \$39.10 million of grant funding, and \$82.00 million of long-term loan funding, which includes a 30-year loan in the amount of \$50.00 million, a 10-year revolving line of credit in the amount of \$20.00 million, and a 2-year loan in the amount of \$12.00 million. On January 5, 2016, the Board approved an additional short-term revolving loan in the amount of \$40.00 million to assist MLK-LA with post-hospital opening expenses. All the loans have been repaid in full, with the exception of the 30-year loan, which has a current outstanding balance of \$44.64 million. In addition, the DHS has committed to make ongoing annual payments of \$18.00 million for indigent care support, and \$50.00 million of intergovernmental transfers for the benefit of the MLK Hospital.

#### 15. INTERFUND TRANSACTIONS

### Interfund Receivables/Payables

Interfund receivables and payables have been eliminated in the government-wide financial statements, except for "internal balances" that are reflected between the governmental and business-type activities. The majority of the interfund balances resulted from the time lag between the time that (1) goods and services were provided; (2) the recording of those transactions in the accounting system; and (3) payments between the funds were made. Interfund receivables and payables have been recorded in the fund financial statements. Such amounts arise due to the exchange of goods or services (or subsidy transfers) between funds that were pending the transfer of cash as of June 30, 2019.

# 15. INTERFUND TRANSACTIONS-Continued

# Interfund Receivables/Payables-Continued

Cash transfers related to interfund receivables/payables are generally made within 30 days after year-end. Amounts due to/from other funds at June 30, 2019 are as follows (in thousands):

# **Interfund Transfers**

Transfers were made during the year from the General Fund to subsidize the operations of the LA County Library and the four hospitals. Other transfers primarily consisted of payments from the various operating funds (principally the General Fund) to debt service funds in accordance with long-term debt covenants. In addition, special revenue funds that are statutorily restricted made transfers to other funds to augment funding for programs operated in the General Fund and hospitals.

# 15. INTERFUND TRANSACTIONS-Continued

# Interfund Transfers-Continued

Interfund transfers to/from other funds for the year ended June 30, 2019 are as follows (in thousands):

Transfer From	Transfer To	Amount

# **Interfund Advances**

The General Fund, along with other funds that receive services from the Public Works Internal Service Fund, makes short-term advances to ensure sufficient cash is available to fund operations. In addition, the General Fund makes short-term advances to assist the Hospital Funds in meeting their cash flow requirements.

#### 15. INTERFUND TRANSACTIONS-Continued

Waterworks Enterprise Funds	Internal Service Funds		1,368
Total Interfund Advances		\$	653,787

# 16. BUDGETARY ACCOUNTING DIFFERENCES/RECONCILIATIONS BETWEEN THE BUDGETARY BASIS AND GAAP

The County's statement of revenues, expenditures and changes in fund balances-budget and actual on budgetary basis for the major governmental funds has been prepared on the budgetary basis of accounting, which is different from GAAP.

The amounts presented for the governmental funds statements are based on the modified accrual basis of accounting and differ from the amounts presented on a budgetary basis of accounting. The major areas of difference are as follows:

For budgetary purposes, nonspendable, restricted, committed and assigned fund balances and the portion of unassigned fund balance reserved for the "Rainy Day" fund are recorded as other financing uses at the time they are established. The County recognizes them as uses of budgetary fund balance. The nonspendable, restricted, committed and assigned fund balances that are subsequently canceled or otherwise made available are recorded as changes in fund balance in other financing sources.

- 16. BUDGETARY ACCOUNTING DIFFERENCES/RECONCILIATIONS BETWEEN THE BUDGETARY BASIS AND GAAP-Continued
  - Under the budgetary basis, revenues (primarily intergovernmental) are recognized at the time encumbrances are established for certain programs and capital improvements. The intent of the budgetary policy is to match the use of budgetary resources (for amounts encumbered, but not yet expended) with funding sources that will materialize as revenues when actual expenditures are incurred. Under the modified accrual basis, revenues are not recognized until the qualifying expenditures are incurred and amounts are collected within the County's availability period.
  - For the General Fund, obligations for accrued compensated absences and estimated liabilities for litigation and self-insurance are recorded as budgetary expenditures to the extent that they are estimated to be payable within one year after year-end. Under the modified accrual basis of accounting, such expenditures are not recognized until they become due and payable in accordance with GASB Interpretation 6.
  - In conjunction with the sale of Tobacco Settlement Asset-Backed bonds in FY 2005-2006, the County sold 25.9% of its future tobacco settlement revenues. Under the budgetary basis, the proceeds were recognized as revenues. Under the modified accrual basis, the proceeds were recorded as deferred inflows of resources and are being recognized over the duration of the sale agreement, in accordance with GASB 48 and 65. This matter is also discussed in Note 11, under the caption, "Tobacco Settlement Asset-Backed Bonds."
  - Under the budgetary basis, property tax revenues are recognized to the extent that they are collectible within one year after year-end. Under the modified accrual basis, property tax revenues are recognized only to the extent that they are collectible within 60 days.
  - For budgetary purposes, investment income is recognized prior to the effect of changes in the fair value of investments. Under the modified accrual basis, the effects of such fair value changes have been recognized.
  - The County determined that certain assets were held by LACERA (the OPEB administrator) in an OPEB Agency Fund. For budgetary purposes, any excess payments (beyond the payas-you-go amount) are recognized as expenditures. Under the modified accrual basis, the expenditures are adjusted to recognize the OPEB Agency assets at June 30, 2019.

The following schedule is a reconciliation of the budgetary and GAAP fund balances for the major governmental funds (in thousands):

# 16. BUDGETARY ACCOUNTING DIFFERENCES/RECONCILIATIONS BETWEEN THE BUDGETARY BASIS AND GAAP-Continued

	General Fund	Fire Protection District	Flood Control District	LA County Library	Regional Park and Open Space District	Mental Health Services Act

### 17. OTHER COMMITMENTS

### Construction and Other Significant Commitments

At June 30, 2019, there were contractual commitments of approximately \$2.00 million for a general government construction project and approximately \$74.22 million for various hospital construction projects that were financed by bonds and lease revenue obligation notes.

### **LACERA Capital Commitments**

At June 30, 2019, LACERA had outstanding capital commitments to various investment managers, approximating \$5.300 billion.

#### 17. OTHER COMMITMENTS-Continued

### **Encumbrances**

The County uses "encumbrances" to control expenditure commitments for the year. Encumbrances represent commitments related to executory contracts not yet performed and purchase orders not yet filled. Commitments for such expenditure of monies are encumbered to reserve applicable appropriations. Depending on the source(s) of funding, encumbrances are reported as part of restricted, committed or assigned fund balance on the governmental funds balance sheet. As of June 30, 2019, the encumbrance balances for the governmental funds (in thousands) are reported as follows:

	R	estricted	Cor	nmitted	Assigned		Total
General Fund	\$		\$		\$	583,488	\$ 583,488
Fire Protection District		38,468					38,468
Flood Control District		147,259					147,259
LA County Library						24,742	24,742
Regional Park and Open Space District		53,827					53,827
Mental Health Services Act		925					925
Nonmajor Governmental Funds		113,521		5,243		702	119,466
Total Encumbrances	\$	354,000	\$	5,243	\$	608,932	\$ 968,175

### 18. RISK MANAGEMENT

The County purchases insurance for certain risk exposures such as property, aviation, employee fidelity, boiler and machinery, cyber, catastrophic workers' compensation, art objects, volunteers, special events, public official bonds, crime, safety reserve employee death and disability, and fiduciary liability for the deferred compensation plans. There have been settlements related to these programs that exceeded self-insured retention in the last three years. Losses did not exceed coverage in FY 2016-2017, FY 2017-2018 or FY 2018-2019.

The County retains the risk for all other loss exposures. Major areas of risk include workers' compensation, medical malpractice, law enforcement, natural disasters, inverse condemnation, nontort and tort liability. Expenditures are accounted for in the fund whose operations resulted in the loss. Claims expenditures and liabilities are reported when it is probable that a loss has been incurred and the amount of that loss, including those incurred but not reported, can be reasonably estimated. The County utilizes actuarial studies, historical data, and individual claims reviews to estimate these liabilities. The liabilities include estimable incremental claim adjustment expenses, net of salvage, and recovery/ subrogation of approximately 10% of the total liability expenditures. They do not include other claim adjustment costs because the County does not believe it is practical or cost effective to estimate them.

As indicated in the following table, the County's workers' compensation balance as of June 30, 2019 was approximately \$2.990 billion. This amount is undiscounted and is based on an actuarial study of the County's self-insured program as of June 30, 2019. Approximately \$111.87 million of the total liabilities pertain to salary continuation payments and other related costs mandated by the State Labor Code.

#### 18. RISK MANAGEMENT-Continued

As of June 30, 2019, the County's estimate of these liabilities is \$3.337 billion. Changes in the reported liability since July 1, 2017 resulted from the following (in thousands):

	Beginning of Fiscal Year Liability		Current Year Claims and Changes In Estimates		Claim Payments			Balance At Fiscal Year- End	
<u>2017-2018</u>									
Workers' Compensation	\$	2,639,553	\$	679,229	\$	(460,354)	\$	2,858,428	
Other		301,519		86,925		(89,171)		299,273	
Total	\$	2,941,072	\$	766,154	\$	(549,525)	\$	3,157,701	
<u>2018-2019</u>									
Workers' Compensation	\$	2,858,428	\$	633,766	\$	(502,377)	\$	2,989,817	
Other		299,273		146,178		(97,821)		347,630	
Total	\$	3,157,701	\$	779,944	\$	(600,198)	\$	3,337,447	

In addition to the above estimated liabilities, the County has determined that claims seeking damages of approximately \$174.26 million are reasonably possible of creating adverse judgments against the County. Because of the uncertainty of their outcome, no loss has been accrued for these claims.

The County receives substantial federal revenues and operates many programs which are subject to federal rules and regulations. Federal assistance is especially critical to the County's ability to operate its four County hospitals and health care network. The County is carefully monitoring State and federal policy developments to determine the future impacts, if any, on its ability to administer federal programs and deliver County services that rely upon federal funding.

#### 19. POLLUTION REMEDIATION

The County is involved in several remediation actions to clean up pollution sites within its boundaries. These matters generally coincide with the County's ownership of land, buildings and infrastructure assets. In some cases, regulatory agencies (e.g., Regional Water Quality Board, State Department of Toxic Control, California Coastal Commission) notified the County of the need for remedial action. In addition, the County conducts its own environmental monitoring and this activity identifies pollution sites and matters requiring further investigation and possible remediation. Once the County is aware of these conditions, it commences monitoring, assessment, testing and/or cleanup activities, and recognizes a pollution remediation obligation when estimates can reasonably be determined. The pollution remediation obligation is an estimate and is subject to revision because of price increases or reductions, changes in technology, or changes in applicable laws or regulations. The types of pollution that have been identified include leaking underground storage tanks, water, groundwater and soil contamination, asbestos and lead paint contamination, methane gas detection and excessive levels of other contaminants. Remediation efforts include developing remediation and feasibility studies, source identification studies, site testing, sampling and analysis, ground water cleanup, and removal of storage tanks, asbestos tiles and other hazardous materials.

#### 19. POLLUTION REMEDIATION-Continued

As of June 30, 2019, the County's estimated pollution remediation obligation totaled \$44.11 million. This obligation was associated with the County's governmental activities. Obligations of enterprise and internal service funds were immaterial. The estimated liability was determined by project managers, based on historical cost information for projects of the same type, size and complexity and measured at their current value. In subsequent periods, the County will adjust the estimated obligation when new information indicates that such changes are required. At this time, the County has determined there are no estimated recoveries reducing the obligation.

#### 20. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

Deferred outflows and inflows of resources balances in the government-wide and the proprietary funds statement of net position as of June 30, 2019 are described as follows:

- The deferred outflows of resources, included on the government-wide statement of net position, relate to the unamortized losses on refunding of debt, changes in the net pension liability as discussed in Note 8, and changes in the net OPEB liability as discussed in Note 9. The unamortized losses on refunding of debt are a deferred charge on refunding resulting from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter.
- The deferred inflows of resources, included on the government-wide statement of net position, relate to the future installment payments of service concession arrangements as discussed in Note 7, from changes in the net pension liability as discussed in Note 8, and from changes in the net OPEB liability as discussed in Note 9.

# Government-wide Statement of Net Position (in thousands)

	Governmental Activities		Business-type Activities	Total

Pensions	\$ 49,449	32,569	67,811	16,937	\$ 166,766	\$ 39,827
OPEB	221,880	149,072	336,141	86,635	793,728	164,202
Total proprietary funds deferred inflows of resources	\$ 271,329	181,641	403,952	103,572	\$ 960,494	\$ 204,029

Deferred outflows and inflows of resources balances in the governmental funds balance sheet as of June 30, 2019 are described as follows:

- The intra-entity sales of future tobacco settlement revenues are reported as deferred inflows of resources in the General Fund and deferred outflows of resources in the nonmajor governmental funds.
- Under the modified accrual basis of accounting, earning revenues during the current period is not sufficient for revenue recognition in the current period. Revenue must also be susceptible to accrual (i.e., measurable and available to finance expenditures of the current period). Governmental funds report revenues not susceptible to accrual as deferred inflows of resources. The County has included two such items, which are property tax revenues to be collected beyond the 60 day accrual period, plus other long-term receivables, related mostly to SB90 claims, expected to be collected beyond the 12 month accrual period.

#### Reserve for "Rainy Day" Fund

On June 22, 2009, the Board established a Reserve for "Rainy Day" fund. The Reserve for "Rainy Day" fund was established and maintained to protect essential County programs against unforeseen emergencies and economic downturns. The Reserve cap should be 10.00% of on-going locally generated revenue. Transfers, at a minimum of ten percent (10.00%) of excess fund balance, less Board approved carryovers, will be set aside in the Rainy Day Fund and/or OPEB trust fund each year until the 10.00% cap is met. Excess fund balance is defined as the difference between the actual year-end fund balance amount as determined by the Auditor-Controller, less the estimated fund balance amount included in the Adopted Budget. Board approved carryover is defined as unspent funding that was previously approved by the Board for critical programs and/or uncompleted projects.

When the Reserve cap of 10.00% is reached, the annual 10.00% of excess fund balance amount should be deposited into the OPEB trust fund to be made available for unfunded retiree health obligations. The objective is to avoid on-going commitments with funding that may not be sustainable in an economic downturn.

The County's "Rainy-Day" fund does not meet the criteria for a stabilization arrangement for reporting the funds as either restricted or committed. As such, the Reserve for "Rainy Day" funds in the amount of \$562.94 million is reported as unassigned fund balance in the General Fund.

#### COUNTY OF LOS ANGELES NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2019

#### 22. SUBSEQUENT EVENTS

#### Tax and Revenue Anticipation Notes (TRANS)

On July 1, 2019, the County issued \$700.00 million in 2019-2020 TRANS, which will mature on June 30, 2020. The TRANS are collateralized by taxes and other revenues attributable to FY 2019-2020 and were issued in the form of Fixed Rate Notes at an effective interest rate of 1.24%.

#### Mental Health Treatment Center (MHTC) - Termination of Design-Build Agreement

On August 13, 2019, the Board authorized the termination of the entire Design-Build Agreement with McCarthy Building Companies, Inc. (McCarthy) for the design and construction of the MHTC which was to replace the Men's Central Jail. The design for the original scope of the MHTC will need to substantially change once ongoing analysis regarding a care-first treatment model is complete and all facts are known for the Board to make the best decision on the right-sizing and configuration of the MHTC. The total contractual commitment was for \$12.94 million. As of June 30, 2019, the total capitalized costs for the MHTC construction in progress was \$41.84 million, of which \$3.37 million was for the McCarthy agreement. On September 15, 2019, the County made a payment of \$5.99 million. There are additional close out items and the final financial impact has yet to be quantified.

#### Public Works Financing Authority - Lease Revenue Bonds 2019 Series E-1 and E-2

On August 29, 2019, the Authority issued \$251.89 million of lease revenue bonds, which includes \$219.34 million (Series E-1) and \$32.55 million (Series E-2), maturing from 2020 to 2049, with yields from 0.82% to 2.11%. Proceeds from the sale of the Series E-1 and Series E-2 bonds were used to redeem LRON for various capital improvement projects.

#### Lease Revenue Obligation Notes (LRON)

On October 23, 2019, the County redeemed \$24.78 million of LRON, which included \$24.38 million for the 1060 North Vignes Lot Acquisition and \$400,000 for the Music Center Plaza Refinements.

On November 5, 2019, LACCAL issued an additional \$30.00 million in LRON with an interest rate of 1.06%. The proceeds are being used to fund capital requirements of various capital projects. LRON issuances are supported and secured by four separate series of letters of credit and pledged County properties.

## COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR SPECIAL REVENUE FUNDS

- The Road Fund is used to account for the maintenance and construction of streets, roads, highways, and bridges. Revenue consists primarily of the County's share of State highway users' taxes as supplemented by federal funds, vehicle code fines and charges for services provided to cities.
- The Other Streets, Highways, Roads and Bridges Funds: Article 3-Bikeway, Off-Street Parking, Proposition C Local Return, Proposition C Local Return Capital Reserve, Special Road Districts, Construction Fee Districts, Transit Operations, Paratransit Operations, Measure M and Measure R Local Returns are used to account for transportation and road related services or functions. Revenues are derived from local sales tax revenue, parking meter receipts, Districts' share of the countywide tax levy, State and other intergovernmental revenues and service charges to parking lots.
- The Street Lighting Districts Funds are used to account for the installation and maintenance of street lighting systems. Revenues are derived primarily from the countywide tax levy and benefit assessments.
- The Garbage Disposal Districts Funds are used to account for the provisions of the Health and Safety Code to provide garbage and refuse collection and disposal services within the boundaries of each District. Revenues are mostly from charges for services and property taxes.
- The Sewer Maintenance Districts Funds are used to account for the Health and Safety Code for the administration, maintenance, operation and repair of sanitary sewers, appurtenances, pumping plants, sewer treatment plants and related services. These Districts are financed through sewer service charges.
- The Health Services Measure B Fund is used to account for a countywide system of Trauma Centers and Emergency Medical Services, for bioterrorism preparedness and response, and for related administrative costs. Revenues are derived primarily from a voter approved special tax.
- The Health and Sanitation Funds: Hospital Services, Physician Services, Statham Alcohol, Alcohol and Drug Problem, Proposition 36, Driving Under the Influence, AIDS Education, Air Quality Improvement, Bicycle Safety Helmet, Hazardous Waste Enforcement, Mission Canyon Closure, Solid Waste Management Funds, Cancer Patient Welfare, SoCal Gas Settlement, and EMS Vehicle Replacement are used to account for the cost of emergency services for the indigent, County alcoholism programs and services, AIDS education, air quality improvements, bicycle safety, hazardous waste enforcement, solid waste management, cancer patient services, lead paint abatement, a health study on the long-term effects of exposure to natural gas, and replacement of vehicles. Revenues are from patient collections, court fines, State-assessed vehicle fees, penalties assessed for hazardous waste violations, sanitation services, and legal settlement funds.

#### COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR SPECIAL REVENUE FUNDS

The Other Public Protection Funds: Jail Store, Inmate Welfare, Narcotic Enforcement, Vehicle Theft Prevention, Countywide Warrant System, Sheriffs Processing Fees, Training and Automation, Automated Fingerprint Identification System, DNA Identification Fund, District Attorney Asset Forfeiture, Fire Department Developer Fees, Forest Mitigation, Information Systems Advisory Body, Drug Abuse Gang Diversion, Jury Operations Improvement, Dependency Court Facilities, Small Claims Advisor Program, and Fire Department Helicopter Accumulative Capital Outlay are used to account for certain services and supplies to inmates, to supplement the cost of various law enforcement, prosecutorial investigation, fire protection activities, and to finance vehicle and helicopter replacement, facilities improvement, equipment maintenance and automated systems. Child Seat Restraint Loaner is used to account for the operation of a child restraint low-cost purchase and loan program. Fish and Game is used to account for the preservation and propagation of fish and wildlife. Revenues are derived from sale of minor supplies, fines related to controlled substance convictions, benefit assessments, forfeiture of assets used in connection with transportation or possession of a controlled substance, court fines and revenues and local fish and game fines. Probation Community Corrections Performance Incentives fund is used to account for the improvement of public safety outcomes at the community level utilizing evidencebased services geared towards maintaining offenders within the community. Revenues are derived principally from State revenues. The Consumer Protection Settlement Fund is used to account for the County's consumer protection, enforcement, and education programs. Revenues are derived from settlements from businesses that engage in unfair businesses practices. The Sativa Water System Fund is used to account for the operation and maintenance of the former Sativa Water District's accounting and budgetary activities. Revenues are derived from charges for services and contributions from the County.

The Public Assistance Funds: Child Abuse/Neglect Prevention Program, Alternate Dispute Resolution Program, Alcohol and Drug Abuse Education Program, Domestic Violence Program, and Linkages Support Program are used to account for a variety of public assistance services. The programs are financed from special fees collected for birth certificates, marriage licenses, confidential marriage certificates, and court fines for driving under the influence of alcohol or drugs, and disabled parking violation assessments.

The Homeless and Housing Measure H Fund is used to account for providing homeless prevention programming for families and individuals; expanding rapid re-housing; developing interim/bridge housing for those exiting institutions; increasing employment opportunities for homeless adults via social and/or subsidized employment; expanding the Jail In Reach Program; providing services and rental subsidies for permanent supportive housing; implementing a coordinated countywide outreach and engagement system; establishing a decriminalization policy and first responders training to effectively address homeless encampments and unsheltered homeless individuals; enhancing the emergency shelter system; preserving and promoting the development of affordable housing for homeless families and individuals; and implementing other strategies and efforts that seek to coordinate a seamless homeless services system to better combat homelessness among single adults, families, and youth. Revenues are derived primarily from a voter approved local sales tax.

## COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR SPECIAL REVENUE FUNDS

- The Recreation Funds: Golf Course, Park Improvement, Recreation and Development, Tesoro Adobe Park, San Gabriel Canyon, and Ford Theatres are used to account for the maintenance and improvements to County parks and golf courses, public recreation areas, and Ford Theatres. Civic Art Special fund is used to account for civic art projects. The Cable TV Franchise fund is used to account for cable-related activities. The Off-Highway Vehicle fund is used to account for the development, construction, operation, and maintenance of off-highway vehicle recreation facilities. Revenues are derived from a percentage of golf course green fees, vehicle entrance fees collected from the regional parks, and percentage of the design and construction costs.
- The Courthouse Temporary Construction Fund is used to temporarily account for monies ultimately to be used for various courthouse construction projects. Revenues are derived principally from surcharges included in fines for criminal convictions.
- The Criminal Justice Temporary Construction Fund is used to temporarily account for monies ultimately to be used for the improvement of criminal justice facilities and automated information systems. Revenues are derived principally from surcharges on criminal fines.
- The Registrar-Recorder Improvement Funds: Modernization and Improvement, Micrographics, Social Security Truncation, Vitals and Health Statistics, and Multi-County e-Recording Project funds are used to account for the improvement of Registrar-Recorder automated information systems. Revenues are derived principally from recording and filing fees.
- The Other Special Revenue Funds: Information Technology Infrastructure and the Accumulative Capital Outlay (ACO) are used to account for the replacement of motor vehicles, printing, information technology, and communications equipment. Asset Development Implementation fund is used to account for short to intermediate financing for County asset development activities. Productivity Investment is used to account for the start-up and incidental costs associated with productivity improvement projects. Civic Center Employee parking is used to account for providing parking services and alternative means of transportation for County employees. County Library Developer Fees are used to account for the acquisition of land, construct library facilities, and purchase equipment and library materials. Various funds are used to account for resources that are legally restricted and the principal and earnings may be used for purposes that support general government and education.

#### COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR DEBT SERVICE FUNDS

The Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. The Regional Park and Open Space District receives long-term debt proceeds and also receives voter-approved benefit assessments in the form of charges for services. Joint Powers Authorities-Public Works Financing Authority and Public Buildings receive their funds primarily from the General Fund in the form of operating transfers. The Los Angeles County Securitization Corporation receives funding primarily from the collection of the County's future tobacco settlement payments and from long-term debt proceeds secured by the County's Tobacco Assets.

## COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR CAPITAL PROJECTS FUNDS

- The Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities and other capital assets.
  - Accumulative Capital Outlay Funds are used to account for specific capital projects in accordance with Government Code Section 53731.
  - Improvement Districts are used to account for the projects financed by contributions from property owners.
  - Public Buildings projects are used to account for capital projects financed by bonds, lease revenue obligation notes and operating transfers.
  - Gap Loan Fund is used to account for the County's proceeds from sale of "Gap Loan" receivables that are restricted for capital spending purposes.

#### COUNTY OF LOS ANGELES NONMAJOR GOVERNMENTAL FUNDS NONMAJOR PERMANENT FUNDS

Permanent Funds are used to account for and report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support various County programs.

## COUNTY OF LOS ANGELES INTERNAL SERVICE FUNDS

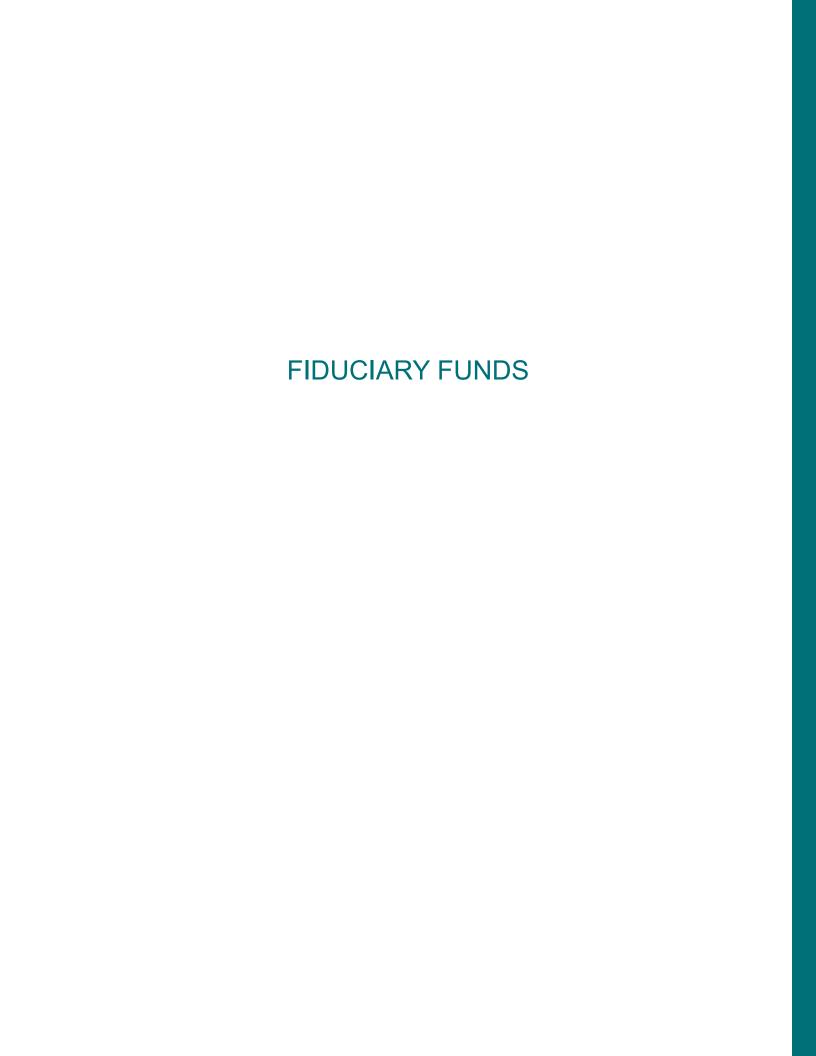

- The Public Works Fund is used to account for the cost of services provided by the Department of Public Works to the Road Fund, Flood Control District, County Engineer and various other special districts and agencies. Costs are recovered through billings for services.
- The Equipment Acquisition Fund is used to account for the operations of the Los Angeles County Capital Asset Leasing Corporation. County departments are charged for equipment items acquired on their behalf. The charges represent recovery of equipment depreciation expense and bond interest expense.

### COUNTY OF LOS ANGELES FIDUCIARY FUNDS

#### PENSION TRUST FUND

The Pension Trust Fund is used to account for financial activities of the County's Pension Plan administered by LACERA.

#### **OPEB TRUST FUND**

The OPEB Trust Fund is used to account for the financial activities of the OPEB trust for the purpose of holding and investing assets to pre-fund the Retiree Healthcare Program administered by LACERA.

#### POOLED INVESTMENT TRUST FUND

The Pooled Investment Trust Fund is used to account for net position of the County's external investment pool. The fund primarily consists of deposits held on behalf of School Districts and Sanitation Districts.

#### SPECIFIC INVESTMENT TRUST FUND

The Specific Investment Trust Fund is used to account for the net position of individual investment accounts, in aggregate. The related investment activity occurs separately from the County's investment pool and is provided as a service to external investors.

#### **AGENCY**

#### **Property Tax Funds**

This group of funds is used to account for the monies received from property and other taxes, which must be held pending authority for distribution to the appropriate recipients.

#### Departmental Funds

This group of funds is used to account for cash and other assets and related liabilities where the County holds money either in a custodial capacity for other entities, or as a clearing account to accumulate and hold certain monies until disbursement to the ultimate recipient.

## STATISTICAL SECTION

The information in this section is not covered by the Independent Auditor's Report, but is presented as supplemental data for the benefit of the readers of the comprehensive annual financial report. The objectives of statistical section information are to provide financial statement users with additional historical perspective, context, and detail to assist in using the information in the financial statements, notes to financial statements, and required supplementary information to better understand and assess the County's overall financial health.

CONTENTS	PAGE
FINANCIAL TRENDS	213
REVENUE CAPACITY	220
These schedules contain trend information to help the reader assess the County's most significant local revenue source, the property tax.	
DEBT CAPACITY	224
These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	
DEMOGRAPHIC AND ECONOMIC INFORMATION	230
The schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.	
OPERATING INFORMATION	232
These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

FY 2009-10 has not been restated for the implementation of GASB 54.
 "All Other Governmental Funds" consists of the following funds: Fire Protection District, Flood Control District, LA County Library, Regional Park and Open Space District, Mental Health Services Act and Nonmajor Governmental Funds.
 The County implemented GASB 54 under which governmental fund balances are reported as nonspendable, restricted, committed, assigned, and unassigned. The governmental funds are reported in the new required format beginning FY 2010-11.

# Notes:

properties can have substantially different assessed values based on the date of purchase. Additionally, Prop 13 limits the property tax rate to 1% of assessed value plus the rate necessary to (1) Due to the 1978 passage of the property tax initiative Proposition 13 (Prop 13), the County does not track the estimated actual value of all County properties. Under Prop 13, property is assessed at the 1978 market value with an annual increase limited to the lesser of 2% or the CPI on property not involved in a change of ownership or properties that did not undergo new construction. Newly acquired property is assessed at its new market value (usually the purchase price) and the value of any new construction is added to the existing base value of a parcel. As a result, similar fund local voter-approved bonds and special assessments.

(2) Secured property is generally real property, as defined as land, mines, minerals, timber and improvements such as buildings, structures, crops, trees and vines.

(3) Unsecured property is generally personal property including machinery, equipment, office tools and supplies.

(4) Unitary properties are railroads, utilities and pipelines crossing the County and are assessed by the State Board of Equalization and the County Assessor. Effective FY 2012-13, Unitary pipelines previously reported under Secured, are now reported under Unitary.

Exempt properties include numerous full and partial exclusions/exemptions provided by the State Constitution and the legislature that relieve certain taxpayers from the burden of paying property (2)

Effective FY 2012-13, secured property does not include the unitary pipelines assessed by the County Assessor 9

(1) The tax rate for Tax Rate Area #4, which applies to most property within the City of Los Angeles, is used to illustrate the breakdown of a tax rate within the County.

(2) The County is divided into 12,736 tax rate areas which are unique combinations of various jurisdictions servicing a specific geographic area.
(3) Article XIIIA (Proposition 13) limits the maximum ad valorem tax rate to 1% of "full cash value" except for indebtedness approved by the voters prior to July 1, 1978. All other rates are calculated

per \$100 of assessed value.

(4) An exception to the 1% limit was provided by Proposition 46 which was approved in June 1986 re-establishing authority of local governments to issue general obligation bonds for certain purposes.

Legal debt margin, June 30, 2019	30, 2019		\$ 19,123,531			

Notes:

(1) Assessed Value does not include tax exempt property. Property value data can be found in the "Assessed Value and Actual Value of Taxable Property" schedule.

(2) The Legal Debt Limit is 1.25% of assessed value.

(3) The Legal Debt Margin is the County's available borrowing authority under state finance statutes and is calculated by subtracting the debt applicable from the Legal Debt Limit.

(1) Full time equivalent count is calculated by dividing the total number of man-months paid by 12. Full time equivalent employees include all employees on the County's payroll system.
 (2) Specific data for Public Ways and Facilities is not available.
 (3) Beginning with 2009-10, totals reflect the exclusion of Superior Court employees that are no longer on the County's payroll and are identified as State employees.
 (4) Restated FY 2012-13 and FY 2013-14 due to migration from CWTAPPS to TIMEI, which occurred in April 2012, to eliminate duplicate entries. Figures have been revised from previous publication.

**Source:** Employee Count study performed by the Auditor-Controller - Accounting Division.
